As a land-grant institution, Utah State University campuses and centers reside and operate on the territories of the eight tribes of Utah, who have been living, working, and residing on this land from time immemorial. These tribes are the Confederated Tribes of the Goshute Indians, Navajo Nation, Ute Indian Tribe, Northwestern Band of Shoshone, Paiute Indian Tribe of Utah, San Juan Southern Paiute, Skull Valley Band of Goshute, and White Mesa Band of the Ute Mountain Ute. We acknowledge these lands carry the stories of these Nations and their struggles for survival and identity. We recognize Elders past and present as peoples who have cared for, and continue to care for, the land. In offering this land acknowledgment, we affirm Indigenous self-governance history, experiences, and resiliency of the Native people who are still here today.

MESSAGE FROM PRESIDENT

NOELLE E. COCKETT

Congratulations, Class of 2023 graduates. Today, you close a very important chapter of your journey and prepare to embark on the next. Whether you will be starting a career, continuing your education, or taking a different path, you are each empowered to lead successful lives of involvement, innovation, and impact.

You are graduating from one of the best land-grant universities in the country. A place where faculty have been committed to providing an exceptional learning experience, and staff supported you along the way. You have benefitted from USU’s long-held commitment to excellence, access, and inclusion.

Every Aggie journey looks different. You have faced personal and unique challenges, seized opportunities for growth and success, and matured into a different person than you were when you first arrived. Perhaps you took advantage of our outstanding faculty to work side-by-side with them on research that is changing the world. You may have connected with experts to learn more about the world we live in and solve emerging issues such as those related to land, water, and air. Maybe you unlocked a passion for service and engagement through our many outreach groups on campus and in the broader community. And some of you may have taken the opportunity to share your knowledge and experiences with the next generation of Aggies by serving as a peer mentor to other students.

I celebrate your creativity, your hard work, and your dedication to earning your degree. The opportunities your education offers are endless, and the connections you have made are invaluable. I hope you continue to share the passion, sense of adventure, love of learning, and compassionate understanding you have established while at Utah State University.

It has been an honor to be included in this significant part of your life. Thank you for the privilege and opportunity to serve as your university president. I am proud and excited for all of you, and I hope you each remain an engaged member of our community – once an Aggie, always an Aggie.

Noelle E. Cockett
President
A BRIEF HISTORY OF COLLEGIATE MACES

Maces have long been part of academic heraldry, though their function was not always ceremonial. Originally weapons of war, maces are featured often in ancient Egyptian art where kings are shown ritually smiting their foes. This original function has not been entirely lost. Campus officials in the Middle Ages more than once kept students in line by employing their university’s mace in a manner recalling its primitive function.

University maces today are, for the most part, treated as decorative emblems symbolizing the institution’s authority. Seen most often at commencement and other solemn occasions, they remind those in attendance of the deep traditions inherent in a student’s journey through university studies. Like the word for the ceremony itself, “commencement”—which admonishes its participants to remember that this is a celebration of beginnings, not endings—the mace turns the eye forward to the life to come by recalling the rich academic heritage of higher learning and the promise of attainment that comes through education and self-betterment. Our mace, thus, combines elements of both the old and the new, traditional features like gems and stone enhanced with modern designs such as arcs of faceted crystal. Both an impressive work of art and a hallmark of the university’s history, this mace brings to light everything that is best about Utah State University.

UTAH STATE UNIVERSITY’S CEREMONIAL MACE

The top of the mace depicts the circle of learning, the cycle of study, practice and tradition in which we learn, grow and teach. In the same way the students, alumni, professors and practitioners of Utah State University represent our highest achievements, the brushed copper disk emblazoned with the university’s official seal crowns the mace and sends light upward in every direction, symbolizing the illumination of truth reaching out across our community, our state and our world.

The copper bezel has thirteen sunstones set into it. These symbolize the thirteen presidents who guided the institution through its first century.

The white oak shaft comes from wood that was originally part of the banisters of Old Main and was rescued from the building after the fire of 1983.

The base consists of limestone provided by The Church of Jesus Christ of Latter-day Saints and taken from the same quarry that was used to build the Logan Temple.

The mace of Utah State University envisions the very essence of our land-grant institution: seated in the bedrock of our community, striving and growing ever higher, sealed on top by a ring of metal, an emblem of our timeless quest for the merits born of learning.
ACADEMIC HERALDRY

The history of academic heraldry reaches back into the early days of the university. In England in the fourteenth century, the statutes of certain colleges forbade “excess in apparel” and prescribed the wearing of a long gown. Hoods were used to cover the head until replaced by the skull cap and later academic caps. When American colleges and universities decided to adopt some suitable system of academic apparel, it seemed best to agree on one that all might follow. Accordingly, there was held on May 16, 1895, at Columbia University, a conference of representatives of the boards of various interested institutions. From that meeting came a code of academic dress for the colleges and universities of the United States.

