Dear Sir:-

I learn that Prof. Elmer D. Ball of the Colorado Agricultural College is a candidate for your professorship of animal biology. I know Prof. Ball fairly well and a number of my friends know him intimately. Prof. Ball is a strong man, of excellent character, a good teacher and an unusually good investigator in economic entomology and in other lines. I am sure your institution will make no mistake if you secure him.

Very truly yours,

W. M. Hays
