This Grant Record is brought to you for free and open access by DigitalCommons@USU. It has been accepted for inclusion in Funded Research Records by an authorized administrator of DigitalCommons@USU. For more information, please contact dylan.burns@usu.edu.

Data Management plan

Grant Title: Increasing the Measurement Cadence of the Gridded Retarding Ion Distribution Sensor (GRIDS)

Principal Investigator: Ryan Davidson

Sponsor: NASA

Project Start Date: 08/09/2017

Project End Date: 11/23/2017

Award ID Number: 201246-00001

Data Produced During Grant

No data of scientific merit will be produced as a result of this project. The award will help facilitate the production of a physical object (a prototype sensor) and will not directly result in any scientific publications and thus no data needs to be preserved to validate them.