GOWNS
The academic gown for the associate and bachelor’s degrees has pointed sleeves and is designed to be worn closed. The gown for the master’s degree has an oblong sleeve, open at the wrist. The sleeve base hangs down in the traditional manner. The rear part of its oblong shape is square cut, and the front part has an arc cut away. It is designed this way so that it can be worn open or closed. The gown for the doctoral degree has bell-shaped sleeves and may be worn open or closed.

HOODS
Academic hoods are worn by recipients of advanced degrees. The master’s degree hoods are three-and-one-half feet in length and are lined with the official color or colors of the college or university conferring the degree, which at Utah State University are navy blue and white, displayed in a heraldic chevron. The doctoral hood consists of a larger and longer assemblage of institutional color draped over the recipient’s shoulders and falling well down the back. The binding or edging of the hoods is of velvet or velveteen, three inches wide for the master’s degree and five inches wide for the doctoral degree.

CAPS
Academic caps come in two forms: the traditional mortarboard (from Oxford) or square cap; and a soft cap that resembles an oversized beret (from Cambridge). The mortarboard used by Utah State University is worn with a tassel. The color of the tassel designates the graduate’s major field of learning, and gold tassels indicate doctors and the governing officials of institutions.

COLORS
For all academic purposes, including trimmings of doctoral gowns, edging of hoods and tassels of caps, the colors associated with the different academic disciplines are as follows:

- Agriculture and Applied Sciences, Maize
- Arts, Brown
- Business, Drab
- Education and Human Services, Light Blue
- Engineering, Orange
- Humanities and Social Sciences, White
- Natural Resources, Russet
- Science, Gold-Yellow
- School of Graduate Studies, Black
- Bachelor of Integrated Studies and Associate of General Studies, Black
Paul Anthony Jones is the 10th president of Georgia's Fort Valley State University. He is known as a visionary leader and strategic thinker who has long championed the transformative power of education.

Jones attended Utah State University in the 1980s to earn his bachelor's and master's degrees. He was a two-sport student-athlete, competing in football and track and field. As the head of USU’s Black Student Union, he developed programs that helped to build community and support for and among Black students, as well as improve the university and local community.

Drawing on his own experiences as a student, Jones served as a university recruiter, establishing himself as a leader on campus not only in recruiting diverse students, but also in creating welcoming spaces. With his enthusiasm for the Aggie Family as well as his dedication to USU’s values and mission, he encouraged all faculty to mentor USU’s diverse student population.

Jones met and married his wife, Sylvia, when they were students in Logan. Together in 1991, they established the African-American Leadership Award Scholarship in the Mountain West Center for Regional Studies at USU — an extraordinary gift to support students when they themselves were pursuing advanced degrees and raising a young family. The couple has continued that generosity and expanded their connections with USU over the years: they were honored as USU Alumni of the Year in 2012, and both of their children are also alumni. In 2021, Jones received the Distinguished Alumni Award from the College of Humanities and Social Sciences.

In addition to his degrees from USU, Jones also earned a Doctor of Philosophy degree in education and human resource studies from Colorado State University. He has spent 37 years in higher education, and he became the leader of Fort Valley State University in 2015. In the past several years, he has advanced the university's standing as one of the nation's most respected institutions of higher learning, including its consistent ranking as the top public historically Black college and university (HBCU) in Georgia by U.S. News and World Report.

Last fall, Jones joined USU President Noelle E. Cockett in signing a five-year partnership between the two land-grant universities that will allow them to collaborate on research, educational program development, student support and involvement, and other areas of mutual interest.

Before joining FVSU, Jones served two years as interim president at Darton State College in Georgia. Throughout his career, he has held numerous leadership roles at Georgia College & State University, including senior vice president for finance and administration, vice president and chief of staff, vice president for institutional research and enrollment management, and several interim roles including vice president of academic affairs and president. He was also a professor of educational administration at Georgia College.

In 2007, he was named an American Council on Education (ACE) Fellow at the University of West Florida, earning a place in the nation's premier higher education leadership program.

Jones serves as a member of several boards, including the Medical Center of Peach County, Navicent Health Board of Directors, Fort Valley State University Foundation, Middle Georgia Goodwill Industries Education Committee, Association of Public and Land-grant Universities Council of 1890s Officers, USDA-1890 Task Force, Museum of Aviation Foundation Board of Governors, and the Southern Intercollegiate Athletic Conference Executive Board.

For his lasting legacy at USU, his exemplary record of philanthropy, and his outstanding leadership in the field of higher education, Utah State University is proud to bestow upon Paul Anthony Jones the honorary degree of Doctor of Education.
Cache Valley-native Jonathan W. Bullen has been a skilled, successful real estate investor and developer and entrepreneur for more than 30 years, as well as a dedicated Aggie who has devoted time and support to his alma mater.

Bullen graduated from USU with a bachelor’s degree in business administration in 1978. He was active in campus life as a member of Sigma Chi Fraternity, Sounds of Zion, and the Blue Key National Honor Fraternity, where he served as president.

