This Educational Policies Committee Agenda is brought to you for free and open access by the Faculty Senate at DigitalCommons@USU. It has been accepted for inclusion in Educational Policies Committee by an authorized administrator of DigitalCommons@USU. For more information, please contact digitalcommons@usu.edu.
EDUCATIONAL POLICIES COMMITTEE AGENDA

7 March 2013

A meeting of the Educational Policies Committee will be held on 7 March 2013 at 3 p.m. in Old Main 136 (Champ Hall Conference Room)

I. Approval of the minutes of the 7 February 2013 meeting (see below)

II. Subcommittee Reports

A. Curriculum Subcommittee (Ed Reeve)

1. Course Approvals

2. Request from the Sociology, Social Work and Anthropology Department to amend the number of credits required for completion of the PhD in Sociology (see below)

3. Request from the Engineering Education Department to reduce the number of credits required for the post-MS doctoral degree (see below)

4. Request from the Management Information Systems Department to discontinue the MS in Management Information Systems and create a Master of Management Information Systems degree (see below)

5. Request from the Management Department to discontinue the MS in Human Resources and change the name to Master of Strategic Human Resources (see below)

6. Request from the Instructional Technology and Learning Sciences Department to discontinue the Plan C in the MS in Instructional Technology and Learning Sciences and create a Master of Learning Technologies and Instructional Design (see below)

7. Request from the Nutrition Dietetics and Food Science Department to approve a Graduate Certificate for completion of the existing USU graduate Dietetic Internship (see below)
B. Academic Standards Subcommittee (David Hole)

ACADEMIC STANDARDS COMMITTEE MINUTES

February 28, 2013
3:00 p.m. – 4:00 p.m.
AGRS - 409

Present: David Hole, Marci Smith, Stephanie Hamblin, Richard Mueller, Jordan Hunt (ASUSU), Michele Hillard, John Barton

Absent: Scott Bates, Christian Thrapp

Call to Order – David Hole

Approval of Minutes – September 27, 2012
Motion to approve made by Richard Mueller, seconded by Stephanie Hamblin. The motion carried.

Business

Allowing a Second Bachelor’s in Interdisciplinary Studies (currently not specifically prohibited) – Motion to prohibit a second bachelor’s degree in interdisciplinary studies or general studies made by Richard Mueller; seconded by Jordan Hunt. These are rare situations that are not needed, and are of no advantage to the student. Exclude general studies degree as well to prohibit a second bachelor’s degree. Motion carried.

Rounding up of GPA of Students Truncated to 2 Decimal Points (ie., a 2.766 is reported as 2.76) – Motion to leave the current policy intact made by Richard Mueller; seconded by Stephanie Hamblin. One Student did not think that the GPA reported on the transcript reflects the correct percentage. They think that GPA should be rounded up at the second decimal point. The banner system and the Registrar’s Office is calculated to 9 digits and, at that point, it does round. Since Banner does round the GPA (at the ninth decimal point), and distinctions for Latin Honors, etc. use the full banner GPA, the motion was made to retain the status quo. It was suggested that the policy might be made clearer about banner’s rounding, but that was not included in the motion. Motion carried.
Most Recent Grade vs. Highest Grade for Repeated Courses – A motion to table was made by Richard Mueller, and seconded by John Barton.
The question was asked if this is a university or college problem. The consensus was that if each college had a choice of which they used it would cause multiple problems. Dean Adams will be invited to the next Academic Standards meeting and will provide further information on this issue. Stephanie Hamblin noted that this was discussed and is recorded in the October 2010 Academic Standards minutes.

Marci Smith brought up an additional business item relating to SP grades in graduate courses such as practicums and internships. The matter will be referred to the Graduate Council.

