EXECUTIVE COMMITTEE FILLS VACANCY

"MOSE" COWLEY AND MISS CHIPMAN APPOINTED TO OFFICE

At the meeting of the Executive Committee yesterday Moses F. Cowley was chosen Vice-President of the Student Body to fill the vacancy caused by the absence of Miss Gene Cannon.

Mr. Cowley was a member of the Executive Committee and his new appointment made necessary the choosing of some one to take his place. Miss Florence Chipman was chosen to act as a member of the Committee.

Mr. Cowley, familiarly known as "Mose," has been a popular and active student since he first entered the College. At present he is Manager of Student Life and President of the Quill Club. His appointment as Vice-President of the Student Body will be heartily endorsed by every student who knows him.

Miss Chipman has reached her senior year without a great deal of flurry. Quiet and unassuming, she is well liked by all who are fortunate enough to know her. Her ability as a deliberater will have to be proved.

POPULAR STUDENT DIES

LEVI RITER SUCCUMBS TO INJURIES RECEIVED IN ACCIDENT

Last Wednesday morning Levi Riter died. Severely hurt in a runaway accident on Monday afternoon, he never regained consciousness. All that medical attention and friendly ministrations could accomplish was unavailing, and the end came peacefully after two days of great bodily suffering. Though the body writhed in pain, Levi did not feel or know it.

In the death of Levi Riter the faculty and student body of the U. A. C. feel a deep sense of personal loss. A familiar figure on the campus for the past few years, he was widely known and highly esteemed.

Clean in thought and habit, exemplary in conduct, kindly dispositioned, cheerful in the joy and consciousness of youth, ambitious and devoted to his religious ideals, Levi Riter was a young man whose life was worth while.

His philosophy of life was optimistic, his devotion to his mother, though not demonstrative, was whole-souled and affectionate, his friendships were intimate and lasting, and his religious and moral record in the Third Ward, a model of efficiency and service.

Funeral arrangements are continuing upon the arrival of Waldo Riter, a brother of the deceased, who was doing military service in Nogales on the border. Lieut. Santschi wired Captain Wallace at Nogales on Wednesday morning to send Waldo home immediately on furlough.

The heartfelt sympathy of the faculty and student body goes out to those upon whom this blow falls so heavily. In the presence of death and deep mysteries we still adhere to the prophet's observation: "Inscrutable are the ways of God, and his wisdom past finding out."

WITTENBERGER ADDRESSES STUDENTS

POPULAR MINISTER DELIVERS FAREWELL SERMON AT CHAPEL EXERCISES

The Rev. A. F. Wittenberger, pastor, of the Logan Presbyterian Church, delivered his farewell sermon before the students of the U. A. C. at the chapel exercises Wednesday morning. Mr. Wittenberger has accepted a position as pastor of a church in Duluth, Minn.

In an impressively earnest manner the speaker encouraged his hearers to let integrity to self, helpfulness to others, and work, the three foundation stones upon which all true success is built, be the guiding principles of their college days and their future lives. Looking to Jesus as the great exemplar, each may make his life wonderfully fruitful of good.

DR. BALL LEAVES FOR EAST

TAKES UP WORK AS STATE ENTOMOLOGIST OF WISCONSIN

Dr. and Mrs. E. D. Ball left Logan Saturday morning for Madison, Wisconsin, where Dr. Ball goes to assume his duties as State Entomologist, to which position he was recently appointed.

Dr. Ball has been connected with this Institution for the past fourteen years, during the latter nine years of which he ably served in the capacity of Director of the Experiment Station, and the five years prior as Entomologist. Under his direction some very important experiments and investigations have been conducted; one especially, his work in connection with the codling moth, being worthy of special mention. His investigations on this subject have brought to light many things regarding the life history of this insect which were before unknown, and which have been the basis for the development of methods of control by which any orchardist can rid his trees of this pest.

Because of his great amount of practical experience here Dr. Ball is peculiarly fitted to render valuable services in his new capacity. In this position he is connected with neither the Experiment Station nor the University, although located in the same city. This is considered one of the best positions of its kind in the country.

