# Shopping List

## Tips..

- Keep a piece of paper and pencil in the kitchen to write down the items you need to buy when you think of them.
- Check to see what foods you already have and if there is enough for the menu you have planned.
- Write down the food items and amounts you need.

## A Bright Idea

- On the back of your recipes, write the items needed to make the recipe.
- Include how much or the size of the item to buy.
- Use this list to make your shopping list.

- Shop at a supermarket. They are usually less expensive than small neighborhood stores.
- Plan to shop only once a week so you won't always be running to the store to pick up extras. This saves gas and time, plus helps you to avoid buying things you don't really need.
