Citizens Reutilizing Assistive Technology Equipment (CReATE) has 19 pediatric wheelchairs available for people who need them.

None of these wheelchairs has been refurbished or sanitized because CReATE does not have the expertise in the pediatric area. However, if you are a practitioner qualified to evaluate the mobility needs of a pediatric client, refurbish a device and properly sanitize it, you are welcome to have any of the devices listed at no cost. The devices listed in the pediatric inventory do not have a service fee attached to them.

Power pediatric devices will not have a battery included, unless a battery was included in the device when it was donated to CReATE. The CReATE Program is simply collecting these devices and passing them on to you. The inventory may be viewed on CReATE’s webpage.

Contact CReATE if you are interested in one of the devices listed, have questions about a specific device or would like to donate a device by contacting CReATE Office Coordinator Faye Hauser.