Dr. and Mrs. Ball expect to stop to visit friends at Fort Collins, Colorado, and Ames, Iowa, on their way east.

BLACKNER MAKES DEBUT

Mr. Arnold Blackner, a former pupil of Professor Johnson, made his first appearance before the A. C. student body in the chapel last Friday. Mr. Blackner's rendition of Nessler's "It Was Not So To Be," was enthusiastically received by the students. Br. Blackner has a pleasing voice and sings with a precision which indicates careful training.

The students are especially pleased with the performance of Mr. Blackner, as it indicates what they may expect of the new Director of Music.

COACH WATSON

THE MAN ON WHOM THE AGGIES ARE BUILDING THEIR HOPES

U.A.C. AT DRY-FARM CONGRESS

WILL HAVE EXHIBIT AT EL PASO NEXT MONTH

An official call for the convening of the Eleventh International Dry-Farming Congress, to be held at El Paso, Texas, from October 19 to 21, has been issued by President W. M. Jardine.

The International Soil-Products Exposition, which is conducted by the Congress, will be held October 14-24. This is the greatest exposition of exclusive farm products in the world. Here are displayed the results of modern, scientific, up-to-date farming from twenty states and many foreign countries. Utah has always been prominently represented at this Exposition by her Experiment Station exhibit, and this year promises to be as good as, if not better than, any previous year. The object is to show what has been done here in the way of solving our local problems by experimentation.

The plan of the Utah Experiment Station exhibit this year is as follows: First, The experiments with wheat in relation to irrigation and manual applications will be shown by charts and models. Second, The study of roots, showing the effect of soil moisture and plant food, will be shown by charts and models. Third, A large relief map of Utah, prepared in the Geology department under the direction of Prof. William Peterson, will be shown. This will be tinted to show the dry-farming and irrigated wheat-raising sections of the state. Fourth, The average precipitation over the state for a period of ten years will be shown by charts. Fifth, There will be a variety of farm products shown. In addition the booth will be decorated with sheath and threshed grain.

Mr. C. L. Dunford, who had charge of the Utah Experiment Station exhibit at the Congress last year, will again be in charge of this exhibit. He has been working constantly on it for over a month so our exhibit is expected to show up very well.

The various Station exhibits are provided for by Congressional appropriation.

In addition to sending an exhibit, Utah has always sent representatives to the Congress, and this year will be no exception. We will be ably represented by President E. G. Peterson, Mr. J. W. Paxman and Dr. F. S. Harris, who will present a

paper on "The Irrigation of Wheat." Mr. W. M. Jardine, who is president of the Congress, is an old U. A. C. graduate, so Utah will be well represented this year.

SANTSCHI CAPTAIN

Lieutenant Santschi is no longer "Lieutenant," but for all practical purposes is Captain. He passed a successful examination at Fort Douglas a short time ago. His confirmation has not yet been sent to the Senate. Congratulations Captain.

It may also be of interest to some to know that Lieutenant Binford received a promotion this summer while on the border.

NEW DEPARTMENT FOUNDED

DR. R. O. PORTER AT HEAD OF DEPARTMENT OF MEDICAL SUPERVISION

Instituting a new system in caring for the students of the college, the governing board of the U. A. C. last spring founded a department of medical supervision. The influence of this department has already been felt, regardless of the fact that school work has merely begun.

For those who may be unfamiliar with the work being done by Dr. R. O. Porter let it be said that the one big consideration with him is the health of the students. Every student in the institution is at liberty to consult him. The right of a physical examination with free medical advice and prescriptions is open to the students. Any minor injuries are attended free of charge, the students merely paying for the cost of the material used which in most cases would be trivial. Any injuries that may occur during the school year will be promptly attended to by Dr. Porter.

All who intend to take part in athletics or physical education work are examined and those who are unable to start strenuous training are prohibited from doing anything that may result in any permanent injury. Apparently normal students registering for physical education work this year have been found, upon examination, to have heart lesions—making it necessary for future health to deny them the privilege of participation.

The sanitary conditions of the College are also under the direct supervision of Dr. Porter. Thus far several recommendations for changes have been made by him to eliminate certain unsanitary conditions in the barns and shops.

