Aggies Defeat Crimsons In Practice Meet

A good crowd of shivering enthusiasts filled the bleachers Saturday and watched the Aggie track squad run away from the boys from the B. Y. C. by the score of 73 2-3 to 48 1-3. The raw wind from the north made fast time in the track events impossible, and none of the weight men were able to get a heave that could win a place in a college meet. In the sprints the Aggies had little trouble, but when they came to put the sixteen pound shot and hammer against the twelve pound pill used by the high school boys, they found it impossible to get a first place. For the Aggies Glenn Voorhees and Stubby Peterson looked like real contenders for honors in the sprints in the approaching state meet, while Tolman, Allen and Dunn are sure to make the high school lads of the state do some first rate performing. Peterson for the Y looks like a coming high jumper.

Results

120 yard hurdles—Allen (Y) 1st, Hansen (A), second. Time, 19 seconds.

100 yard dash—Voorhees (A), 1st; Peterson (A), second; Knowles (Y), 3rd. Time, 11 seconds.

Mile run—Tolman (Y), 1st; Fordham (A), 2nd; White (A), 3rd. Time, 5:01.

440 yard run—Croft (A), 1st; Van Luevan (A), 2nd; Wright (Y), 3rd. Time, 55:3-5.

220 yard dash—Voorhees (A), 1st; Kapple (A), 2nd; Tolman (Y) 3rd. Time 22 4-5.

880 yard run—Tolman (Y), 1st; Anderson (A), 2nd; White (A), 3rd. Time, 2:05 3-5.

220 hurdles—Peterson (A), 1st; Edwards (Q), 2nd; Coffman (A), 3rd. Time 28.

Relay—Stott, Hatch, Kapple, Voorhees (A). Time, 1:38 4-5.

High jump—Peterson (Y), 1st; Voorhees (A), 2nd; Becraft (A), 3rd. Height, 5 ft. 5 in.

Pole Vault—Madsen (A), 1st; Barlow (A), 2nd; Cox (Y), 3rd. Height, 10 ft. 5 in.

Broad jump—Madsen, (A); 1st; Kapple (A), 2nd; Allen (Y), 3rd. Distance, 19 feet 10 1/2 in.

Shot put—Dunn (Y), 1st; Allen (Y), 2nd; Twitchell (A), 3rd. Distance, 39 feet.

Hammer throw—Allen (Y), 1st; Twitchell (A), 2nd; Wilson (A), 3rd. Distance, 129 ft. 9 1/2 in.

Discus—Dunn (Y), 1st; Twitchell (A), 2nd. Luke (A), 3rd. Distance 103 feet 11 1/2 in.

PIXTON WINS YALE MEDAL

Football received a good step forward last Thursday afternoon when a medal was given for the best exhibition of punting. Two Yale graduates, Prof. Brooke of the College and the Rev. E. T. Lewis, have become convinced that the Aggie punting staff needs reinforcements and in order to stimulate an advanced enlistment in the cause they offered, this year, two medals, one a gold and one a bronze, for the best punting work. Robert Pixton, a freshman with considerable high school football training, succeeded in capturing the gold one; Captain-elect Lyle Judd with a slightly smaller number of points, was awarded the bronze ornament.

The medals were awarded on the merits of three items, distance, accuracy and form. Pixton got highest in the distance with his best punt covering 157 feet; most of the punts were in the neighborhood of 50 yards. In accuracy and form, the results were very encouraging. Several of the punts were placed within a few inches of a line, 40 yards distant and nearly all of the kickers were able to line out the twisting spirals so elusive to the catcher.

Considered as a whole the contest was a very successful affair. It showed up some good material for next year's firing line and gave excellent practise to those who participated. Our Yale friends are to be complimented on their generosity and loyalty; we hope they can be induced to continue their active support.

Following is a list of the entrants in the contest:

Robert Pixton, 1st; Lyle Judd, 2nd; Dixon Kapple, 3rd; Alvin Twitchell, Einer Olson, Tura Aldous, Chauncey Dunford, Carlos Dunford.

TWO COUNTY AGENTS APPOINTED

Alma Esplin and Wm. W. Owens, members of this year's graduating class, have received appointments as county agents in Iron and Sevier counties, respectively.

Both of these men are very competent for these positions. Esplin has had practical experience in teaching, is a consistent worker with a pleasing personality, and is acquainted with conditions in the south, having been born in Orderville, Kane county.

Owens was selected because of his personal qualities that admirably fit

(Continued on page eight)

AGGIES MEET B. Y.U. TOMMORROW

All winds from the south waft us news of an invasion tomorrow by a welltrained and able squad of track men from the Utah County metropolis. Southern dopesters have spared no breath in shouting the praises of the "Y" team and predicting the downfall of the Aggies. With Cooper, Gunn, and Gurr in the sprints, Eyre in the 440, Hales for the mile and half mile, Luke in the broad jump, Larsen in the high jump, and McDonald and Blazzard with the weights, there seems to be some reason in the confidence of the southerners. The hopes of the A. C. are not as high as they might be were Stubby Peterson, on whom they were depending for a place in the sprints and low hurdles, in condition to take part. It is doubtful whether Stubby will be able to don his track suit Saturday, due to the injury he received in the recent class meet. It looks now as though Glenn Voorhees would have to be responsible for the points we get in the 100, 220 and low hurdles.