Adjourned: 3:35 pm

Request from Utah State University to change the name of the College of Agriculture to the
College of Agriculture and Applied Sciences (see below)
EDUCATIONAL POLICIES COMMITTEE MINUTES
7 February 2013

A meeting of the Educational Policies Committee was held on 7 February 2013 at 3 p.m. in Old Main 136 (Champ Hall Conference Room)

Present: Larry Smith, Chair
         Ed Reeve, Curriculum Subcommittee Chair
         David Hole, Agriculture, Academic Standards Subcommittee Chair
         Norm Jones, General Education Subcommittee Chair
         Cliff Skousen, Huntsman School of Business
         Thom Fronk, Engineering
         Patricia Gantt, College of Humanities and Social Sciences
         Richard Mueller, College of Science
         Travis Peterson, Regional Campuses and Distance Education
         Christian Thrapp, ASUSU President
         Scott DeBerard, Graduate Council
         Jordan Hunt, ASUSU Academic Senate President
         Jessica Hansen, Registrar’s Office (representing Roland Squire)
         Cathy Gerber, Registrar’s Office

Absent: Nicholas Morrison, Caine College of the Arts
        Scott Bates, Emma Eccles Jones College of Education and Human Services
        Nancy Mesner, College of Natural Resources
        Wendy Holliday, Libraries
        Scott Henrie, USU-Eastern
        Zach Portman, Graduate Studies Vice-President

I. Approval of the minutes of the 10 January 2013 meeting
Richard Mueller moved to approve the minutes of the 10 January 2013 meeting. Cliff Skousen seconded; motion approved.
II. Subcommittee Reports

A. Curriculum Subcommittee (Ed Reeve)

Ed Reeve reviewed the Curriculum Subcommittee business.

All courses were approved.

The request from the Nutrition Dietetics and Food Sciences Department to reduce the number of PhD dissertation credits in NFS was approved. (see below)

The request from the Psychology Department to change the program name/degree for the Master of Science program with a specialization in School Counseling to a Master of Education (M. Ed.) with Specialization in School Counseling was approved. (see below)

The request from the Center for Women and Gender to offer a Graduate Certificate of Women and Gender Studies was approved. (see below)

Norm Jones moved to approve the business of the Curriculum Subcommittee. Pat Gantt seconded; motion approved.

B. Academic Standards Subcommittee (David Hole)

No Report

C. General Education Subcommittee (Norm Jones)

Business
Gen Ed Enrollment Report for spring 2013 – As far as Gen Ed is concerned the change in age for the LDS missionaries leaving early has not, as of yet, had an impact on enrollment. In English 2010 there is a large wait list but we now know how many seats we need on a continual basis. The math situation is a little different since students are taking more math classes. Those courses do have some seats that are still available. Whatever dip we expect to see this spring will come mostly from the 19 year old women. A larger dip in Gen Ed will most likely happen next fall because of a shrinking freshman class.

USU-1360 Update – The committee has come up with a revision of the outcomes for the course. They have narrowed it down to 6 outcomes and are now working on a common rubric. Within a month or so the committee should be able to have everything completed. Intent is for all USU 13XX courses to follow this same path.
**Connections/Academic oversight** – The Connections course is being taught as USU 1010. A committee has been working on revising this course and it now has the goal to teach the students to be “intentional learners.” The committee wants to have academic oversight for this course and has asked if the Gen Ed committee would provide it. Everyone agreed that it would be advantageous in moving towards a more academic experience for the student and they feel that there is a need for a common rubric. A motion to create a USU 1010: Connections/Gen Ed subcommittee was made by Shelley Lindauer; seconded by Dean Adams. It was moved that the subcommittee should consist of the following members of the General Education Subcommittee of the EPC, ex officios: ASUSU Student Body President; USU Eastern representative; the Library representative; and the subcommittee chairs of the Arts, Humanities, Social Sciences, and Sciences disciplinary subcommittees, as well as the administrator of Connections from Student Services and faculty who have taught this course, to be appointed by the Chair of the General Education Subcommittee of the EPC. This new Committee will approve the syllabi and faculty for USU 1010 and assist in the selection of the common hour reading. The motion was carried.