In addition to the above work Dr. Porter gives courses in Physiology, Sex Hygiene, First Aid and among the Home Economic women is instituting a new course, "Mothercraft."

Such in brief is the work being carried on by Dr. Porter.

The health of the student body is one essential condition to make possible a successful year. The U. A. C. students appreciate the kindness of the board of trustees and feel fortunate in securing the services of Dr. Porter.

He comes to us not as a stranger unfamiliar with conditions here, but being a member of the alumni association of the College, he has a thorough knowledge of conditions and knows the nature of the student body. He was a member of the '12 class and will be remembered by all old students for his active work, especially along debating lines, having represented the College in its intercollegiate contests.

FOOTBALL PROSPECTS BRIGHTEN

FIFTY MEN ON GRID. COACH NEEDS ASSISTANT

Prospects for that championship football team grow brighter every day. Manager Howells announces that he has already given out more than fifty suits.

Coach Watson has more work than he can handle. He could profitably devote all his time to the thirty men who have reported as candidates for positions on the College team. Someone else should have charge of the Freshie squad.

But the coach is giving his boys the sort of work that makes for victory, filling them with pepper and fight, testing their ability to endure strenuous exertion.

From present indications there is no reason why Watson should not have a machine that can face any produced in the Rocky Mountain Conference. Just run down the list of the names of the huskies at the coach's command. Who could desire a better bunch? Here are some who need no comment or introduction: Judd, Kapple, Twitchell, Lindquist, Curtis, Pixton, Hatch, Brig Johnson, Halton, Hendricks, Herold Peterson, "Stubby" Peterson, Gardner, Benion, Cannon, Reese, Egbert, Sutton, Christiansen, White, Morrell, Moore, and "Doug" Smith.

These men are doing punting, tackling, signal and scrimmage work every afternoon in preparation for the first game of the season, Oct. 7th. Manager Howells has invited the West Side High team to Logan for a game on that date.

The Freshman squad "looks like a good prospect" to quote Coach Watson. Though getting very little attention, the "Infants" are working out every night in dead earnest. The squad is made up of "Red" Smith, Granite High, all-time half last year; Cy. Price, Ogden High; Jim Whitmore, Jordan High; Jay Snow, Richfield; Hansen, Monroe High; Magleby, Monroe; Allen Piper L. D. S.; Dick Burton, Star Valley High; Glen Christiansen, Richfield High; Tenny Cannon and Doug Woodruff, Salt Lake, and Cox, B. Y. C.

FROM PRES. E. G. PETERSON

We are proud of the real democracy, the absolute equality of opportunity which exists at the Utah Agricultural College.

The company you choose during the next few months will be a large factor in determining the success or failure of your college life.

We should appreciate the fact that free education is the result of the struggles of generations.

The Agricultural College cannot tolerate the indolent, the slothful, or the iniquitous student.

Now is your opportunity to begin a new life.

The Agricultural College is not devoted to militarism, but wants to be prepared to do its duty to this country.

This institution stands for spirit and moral uplift.

Have you a nose for news? If you have, come in and see the Editor of Student Life.

The spirit of preparedness has really permeated the U. A. C. Battalion. The drill yesterday afternoon was enthusiastic and an unparalleled year of success is assured the military Department.

M. F. COWLEY,

Volume XV. FRIDAY, SEPTEMBER 20, 1910. Number 2.

NOW'S THE TIME

Last year our library was used almost as much for gossip as for study. Now is the time for us to insist on the maintenance of order in the reading room. Every student should understand now that the library must be a place where study can be pursued in quiet.

THE HOOD

It has been customary in past years to publish under the "Hood" any articles submitted to Student Life discussing matters of moment to the Student Body. Again we shall welcome a free use of the "Hood" and shall leave it open to any student of the College. We request that all "Hood" articles be properly signed. Contributions signed with initials only will not be accepted.

CLUBS

Every Freshman should be desirous of becoming a member of one or more of the clubs. The benefits derived from membership in these organizations are more than worth the time that such a membership demands. A word as to the means of gaining admittance to the various clubs may not be out of place; as every organization is now welcoming new members.

