5490 Ellis Av., Chicago
Jan. 14-1907

Dr. F. A. Yoder
Director & Chemist-Experiment Station
Logan, Utah.

Dear Sir:

Dr. Stieglitz has referred
your letter to me. Regarding

my training, experience, the
salary I would accept etc.-

My undergraduate work was
done at Lawrence University of
Appleton, Wis., Dr. Youthy a Columbia
man is the Chemist there.

The enclosed sheets taken from
a University of Chicago circular
will perhaps give you a fairly
definite idea of what my training
has been along chemical lines.

The courses completed are marked.
I have a reading knowledge of
German. I have had no direct
chemical experience at any agricultural
station, but am a farmer by

trade if that counts for anything.
Now of course the question of
salary will depend entirely on
what my chances for promotion
will be as I may prove myself
useful. Just at present I need
good experience even more than
a good salary. You undoubtedly
have a regular salary at which
you start in the Asst. Chemist's
knowing that and a little more
about the future offered I can
give you a definite answer.

In case an agreement is reached.
When would you wish me to start
work? To leave very soon would
involve a considerable loss to
me as I have just registered and
made all arrangements for
the quarter.

Hoping to hear from you soon,

I remain,

Yours respectfully

Arthur W. Hansen.
