# Groundbreaking Scheduled for Electric Vehicle Test Facility | Utah State University Power Electronics Lab

The USU Board of Trustees approved plans to begin construction on a 4,800 square foot facility at 650 E. Grand Ave. This facility will be used to enable research in Wireless Power Transfer technology for electric vehicles. The building will also feature a track to test charging with vehicles in-motion and a high-bay area for research in Wireless Power Transfer.

Ground-breaking is scheduled for 11am on September 23.