The Home Economics Club, the Ag. Club, and the Hackamore (A. H. S.) Club are open to all students registered in their respective departments.

The Camera Club, as the name indicates, is organized for the benefit of those who enjoy using the kodak.

All students who have literary talent are welcomed as members of the Quill Club, after having submitted two acceptable articles, essays or stories, to the present members of the club. Quill meets every other Thursday night.

Anyone having had experience in a foreign land is eligible to membership in the Cosmopolitan Club, an organization which proved exceedingly profitable last year.

Cosmos Club is composed of fifteen members, who meet every other Thursday night to discuss contemporary problems of moment. Entrance is possible only on invitation.

It is hardly necessary to inform Freshmen that after a rushing season of several weeks, the fraternities and sororities invite those whom they choose to become members of their organizations. All anyone can do to obtain fellowship is to accept graciously the attentions of his rushers.

The Benedict Club is a Secret Society. Without the Secret no one can possibly gain admittance. It is impossible for us to inform those desirous of becoming Benedict of the required procedure. It will ever remain a mystery to the uninitiated.

TO COMPETITORS

We are pleased with the interest that has been shown in the competition for positions on Student Life Staff and with the nature of the material that has been submitted. Once again, however, we urge all who have literary ability, and especially those who have "a nose for news" to discover themselves that we may employ them; our efforts to make Student Life a first class college paper.

Obviously it is desirable to complete the organization of a staff as soon as possible in order that our work may progress smoothly without taking too much of the time of a few students. Competitors are, therefore, urged to make contributions not later than next Wednesday at 4:00 p. m.

COLLEGE ASSETS

When it comes to a show of real college enthusiasm, nothing gives quite the opportunity for it that football does. The fact that a man is willing to give from two to three hours each afternoon for a period of two and a half months indicates that his interest in the College lies deeper than the usual get-all-you-can-for-nothing sort. It is an index of a live wire, a booster and a fighter. That man while he may appear a little reserved and a bit disinterested in the general run of things at times, is a fellow you can bank upon. If a crisis shows up you will find him sticking with a backbone stiff as a board and a wish-bone pulled into inspired activity. He's the kind that lasts and succeeds.

To the students of the college who have not participated in any of its activities, the psychological effects of this training will not be appreciated. The majority who see the football

man or another athlete or a debator just as he appears before the public to be handed a fine bunch of laurels, may consider his position with envy, but if you will glance again at that same man as he comes plodding to the gymnasium at night, hot, tired and sore, that position loses its envious pose and becomes one of near repulsion. From the student's angle it may not be so agreeable but to the active participant it's wonderful. Real manhood is never felt quite so keenly as during the time when the last twenty yards toward the gymnasium are traversed. As blood, real red blood, the kind that angles and bolls and creates activity of mind and body to the last dying inch, rushes through the veins of that man, he feels as though the world were not big enough to hold his energies. Tired? Yes, but with a fatigue that's healthful and makes for strength. Discouraged? Yes, again, at times, but with a spirit that calls for a bigger and faster fighting spirit. You can't beat that man now or any other time.

Such are the things we mean when we speak of college assets. Aside from technical, scientific training of the place, it is the one biggest asset of the institution. Freshmen who imbibe it make the leading students during their four year career; Seniors who were found in it make the successful men of their class. Athletics, debating, dramatics, any college activity offers opportunity for this development. Let that opportunity slide past and you have lost a big part of your college work.

WHERE DO YOU TRADE?

Do the students of the College know what makes Student Life possible? It is the advertisements that the business men of Logan give us. Let us show our appreciations

by patronizing those who give us help.

THE BIG BLUE TEAM

See them plunking down to the goal!
See the bright blue banners stream!

Hear the crashing echoes roll
As we cheer for the big blue team!

Yea, Yea, Yea!
Cheer till the sound wakes the blue hills around,
Makes the scream of the north wind yield

To the strength of the yell as the "U" men get hell
When the big blue team takes the field!

Yea, Yea!
One thousand strong we march,
March along
From our home on the green gray height.

