IOWA STATE COLLEGE  
AGRICULTURE AND THE MECHANIC ARTS  
DIVISION OF AGRICULTURE

CHARLES F. CURTISS, DEAN AND DIRECTOR

AMES, IOWA.

April 28, 1905.

My dear Sir:-

Since writing you in regard to Mr. Frederick I have made some inquiry concerning his work and I find that he has very good standings in his Veterinary work. He is a young man who has had some practical experience, I believe, and as he comes from your state he will be familiar with the conditions and problems existing in the West.

I think that Dr. McNeil, Dean of our Veterinary Department, will write you further concerning his Veterinary work. He seems to be well qualified along this line. He has had no work in Agronomy at this institution, however, and I cannot say anything about his fitness for that part of the work. It is very doubtful about your being able to find anyone, I think, that would satisfactorily combine these two lines of work. Veterinary work and Animal Husbandry are more naturally and logically united. I presume, however, that you wish someone to carry the Agronomy work only temporarily, and in this case perhaps Mr. Frederick would meet the requirements as well as anyone that you would be likely to get to carry two lines of work that are so widely different.

I shall be glad if I can be of any further service to you.

Very truly yours,

*C. F. Curtiss*

President W. J. Kerr,  
Logan, Utah.
