HONORS SENIOR THESIS  
A STUDY TO DETERMINE THE  
CULTURAL AWARENESS  
OF ENGINEERING STUDENTS

Submitted by  
Gordon P. Foreman  
March 17, 1975

#### ACKNOWLEDGMENTS

I wish to thank here the people who made this project possible with their encouragement and help. First and foremost, Nick Eastman, for without his suggestions and help the questionnaire would have been almost useless. Also I thank Dr. Alder, director of the Honors Program for helping me define what I wanted to measure, and Dr. Rich, Assistant Dean of Engineering, for evaluating my work. Finally I thank the students who filled out the questionnaires, and the professors who allowed me to use their classes for my project.

## CONTENTS

Origins of the Study. . . . .	1
Proposed Methods of Measurement . . . . .	1
Difficulties With Writing the Questionnaire . . . . .	2
Evaluation of the Questionnaire . . . . .	2
Conclusions . . . . .	3
Appendix. . . . .	4
Sample Questionnaire. . . . .	8

### Origins of the Study

As an engineering student in the Honors Program, I am continually faced with the stereotype of engineering students as people with no interest in social or cultural affairs and no consideration of things which cannot be tied down and measured. I decided to test this conception as best I could, even to comparing engineering students quantitatively to natural resources, history, and business majors. I attempted to get number comparisons for the index of relative awarenesses of culture. I suppose that only an engineering student would have the temerity to try to attach numerical values to something as nebulous as cultural awareness, but this seemed to me to be the only way to really compare engineering students to others.

### Proposed Methods of Measurement

Several methods were proposed to me by various people for measuring cultural awareness, such as correlating ticket sales for Fine Arts events with majors, but no record is kept of who buys tickets, so this proved impossible. Finally I decided that a questionnaire was the only feasible method.

I undertook a minor literature survey on this project, only to discover that nothing has been done in this area other than editorials or other expressions of opinion. To the best of my knowledge, there has not been a questionnaire or similar instrument ever copyrighted in the U.S. that would have been of any assistance to me in designing mine.

### Difficulties with Writing the Questionnaire

The initial difficulty faced was how to define "cultural awareness". After some discussion with Dr. Alder I decided that knowledge of a combination of the social, political, and fine arts aspects of our society would have to serve.

Once I had a definition, I started writing down questions that I thought might measure what I wanted. The first difficulty faced was that of writing unbiased questions, that is, questions which no group would be more likely to answer simply because of knowledge gained as a result of their major. I did not succeed perfectly here, but this will be discussed in more depth in the analysis of the individual questions. Another difficulty was writing questions which could be evaluated quantitatively. Finally, the whole questionnaire needed to fit on one page, and require the average student not more than five minutes to complete. It took about four weeks before I felt that I had a satisfactory questionnaire.

### Evaluation of the Questionnaire

The questionnaire was comprised of many different types of questions from different areas, and for this reason I evaluated each question separately. I felt that there was no way in which I could meaningfully compare them. (For compilation of results, and discussion of the questions, see the Appendix, subheading "Responses to Questions")

## APPENDIX

Class ranks of the groups

	Fresh.	Soph.	Jr.	Sen.	Grad.	No Res.
Engr.	0	0	18	9	1	3
Nat. Res.	1	3	11	19	3	0
HASS	0	4	14	15	4	1
Business	0	0	13	11	8	2

In engineering I used a Thermodynamics class (34 students), in Natural Resources I used Watershed Management (37 students), in HASS a History 444 class (38 students), and in Business I used Economics 500 (34 students).

Responses to Questions

Here I will tabulate the responses, explain my method of evaluation, and make any comments I feel are pertinent.

- (1) Circle the names of the following who have lectured on the USU campus this year: Jack Anderson; Moshe Dayan; Ron Ziegler; Buckminster Fuller; Shirley Chiselm; Walter Heller.

	Number of correct responses					WI*
	4	3	2	1	0	
Engineering	2	12	10	5	2	2.23
Nat. Res.	3	14	4	11	5	1.92
HASS	10	19	5	3	1	2.97
Business	13	11	10	0	0	3.09**

This tabulation is set up to indicate that in Engineering for example, 12 people had three correct responses, and five people had one correct response.