Oh! the victory is sealed when the team takes the field,
And we cheer for the blue and white.

Now a mad dash! A touchdown.
Hurrah!

How the joy-wild faces beam,
Now the snake dance, Sizz! Boom! Bah!

As we cheer for the big blue team,
Yea, Yea, Yea!

Cheer till the sound wakes the blue hills around,
Makes the scream of the north wind yield

To the strength of the yell as the "U" men get hell
When the big blue team takes the field.

Yea, Yea!
One thousand strong we march,
March along

From our home on the green gray height.

Oh! the victory is sealed when the team takes the field,
And we cheer for the blue and white.

OUR DIRECTOR

With the goal before you,
White and Blue,

Now altogether,

Smash them and break through—
'Gainst the men from Logan

Naught can they do,
Three cheers for A. C.

For A. C. U.
(Yell) Rah! Rah! Rah!

(Repeat last four lines)

RICKETY BOOM

Rickety Boom, Hurrah! Hurrah!
Rickety Boom, Hurrah! Hurrah!

Hoo-rah, Hoo-rah!

Locals

Fussy: "Que' es esto, Herr Davis?"

Steve Owens is teaching at the Granite High School.

The Juniors are already down to brass tacks in their class affairs.

The Botany I class took their first 'hike' Wednesday afternoon.

Teddy Bennon is out of football practice for a few days, nursing an injured leg.

Dr. Frederick and his class in Vet. Science began work in earnest last Wednesday.

The cement feed troughs now being installed in the hog pens have long been badly needed.

Miss Dunford was elected secretary of the Junior class at the class meeting held Wednesday.

Dick Kapple, George Holmstead, Mose Cowley, Brig Johnson, Hebe Curtis, have joined the Senior class.

Several Sigs are farming this year; Clem West in Oregon and Cedric Snow and George Cahoon in Idaho.

The first number of the Utah Chronicle is in Student Life office. Come in and see a cleverly made up college paper.

Freshmen are losing their identity. They are not nearly as readily distinguished about the halls this week as last.

Commercial Club meets at 1:30 today in room 302. All college students registered in the Commercial department are invited to attend.

Coach Watson and Mr. Robinson would like to meet all men who desire to become sporting correspondents for the Salt Lake papers in the Coach's office at eleven o'clock tomorrow.

The officers of Buzzer Editor Prom Committee Chairman and Student Body Representative for the Junior class will be filled at the class meeting to be held next Wednesday at 11:50. Come all ye Juniors.

The following exchanges are at the disposal of the students in Student Life office: Utah Chronicle, the Rocky Mountain Collegian, the O. A. Barometer, and the Round-Up. They are worth a few moments of your time.

Mr. Ameen Khan of Teheran, Persia, has registered in the School of Agriculture. Mr. Khan is a nephew of the Persian Minister who delivered the baccalaureate sermon to the graduating class last June. He has been in America six years during which time he has done preparatory work in Washington D. C. and in California.

TUNE—DUBLIN BAY

Here comes a bunch of husky men
From the good old A. C. U.
We know what they can do,
They can lick the U. of U.,
Well Cy and Twitchell and Cap and
Steve and all the others too,
They're here to fight for White and
Blue until the game is thru.
We're going to watch them to do it,
And we'll help them all we can,
We're here to back them up and H.
E. C. is in the van.

O now we're going to win,
We've got the team that kin
They're all so full of vim,
It's hard to find a team can beat
them—so we'll give a cheer
To let them know we're here,
We'll show the U. of U.
What we can do.

MARCHING THROUGH GEORGIA

Our boys are on the football field,
They've gathered for the fray;
The A. C. yell is in the air,
We've come to win the day.
We'll teach the game of football
To our friends across the way,
While we are shouting for A. C.
CHORUS
A kick! a shove! we'll send the ball
along
A punt! a buck! we'll send it
through the throng,
No line can stand our fellows
In their struggle fierce and strong
While we are shouting for A. C.