With the track team come three men to contend on the cement court for tennis honors. Word has not been received as to who will wield the rackets for the Y. For the Aggies Olif Nelson, last year's winner of the Titus medal, will probably play the singles, while Carrington and Kirkham are the likely choices for the doubles. The singles will be called at 1:30 o'clock.

CONTEST KEEN FOR TITUS MEDAL

The real contest for the Titus tennis medal has now resolved itself into a struggle between three men. Carrington, Johnson, and Kirkham have worked themselves up from the bottom of the list of entries and it is almost certain that one of them will wear Dr. Titus' medal for this year's championship. Bert Carrington has represented the A. C. one year in tennis and the experience gained from his intercollegiate games gives him a slight advantage over his competitors. Versatile "Brig" Johnson has surprised the followers of the packet game by the maintaining of his place among the winners. Proficient in baseball, basketball and track, he was not expected to make a strong showing in tennis, which he plays only as a diversion. Kirkham has followed Carrington from the bottom of the list and though having lost one match with "Little Preby" still has hopes of getting another chance to beat him out for the medal.

Apostle Grant Addresses Students

DISCUSSES THE INJURIOUS EFFECTS OF TOBACCO AND LIQUOR UPON THE RACE.

In an entertaining and forceful talk, Apostle Heber J. Grant, drove home to the student body in chapel Wednesday, some of the degenerating and destructive effects of alcohol, and tobacco upon the human system. Mr. Grant read at length from various sources to substantiate and support his statements. He prefaced his talk by reading a few sentiments from "Adventures in Contentment," and from "The Power of Truth." The latter, written by William George Jordan, the speaker said he considered so valuable, that he bought one entire edition of 3000 copies, while in Europe and distributed about a thousand of them gratis, among his friends.

Mr. Grant quoted statistics to show the enormous waste of the liquor traffic, comparing the conditions in "dry" territory with those in "wet" area. He read extracts from various sources that painted in glowing pictures, and ludicrous caricatures, the result of the liquor traffic upon the morality, and physical condition of the race, and admonished his listeners to "vote for Prohibition", no matter what party happened to have it as an issue or a "plank" in its platform. At this juncture, the address had the tenor of a campaign speech. The wit and versatility of the speaker, held the audience closely throughout the talk, and few, indeed, took advantage of the privilege he offered them to leave the hall at any time.

The enervating and destructive effects of the use of alcohol and narcotics upon the human system, are absolutely demonstrated, scientific facts, of which every college man is aware, but he needs to have them brought to his attention occasionally, to keep him free from them. Apostle Grant's talk was stimulating to the will, and one that impells to action.

The music by the orchestra under Prof. Spicker's direction, was well chosen, well-rendered, and thoroughly enjoyed.

HAGAN GETS SCHOLARSHIP IN HARVARD

H. R. Hagan, instructor in Zoology and Entomology, has been awarded one of the best scholarships in Harvard, and will receive his mail at that institution next year. Hagan will pursue his work in Biology.

Apple Blossoms

The apple blossoms white and pink sow perfume on the dreamy air, and honey bees their sharp eyes blink and dream of nectar hidden there. And I dream, too, of other days when blossoms such as these, I knew in orchard lands where through the maze of loaded branches blue birds flew. And there beneath a mighty branch the old swing sagged with seat awry, and through the clover from the ranch we found our way—just she and I. In ecstasy the blue bird trilled a rippling, luring song of love that all the fragrant woodland filled from dewy grass to sky above. I swung her 'till her cherry lips were curved in lines of youthful glee and rich white petals—airy ships—came sailing earthward over me! Sweet apple blossoms pink and white beneath thy nodding smiles I stand and dream sweet dreams of yester-night with her I swung—clasped hand in hand!

MACE WALTON.

THE U. A. C. SALT LAKE ROUTE DEMONSTRATION TRAIN RETURNS.

BY E. K. WINDER

With the return, last Saturday, of the 1916 Demonstration train one of the most successful tours ever made by a train of that kind was completed. In every particular the train was a success, and excelled all of the previous efforts of the strong Salt Lake Route—U. A. C., combination. In point of view of equipment and educational value this year's train was far superior, as was also the reception it received in the various Nevada and Utah towns visited.

The exhibits were assembled and the train made up in Salt Lake City during the first week in April. On the eighth of April when the train was offered to the Salt Lake public for inspection there were nine cars all arranged with exhibits of educational value to the farmer. These, with the pullman, diner, business car chair car, and an additional exhibit car that joined the train later, completed the train. Of the exhibit cars, three were fitted up entirely by our Extension Division workers. These cars were given over to home economics, Irrigation and dry farming, and livestock. The first, under the supervision of Miss McCheyne, contained many hints of value to the rural housewife. Exhibits of labor-saving devices, home decorating, home sanitation and clothing for children were prominent in this car and offered the lady visitors many good practical suggestions. The second of the college cars was gotten up under the direction of Mr. L. M. Winsor and featured two carefully worked out models, one showing a 320 acre dry farm with a 40 acre irrigated supplement, irrigated by pump, thus making the farm habitable, while the other model represented irrigation of bench land by the gravity water from the mountains while the valley bottom was supplied with water by pumps and wells from the surface water. A pumping system and reservoir were also in operation and supplied continuous streams of water for the operation of the two models. In addition to the features already mentioned this car contained an interesting exhibit of types of dry-farm soils with their typical vegetation. The wall space was given up to instructive charts

and a complete exhibit of varieties of the cereals suited for dry and irrigated farms.