Adjourned 9:25 am

**Next Meeting**
Tuesday, February 19, 2013
Champ Hall Conference Room
8:30 a.m.

David Hole moved to approve the business of the General Education Subcommittee. Jordan Hunt seconded; motion approved.

**III. Other Business**

Meeting adjourned 3:15 p.m.
Larry Smith conducted the meeting.
Cathy Gerber recorded the minutes.
Appendix G: Abbreviated Template

Instructions:

- The Abbreviated Template should be used for those items identified as needing the Abbreviated Template in R401-5 and listed as possible items to check on the Cover/Signature Page below.

- An Abbreviated Template consists of a Cover/Signature Page - Abbreviated Template and Program Request - Abbreviated Template.
  - **Cover/Signature Page - Abbreviated Template**: Complete the items requested at the top of the page, INCLUDING SELECTING A CIP Code. Check which type(s) of item(s) apply.
  - **Program Request - Abbreviated Template**: Complete the sections requested, removing the descriptive italics and replacing them with the content of the proposal.

- Prepare the Abbreviated Template per R401-7 instructions as a Word document (no PDF formats). Begin each of the two sections (Cover/Signature Page and Program Request) at the top of a new page. When *descriptions of the content required for each section appear in this font color, the descriptive italics are to be removed and replaced with the institutional content before the institution submits the proposal to OCHE.*

- The CAO or his/her designated representatives should e-mail the completed Abbreviated Template (including electronic signature) to academicaffairs@utahsbr.edu.

- The institution is responsible for maintaining a record of the submission as the OCHE Academic Affairs office is not responsible for storing electronic copies of submitted proposals.

Date:
Program Request - Abbreviated Template

Utah State University
PhD in Sociology
01/22/2013

Section I: Request

The graduate program in Sociology requests to amend the number of minimum credits required for completion of our PhD degree in Sociology. Specifically, we propose to reduce the required minimum credits (post master degree) for the PhD in Sociology from 60 credits to: (a) 51 credits for students who complete their MS degree at a different graduate program, and (b) 48 credits for students who complete their MS degree in our department. We will retain the minimum number of 12 required dissertation research credits. We believe students can efficiently complete coursework and dissertation research at these reduced minimum levels.

Section II: Need

The graduate program in sociology at Utah State currently accepts students into their PhD program only after the student has already completed a masters degree in sociology (or equivalent discipline). The majority of our doctoral students complete their MS degrees first elsewhere, though we regularly encourage our top MS students to remain with us to obtain their PhD.

We currently require a minimum of 60 credits (post masters) to receive a PhD in Sociology. This includes 36 credits of required doctoral degree coursework in methods (9), theory (6), and substantive sociology seminars (21). The remainder of these credits (24) are typically taken as dissertation research (SOC 7970). In fact, a minimum of 18 credits of dissertation research are currently required by the department.

To speed progress toward degree completion we propose reducing the total required credits to 51 (for people with MS degrees elsewhere) and 48 (for students that ‘roll over’ from our own MS program into the PhD program). The difference is to account for the fact that students who do their MS work with our faculty often need fewer courses to meet our faculty’s expectations to prepare for the PhD.

Section III: Institutional Impact

We believe the most significant impact of this change will be to speed our doctoral students' progress toward completion of their PhD requirements, and to make our program more competitive with other doctoral programs around the country. We do not expect any change in the quality of the doctoral training our students will receive, and appreciate the opportunity to make the minimum required credits to a more reasonable level.

No additional staff, funding, or institutional facilities are required to implement this change.

Section IV: Finances

Because doctoral students will be taking fewer credits and moving through the program more quickly, we expect some net fiscal savings to the department (and college) through reduced use of tuition awards associated with dissertation research credits.

Section V: Program Curriculum

There are no new courses or curriculum associated with this request. The substantive program requirements for the PhD in Sociology will remain the same, except the minimum total credits would drop to the levels outlined above, and the minimum required dissertation research credits would decrease to 12 credits.