In the years since graduation, Bullen’s ties to USU have strengthened. His business success has afforded him the opportunity to generously support nearly every area of the university, including the Caine College of the Arts, College of Humanities and Social Sciences, Emma Eccles Jones College of Education and Human Services, the Jon M. Huntsman School of Business, University Libraries, Athletics, and more.

Bullen is the co-founder and chairman of Colmena Group, a broad-based commercial real estate development company with businesses across the United States and a portfolio of assets valued at more than $1.6 billion.

His interest in real estate came after a successful career in broadcasting, where he began as general manager of KVNU radio in Logan and eventually became president of Cache Valley Broadcasting. He then formed the JWB Cable Company, which he later sold to Sonic Cable.

In 1993, Bullen started investing in private career colleges, becoming CEO, president, and chairman of Provo College and Eagle Gate College. The schools boasted the largest Bachelor of Nursing program in the state of Utah with an enrollment of more than 800 students. Under his leadership, more than 15,000 students graduated with certificates or degrees in a variety of career fields.

In the College of Humanities and Social Sciences, Bullen and his wife, Julie, were instrumental in establishing the Leonard J. Arrington Endowed Chair of Mormon History and Culture. In the Emma Eccles Jones College of Education and Human Services, the couple helped create Aggies Elevated, an innovative program that empowers students with intellectual and/or developmental disabilities to succeed personally and academically.

In the 1990s, Bullen was asked by then-USU President George H. Emert to chair the university’s first national advisory committee, which evolved into the USU Foundation Board and led to the institution’s first capital campaign. He is now a member of the USU Foundation Emeritus Board.

His contributions to the university have been recognized with multiple honors, including USU’s Distinguished Service and Spirit of Old Main awards, Friend of College of Humanities and Social Sciences, and the Professional Achievement award from the Huntsman School of Business.

Bullen has financially supported many charitable organizations, such as the National Ability Center, the Center for Humanitarian Outreach and Intercultural Exchange, and the Utah Symphony Opera. Also, he has served on a variety of boards, including as a trustee and board member of the Mormon Historic Sites Foundation, and executive director of the Capitol Arts Alliance, where he helped facilitate the renovation of Logan’s historic Capitol Theatre into the Ellen Eccles Theatre and Bullen Center.

For his inspirational business and civic leadership, in addition to decades of philanthropy, service, and loyalty to the university, Cache County, and the state of Utah, Utah State University is proud to bestow upon Jonathan W. Bullen the honorary degree of Doctor of Business.
In 2021, Love became the national outreach coordinator for the USU Center for Growth and Opportunity (CGO), a nonpartisan organization housed in the Jon M. Huntsman School of Business that conducts research to assist policymakers with pressing issues. She shares the research and data with her former congressional colleagues and other officials, then brings back their questions so students can start new projects to help find answers. Love also coaches students to help them articulate and clearly explain their research to others. Love prescribes to the philosophy that one should not let “perfect” be the enemy of a “really good” win. As such, she hopes that sharing data with decision-makers on both sides of the aisle will help leaders find common ground in facts and come together to create effective policies.

In addition to her work with the CGO, Love has been a panelist for the Leadership Forum Series in the Jon M. Huntsman School of Business, speaking about leadership in business, politics, and public service. She has served as a non-resident senior fellow at the United States Studies Centre at the University of Sydney and is also a fellow of the Institute of Politics and Public Service at the McCourt School of Public Policy at Georgetown University.

Love has been a political commentator for CNN since 2019 and a guest host on the ABC talk show “The View.” She recently published her memoir, "Qualified: Finding Your Voice, Leading with Character, and Empowering Others.”

Love and her husband, Jason, have three children, two of whom are Aggies.

For her dedication to public service; her support of women, minorities, and other marginalized groups; and her commitment and involvement with higher education, Utah State University is proud to bestow upon Mia B. Love the honorary degree of Doctor of Humane Letters.
Gary E. Stevenson is a member of the Quorum of the Twelve Apostles for The Church of Jesus Christ of Latter-day Saints. He has served the Church as a full-time general authority since 2008, first as a member of the First Quorum of the Seventy and later as the Presiding Bishop of the Church.

Prior to serving the Church full time, Stevenson was a highly successful businessman as the co-founder of ICON Health & Fitness, Inc., now known as iFIT — one of the largest manufacturers and marketers of fitness equipment in the world.

Raised in Cache Valley, Stevenson began building his business skills around age 10 when he sold game programs at USU’s Nelson Field House and the old Aggie football stadium. As a student at USU, he continued his study of business and graduated in 1979 with his bachelor’s degree in business administration and a minor in Japanese.

While at USU, he teamed up with Scott Watterson, a former grade-school classmate with mutual love and appreciation for Asian cultures; in 1977, they started a business importing products from Taiwan. Several ventures later, they shifted into the health and fitness industry, and their company eventually grew into iFIT.