The third car, with John T. Caine III in charge had a good display of farm livestock including six head of cattle and three hogs. Explanatory charts and a large collection of pictures, plans and models contributed to the educational value of this car.

The government sent out a car filled with good practical ideas for the sheep and wool man. Its chief aim was to promote proper grading of wool. Part of this exhibit will be shown next Tuesday in connection with the Hackamore Club show and will be explained by Mr. V. A. McWhorter the regular government wool man who will be here for that purpose.

An innovation for a demonstration train was the display of the consolidated Wagon and Machine Co., as were also the cars equipped by the general Electric Co., Fairbanks Morse Co., and Utah Idaho Sugar Co.

The train was shown in Salt Lake City on the eighth and ninth of April from there it dropped down into Nevada where three stops were made. Returning then into Utah stops were made at most of the important towns along the Salt Lake Route up as far north as Murray. At every stop the train was met with enthusiasm, crowds varying from five hundred to two thousand viewing the exhibits daily.

Many amusing incidents occurred en route and some rare and unheard of questions were put to the demonstrators. Although Bud White, the short horn bull, shows his breed type to a marked degree and was also designated by a large legend tacked above him, which stated clearly that he was a short horn, people gave him credit for being everything from a milking short horn to a Jersey. In fact two full grown matured men inquired if Bud was a Jersey. Mr. Winsor's car was insulted in a similar manner when people in Milford and Las Vegas asked repeatedly if his reservoir and irrigation projects represented processes of gold mining.

The train was under the care of a jolly party including several of the faculty members in addition to the regular extension workers, so it was natural that several social events were enjoyed. Dances were held on the station platforms, and more par-

ties were indulged in occasionally. The last important event of the trip was the early Saturday morning tea given for various members of the party and at which John T. Caine III poured.

THE BE-NOS ERECT MONUMENT

The landscape gardening about the campus received a delightful contribution this week, when the

Be-No Club, erected a memorial in the form of four large block "A's" built of concrete and placed on a pedestal of the same material, in a manner to form a square. The structure forms a very pleasing effect in the green lawn in front of the Mechanic Arts building, and is a very unique and appropriate piece of work. The club must be congratulated on this evidence of spirit, and student body loyalty.

SOME FUNNY ANSWERS

Following are some replies received by the university of the state of New York in examination for regents' certificates. Among those who wrote the replies were candidates for teachers positions, for qualifications as law and medical students and for admission to colleges:

The chamois is valuable for its feathers, the whale for its kerosene oil.

The feminine gender of friar is toastress.

There were no christians among the early Gauls. They were mostly lawyers.

Climate is caused by emotion of the earth around the sun.

Geometry teaches us how to bisect angels.

The purpose of the skeleton—something to hitch meat to.

The skeleton is what is left after the insides have been taken out and the outsides have been taken off.

A blizzard is the inside of a hen.

A vacuum is a large empty space where the pope lives.

A circle is a round straight line with a hole in the middle.

When Cicero delivered his oration he was a prefix.

George Washington married Martha Curtis and in due time became the father of his country.

Sixty gallons make one hedgehog.

The stomach is just south of the ribs.

The alimentary canal is located in the northern part of Indiana.

The rosetta stone was a missionary to Turkey.

The government of England is a limited mockery.

Georgia was founded by people who had been executed.

A mountain pass is a pass given by the railroad to its employees, so that they can spend their vacation in the mountains.

A mountain range is a large cook stove.

The qualifications of a voter at a school meeting are that he must be the father of a child for eight weeks.

Achilles was dipped in the river Styx to make him immortal.

Gender shows whether man is feminine, masculine or neuter.

Gravitation is that if there were none we should fly away.

The function of the stomach is to hold up the petticoats.

The stomach forms a part of the Adam's Apple.

The first governor of Massachusetts was Mr. Salem Witchcraft.

When the British got up in the morning and saw the Americans on the opposite hill, they threw up their breakfasts (breastworks.)

Pompeii was destroyed by an eruption of saliva from the Vatican.

A permanent set of teeth consists of eight canines, eight cuspids, two molars and eight cuspidors.

Weapons of the Indian—bow, arrow, tomahawk and war-hoop.

Typhoid fever is prevented by fascination.

Power of Suggestion

The teacher, wishing to impress on her pupils' minds the vast popu-

lation of China, said: "Think, children, two Chinamen die every time you draw a breath!" A minute later her attention was attracted to little Jimmie James, who stood puffing vigorously, with face reddened and cheeks distended.

"What is the matter, Jimmy?" asked the teacher. "What are you doing?"

"Nothin', Miss Mary; just killin' Chinamen."—Woman's Journal.

PERSIAN TO GIVE BACCALAUREATE ADDRESS

Mirza Ali Kuli Khan, N. D., charge d'affairs of the Persian legation in the United States, will deliver the Baccalaureate Sermon to the graduates in June. According to Dr. Widtsoe, this noted Persian is an eloquent speaker, using the English language very fluently and correctly, and is a scholar of no mean ability. Dr. Widtsoe heard him deliver an address before the Dry-Farming Congress.

GLEE CLUB HONORS DR. HILL

One of the few occasions that stick out prominently in memory because of the real pleasure it provided, was enjoyed by the A. C. Glee Club a few evenings back when it met at the home of Dr. Geo. R. Hill in response to the appreciation it felt for the capable and willing service rendered it by him.