Date:
Program Request - Abbreviated Template
Utah State University
PhD, Engineering Education
12/10/2012

Section I: Request

The Engineering Education Department requests a reduction in the number of credits required for the post-MS doctoral degree from 60 credits to 42 credits.

Section II: Need

Engineering education research is an emerging discipline. The USU Engineering Education Department (EED) PhD program is one of only a few such programs in the United States. The other major institutions offering the doctoral degree similar to USU EED are Purdue, Virginia Tech, and Clemson. The Purdue and VT programs are older and larger than the USU EED program.

The Engineering Education Department is on a strategic path to grow the program and become a recognized leader in engineering education research. It is the department’s goal to increase PhD enrollment 20% per year for the next five years.

EED’s current competitive strengths among other institutions offering the PhD in engineering education are:

- On-site undergraduate learning laboratories within its home college, the College of Engineering
- Research-active faculty that will grow 25% to 50% in the next year
- The only institution in the western United States to offer a PhD in engineering education

The reduction in total credit hours from 60 to 42 will streamline and modernize the department, thus enhancing its competitive position. Virginia Tech, Purdue, and Clemson currently require 60 credits for the PhD degree in engineering education. Virginia Tech is currently evaluating a reduction in their required credit hours. A post-MS doctoral program of 42 credits in the Engineering Education Department will be a competitive distinction for USU.

The requested credit reduction is:

<table>
<thead>
<tr>
<th>Doctoral Program Components</th>
<th>Current Credit Hours, PhD beyond MS</th>
<th>Proposed Credit Hours, PhD beyond MS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Engineering Education Core</td>
<td>15 credits</td>
<td>15 credits</td>
</tr>
<tr>
<td>Research Theory Core</td>
<td>12 credits</td>
<td>9 credits</td>
</tr>
<tr>
<td>Engineering Education Electives</td>
<td>9 credits</td>
<td>6 credits</td>
</tr>
<tr>
<td>Dissertation Research</td>
<td>24 credits</td>
<td>12 credits</td>
</tr>
<tr>
<td>Program Total</td>
<td>60 credits</td>
<td>42 credits</td>
</tr>
</tbody>
</table>

The reduction in research credits from 24 to 12 does not change the research requirements for the degree. The reduction in total coursework credits from 36 to 30 is due to the elimination of some course redundancies and improvements in other course offerings. This reduction in coursework credits in no way reduces the academic requirements of the program.
Section III: Institutional Impact

There will be no institutional impact due to the reduction in course credits. There will be no change to the administrative structures, and no change in faculty or staff requirements.

Section IV: Finances

There is no financial impact in the credit reduction of the EED PhD program.

Date: 16 January 2013
Section I: Request

Recently the Management Information Systems department (MIS) completed an in-depth review of its graduate program. In the current MIS M.S. program, students can select to complete either the Plan A or B (33 credits including 6 thesis credits) or Plan C (33 credits - coursework only) option. In recent memory, all students have selected the Plan C option.

In the review of the MIS graduate program, the faculty concluded that the Plan C option was best representative of a Masters degree for students interested in a professional degree, rather than an M.S. degree that typically includes the creation of new knowledge through completion of a thesis (e.g., Plan A or B options). Therefore, the request of this R401 is to restructure the degree into a Master of Management Information Systems. This restructured professional degree is designed to meet the needs of practicing career professionals in the field of information technology.

Section II: Need

The current Master of Science (M.S.) in Management Information Systems focuses on the role that computers play in managing and making sense of the ever-increasing amount of data flowing into organizations. Managers are tasked with figuring out how to deal with data-overload inundating their organization through increasing automation. Students in the program learn how to create value through innovation utilizing people, processes, and technology. As such, the program is very practice-oriented, which is likely why almost all students have historically chosen the Plan C (coursework only) option for their studies. In contrast, the intent of a M.S. program is primarily for graduate students who want a solid background in research. Changing the title of the degree from an M.S. to an M. program emphasizes the professional nature of the degree.

While there is currently an MIS master’s degree program at the University of Utah, no programs in the state or Intermountain West region provide the in-depth grounding in database management and analytics that this program does.