\*Weighted Index. This number was calculated by multiplying the number of people in each category by the number of correct responses for that category and dividing by the total number of responses. It is the average number of correct responses for each group.  
 \*\*In business 33 of 34 students got Walter Heller correct, a much higher fraction than any other group. Walter Heller spoke on Economics.

(2) About what percentage of the basketball and football games here at USU do you attend?

	0 to 10	11 to 49	50 to 89	90 to 100	WI
Engr.	15	2	7	6	1.10
Nat. Res.	21	1	10	5	0.97
HASS	11	7	11	9	1.47
Business	9	6	10	9	1.56

Here to calculate WI, I used 3 points for 90 to 100, 2 points for 50 to 89, 1 point for 11 to 49, and 0 points for 0 to 10.

(3) Have you ever taken a class outside your major or minor that was in no way required?

	Yes	No
Engr.	15	16
Nat. Res.	33	4
HASS	37	1
Business	26	8

(4) About how many books outside your major do you read each year? Name a few of your favorite books or authors.

No. of bks.	0	1 to 5	6 to 12	13 or more	WI
Engr.	3	22	2	4	1.23
Nat. Res.	5	20	6	2	1.03
HASS	2	7	12	13	1.84
Business	5	17	7	3	1.18

  

Types	Sci. Fi.	Classics	Bestsellers	No. Res.	Other
Engr.	2	10	4	10	2
Nat. Res.	8	5	6	15	7
HASS	2	10	5	13	13
Business	1	2	3	21	8

For the WI here I allowed 1 point for 1 to 5, 2 points for 6 to 12, and 3 points for 13 or more. I made no allowance for different types of books read.

- (5) How many plays, concerts, or similar activities have you attended in the Fine Arts Center this year?

Name two or three.

	0	1 to 3	4 to 6	7 and over	WI
Engr.	17	12	1	1	0.55
Nat. Res.	17	14	5	1	0.73
HASS	15	15	3	2	0.71
Business	16	15	3	0	0.62

For WI, I allowed 1 point for 1 to 3, 2 points for 4 to 6, and 3 points for 7 or more.

- (6) If you were offered free subscriptions to any three magazines outside your major, which ones would you choose? (Include any to which you already subscribe)

	Engr.	Nat. Res.	HASS	Business
Newsweek	8	11	16	16
Time	7	14	14	14
Playboy	8	10	6	4
Sports Il.	5	6	4	9
Nat'l. Geo.	1	8	4	5
Rdrs. Dig.	1	2	9	4
U.S. News	0	0	7	4

There were several other magazines that received a few responses, but these were the most popular ones.

- (7) How often do you read Student Life?

	Never	Occasionally	Frequently	Always	WI
Engr.	0	4	14	13	2.29
Nat. Res.	0	9	15	13	2.11
HASS	2	6	15	15	2.13
Business	1	9	13	11	2.00

Here I allowed points as follows: Never, 0; occasionally, 1; frequently, 2; and always, 3.

I am rather suspicious of the answers to this question, because they seem to have little or no correlation with correct responses to question one (1), and I think there should be.

(8) Name the things you watch on TV.

	News	Sports	Movies	Shows	Don't watch
Engr.	23	12	9	15	3
Nat. Res	17	8	10	8	8
HASS	21	11	10	9	10
Business	17	17	5	17	4

(9) Name the occupations of as many of the following as possible.

	Engr.	Nat. Res.	HASS	Business
Milton Freidman (Economist)	3	7	15	31
James St. Clair (Lawyer)	2	4	21	4
Frank Lloyd Wright (Architect)	7	20	21	16
Henry Moore (Sculptor)	0	1	1	0
William Buckley (Columnist)	7	22	22	13
Jerry terHorst (Former press sec.)	4	8	15	6
Alexander Solzhenitsyn (Author)	16	24	30	16
Salvadore Dali (Artist)	6	12	14	8
No Response	12	6	4	2
WI	1.45	2.65	3.39	2.76*

Further information on this project, including the questionnaires used, is on file in the Honors office, Library 349.

---

\*Here again a bias may have intruded. Milton Friedman was answered correctly by 31 of 34 business students, a much larger fraction than any other group.
