It has been accepted for inclusion in Educational Policies Committee by an authorized administrator of DigitalCommons@USU. For more information, please contact digitalcommons@usu.edu.

CURRICULUM SUBCOMMITTEE MINUTES
6 October 2011

A meeting of the Curriculum Subcommittee of the Educational Policies Committee was held on 6 October 2011 at 2 p.m. in Old Main 136 (Champ Hall Conference Room).

Present: Richard Mueller, Chair (representing Ed Reeve)
 Thomas Bunch, Agriculture
 Darrin Brooks, Caine College of the Arts
 Chris Skousen, Huntsman School of Business
 Scott Hunsaker, Emma Eccles Jones College of Education and
 Human Services
 Patricia Gantt, College of Humanities and Social Sciences
 Nancy Mesner, College of Natural Resources
 Richard Mueller, College of Science
 Wendy Holliday, Libraries
 Travis Peterson, Regional Campuses and Distance Education
 Norm Jones, General Education Subcommittee Chair
 Steve Beck, Graduate Council (representing Shelly Lindauer)
 Brett Healy, Graduate Studies Vice President (representing Cami
 Jones)
 Tanner Wright, Academic Senate President
 Roland Squire, Registrar's Office
 Cathy Gerber, Registrar's Office

Absent: Ed Reeve, College of Engineering
 Susan Neel, USU-Eastern

Visitors: Larry Smith, Vice Provost
 Noelle Cockett, Dean of College of Agriculture
 Bruce Miller, Department Head, ASTE
 Gary Stewardson, ETE Department
 Kurt Becker, Department Head, ETE
 Larry Hemingway, Acting Director of Aviation
 Alexa Sand, Department of Art
 Jamie Huber, WGS
 Michele Hillard, Provost Office

The 1 September 2011 minutes meeting were approved.

Larry Smith moved to approve the business of the Provost Office. Scott Hunsaker seconded; motion carried. A statement will be added in the course description that differentiates work done for graduate credit.

Provost Office

Center for Women and Gender

Dual List Change

WGS 4900/6900	Directed Study: Women and Gender Studies Repeatable for credit Add dual list of WGS 6900 Effective Spring 2012	1-3 cr.

BIOL 3010 Evolution 3 cr.
University Studies Designation: DSC
Remove University Studies Designation of CI
Effective Spring 2012

Prerequisite Change
BIOL 3300 General Microbiology 4 cr.
Prerequisite: BIOL 1610 (with a grade of C- or better); CHEM 1120 or 1220 or 2300 or 2310 (may be taken concurrently). To receive University Studies Breadth Life Sciences (BLS) credit, students must complete both BIOL 1610 and 3300. The BIOL 1610 and 3300 option for BLS credit is available only to students majoring in Biological Engineering or Environmental Engineering.
Effective Spring 2012

Department of Computer Science

Prerequisite Change
CS 3200 Mobile Application Development 3 cr.
Prerequisites: CS 2410 and 2610 OR CS 2412 and 2612
Effective Spring 2012

CS 5460 Computer Security I 3 cr.
Prerequisites: 2.0 GPA, grade of C- or better in CS 2420 and CS 3100.
Not available to pre-Computer Science majors.
Effective Summer 2012

Department of Geology

Title Change
GEO 5630 Geologic Image Analysis 3 cr.
Previously Photogeology and Image Analysis
Effective Spring 2012

Other Business

Darrin Brooks moved to approve the request from the Department of Art to offer a Bachelor of Arts in Art History. Norm Jones seconded; motion was approved, with revised proposal being sent to Larry Smith.

The request from the English Department to change the English master's degree specialization in Technical Writing Plan B to a Plan C specialization was withdrawn from the agenda.

Tom Bunch moved to approve the request from the College of Agriculture and the College of Engineering to restructure the Department of Engineering and Technology Education. Nancy Mesner seconded; motion approved. (see below)

Noelle Cockett, Dean of the College of Agriculture, presented the proposal along with supporting information from Bruce Miller, Gary Stewardson, Kurt Becker and Larry Hemingway.

The General Education Subcommittee, on September 20, 2011, approved the enforcement of the rule that CI courses must be upper division. The following courses will be losing the CI designation effective Summer 2012.

COMD 2910	MUSC 1460
CS 2450	MUSC 1470
JCOM 2160	OSS 1550
LAEP 2700	SPCH 1020
MIS 2200	SPCH 2110

An update on the new electronic approval process for the course approval from was given by Michele Hillard, Provost Office. A request to have the College Curriculum Committees included in the work flow process will be taken under consideration. This form will probably be application based. The Curriculum Subcommittee will be given updates on the progression of this form.