Section III: Institutional Impact

The proposed program changes will have positive institutional impacts on USU. The proposed changes will not affect existing administrative structures or existing facilities and will have minimal impact on faculty and staff requirements.

Section IV: Finances

No costs or savings are anticipated to result from these program changes.
Section V: Program Curriculum

***THIS SECTION OF THE ABBREVIATED TEMPLATE REQUIRED FOR EMPHASES AND MINORS ONLY.***

All Program Courses

The professional Master of Management Information Systems degree is designed for professionals in the field who want to enhance their knowledge and skills in information systems design, development, and implementation, and data modeling, analytics, and administration.

This degree program is an innovative 33-credit program with a core of seven required MIS courses (21 credits), and a minimum of four elective courses (12 credits). The Master of Management Information Systems program will use existing graduate-level courses that are available in the MIS or other related departments. The required courses for this program and current electives available in MIS are shown in the tables below.

Program Schedule

The courses for the professional Master of Management Information Systems are offered during the Fall, Spring and Summer Semesters. The flexibility of this program will allow most students to complete the degree in two years or less.

Faculty

The following faculty from the department of Management Information Systems will be involved in delivering instruction in this program:

Katherine Chudoba, Associate Professor, Ph.D.
Kelly Fadel, Assistant Professor, Ph.D.
Nicole Forsgren Velasquez, Assistant Professor, Ph.D.
Karina Hauser, Associate Professor, Ph.D.
Jeffrey Johnson, Associate Professor, Ph.D.
John Johnson, Professor, Ph.D.
Yong Kim, Associate Professor, Ph.D.
Roberts Mills, Associate Professor, Ph.D.
David Olsen, Professor, Ph.D.
David Paper, Professor, Ph.D.
Zsolt, Ugray, Associate Professor, Ph.D.
Institution Submitting Request: Utah State University
Proposed Title: Master of Strategic Human Resources (MSHR)

Program Request - Abbreviated Template
Utah State University
Department of Management

Discontinuation of the Master of Science in Human Resources
and Creation of a Master of Strategic Human Resources

Section I: Request

The Department of Management in the Jon M. Huntsman School of Business at Utah State University seeks to change the name of its Master of Science in Human Resources to Master of Strategic Human Resources.

Section II: Need

In a recent review of graduate programs at Utah State University, it was recognized that there were a number of Master of Science (M.S.) degrees that might be more appropriately designated as a professional degree. The Master of Science in Human Resources was one of these. This 36 credit graduate program is designed to prepare students to take professional positions in human resources and organizational leadership. The degree requirements are fulfilled through completion of coursework approved by departmental faculty and related to the subject. The MSHR program is one of few across the country that meet the curricular guidelines specified by the Society for Human Resource Management.

By and large, business degrees are professional degrees, and are designated as such. For instance accountants receive a Master of Accounting, and business graduates receive a Master of Business Administration. In line with this logic, it is proposed that the name of the Master of Science in Human Resources be changed to "Master of Strategic Human Resources."

Section III: Institutional Impact

Apart from changing the program webpage and promotional materials, the name change will have little institutional impact. The faculty, curriculum, and admission standards will remain the same.

Section IV: Finances

No significant costs or savings are anticipated to result from this name change.

Section V: Program Curriculum

Program Courses
The program is comprised of 36 credits beyond the business core. Key courses include Talent Acquisition and Retention, Employment Law, Applied HR Research, Team and Interpersonal Effectiveness, Managing a Diverse Workforce, Training and Organization Development, Total Rewards and Employee Performance, Leadership and Organizational Effectiveness, Negotiation and Mediation, Employee Relations and the Labor Movement, Principles of Operational Excellence, and Global Strategic Thinking. No change in the curriculum is anticipated associated with the proposed name change.