Dr. Hill first became aware of the presence of the club when the notes from "The Boys of The Old Brigade" floated through his open window. Every member of the club was there and when it had crowded itself in the Doctor's reception room, space was at a premium, so much so, that Merrill contented himself with a cushion on the floor. From this position he amused the crowd with some exceptional Irish stories, which were added to by other rare wits in the crowd.

During the evening a promenade was taken to the home of Dr. Ball and President Widtsoe, where, standing on the grass outside, the boys sang in real style a number of selections.

Ice cream and cake were served by the club. Dr. Hill was rather confused by finding in his dish an undigestible article, which, when the cream was washed away, proved to be an elegant signet ring with Glee Club 1916 engraved on it.

Dr. Hill showed the boys through his home and the Benedicts as well as the prospective Benedicts obtained a cranium full of ideas from the many handy contrivances and labor saving devices incorporated in the Doctor's cosy nest.

The Glee Club has something up its sleeve for the Student Body, enjoyment. Keep your ears close to the ground and don't fail to respond to the vibration when you get wise.

Never Exempt

"When I was a boy," said Mr. Cumrox, "my father used to reprove me for reading dime novels. It was meant for the best. But a person ought to get beyond that sort of discipline sometimes. Now my daughter reproves me for wanting to see all the moving pictures."—Washington Star.

KIPLING WROTE A BOOK

"THE LIGHT THAT FAILED."

An intensely interesting, yet sad story about an artist who gradually went blind. Many people partially lose their sight by exposure to strong light. Certain rays in daylight or electric light are very harmful and useless, others are harmless and necessary. The useless, harmful heat and actinic rays will not pass through Sir William Crookes Glass, yet all the necessary, useful light does. We can make glasses for you that will do wonders for your eyesight.

The milk
in the pail
The cow kicks
over is lost
forever

AND the butter-fat that goes into the can through the skim-milk spout of a cheap, inferior or worn-out cream separator is just as surely lost as the milk in the pail the cow kicked over. If you are trying to get along without a cream separator, or with an inferior or worn-out machine, you are losing butter-fat right along and butter-fat is money.

Get Your DE LAVAL
—Now Right Away

every day you use it it will be paying for itself out of its own saving

If you haven't the spare cash right now that need not hinder your immediate purchase.

We have an arrangement with De Laval agents which makes it possible for any reputable farmer to secure a De Laval on the partial payment plan—a small payment at time of purchase and the balance in several installments, so that a De Laval pays for itself while you are using it and getting the benefit from it.

WHAT ABOUT THE OBITUARY?

"A" day is dead. Most mercilessly and cruelly slaughtered by the faculty, and left to find its own burial by a passive student body. It has passed away unnoticed, free from the weird concomitants of mysterious death. No angel choirs were heard to sing and rejoice at its demise. Maybe it was none of their funeral. But neither has anyone had visions of imps and devils, dancing in fiendish glee, over the arrival of a new inhabitant. No word has been spoken by way of eulogy, no prayer for the departed has been offered, and no chant has been sung. Done to the death in the dark, and cast upon the rocks, this poor unfortunate has not found even a decent burial, not even a potter's mound.

Would it not be fitting, wise and expedient, to get together, offer up a few "words," sing a few hymns, draw up some resolutions, and speak a word of praise for the departed, that may cheer and comfort the lonely hearts of the mourners—if there are any?

Nothing has been done concerning the report of the committee on Co-operative Store. For the benefit of the Student Body, we desire to announce that the report appeared in Student Life two weeks ago, and we recommend that you read it.

Some patriotic club or class could serve the college very well by removing the rubbish from the sidewalk adjacent to the property immediately south of the College Campus. This accumulation of organic matter makes a very unpleasant combination with the overflow from the tub of the washerwoman above. The public health officer could be notified and probably obviate the difficulty. If any casualties result from the campaign, Student Life will be willing to publish the list, and eulogize the heroes.

CORAY RE-APPOINTED

Before we were able to obtain the news of the re-appointment of Frank Coray as track manager, the account of his resignation had already been published. After the Executive Committee had accepted the resignation, a committee was appointed to investigate some candidates and appoint a new manager. This committee immediately investigated the matter, and decided to re-appoint Mr. Coray, who, upon their solicitation as well as that of Coach Ofstie, accepted the position again. Mr. Coray has been working faithfully against odds, and under unsatisfactory conditions, and was led to his course of action by circumstances which only a few understood. He had arranged all the meets, and up to the present, had everything in good shape, but for certain reasons which we are convinced were worthy, he felt that he could not continue the work. However, after talking things over with

the committee, and the Coach, he decided to accept the reappointment and finish the season.

NEXT YEAR

Dr. R. O. Porter, who will be consulting physician and Professor of Pysiology at the College next year, met Coach Watson in Chicago last week and talked over the work for next year. Dr. Porter, in a recent letter to President-elect E. G. Peterson, said that he was outlining definitely his work in physical examination of students and corrective measures.

Dr. Porter is a brother of Dr. C. W. Porter of this institution, and was graduated from here in 1912, in the School of General Science. He took one year at the Northwestern Medical College, one year in the Medical School of Harvard, studying Sanitation and Public Health, among other subjects, and the past two years have been spent at the Rush Medical, from which he will receive

his M. D. in June. Dr. Porter married Miss Vivian Erickson, also a graduate of the U. A. C. in 1912.

