If you are looking for a mobility device to give you more independence AND would like to keep the cost down, there is a wonderful place in Salt Lake City that offers just that.

The Citizens Reutilizing Assistive Technology Equipment (CREATE) refurbishes mobility assistive technology and makes it available to people who need AT at a low cost. CREATE staff describe more about how the CREATE program works in this video.

The process is easy, just contact them at 801-887-9398 and make an appointment to assess your needs. After that it is just a matter of filling out the paper work, waiting until the type of device you need is available, and paying the minimal amount for it. Financial help is also available if needed.

To see the current inventory of power wheelchairs, manual wheelchairs, and power scooters, you can go to the CREATE website, scroll down and click on their inventory list.

Don’t wait. Independence is just a phone call away.
