Basic Bitch

Someone who is unflinchingly upholding of the status quo and stereotypes of their gender without even realizing it. She engages in typical, unoriginal behaviors, modes of dress, speech, and likes. She is tragically/laughably unaware of her utter lack of specialness and intrigue. She believes herself to be unique, fly, amazing, and a complete catch, when really she is boring, painfully normal, and par. She believes her experiences to be crazy, wild, and different or somehow more special than everything that everybody else is doing, when really, almost everyone is doing or has done the exact same thing. She is typical and a dime a dozen. There are many subtypes of basicness, such as the basic ratchet, the basic sorority bitch, the basic groupie bitch, the basic I'm-so-Carrie-from-Sex-and-the-City bitch, etc, but ultimately, they all share the common thread of being expendable and unnoteworthy and, in some cases, having absolutely no redeeming qualities.
"I've gotta get to Hollister and Bath and Body works for the third time this week, the just announced a new sale! I just don't know how I'll ever fit in that mani-pedi with Amanda and Brittney today. Ugh, I'm just going to call in sick with my period. I need a Pumpkin Spice latte or a Cosmo right now, I can't handle this pressure. Can we go to Applebee's for dinner tonight? ...Ooh, the new Shia Labeouf movie! LOVE HIM!" - basic bitch inner monologue

basic bitch

Yet another term used by society to judge women and their lifestyle choices. Because, honestly, what would we do with our time if we didn’t have socially accepted ways to demean and denigrate women for choices they make, even though those choices have nothing to do with ourselves or our own choices?

(Generally used by someone who sees the female in question as somehow less than worthy of their attention/admiration, usually because the female has decided not to have sex with them.)

"This female fits into stereotypes that we have pressed upon her for most of her life. It’s no longer socially acceptable to hate fat girls, skinny girls, gay girls, or girls who have healthy sexual appetites, so let’s make fun of those basic bitches."

"She likes the same things as a lot of other girls. Such a basic bitch."

"She won’t fuck me. I know I’m perfect, and a "nice guy" to boot, so it must be her fault. She must be a stuck-up basic bitch."

"That basic bitch thinks she’s special. She’s so unoriginal. Unlike me, the hipster of all hipsters whose every thought and action is so fucking original and innovative that I might as well be a god."
