July 25, 1904.

Mr. Arthur P. Storer,

Berkeley, Cal.

My dear Sir:-

I am just reminded that I have not written you finally regarding the matter of your employment in the Department of Engineering in the College next year. On account of illness in June and my absence in the east for three weeks, I had neglected to write you.

After very careful consideration it was found impracticable to adjust our finances and work in such way as to give you the position and salary that would justify your coming to the College at this time. I regret this, because I am satisfied that you would strengthen our engineering work, particularly along lines of irrigation. It may be possible that after the next Legislature makes its appropriations to the College for the next biennium, we may be able to arrange satisfactorily for you to take up your work in the College.

Wishing you continued success, I am, with kindest regards, very

Very sincerely yours,

W. J. KERR, President.