In 1996, Stevenson and Watterson were named Entrepreneurs of the Year for the Inter-Mountain Region by Inc. Magazine. Stevenson served as iFIT’s president and chief operating officer until his call into full-time church service in 2008.

In his leadership roles for The Church of Jesus Christ of Latter-day Saints, Stevenson has overseen its worldwide business affairs, along with programs that assist the poor. He was president of the Asia North Area in March 2011 when a massive earthquake and tsunami hit the region and was deeply involved in the relief efforts that followed. As Presiding Bishop, he directed the Church’s relief efforts and humanitarian assistance following natural disasters around the globe.

Stevenson has continued to be involved at USU, sharing his expertise as a member of the President’s National Advisory Council, the Alumni Association Foundation Board, and the Jon M. Huntsman School of Business National Advisory Board. In 2012, the Huntsman School invited Stevenson as a dean’s convocation speaker where he was recognized with a Professional Achievement Award and with the school’s highest honor, the Distinguished Executive Alumnus Award.

He has also been involved in numerous civic activities and has served on a variety of boards and advisory councils, including the Salt Lake Chamber of Commerce, Deseret Management Corporation, and the BYU Marriott School of Business National Advisory Council.

Stevenson met and married his wife, Lesa J. Higley, while both were students at USU. They are the parents of four sons.

For his leadership in humanitarianism, outstanding entrepreneurial and business success, and generosity in sharing his wisdom, Utah State University is proud to bestow upon Gary E. Stevenson the honorary degree of Doctor of Business.
Dr. David Tarboton is internationally known for his work on hydrologic information systems, hydrologic terrain analysis and hydrologic modeling. Through his leadership in the development of HydroShare, his work has transformed findable, accessible, interoperable and reusable data and modeling sharing in the water research community. His work on digital elevation model analysis embodied in the TauDEM software has transformed the use of digital elevation data for hydrologic modeling and flood inundation mapping. His contributions are used operationally in support of National Water Model forecasts and implemented in geographic information software used worldwide. His open educational resources, and the HydroLearn platform for open educational resource sharing that he co-developed are used around the world for the sharing and collaborative development and improvement of active-learning resources in hydrology and water resources engineering. His work on the sensitivity of the Great Salt Lake to hydrologic inputs informs decision making that addresses critically low lake levels. He received the 2020 American Water Resources Association, David R. Maidment Award for Exemplary Contributions to Water Resources Data and Information Systems. He was elected Fellow of the American Geophysical Union in 2018, an honor given to no more than one in 1000 of the AGU membership each year.
E. G. PETERSON EXTENSION AWARD

DENISE STEWARDSON

As an agricultural literacy specialist and Extension associate professor, Denise Stewardson works with teachers statewide, regionally, and nationally to help them and their students understand the importance of agriculture in daily living. Denise has been the Utah Agriculture in the Classroom director for nearly a decade. The organization works to increase student awareness about agriculture and create an appreciation for our food and fiber systems. It has reached over 200,000 students and 4,000 teachers.

Denise makes great effort to serve teachers by helping them deliver the best lessons possible. She supports them by attending their conferences, visiting classrooms, and sharing her materials.

Denise is respected by her peers, which has led to multiple leadership opportunities. She was elected and served as president of the USU Extension Specialists Association. She was also elected president of the National Agriculture in the Classroom Organization.

Denise makes a special effort to engage with college students. She teaches an agricultural literacy course and assists the USU Student Nutrition Access Center with its sustainability goals. She represents Extension on the USU Faculty Senate, serves as a mentor to students through the Aggie First Scholars program, and serves on the Connections faculty committee.

The E.G. Peterson Award is the highest recognition available to USU Extension faculty members. It is awarded to those who provide outstanding service to the state of Utah. Denise is exemplary of this recognition as evident through her dedication and service to delivering agricultural literacy education.
FACULTY UNIVERSITY SERVICE AWARD

MELISSA SCHEAFFER

Melissa Scheaffer has provided extensive service over her nearly 35-year career at Utah State University. Currently, she is a faculty member in the College of Engineering where she developed and teaches Technical Communication for Engineers, a course required of all engineering majors. In addition to her rigorous teaching schedule, Melissa created the Engineering Writing Center, which has assisted over 6,500 engineering students in developing their writing skills since opening spring semester 2017. Additionally, she has served on a wide variety of University-level committees aimed at reducing sexual misconduct on campus, improving curriculum at the general education level, coaching numerous term faculty seeking promotion, and improving the quality of teaching for faculty.

Melissa never declines a request to serve and is passionate about giving back to USU, which has immensely enriched her academic career and personal life. Melissa considers her service efforts to be an impactful and essential component of her academic responsibilities.
ELDON J. GARDNER TEACHING AWARD

BETH BUYSERIE

College of Humanities and Social Sciences

Beth Buyserie is the Director of Composition and Assistant Professor of English at Utah State University. She earned her Ph.D. in Cultural Studies and Social Thought in Education in 2018. Her work focuses on writing program administration, the teaching of composition, critical pedagogies, professional learning, and the intersections of language, knowledge, and power through the lenses of queer theory and critical race theory.

