Oct. 13, 1904.

Mr. T. F. Wojta,
Mason City, Iowa.

Dear Sir:-

Your favor of the 9th inst. to Director J. A. Widtsoe has been referred to this office for reply, and I am directed by President Kerr to write you and ask you to send him at once detailed information regarding your work and experience, stating your age, whether married or single, and any other information that you think might be helpful in deciding upon your fitness for the position of Professor of Horticulture and Botany in the College. Send also a recent photograph.

The Professor would have charge of the work in Horticulture and Botany in the College, and also the work of research and investigation along these lines in the Experiment Station. The salary will be between $1400 and $1800 a year. A specialist along the lines of horticulture is preferred, as an assistant in botany will be employed as soon as additional help in the department will be needed.

As it is desired that the position be filled as soon as possible, I suggest that you write President Kerr at your earliest convenience.

Yours very truly,

[Signature]

Presidents' Secretary.