It was suggested that previous Course Approval forms be archived and to begin saving these forms electronically once the new form is in place.

Meeting adjourned 2: 55 p.m.
Richard Mueller conducted the meeting.
Cathy Gerber recorded the minutes.

Institution Submitting Proposal: Utah State University

College, School or Division in Which Program/Administrative Unit Will Be Located: College of Agriculture; College of Engineering

Department(s) or Area(s) in Which Program/Administrative Unit Will Be Located: School of Applied Sciences, Technology and Education in the Department of Agricultural Systems Technology and Education; Department of Engineering Education

Program/Administrative Unit Title:

Proposed Beginning Date: January 1, 2012

Institutional Signatures:

Raymond T. Coward, Chief Academic Officer: _____

Noelle Cockett, Dean, College of Agriculture: *Noelle E. Cockett*

Bruce Miller, Head, ASTE Department: _____

H. Scott Hinton, Dean, College of Engineering: _____

Kurt Becker, Head, EE Department: _____

Section I: Request

Utah State University proposes to restructure the Department of Engineering and Technology Education (ETE) effective in Spring Semester 2012. This request contains several elements related to R401-5 including a department name change, program transfers and degree name changes all associated with this restructuring action. Utah State University proposes to:

- 1) Change the name of the Department of Engineering and Technology Education, housed within the College of Engineering, to the Department of Engineering Education, housed within the College of Engineering.
- 2) Transfer Aviation Technology, including two Bachelor of Science degrees: Bachelor of Science degree in Aviation Technology – Maintenance Management and Bachelor of Science degree in Aviation Technology – Professional Pilot; to the School of Applied Sciences, Technology and Education within the College of Agriculture.
- 3) Transfer a portion of the Engineering and Technology Education program, including a Bachelor of Science degree in Engineering and Technology Education with two emphases and a Master of Science degree program in Engineering and Technology Education, to the School of Applied Sciences, Technology and Education within the College of Agriculture.
- 4) Change the names of the Engineering and Technology Education B.S. and M.S. degrees to Technology and Engineering Education. The emphases areas in the Bachelors of Science program will be changed to Technology and Engineering Education; and Skilled and Technical Sciences Education.

Section II: Need

The Colleges of Engineering and Agriculture concur that this action is consistent with the missions of the respective colleges.

- The proposed name change - Department of Engineering Education - more correctly reflects the engineering programmatic focus in the College of Engineering. The Engineering Education Department will continue to administer the PhD program in Engineering Education and teach many of the pre-engineering courses on the Logan campus and on the regional campuses.
- The School of Applied Sciences, Technology and Education in the College of Agriculture provides an academic home for aviation technology whose mission is consistent with their primary goals of educating students for careers in the applied sciences and technology areas of aircraft maintenance and as professional pilots.

- The School of Applied Sciences, Technology and Education provides a logical academic home for the degree programs focused upon teacher training for the Career and Technical Education (CTE) area of Technology and Engineering Education. The Utah State Office of Education recognizes nine areas of CTE at the secondary level. With this change, three of the nine areas - Agriculture, Family and Consumer Sciences, and Technology and Engineering Education - will be administered by the school and provide preservice and inservice educational opportunities for teachers within these secondary education programs.
- The names of the Bachelor of Science and the Master of Science degrees will be changed from Engineering and Technology Education to Technology and Engineering Education to emphasize the focus on technology. The emphases areas in the Bachelors of Science program will be changed to Technology and Engineering Education; and Skilled and Technical Sciences Education. This name will align the degree programs with the Utah State Office of Education's CTE program area for which the teachers are being trained.

“Technology and Engineering Education is committed to preparing students for employment and/or continuing education opportunities by teaching them to understand, design, produce, use, and manage the human-made world in order to contribute and function in a technological society.” –Utah State Office of Education

This name is also nationally recognized and is typical for teacher training programs as indicated by the International Technology and Engineering Educators Association (ITEEA), a professional organization with which the faculty is aligned.

Section III: Institutional Impact

The department name change more clearly identifies USU as one of the pre-eminent programs in the emerging area of engineering education. USU was among the first three programs in the country to offer a PhD in Engineering Education. Many of the faculty members within the proposed Department of Engineering Education have funding from the National Science Foundation to study the learning and teaching of engineering with special focus on pre-engineering courses.

The program transfers and the degree name changes provide an administrative home for programs focused upon teacher training in a CTE area as well as degree programs preparing students for technology-based careers. It is not anticipated the restructuring will have any negative impacts on student enrollment.

Section IV: Finances

This restructuring action will not require any new physical facilities or fiscal resources as facilities and resources will remain constant with their respective programs.