As Director of Composition, Dr. Buyserie mentors all English graduate instructors (GI), lecturers, and adjunct instructors in the teaching of English 1010 and 2010. She regularly teaches English 6820, the graduate pedagogy course that prepares GIs to teach English 1010, as well as English 1010 and 2010. Dr. Buyserie particularly enjoys learning with and from undergraduate and graduate students—and each day she learns something new about the teaching of composition from students’ energy, insight, and lived experiences.

In Spring 2023, Dr. Buyserie taught a graduate course on queer and antiracist pedagogies as part of her Teaching Fellowship through the Center for Intersectional Gender Studies and Research. She received an ETE Scholar Award in 2021; in August 2022 she earned her Master Scholar Certificate through the Office of Empowering Teaching Excellence. In addition to serving as the CHaSS Teacher of the Year, she is a Pedagogy Fellow for the Transformative Intersectional Collective (a collaboration among USU, UU, SLCC, & WSU) for 2022-2023.
TEACHING EXCELLENCE AWARD

CAHILL SMITH

Caine College of the Arts

Pianist Cahill Smith has performed in major venues in the United States and abroad, including four programs at Carnegie Hall's Weill Recital Hall in New York, the Isabella Stewart Gardner Museum's Calderwood Hall in Boston, Cleveland Museum of Art, the Royal Dublin Society's Concert Hall, Buffalo's Kleinhan's Music Hall, Birmingham's Alys Stephens Center, and 14 cities in China and Taiwan. Cahill has been featured as a concerto soloist with the National Ukranian Symphony Orchestra in Kiev, the Mongolian Symphony Orchestra in Hohhot, China, the Eastman Philharmonia, the Alabama Symphony Orchestra, the Chattanooga Symphony, the Mississippi Symphony Orchestra, and others. His live and studio recordings have been broadcast on WQXR, New York's Classical Music Radio Station, WCRB, Classical Radio Boston, and WSMC, Chattanooga Public Radio.

Cahill completed his Doctorate of Musical Arts at the Eastman School of Music, where he served as the teaching assistant to Natalya Antonova. At Eastman, Cahill was the inaugural recipient of the Douglas Lowry award for excellence in degree recital performance, won the Eastman Concerto Competition, received honors in chamber music, and was awarded the Prize for Excellence in Teaching. Cahill completed his master’s degree at the University of Michigan, and his bachelor’s at the University of Alabama at Birmingham. He joined the faculty of Utah State University in 2019. Cahill is a Yamaha Artist.
TEACHING EXCELLENCE AWARD

TYSON SORENSEN

College of Agriculture and Applied Sciences

Tyson Sorensen is currently an Assistant Professor of Agricultural Education at Utah State University. His primary role is teaching; Tyson teaches a variety of undergraduate and graduate courses, and directs the pre-service agricultural education program. Tyson loves to teach and mentor students in whatever setting that happens to be. Tyson often shares with others that the four most enjoyable parts of his job include visiting and mentoring student teachers out in the high school classrooms, developing and conducting faculty-led study abroad programs, working with pre-service teachers preparing to go out and teach, and mentoring students engaged in the research process. He has received numerous awards throughout his career for excellence in teaching, mentorship, and research. Some of these awards include USDA Early Career Excellence in College and University Teaching in Food and Agricultural Sciences Award, College of Agriculture and Applied Sciences Undergraduate Research Mentor of the Year Award, Western Region of the American Association for Agricultural Education Outstanding Early Career Award, and USU’s Secondary Education Outstanding Supervisor Award.

Tyson is originally from Idaho where he grew up on a dairy farm and developed his passion for agriculture. He attended Utah State University where he earned both B.S. and M.S. degrees in Agricultural Education. After graduating from USU, he taught high school agriculture for seven years in Mesa, Arizona. Tyson was later hired as a faculty instructor in the Agricultural Education department at Oregon State University while he completed his Ph.D. work. He received a Ph.D. in Science Education from Oregon State University in 2015. His dissertation focused on the work and family interface of agriculture teachers and its influence on teacher turnover. Currently, Tyson’s research focuses on attracting, developing, and retaining the next generation of agricultural scientists and STEM area professionals.
TEACHING EXCELLENCE AWARD

COLIN PHILLIPS

College of Engineering

Dr. Colin B. Phillips is an assistant professor in the Department of Civil and Environmental Engineering at Utah State University with a joint appointment at the Utah Water Research Laboratory. Since joining USU in 2020, he has built a robust teaching and research program and established himself as an active researcher and trusted mentor to students.

