Sept. 28, 1904.

Prof. J. C. Blair,

University of Illinois,

Urbana, Ill.

My dear Sir:—Our Professor Hatt, who for two years past has had charge of the work in Horticulture and Botany at the Agricultural College of Utah, has just been notified of his election to a professorship in the Maryland Agricultural College, and will leave this institution early in October.

We desire to get a strong, capable man to take his place. He should be a person of good character, exemplary habits, and thorough scholarship—one who has had experience in teaching, preferably also in experiment station work, and who has some ability as a lecturer. If you could recommend a good man whom you think would be available for this position, I shall appreciate it.

We shall be able to pay from $1400 to $1800 a year, and prefer a man who will be willing to remain permanently with the institution, conditions being mutually satisfactory.

If convenient, I shall be glad to have you request any person whom you would recommend to communicate at once with me, giving detailed information regarding his work and qualifications.

Thanking you in advance for any assistance you may be able to render us in this matter, I am,

Very truly yours,

President.
President J. L. Snyder,

Michigan Agricultural College,
Agricultural College, Mich.

My dear Sir:—Our Professor Hutt, who for two years past has had charge of the work in Horticulture and Botany at the Agricultural College of Utah, has just been notified of his election to a professorship in the Maryland Agricultural College, and will leave this institution early in October.

We desire to get a strong, capable man to take his place.
