The University of Chicago

May 8, 1905.

President Wm J. Kerr,
Logan, Utah.

Dear Sir:

I wish to secure a position
as an assistant in botany in some
first class agricultural college.
Do you think you may need such
a man?

I would like to be so situated
that I may continue my work on
a thesis begun here and at the
same time to have an opportunity
to learn the practical side of botany.
Of course I shall be satisfied
with a small salary for a year or
so.

At present I am a graduate student
at the University of Chicago and I am
making a specialty of Mycology.

and Plant Pathology. It
a chance for me to get a job
with I hope you will put me in
communication with the head of
your department of botany.

Very respectfully,
E. S. Jones.