COLLEGE YELLS

A. C.!—A. C.!—Rah, rah! Rah, rah!
A. C.!—A. C.!—Rah, rah! Rah, rah!
A. C.! A. C.! Rah, Rah, Rah!

 Purebred Registered
HOLSTEIN
CATTLE
 The wonderful vitality which
 is characteristic of the purebred
 Holstein-Friesian breed is strikingly
 shown in the career of
 Jette's Rex's Aggie's Artis, owned
 by F. M. Nichols of Lyndonville,
 Vt. She is nearly twenty
 years old and in April was carrying
 her sixteenth calf. For fifteen
 gestation periods she totalled
 232,500 pounds of milk, which,
 at four cents a quart, would be
 \$4,620, at a cost for feed for
 fifteen years amounting to \$1,980.
 She thus shows a profit of
 \$2,640, in addition to which
 must be reckoned \$6,000 worth
 of fine healthy calves. She has
 won many ribbons and prizes at
 fairs and has seven daughters
 with A. R. O. records. There's big
 money in the big "Black and
 White" Holsteins.

STUDENTS URGED TO JOIN GLEE CLUB

Every A. C. student of last year remembers with pleasure the performances and concerts given by the A. C. Glee club. The club not only sang many of the musical selections arranged especially for male choral work but introduced several original pieces. These pieces contributed splendidly to the need of the student body and will be handed down through the years to each successive A. C. student body. "The Big Blue Team," a football song; "The Team That Makes for Victory," a basketball song, and "The U. A. C. Roundup," written especially for the A. C. February Round-up, were the principal contributions of the Club. The Club's work was brought to a very satisfactory climax by the giving of an open air concert from the steps of the main building. Fifteen hundred people sat in the damp chill of an unfavorable May evening and listened to what many appreciative commentators say was the best thing of the year. The size of the crowd, considering the weather, and their splendid attention and applause was an exceptional compliment to the excellent work of the Club.

This year's prospects are very much brighter than those of last year. Professor Johnson who has had wonderful success as a leader of choral work will give his services to the Club. This supplemented by the efficient service of Dr. George R. Hill who did such effective work in coaching the singers last year, gives promise of things undreamed of last season.

The membership of the Club is limited to twenty-four. This makes it very selective. Any member of the student body is eligible on complying with the rules of the organization.

Enjoyment, splendid companionship with a select class of boys, opportunity to get before the public, a very efficient and select training in voice culture, occasional trips and the possibility of appearing on the High School lyceum course and making an extended trip throughout the state and perhaps outside of the state are in store for the fortunate ones who succeed in becoming permanent members of the A. C. Glee Club.

All boys wishing to join, please confer with Prof. C. R. Johnson or J. W. Thornton.

AG. STUDENTS JOIN THE AG. CLUB

The A. C. has many clubs and prominent among them is the Ag. Club. Every student registering in the School of Agriculture is eligible to join.

The Club has a private room in the main building which will be a general gathering place for the members during any of their leisure time and will serve as an assembly room for official meetings.

The Club has a big year's work ahead of it. The Ag. Club Ball begins the high classical functions of the year. There is much work to be done among the Ag. Clubs of the state. A fair is to be held at the College in the spring in which all High School clubs will be asked to participate. A large portion of the work in making that fair a success, will devolve on the Ag. Club.

Every year the Club makes an automobile trip to some interesting farm section of the state. This is a very enjoyable affair in which fun and education are combined.

No student can afford to leave school without the valuable experience to be gained from the clubs. ALL AG. STUDENTS JOIN THE AG. CLUB NOW!

J. W. Thornton, President; George B. Sharp, Vice President; Morrell Powell, Secretary and J. W. Wright, membership committeeman, will be at the service of the students in helping them to become members

SOCIETY

Sept. 25 the Sorosis society entertained at their house with an informal tea. Fifty guests were present. The living room was decorated in pink. In the dining room a color scheme of gold was carried out in the decorations. Sixty guests called during the afternoon.

The Beta Delta Society were hostesses at a Kensington at their house Sept. 26th. Thirty guests were present. The house was tastefully decorated in gold and yellow. Light refreshments were served.

