Columbia, Mo.
April 6th, 1905

Pres. W. J. Kerr,
Laramie, Utah.

Dear Sir:

I wish to most heartily thank you for your very kind reply of the first, also for the catalogue of the college.

From information obtained from the catalogue I am persuaded that it would give me great pleasure to work in the Utah Agricultural College, especially in the Department of Chemistry, though I could handle some of the work in Mathematics, Physics, or Physiology.

You can get specific information concerning my chemical training from Dr. W. L. Brown, Professor of Chemistry and Dr. Waldemar Koch, Assistant Professor of Physiological Chemistry in the University of Missouri. Information concerning my general training can be obtained from Dr. A. Ross Hill, Dean of the Teachers College or from Dr. R. H. Jesse,

Columbia, Mo.
President of the University of Missouri,
Columbia, Missouri.

Hoping that occasion may arise
for you to write me, I am,

Yours very truly,
H. S. Woods.

P.S. - After June 7th mail will reach
me at Versailles, Mo.
