Characteristics of Households Experiencing Housing Instability

Leona K. Hawks, Professor, Extension Housing Specialist
Tawnee McCay, Family Life Center Director

FL/HO-06 March 2002

1. They use more than 20% of take home pay for debt repayments.

2. They have very little knowledge of how much money they owe to creditors or have available for household expenses.

3. Savings are used to meet current expenses.

4. They frequently borrow money.

5. They rely heavily on overtime income and other sources of “unstable” income.

6. Typically they spend 50% or more of their income on housing.

7. Home equity lines of credit are often used to consolidate consumer debt.

8. Troubled households that could have been helped were unaware of housing assistance programs.

9. Poor money management was a major contributor to housing problems.

10. Health is often neglected because when jobs are lost, health insurance is lost. When new employment is secured, the job is often of a nature that health insurance can not be restored.

**Each USU County Extension Office has programs for people experiencing financial instability. One program that can help consumers is a debt reduction computer program called “PowerPay” that analyzes multiple debts and the amount paid in interest for loans.

Utah State University is committed to providing an environment free from harassment and other forms of illegal discrimination based on race, color, religion, sex, national origin, age (40 and older), disability, and veteran’s status. USU’s policy also prohibits discrimination on the basis of sexual orientation in employment and academic related practices and decisions.

Utah State University employees and students cannot, because of race, color, religion, sex, national origin, age, disability, or veteran’s status, refuse to hire; discharge; promote; demote; terminate; discriminate in compensation; or discriminate regarding terms, privileges, or conditions of employment, against any person otherwise qualified. Employees and students also cannot discriminate in the classroom, residence halls, or in on/off campus, USU-sponsored events and activities.

This publication is issued in furtherance of Cooperative Extension work. Acts of May 8 and June 30, 1914, in cooperation with the U.S. Department of Agriculture, Jack M. Payne, Vice President and Director, Cooperative Extension Service, Utah State University (EP/DF/03-02)