Phillips earned a bachelor of arts from the University of California, Berkeley in 2009 and a Ph.D. from University of Pennsylvania in 2014. His research is generating new insight into how natural and urban landscapes respond to climate change and natural disasters. Specifically, he studies the intersections of rivers, landscapes, and climate and the conservation of natural resources. Recent research topics include geomorphology, sediment and contaminant transport, river hydraulics, flooding, and surface and shallow-subsurface hydrology. He has published 17 peer-reviewed manuscripts in top-tier journals including Science and has secured more than $600,000 in funding for USU and its research partners. Phillips teaches both undergraduate and graduate courses including fluid mechanics and open channel hydraulics and serves as an academic advisor to multiple graduate and undergraduate students.

Professor Phillips is an active member of the American Geophysical Union and has served in multiple community outreach programs. His most recent awards include fellowships from The Nature Conservancy and the National Science Foundation.

Dr. Phillips actively enjoys the outdoor opportunities here in Cache Valley with his hound Mason and spouse Carolyn. They recently welcomed their first child to their family and can’t wait to get back out into the mountains once she is old enough to lace up her boots.
Dr. Hannah Mae Lewis is a lecturer of mathematics at Utah State University Eastern (USUE). She joined the faculty at USUE after completing her doctoral degree in 2020. She graduated from Utah Tech University (formerly DSU) with her B.S. in mathematics in 2012. Her master's degree in Mathematics emphasizing in Lie Algebras and differential geometry and PhD emphasizing in growth mindset assessments for large lectures were both completed at Utah State University in Logan. She has a passion for helping future teachers to love math and increase their growth mindset with the intention of passing that love and mindset onto their future students. She loves to incorporate technology into her lesson plans, enabling students to see the many beautiful applications of mathematics. Her professional interests include the development and implementation of growth mindset structured assessments, validation of assessments, faculty and graduate student professional development, faculty-to-student mentorship, and the classification of semi-simple Lie Algebras. Her efforts in teaching have been recognized by multiple Excellence in Teaching awards from USU. Outside of professional interests, she enjoys long distance bike riding, reading, and spending time with her husband, two kids, and four goats.
Sarah Tulane is a clinical associate professor of Human Development and Family Studies at Utah State University. Her research interests focus on child and adolescent development, interactive technology use and relationships, and family life education methodology. Her current teaching assignments include Human Development Across the Lifespan, Child Development, Family Life Education Methods, and Research Methods.

Sarah is a hobby photographer and always has a stack of books to read. She and her husband enjoy biking and all things British. One of Sarah’s favorite concepts in human development is play. Of all her hobbies, her favorite is the opportunity to play daily in the applied arena of parenting.
Reagan Siggard is an instructor in the Data Analytics & Information Systems department. She earned her bachelor’s and master’s degrees in management information systems from Utah State University. Reagan thrives in the classroom and enjoys delivering technical data courses through online, broadcast, and in-person methods. Reagan’s instructional areas include Python programming, data warehouses, database management, and data visualization. Reagan actively engages in teaching and mentoring students in and outside the classroom. She advises USU student organizations, including the Association for Information Systems and Women in Tech.

Reagan is fascinated with how students learn and retain information. She has participated in various research projects focused primarily on information systems pedagogical instruction and the impact of peer-to-peer interaction in online courses. Reagan is furthering her scholarship and love of learning by working toward her doctoral degree in Instructional Technology and Learning Sciences.
Dr. Eric Martin LaMalfa grew up in Salt Lake City, Utah and developed his passion for the natural world while exploring the Wasatch Mountains and Colorado Plateau. He earned a B.S. in Range Science (2004), an M.S. in Ecophysiology (2007), and a Ph.D. in Ecology (2019) all from Utah State University's Wildland Resources Department. Prior to earning his doctoral degree, he spent seven years working with the U.S. Forest Service and Bureau of Land Management as a wildfire and fuels management specialist in Northern Utah. In this role he planned and implemented watershed restoration projects on tens of thousands of acres of Utah's rangeland and forested ecosystems. Dr. LaMalfa’s early academic career was spent working with pastoral communities in Kenya and Ethiopia to improve rangeland ecosystems and food security in sub-Saharan Africa. He began a teaching faculty position on the USU Logan campus in July 2019 and for the past four years has focused on creating and improving instructional materials for the many courses he teaches. In his spare time, he enjoys spending time with his family, performing music, rafting, skiing, and outdoor recreation.

Fellow Aggies,

Congratulations to our newest Utah State University alumni, the class of 2023! Your college years were just the beginning of a lifelong relationship with USU. As you move on to your future, remember that you are always an Aggie. Graduation is a milestone that marks the end of one great experience and the beginning of a new phase in your life and your relationship with the university — one as a member of the Aggie Alumni Family.

Today, you are joining more than 150,000 fellow alumni — Aggies who are connected by a common shared experience. The USU Alumni Association has worked hard to build an alumni network that will benefit the school, its students and the world around us. That means helping our current students look beyond their years here to recognize the contributions of those who came before them and their own role in building the school’s future. So proudly announce, “I’m an Aggie” and take every opportunity to broadcast your affiliation with USU — it will open doors!