From this record it is very evident that Dr. Porter is well fitted for his position, and there is no doubt that with reasonable support, he will be able to do an immense amount of good to the students of the Utah Agricultural College.

* * *

Some new equipment for indoor gymnastics will be installed in the gymnasium next year.

LAST CHANCE TO CONTRIBUTE TO AGI-LITEROSE

For the last time we wish to urge all students who are capable of writing fairly well to contribute something for the last number of "The Agi-Literose." Get your brains busy and concoct something. Even if your first effort be a modest one it may be the beginning of a literary career.

For the benefit of a few we wish to correct the idea that only Quill Club members may contribute. The magazine is meant for the benefit of every student, and all are eligible to the publicity which it offers.

The editors aim to have the issue out by the latter part of next week, so get your articles in at once. Just drop them in Student Life box with your name and "Agi-Literose" in a conspicuous place.

Miss Erma Allen desires it strictly and unalterably misunderstood that she is NOT wearing a fraternity pin and that all statements to the contrary are false.

(If any such statement has appeared in these columns we must insist that it be withheld).—Ed.

NOW'S THE TIME

Now's the time to be a-doing
If there's work to be done.
While the earth itself is wooing
Favors from the shining sun.
Not tomorrow. You may never
Hear the bells of morrow chime.
But for every brave endeavor
Now's the time.

Now's the time to be a-moving
If in life you've any aim.
If you're anxious to be proving
What in merit is your claim.
Don't, ah, don't today postpone it!
Is not idleness a crime?
If you have not overthrown it
Now's the time.

Say not never, "I will do it
Without failure by and by."
That's a time with no date to it.
In the shadows let it lie.
Sieve the present! It is flying
Ever from you climb
Now, if you are bent on trying—
Now's the time.—Ex.

Kathleen Bagley has had for some time a strong desire to teach in an unsophisticated frontier town, "far from the madding crowd" and her dreams have come true. She will be in Kanab next season.

* * *

Gladys Christensen's ability has been recognized by Hyrum, that community having hired her to teach in the High School there.

* * *

I. T. Nelson's success is baffling to every Senior. "Irv." has been employed by his home town. He is not without honor in his own country. Apparently most seniors are.

* * *

H. R. Merrill goes to Preston, another of those who can get on with their home towns.

* * *

"Dad" Luke is going to teach in Rexburg. He likely has his eye on a promising dry-farm up there which will prove a lucrative side line.

* * *

The services of "Andy" Anderson have been secured by Wyoming; specifically Star Valley High School. "Andy" made a trip out there recently to "cinch" the deal, and if we get the story straight, got mixed in another affair that may involve his future happiness. It seems that "Andy" took up with the village belle of that neighborhood, and by permitting her to wear his "A" sweater, cast a spell over the maiden, which had a reciprocal effect upon himself, and the boy is greatly disturbed "inside." We are told that he is having great difficulty in settling down to work again.

* * *

It is quite generally known by now that "Bert" Carrington will be private secretary to President Widtsoe next year, but in case there be some who are so unfortunate as not to be in possession of this bit of gossip, permit this announcement. The Salt Lake "dailies" and the Utah Chronicle, made "Bert" treasurer of the University, but he evidently resigned from that exalted position.

GERMAN CLASS ENTERTAINS
DRAMATICALLY, "DER DEUTSCHE VEREIN."

Der Deutsche Verein entered into the full spirit of the tercentenary last week when it put on a play. Owing, however, to the extreme rarity of Shakespearian dramas which would have been suitable for the occasion, a worthy substitute was found in Benedix' one act Lustspiel,

"Einer Muss Heriaten;" Echt Deutsch in every particular. The production was staged by the class in advanced German and showed the results of Prof. Arnold's able coaching. It was to have been produced in the open air under the balmy trees, but weather conditions made it necessary to retire to room 129 where suitable trees and other scenic effects were portrayed upon the blackboard. The play itself was charming and much new talent was in evidence which will no doubt make itself heard from at different times in the future. Miss Lora Benning as the elderly, well-meaning Tante was a revelation to her many admirers. Mr. Nelson and Mr. Sjostrom as Jacob and Wilhelm also did remarkable work, while Miss Ruby Osmond, as the beautiful, heartbreaking heroine, played true to life.

After the play refreshments were served and many details discussed.

Altogether Der Deutsche Verein feels indebted to Prof. Arnold for a very pleasant afternoon.

INTERCOLLEGIATE

The Literary clubs of the University of Utah presented the two prize winning plays—"Barred Windows", and "Ever After"—to Salt Lake audiences last Friday night in the Salt Lake theatre. The judges of the plays declare that they are the best plays ever presented under similar conditions at the University. Miss Stewart and Miss Williams are to be congratulated upon their successful authorship.

* * *

"Dick" Romney, the star Utah athlete, has been selected to captain next year's basketball team. Romney is a wonderful athlete and should be a first rate captain of any athletic team.

* * *

The Colorado College Glee club gave a concert at Fort Collins last Wednesday night. The Glee club has just completed a three weeks tour through the state. They were received vrey cordially everywhere they went.

* * *

The Colorado College will have its spring festival on May 19. According to reports the festival is to be a real jollification—the kind that perpetuates the smile.