Program Schedule
The program is available on the Logan Campus for face-to-face delivery. It is also available in an online format, for delivery throughout the State of Utah and beyond.
Faculty

The following faculty from the department of Management will be involved in delivering instruction in this program:

Ronda Callister, Professor, Ph.D.
Alison Cook, Associate Professor, Ph.D.
James Davis, Professor and Department Head, Ph.D.
Timothy Gardner, Associate Professor, Ph.D.
Steven Hanks, Associate Professor and Director of Graduate Studies in Human Resources, Ph.D.
Konrad Lee, Associate Professor, J.D.
Glenn McEvoy, Professor, Ph.D.
Lynne Pettit, Program Administrator, M.S.
David Stephens, Professor, Ph.D.
Alan Warnick, Associate Department Head, and Executive in Residence in HR, M.S.
Bradley Winn, Clinical Associate Professor, Director of the MSHR Executive Program, Ph.D.

Discontinuation of the Plan C in the M.S. Degree in Instructional Technology & Learning Sciences and Creation of a Master of Learning Technologies & Instructional Design

Section I: Request

Recently the Instructional Technology & Learning Sciences department (ITLS) completed an in-depth review of all its graduate programs and identified opportunities to improve selected programs. In the current ITLS M.S. program, students can select to complete either the Plan A (45 credits including 15 thesis credits) or Plan C (36 credits - coursework only) option.

In the review of the ITLS graduate program, it was found that the Plan C option was not representative of the rigors and activities associated with completing an M.S. degree. Therefore, the request of this R401 is to eliminate the Plan C option from the ITLS M.S. Instructional Technology & Learning Sciences degree program and to restructure this Plan C into a Master of Learning Technologies & Instructional Design. This restructured professional degree is designed to meet the needs of practicing career professionals.

The current Master of Science (M.S.) degree in Instructional Technology & Learning Sciences will continue as a Plan A Thesis option.

Section II: Need

The current Master of Science (M.S.) in Instructional Technology & Learning Sciences emphasizes a wide range of theory and instructional design applications, techniques, and skills. It also affords introduction to a variety of development tools. This program is intended primarily for graduate students who are or want to be employed in the instructional design field. In reviewing this program, it was determined that the current Plan C (coursework only) did not meet the intent of a M.S. program (intended primarily for graduate students who want a solid background in research) and a need existed to create another option.

Eliminating the Plan C of the M.S. program in Instructional Technology & Learning Sciences will create an opportunity to restructure that degree program into a professional degree program to attract those who may be interested in completing a master’s degree without a thesis in the broad area of Instructional Technology & Learning Sciences. This professional degree is also offered on-line, which is attractive to many place-bound career professionals and prospective students.

Currently, there are no similar professional master’s degree programs offered online in the State of Utah. However, in the State of Utah and in the Intermountain Region, there are many practicing professionals whom we believe will be attracted to this flexible degree program.

Section III: Institutional Impact

The proposed program changes will have positive institutional impacts on USU. The proposed changes will not affect existing administrative structures or existing facilities and will have minimal impact on faculty and staff requirements.

Section IV: Finances

No costs or savings are anticipated to result from these program changes.
Section V: Program Curriculum

***THIS SECTION OF THE ABBREVIATED TEMPLATE REQUIRED FOR EMPHASES AND MINORS ONLY.***

All Program Courses

The professional Master of Learning Technologies & Instructional Design degree is designed for professionals in the field who want to enhance their knowledge and skills in theory, instructional design, and development skills. Individuals who successfully complete the program will be able to:

This degree program is an innovative 36-credit program with a core of four required ITLS courses (12 credits). The Master of Learning Technologies & Instructional Design will use existing graduate-level courses that are available in ITLS or other related departments. Shown in the table below are the required courses for this program and current electives available in ITLS.

Program Schedule

The courses for the professional Master of Learning Technologies & Instructional Design are offered during the Fall, Spring and Summer Semesters. The flexibility of this program will allow most students to complete the degree in two years or less.

