Dr. William Jasper Kerr,
Agr. College of Utah,
Logan, Utah.

My Dear Sir: Pardon me for inquiring, but I have been informed that there will be a vacancy in the Department of Physics and Applied Electricity in the Agricultural College of Utah this year. If this is true I would like to apply for the position. I am a university man and have had eleven years experience as head of the Department of Physics in the University of Idaho. During this time I taught the applied electricity and electrical measurements. I can furnish good testimonials as to scholarship and experience and should the professor of Physics in your college resign this spring I should like to apply for the position.

Yours very truly,

J. C. Bondbright.
March 23, 1905.

Prof. J. E. Bonebright,
Fort Collins, Colo.

Dear Sir:

Replying to your favor of the 20th inst., I have to inform you that, so far as known at present, there will probably not be an opening in the Department of Physics for an instructor next year. Should we need an additional man for this department, I shall be pleased to communicate with you later.

Yours truly,

W. J. Kerr, President.