* * *

The summer session of the University of California will open June 26. Professor Frank William Tausig, noted authority in economics will be one of the important lecturers.

* * *

The Montana State College won all four of her debates this year.

* * *

The Seniors of the State College of New Mexico have announced that they are ready for the grand finale. They have decided to leave with the college a fountain and a lamp post. The class evidently believes in the scriptural admonition concerning the light and the bushel.

* * *

The students of the Washington State College commemorated Shakespeare by presenting "Twelfth Night."

SOUTHERNERS HOLD FESTIVITIES

Impelled by a felling of common interest, students from Southern Utah who are in Logan attending the A. C. and the B. Y. C., met last Tuesday night at Murdock's in an informal get-acquainted party. Cards and dancing, with several snappy speeches during supper, furnished the evening's entertainment. J. W. Thornton, well known at the A. C., acted as toastmaster and presided at the table. W. B. Hilton, of Hinckley, responded to a toast "Why I Am Single," and was answered by "Dad" Luke who elaborated on "The Joys of a Benedict." Miss Allen, of Kingston, delighted her southern friends with her interpretation of her "How I Missed My Chance" toast and Pearl Sevey made the diners forget what Mr. Murdock had served them when she told "How a H. E. C. Girl Reaches a Man's Heart."

Those present were: J. W. Connell, Alice Matheson, Charles L. Richards and wife, and Ida Orton, Parowan; Jack Greener, Walter Burke, Jack Wright and W. B. Hilton, Hinckley; Azmon White, Emily Price and Leonidas Hickman, of Beaver; Claud Fri, Helen Gubler, J. H. Wittwer and wife, "Doc" Fordham, Ida Gubler and Melvin Wittwer, of Santa Clara; Gwen Proctor, Panguitch; Robert Gardner, George Gardner and wife, Alma H. Jacobson, and Marie Gardner, Pine Valley; Alma Esplin, Orderville; Aaron Horne, Pearl Sevey, and Myrtle Nebeker, Richfield; J. L. Robinson, Paragonah; I. W. Harmon, Hannah Crosby, Maud Crosby, Mrs. Ray Smith, Grant Prisby, Winnie Hickman, and Moroni Cotton, St. George; Four Allens, Kingston; Ferdinand Peterson, and Delbert Hansen, Redmond; Effie Jones and Mary Bergstrom, Cedar City; Melvin Luke and wife, Junction; Glen Winget, Monroe; Evalyn Lowry, Ferron; Grant Ivins, Enterprise; W. J. Anderson, Filmore; Woodruff Rust and Bessie Spencer, Kanab; Lillian Thompson, Scipio; Lafe Jolley, Washington; Asael Fisher and wife, Meadom; Arch Barney and Dalles Rogers, Kanosh.

AGRONOMY SEMINAR

This subject is for the purpose of helping Dr. Harris and Dr. Davis, in doping up the weekly "College Calendar." Usually Jarvis and Dunford take a few notes and occasionally a member will concentrate long enough to enable him to ask a question. Woolley, McAlister, Smith and a few others tip back in their chairs against the radiators and the wall, and scribble on the back of a note-book or what-not. Woolley usually gets his sociology during this period, Olif Nelson copies a summary or two, while others entertain themselves in various ways. Burnett ordinarily has a knife which he desires to exchange, but he meets considerable skepticism among the members, especially when he suggests his terms of "unsight, unseen." He refuses to show anything but the jaws.

The speaker staggers blindly on through a bulletin on the "Fertiliz-

ing Value of Farm Manure" a stale subject indeed. Jarvis maintains attention pretty good for a while and bears up bravely under the strain, but the rest are gone long ago, unredeemably lost, catching now and then lost and scattered phrases, that bewilder them more and more, and hurl them back in to the wilderness.

Finally the ordeal passes, and the class emerges with clean finger-nails, a few summaries, social pathology, Burnett's trading knife, and an assignment, and a feeling that someone in Nebraska, had written a bulletin on some subject; and a member of the class had spent thirty minutes laboriously trying to summarize the summary, and make us believe he knew what he was doing.

ANNUAL ELECTION OF HOME ECONOMICS CLUB.

At the Home Economics Club meeting Tuesday the following were nominated as officers for 1916-17:

President

Lillian Wight, Eliza Jones, Ivy Lowry.

Vice-President

Vera Merrill, Caroline Wyatt.

Secretary and Treasurer

Grace Edmunds, Vie Kerr, Olive Woolley.

Chairman of Membership Committee

Dora Croft, Ortensia Merrill.

Executive Committee—Elect two

Members

Zelda Kirkham, Helen Thatcher, Olena Smith, Naomi Larsen.

Chairman of Extension Committee

Vera Gardner, Mrs. Cora McBride, Lillian Rowberry.

The election will take place in the club rooms Tuesday, May 9, 12:40 to 5 p. m.

A few articles that were left over from the Bazaar were raffled off.

The members of the club decided to entertain the Ag. Club at a lawn party Monday, May 15, at 8 p. m. on the campus.

THE SCIENTIST'S PRAYER

Oh thou Master Mind, whose ultra-conception hath synthesized the protein complexities of the muscles of the bee or the brain of an Edison; Thou who hast scented the flowers and colored the sunset; who hast adjusted the balance of planets in their orbits to a finer degree of accuracy than that of a jeweled watch—

To Thee, I am grateful, that I, a mere atom in thy great laboratory where planets are but molecules, should have the privilege of faintly understanding a few of the intricacies of thy great handiwork. I am grateful for the chance of using the strength and intelligence Thou hast given me, in directing and diverting the energy (direct and derived) from one of Thy power-plants—the sun.