Faculty

The following faculty from the department of Instructional Technology & Learning Sciences will be involved in delivering instruction in this program:

Mimi Recker, Professor, Ph.D.
Brian Belland, Assistant Professor, Ph.D.
Anne Diekema, Assistant Professor, Ph.D.
Deborah Fields, Assistant Professor, Ph.D.
Sheri Haderlie, Senior Lecturer, Advisor, Ph.D.
Yanghee Kim, Associate Professor, Ph.D.
Victor Lee, Assistant Professor, Ph.D.
Taylor Martin, Associate Professor, Ph.D.
Brett Shelton, Associate Professor, Ph.D.
Andrew Walker, Associate Professor, Ph.D.
Appendix G: Abbreviated Template

Instructions:

- The Abbreviated Template should be used for those items identified as needing the Abbreviated Template in R401-5 and listed as possible items to check on the Cover/Signature Page below.

- An Abbreviated Template consists of a Cover/Signature Page - Abbreviated Template and Program Request - Abbreviated Template.
  - **Cover/Signature Page - Abbreviated Template:** Complete the items requested at the top of the page, INCLUDING SELECTING A CIP Code. Check which type(s) of item(s) apply.
  - **Program Request - Abbreviated Template:** Complete the sections requested, removing the descriptive italics and replacing them with the content of the proposal.

- Prepare the Abbreviated Template per R401-7 instructions as a Word document (no PDF formats). Begin each of the two sections (Cover/Signature Page and Program Request) at the top of a new page. When descriptions of the content required for each section appear in this font color, the descriptive italics are to be removed and replaced with the institutional content before the institution submits the proposal to OCHE.

- The CAO or his/her designated representatives should e-mail the completed Abbreviated Template (including electronic signature) to academicaffairs@utahsbr.edu.

- The institution is responsible for maintaining a record of the submission as the OCHE Academic Affairs office is not responsible for storing electronic copies of submitted proposals.

Program Request - Abbreviated Template
Utah State University
Graduate Certificate Dietetic Internship
12/11/2012

Section I: Request

Currently students enrolled in the Utah State University Dietetic Internship (DI) are admitted to the university as undeclared post-graduate endorsement students. After completing the two semester DI program interns receive a verification statement that allows them to take the registration examination for dietitians but they do not receive a credential for this effort. Our request is to approve a Graduate Certificate for completion of the existing USU graduate Dietetic Internship. This credential will be recognition for completion of the graduate level curriculum comprising their internship.

Section II: Need

For 14 years the USU department of Nutrition Dietetics and Food Science (NDFS) has provided a post-baccalaureate supervised practice in dietetics referred to as the Dietetics Internship (DI). Brigham young University (BYU) has a dietetic internship, University of Utah has a Masters Coordinated Program which has an internship built in. But USU's DI is the only distance dietetic internship in Utah and can boast that it is the second largest dietetic internship program in the nation with an annual enrollment of 60 students. Other geographically close dietetics internships are in Colorado State University, University of Nevada, and Arizona State University. The USU DI is unique in its curriculum emphasis (child nutrition programs and school foodservice management) and is delivered in a distance format to allow students from all over the country to participate. The distance format dietetic internship uses a combination of curriculum delivery methods: in-person onsite preceptors (local dietitians who agree to train USU interns); Canvas online coursework, exams and assignment submissions; live chat sessions; WebEx conference calling with interns and preceptors. Students who are excellent candidates to enter the profession of dietetics but who cannot relocate to a traditional dietetic internship because of financial reasons or family obligations, can complete the DI program in this unique, flexible way and still meet all the professional requirements to graduate, take the national examination for Registered Dietitians. A Graduate Certificate awarded to interns would be recognition for completion of the graduate coursework accomplished as they complete the internship program.

Section III: Institutional Impact

There will be no change to the NDFS department through approval of this graduate certificate. The USU Dietetics Internship program has been offered for many years quite successfully with faculty, curriculum, budgets and procedures in place already.

