# SPAC 2015 Announcement | Electrical and Computer Engineering

**10/29/2014**

IEEE USU Student Branch is excited to announce **SPAC 2015: The Practice of Innovation**. The Student Professional Awareness Conference (SPAC) will be held on March 28, 2015. We are putting on this event to help students get connected with industry and better prepare them for their future careers.

The 2015 program includes speakers from IEEE and a key speaker who works as a Disney Imagineer. We are planning multiple workshops, such as technical discussions by companies and current innovators, Arduino and/or soldering workshops, and python and MATLAB workshops. During the conference, there will be tables set up for students and companies to network throughout the day.