Help me to know and master myself; to obey Nature's laws; to teach those less fortunate than myself, ever to emulate thy example and strive to be like Thee, sufficiently wise and benevolent to direct the Universe. Help all poor mortals like myself, to make human life on this earth, a successful experiment, worthy of the time and care involved in conducting.—Amen.

Quill Club tonight at 7:30.

If you steal a fountain pen, its bound to leak out.

Important meeting of the Quill Club tonight at 7:30.

Dr. Davis, Hulme Nebeker, Ronald Jensen, Lora Bennion, were guests at dinner at the Theta House, Tuesday evening.

Students and other pedestrians were considerably shocked Wednesday when Erma Allen was met several times on the campus all alone.

In the Art department a few days ago one of the students drew the picture of a hen, which was so life-like that when she threw it in the waste-basket it laid there.

The pansy and tulip beds were left unguarded several days last week while the college's force of gardeners assembled down town and built a lawn around Secy. Coburn's house. Pretty soft Jack.

"A" day was celebrated in fitting style by R. O. Larsen and Instructor-general Batt, who, with their following, constructed the long-delayed sidewalk to the Chem. building. Loyalty was at a premium.

Monday evening the Sigma Alpha fraternity entertained the Thetas at Murdock's. Dancing was enjoyed and later delicious refreshments were served. The table was decorated with apple blossoms.

The Booklovers club met Friday night with Ruby Osmond. Rachael Dunford led the discussion with one of Uncle Remus' stories by Joel Harris. Mr. Hayward read Mark Twain's "Jumping Frog", and Wynona Barber read George Ade's "Two Mando-lin Players."

The scribe who wrote the notice on the bulletin board recently in regards to the Benedicts reunion on the south lawn must have been dreaming of some forgotten age. Following is the notice: "All Benedicts, their wives, their children, and their sweethearts will meet, etc."

Sunday night there was a phil-harmonic concert at the Theta house. Numbers rendered by the Sigma Alpha concert orchestra, violin solo by Jim White, vocal solos by Lucile Rogers, Edna Hansen, Eliza Hulme and Ben Parkinson. Later delicious refreshments were served. Forty were in attendance.

The Delta Nu fraternity entertained with a dancing party in the Woman's gymnasium, Saturday night, April 29. The hall was delicately decorated with gold and red streamers, potted plants, and apple blossoms. The latter lent a delicious fragrance to the hall. Refreshments were served in a garden in the west end. The popular cozy corner decorated with pennants, etc., was an inviting feature of the decorations.

At Sorosis house tonight at 7:30 for the Quill club.

It is rumored the Periwig Club has something up its sleeve.

The Camera club will meet today at 4 o'clock in room 107. Many interesting items will be discussed.

Quill Club meeting at Sorosis house tonight at 7:30. All club members are requested to be present.

Miss Kyle says that she is going to take a course in "New York" next year, and attend Columbia University as a side issue. There are so many courses in New York.

Many of the regular students will attend the summer school, among them is J. W. Thornton, who edited Student Life last summer, and may possibly repeat the offense (?) this year.

Mr. Horace Argyle, '14, who is now Principal of the High School at Grayson, San Juan county, is at the College, employing teachers for next year. Mr. Argyle looks none the worse for having shouldered such a responsibility in such an unsophisticated habitat as far-off San Juan.

Those students who are fortunate enough to be exempted from final examinations, will find their names posted on May 27, the last day of school. The faculty has a genius, (albeit an evil one) for maintaining suspense. They must have some good story-tellers amongst them.

St. Louis will celebrate the Shakespeare tercentenary with an outdoor production of "As You Like It", June 5 to 11, inclusive, by a cast of 1,000 persons, headed by Miss Margaret Anglin. There will be eight performances, one a matinee. All will take place in a natural auditorium in Forest Park having seats for almost 10,000 people.

Prof. N. A. Pedersen went to Salt Lake city Wednesday, to hear a lecture by Dr. Peabody, professor emeritus of Social Ethics at Harvard. Professor Peabody is on his way to Leland Stanford University, but the Harvard club of Utah got him to talk to them Wednesday night. Prof. Geo. B. Hendricks was in Salt Lake also, and heard Dr. Peabody's lecture.

Football men cashed in their suits yesterday and Manager "Jeff" Howells smiled with satisfaction as he turned the key to the store room. The interest taken this spring by the pig-skin huggers has been just enough to assure "Jeff" that he need not fear to tie up the best teams within reach for games next season. Coach Watson injected so much pepper into the huskies during the week he was here that the Aggie dopesters can see nothing but a winning team for next fall.

Sport Rumors

RAY OLSON

The meet with the B. Y. U. tomorrow afternoon is the last one of the year for the Aggies at home. On the sixteenth we meet the 'U' in a dual meet in Salt Lake and a week later is the state meet which will also be held in Salt Lake. Every students should be there tomorrow afternoon. The meet commences at 3 o'clock and student body cards will be honored.

Joe Quinney's got the right idea when he urges that Adams Field be moved up where our athletic field ought to be, and where it really is on the campus east of the administration building.