Section IV: Finances

There will be no known budgetary impacts as a result of approving a Graduate Certificate for the USU Dietetic Internship.
Section V: Program Curriculum

Program Schedule

Dietetic interns arrange their program schedule in coordination with their local preceptors and with the approval of the USU DI Directors. Interns/students in the USU DI program are registered for courses based on their Master Rotation Schedule they arrange with their local preceptors. Not all interns/students complete all of any one course in one semester. They can take any one of the three internship courses in first semester and any of the three in second semester. The variable credits allows the interns to split the course if they complete part of the course in one semester and the remainder in the second semester of the internship. RCDE staff registers the interns in courses via open learning once their individual master
rotation schedule is set up. The DI office staff to enroll the interns in the number of credits for that semester proportionate to the amount of practice time/rotation weeks they are actually completing in that semester. Some of the “courses” can be split into two, three, four segments of variable credits over two semesters to match their rotation schedule. But by the end of the time students are in the program they must be enrolled in the max credits (11, 5, 9 and 1) for a total of 26 credits. For example very often NDFS 6050 is split on the intern’s schedule into 3 2-week segments (they train at 3 facilities for a total of 6 weeks) or a 4-week segment and a two-week segment. Each two week segment may be in different semesters. NDFS 6250 Clinical Nutrition, likewise, is often split into segments: 3 weeks of outpatient time, 2 weeks of long term care, 8 weeks of inpatient care. And these may be at different facilities, scheduled in different semesters. The variable credits allows the DI staff to enroll the intern in the course to reflect the time in these courses in each semester.
Institution Submitting Proposal: Utah State University

Colleges in Which Program/Administrative Unit Will Be Located: College of Agriculture

Departments in Which Program/Administrative Unit Will Be Located: Department of Animal, Dairy and Veterinary Sciences (ADVS), Department of Applied Economics (APEC), Department of Landscape Architecture and Environmental Planning (LAEP), Department of Nutrition, Dietetics and Food Science (NDFS), Department of Plants, Soils and Climate (PSC) and School of Applied Sciences, Technology and Education (ASTE)

Program/Administrative Unit Title: Request to Change the Name of the College of Agriculture to the College of Agriculture and Applied Sciences

Proposed Beginning Date: Upon the approval of this request

Institutional Signatures:

Program Request – Abbreviated Template
Utah State University
Request to Change the Name of the College of Agriculture to the College of Agriculture and Applied Sciences
Submitted February 25, 2013

Section I: Request
Utah State University seeks authorization to change the name of the Utah State University College of Agriculture to College of Agriculture and Applied Sciences.

Section II: Need
The programs and emphases in the College of Agriculture have significantly expanded in the last few years and now include two schools, six departments, around 350 faculty and staff and over 2,000 students in 66 undergraduate and graduate programs. Programs added to the College since 2010 include the Department of Landscape Architecture and Environmental Planning, the School of Veterinary Medicine, the School of Applied Sciences, Technology and Education, the undergraduate and graduate programs in Technology and Engineering Education, the undergraduate programs in aviation including a BS in Professional Pilots and a BS in Aviation Maintenance Management, and all of the Applied Technology and Workforce Education programs at USU-Eastern.

These additions have raised the need for a new college name that communicates the breadth of the college to constituents, including current and future students, while recognizing the college’s significant legacy of excellence in agriculture. Using feedback received from both within and outside the college, we propose the name be “College of Agriculture and Applied Sciences”. This was the top ranked name on a survey of the college faculty (165 respondents) conducted in January, 2013 and an external stakeholder survey (125 respondents) conducted in February, 2013.

Section III: Institutional Impact
The renaming of the College requires no change in administrative structure, no additional faculty, no new physical facilities, no modification or purchase of equipment, and no additional library support. Signage that includes the new College name will be placed near the new Agricultural Sciences Building on the Logan campus. Letterhead, business cards, student recruitment materials, websites, etc. will be changed as appropriate.

The inclusion of “Applied Sciences” in the college name is anticipated to improve recruitment of students into the non-agricultural programs within the college.

Section IV: Finances
No additional funding is requested for implementation of the new name.
