What is a level 3 research question?
Open-Ended Research Question

Level 1: Questions that can be answered with knowledge you have right now.

Level 2: Questions that can be definitively answered with scholarly research.

Level 3: Open-ended questions to which an answer can be proposed based on scholarly research but that cannot be answered definitively.

Level 4: Questions that cannot be addressed with scholarly research, either because of a lack of evidence or because they ask something that cannot be answered by citing evidence.