Alumni can make such a difference by supporting USU and there are many ways you can stay engaged after graduation. Keep your contact information updated so that we can send you all the latest news and upcoming alumni events at usu.edu/alumnupdate. I also strongly encourage you to participate in alumni activities, join your local Aggie chapter and become a member of the Aggie Network at aggregenetwork.usu.edu. The connections you make can help you maintain friendships and be a tool for discovering new professional relationships.

If you’re staying in Utah, you can support USU scholarships by proudly displaying an Aggie license plate. Visit usu.edu/alumni/gradpack to get the first year of your A-plate free! The Aggie affinity credit card also allows you to support scholarships and programs that help the next generation of USU students while making everyday purchases. Find out more about alumni benefits at usu.edu/alumni/benefits.

We are so fortunate to have forward thinking, dedicated alumni. On behalf of the USU Alumni Association, I wish you all the best on your graduation. I am confident that as you embark on your next adventure, the path you blaze will continue to make USU proud.

Stay in touch and Go Aggies!

Originally from Kearns, Utah, Charity was an active member of her school and community organizations. She graduated from Kearns High School and began studying business and marketing. In 2018, she took the opportunity to teach English in Kyiv, Ukraine, and traveled throughout Europe. It was through this experience that she discovered a passion for the arts that motivated her to pursue an education in the field of design.

Upon returning, Charity found a home at Utah State University in the Interior Architecture and Design program. She was selected as the Chair for the Interior Design Student Organization and has enjoyed creating an environment for her peers to develop their skills, take on new challenges, and establish connections in the design community. Charity has strengthened the reputation of the program and college through memorable student accomplishments. She had the opportunity to intern for GSBS Architects in Salt Lake City, Utah, in the summer of 2022. Charity will be pursuing a Master of Architecture degree following graduation and is excited to further her education and experience in the industry.

2022-2023 PRESENTATION OF UNDERGRADUATE DEGREES

RECESSIONAL
Baylee Vogler grew up in West Jordan, Utah, where she was either playing in the Wasatch Mountains or designing and building things in her garage. She’s always enjoyed being outdoors, and some of her favorite hobbies include backcountry skiing, ultra-running, mountain biking, and climbing. When she learned about the Outdoor Product Design and Development Program at Utah State University, she was very excited to combine her passions and focus on designing outdoor equipment.

During her time at Utah State, she earned the “A” Pin Award three years in a row, maintained her place on the Dean’s List throughout her four years, and worked as a peer advisor plus a lab tech in the machine shop. She was able to design, prototype, and patent a new climbing cam through the university. In 2022, Baylee had the opportunity to intern with Black Diamond Equipment’s Industrial Design Team, where she helped design technical climbing equipment. She is excited to continue pursuing a career in Industrial Design and looks forward to her next adventure.

VALEDICTORIAN
Kate Elizabeth Christiansen
Civil & Environmental Engineering
Faculty Escort: Andrew Sorensen, Civil and Environmental Engineering

Kate Christiansen dreamed of coming to Utah State ever since her three older siblings attended. In fact, USU was the only university she applied to. Choosing to major in Civil Engineering took more effort. However, she saw the film “Dream Big: Engineering our World” and discovered her passion for designing resilient, beautiful structures. She is amazed by structural engineering — from the physics that allow a bridge to remain stable to the roads and infrastructure connecting the world. Kate is also proud to finish her Music Studies minor. In addition to her studies, Kate has enjoyed being involved with the ASCE Concrete Canoe team, the concrete bowling ball team, and the Engineering Ambassadors.

Kate was one of 25 recipients for an Undergraduate Research and Creative Opportunities (URCO) Grant for her research on pervious concrete, which serves as a foundation for her master’s thesis. Most of her undergraduate study focused on problem-solving; she knows she can solve any problem she is faced with because her professors and mentors have taught her how to learn and to never give up.

Emma Lee Larson Geary
Communication Studies & Psychology
Faculty Escort: John Seiter

When looking at colleges, Emma Larson Geary only applied to one: Utah State University. She loved her first semester at USU and practically lived on campus, attending all the events and activities she could. Emma is the second of six kids and spent most of her life in Utah. She returned to college following a religious mission in Taiwan — which inspired her to get a minor in Chinese. Emma found her passion in Communication Studies and Psychology and has loved learning and growing each semester.

During her time at USU, Emma served as a teaching assistant for Public Speaking and Chinese, helped organize and prepare performances for the Chinese Club events, performed in AggieVoice, organized the curriculum for a Public Speaking Practicum class, was a captain of intramural teams, and participated as a research assistant. Off-campus, she organized and participated in mental health awareness events, and volunteered at the Logan Regional Hospital and as a tutor at local elementary schools. After graduation, she looks forward to interning as a project manager and then taking care of her first child (due in August) while her husband finishes school. They plan to go to graduate school together, and Emma hopes to be able to teach at an amazing university like USU one day. Additionally, Emma wants to use her passion for music and helping people to spread awareness about mental health and healthy communication patterns as a consultant.