The L. D. S. high school baseball team beat the University of Utah team last week. The score was 7 to 4, and Utah has now been defeated by three Salt Lake high schools. By the way, there's only three of 'em in Salt Lake.

The Aggie tennis teams in the doubles and singles will clash with the B. Y. U. racquet wielders tomorrow afternoon on the north court. Olif Nelson will play the singles and Bert Carrington and Arno Krikham will make the team in the doubles. The singles will be called at 1:30.

Coach Jack Watson has three brothers who have all played on the De Kalb (Illinois) high school football team and have all taken their turn at captaining the team at different times, some little "rep."

Seventy men reported for the initial football practice at Yale.

Bob Pixton made some good boots last Thursday in the punting contest in which he won first honors, Judd, Kapple and Twitchel also showed up well. Thanks to Prof. Brooke and Rev. E. T. Lewis for stimulating some interest in this department by offering the medals to the best kick-

Fertilizer Quality

When you buy fertilizer remember you are buying what is *in* the goods and not merely a weight of two thousand pounds.

When a smelter buys gold ore he buys not merely two thousand pounds but he insists on knowing how much gold is in the ore, and you should know the amount of active nitrogen, which is the gold of the fertilizer.

For further information write

DR. WILLIAM S. MYERS, Director
25 Madison Avenue, New York

OFFICIAL CALENDAR—UTAH AGRICULTURAL COLLEGE

All notices to go in the Official Calendar must be in the President's Office by noon each Thursday.

Friday, May 5,

11:00 A. M. Faculty Meeting.
11:00 A. M. Student Body Meeting.
7:30 p. m. Quill Club, Sorosis House.

Saturday, May 6,

11:00 a. m. Agronomy Seminar.
3:00 p. m. Track Meet with B. Y. U.

Tuesday, May 9,

11:50 a. m. Animal Husbandry Seminar.
3:00 p. m. U. A. C. Hackamore Club.

Wednesday, May 10,

11:00 a. m. Chapel. Rev. L. S. Bowerman.
"Why I Believe the Bible"

Thursday, May 11,

1:30 p. m. Botany Seminar.

Friday, May 12,

11:00 a. m. Dedication of Be-No Memorial.

ers. What we need next fall is a first-class kicker.

Nate Tolman, the crack B. Y. C. distance runner, ran two good races last Saturday, beating Anderson in the half mile and finishing ahead of our other stellar distance man, Fordham, in the mile.

The B. Y. C. will meet the Idaho Technical Institute in a dual track meet on the 25th of May at Pocatello.

Dont forget you're wanted on the bleachers tomorrow afternoon at three o'clock.

Right now is a good time to begin to boost for winning teams next year. Football prospects are very good but they will not be if everyone does not work when the time comes. Coach Watson left a very good impression with the grid men, but stated that anyone who expected to play on his squad next season would have to show up well. There is no doubt but that every man will come back next fall with the "do or die" spirit. That's what we need.

TWO COUNTY AGENTS APPOINTED

(Continued from page one)
him for county agent work, and for his wide experience and general scholarship ability, and especially for his special work in dairying. Mr. Merrill, the present agent of Sevier county, has a number of co-operative dairy projects under way, which promise to make that industry one of the most important in that section. Mr. Owens is indeed well qualified to carry on this work.

SOPHOMORES CLASS CHAMPS

In the finals of the class tennis tournament the senior team composed of Brossard and Freedman were defeated by the Sophomore team composed of Holmstead and Johnson. Both teams rather played slow ball and very little of real tennis playing was shown. In the second set, however, the sophs set a faster pace and nosed out a victory. The final score being 6-4 & 6-3.

J. Waldo Parry, the B. Y. U. tennis star, and now member of the freshman class easily carried off the single tennis honors by defeating all comers.

STONEY PRESENTS TROPHIES TO CLASS WINNERS

Mr. Harry Stoney of the Logan Arms and Sporting Goods, today presented, through the president of the Student Body, three five dollar tennis rackets to the class champions of the college. The first racket went to Parry, who represented the Freshmen in the singles and easily vanquished all comers in the recent class tournament. "Brig" Johnson and George Holmstead who won the doubles for the Sophomores received the remaining two trophies of victory. To Dave Freedman must be given the credit for suggesting to Mr. Stoney these awards for the class champions. One would have to be more than stoney to resist the onslaught of Dave's eloquence.

TYPEWRITING TEAM TRY-OUTS

Next Tuesday morning at 9:20 and 10:10 try-outs will be held in the typewriting room for the college typewriting team. This team will consist of three members and will be sent to Salt Lake City to take part in the Intermountain Typewriting Contest to be held at the Pantages on Friday night, May 12. All bona-fide A. C. students who are eligible for this contest and if they can write at the rate of about 50 words per minute they stand a good chance of taking this trip.

Two years ago this college won the Intermountain Amateur Typewriting Silver Cup. We lost it last year but the boys are expected to bring it back with them this year. After the Cup is won three times by the same school it becomes the schools property.

UNIFORM FRATERNITY RULES ADOPTED AT "U"

Fraternities and sororities of the University of Utah will hereafter be governed by a uniform set of rules covering all matters dealing with rushing, chaperones, scholarship, entertainments, house rules, accounts and organizations. The rules are the outcome of several months of investigation into the regulation of Greek letter organizations in other universities. They were adopted unanimously by the committee on fraternities and sororities at the meeting held on Tuesday.
