Human-Wildlife Interactions

Human-Wildlife Interactions (ISSN 2155-3874) is a peer-reviewed, open access journal published three times per year by the Jack H. Berryman Institute, Department of Wildland Resources, Utah State University, Logan, UT 84322-5230, USA. The journal has over 3,000 subscribers and is available online at digitalcommons.usu.edu/hwi. Prior to 2010, the journal was named Human–Wildlife Conflicts.

Jessica Tegt, Utah State University, Logan, Utah
John M. Tomeček, Texas A&M University, College Station, Texas
Desley Whisson, Deakin University, Burwood, Victoria, Australia

Journal Subject Area: Human–Wildlife Interactions publishes manuscripts on all aspects of human–wildlife interactions, particularly research articles in wildlife management, wildlife ecology, management applications, economics, and human dimensions. We encourage letters to the editor, opinion pieces, point-counterpoint articles, policy issues, and notes on research and new techniques.

How to Submit Manuscripts: Submit manuscripts online at digitalcommons.usu.edu/hwi. The policy of HWI requires authors to cover page charges of $100 per published page (about 2.5 double-spaced manuscript pages comprise a published page). These charges allow HWI to operate. Anyone is welcome to submit a manuscript. Email hwi@usu.edu with inquiries.

Subscriptions: Human–Wildlife Interactions is an open access journal. Printed back issues may be available and can be purchased for $10 each (domestic) or $20 each (foreign). Inquire about the availability of a printed back issue by contacting Rae Ann Hart at raearn.hart@usu.edu.

Advertisements: Human–Wildlife Interactions accepts digital advertisements. For advertising specifications, contact hwi@usu.edu.

Articles appearing in Human–Wildlife Interactions are included in the following research indexes: Animal Behavior Abstracts, Aquatic Sciences and Fisheries Abstracts, Biological Abstracts, BIOSIS Previews, Current Contents, Directory of Open Access Journals, EBSCO, Ecology Abstracts, SCOPUS, Science Citation Index Expanded, Thomson Reuters’ Journal Citation Reports, Web of Science, Web of Knowledge, Wildlife and Ecology Studies Worldwide, Wildlife Review Abstracts, Wilson’s Biological and Agricultural Index, and Zoological Record.

Cover photo: European starlings (Sturnus vulgaris) flocking to livestock feedlots during the winter cause extensive damage and constitute a major public health risk (photo courtesy of J. Thiele, USDA Wildlife Services).