VALEDICTORIAN
Dylan Joshua Julander
Chemistry-Biochemistry
Faculty Escort: Melissa Kofoed, Chemistry and Biochemistry

Dylan Julander was born and raised in Box Elder County. His mother is a teacher who cultivated his love of learning and an ability to communicate with others. He credits his father with teaching him to work hard by digging holes and building fences for his father’s company. In March of 2020, Dylan married his quarantine companion-to-be and former high school sweetheart, Sadie.

Dylan’s love of learning and problem-solving naturally led him to study chemistry and physics. His dedication to his education resulted in Dylan being recognized at the College of Science’s annual Fall Convocation in 2021, where he also received a scholarship. His desire to serve led him to pursue a career teaching these subjects. He is currently student teaching at Morgan High School. When he’s not at school, Dylan loves to spend time with his family, to head to the mountains, and take long walks with his dog.

VALEDICTORIAN
Karli Victoria Ludwig
Kinesiology and Health Science
Faculty Escort:
Dr. Chris Dakin

The first time Karli Ludwig drove up Sardine Canyon, the wide-eyed freshman had no idea what was in store but was hoping to make an impact. From taking a nosedive down the Old Main Hill ice sheet to the sleepless nights of memorizing the pKa values and associated charges of the amino acids and navigating a positive COVID-19 test during lab practical week, she can now clearly see that Utah State University impacted her far more.

In her time at USU, Karli got hands-on experience researching and learning from experts in the Neuromechanics and Sensory Motor Behavior Laboratories. She shared her passion for dance with the USU Dance Company presidency for three years. And she served her community as a Christensen Community Scholar, an AmeriCorps Service Mentor, and a USU Arts Access Visual Artist. Thanks to these experiences and so many others, she now graduates Summa Cum Laude, a three-time recipient of the “A” Pin Award, and six-time Dean’s List honoree. Karli is grateful to have received her degree and hopes to have as profound of an impact on the world as Utah State has had on her.

*The Emma Eccles Jones College of Education and Human Services expresses deep appreciation to our generous donors.

**The U.S. News and World Report has ranked the Emma Eccles Jones College of Education and Human Services 30th on its annual list of “Best Graduate Schools of Education” in the nation. USU has the only School of Education in Utah to place in the top 50. Our college took the No. 13 spot nationally for research funding, receiving $37M to support research, teaching, and service projects that benefit our students, community, state, and nation.

VALEDICTORIAN
Isaac Vaughn Dixon
Marketing, Strategy, Leadership & Entrepreneurship / Economics & Finance
Faculty Escort: Dr. Alex Romney, Marketing and Strategy

During his time at Utah State University, Isaac Dixon has applied the values of higher education by exercising his passion for entrepreneurship, leadership, and research. He has worked on projects in the Dominican Republic, led humanitarian groups to Puerto Rico, and served in various leadership positions at the university. He was also part of the team that won the 2021 Enactus Sustainable Development goal pitch in the category of Decent Work and Economic Growth for their study “Plastic 2 Progress: Cleaning Up the Economy and the Streets in the Dominican Republic.”

Now, Isaac will graduate with honors from Utah State University with dual bachelor's degrees in International Business and Economics and minors in entrepreneurship and leadership. He and his wife recently opened Shake that Cake, a unique dessert business located in Cache Valley. Isaac eventually hopes to work in developing countries to help solve some of the world’s challenging social issues through entrepreneurship and innovation.

Naomi Orchard is a dedicated student with a non-traditional education path. She graduated high school a year early, then spent the next four years traveling and challenging herself — including time on permaculture farms in New Zealand, studying Slavic languages in the Balkans, volunteering with the Arizona Conservation Corps, and working as a river guide in Southern Utah. Naomi’s passion for environmental stewardship, equity in outdoor recreation, and watershed sciences brought her to study at the S.J. & Jessie E. Quinney College of Natural Resources (QCNR) at Utah State University.

She has served as the QCNR biology tutor, a member of the QCNR Undergraduate Student Council, and co-president of Backcountry Squatters — a club committed to increasing female and nonbinary access to outdoor recreation. Last summer, Naomi attended a study abroad program in Nepal where she trekked through the Annapurna region studying the geology and geohazards of the Himalayas. Through the Center for Colorado River Studies, she conducted a senior thesis on the impact of dam operations on the upper Green River. After a gap year of white-water river guiding on the Snake River, she plans to pursue a graduate degree in fluvial geomorphology. She hopes to spend her career working to balance the human demand for water and the need for healthy river systems, all under a changing climate.

ALMA MATER HYMN UTAH STATE UNIVERSITY

Theodore M. Burton

(And) across the quad at eventide as shadows softly fall, we'll

tower of 'Old Main' appears, and peace rests over all, Thy

lighted "A" upon the hill, stands out against the blue. Oh, Alma Mater,

Utah State, my heart sings out to you. And heart sings out to you. Oh,

Alma Mater Utah State, my heart sings out to you.