The Sigma Iota Phi Society gave an afternoon card party at their house Sept. 27th. The dining room and library were decked in pink and white flowers. In the living room the color scheme was purple and white. Fifty guests were present. A musical program was rendered and light refreshments served.

The U. A. C. Women's League will give an informal reception in the Smart gym Sept. 29th at 4:30. The girls of the school are the invited guests. It is hoped that the affair will acquaint the new students with the old ones. A musical program will be given. Refreshments are also a feature. Girls, be sure and come. It is one of the most delightful parties of the year.

Miss Eleanor Wilkinson and Miss Agnes Saunders were hostesses at a reception and tea Sept. 26 in the Women's building. The affair was in honor of the Domestic Science students. In the dining room bowls of red dahlias formed the decoration. Eighty girls were present.

Members of the Beta Delta Sorority gave a dinner at their house Sept. 27th. The guest of honor was Miss Aggie Tarbet who leaves for New York Friday.

Olive Woolley and Laura Smith have returned to school.

Miss Aggie Tarbet, for several years one of the best stenographers of the office force, has accepted the position of secretary to Miss Emma Lucy Gates (Mrs. A. E. Bowen). She leaves for New York Friday with the noted Utah soprano. "Aggie's" departure is a distinct loss to the school. She was one of the most cheerful boosters produced in the U. A. C. We extend to her our best wishes for success.

DELTA NU NOTES

October 1916 will no doubt find most of the Delta Nu men back at school. Even some graduates are returning. Lowry Nelson as the President's secretary is comfortably situated to greet all the Frosh frills and curls. Bervard Nichols in the Botany department is occasionally acting as escort to some "fair one," in finding board and room. Edlefson is about as busy as any other married man in the Physics department.

Of the other graduates, Langton Barber is teaching school in Park City High School; Walstein Hendricks is in the East studying veterinary science and Robert Gardner is attending the University of California at Berkeley.

Last year's under-graduates who do not intend to return this year are: John E. Russell, who is at present engaged in business in Omaha; Wilford B. Hilton, who is to leave soon for a mission; Harry Cook and W. L. Bearson, who are working but expect to report for the second semester. Arno Kirkham, Lloyd Nelson, H. Grant Ivins and Elmo Coffman are already back and before the week is over several more old names will be added to this list.

Dr. T. B. Budge's home on Main street is to be the Delta Nu headquarters this year.

PHI KAPPS AT HOME

Things are stirring at the Phi Kapp house on East Center street. Enough men are now in town to justify "starting house" and the house will be going full swing by the first of next month.

DELTA NU IN NEW HOME

The Delta Nu boys are moving into their new home on North Main. They should be able to "start house" by the first of next week.

DE LAVAL Cream Separator Supremacy

38 Years of De Laval Leadership

Supreme in Skimming Efficiency

Over 38 years of experience and thousands of tests and contests the world over have demonstrated the De Laval to be the only thoroughly clean skimming cream separator, under all the varying actual use conditions, favorable as well as unfavorable.

Supreme in Construction

This applies to every part of the machine—to the bowl, the driving mechanism, the frame and the tinware. The De Laval patent protected Split-Wing Tubular Shaft Feeding Device makes possible greater capacity, cleaner skimming and a heavier cream than can be secured with any other machine.

Supreme in Durability

The De Laval is substantially built. The driving mechanism is perfectly oiled and the bowl runs at slow speed, all of which are conducive to durability and the long life of the machine. While the life of the other cream separators averages from three to five years, a De Laval will last from fifteen to twenty years.

THE DE LAVAL SEPARATOR CO.

165 Broadway, New York 29 E. Madison St., Chicago
 50,000 BRANCHES AND LOCAL AGENCIES THE WORLD OVER

Supreme in Improvements

This has been the greatest factor in De Laval success. Not a year goes by but what some improvement is made in De Laval machines. Some of the best engineers in America and Europe are constantly experimenting and testing new devices and methods, and those which stand the test are adopted.

Supreme in Service

With its worldwide organization and with agents and representatives in almost every locality where cows are milked, no stone is left unturned by the De Laval Company to insure that every De Laval user shall get the very best and the greatest possible service from his machine.

Supreme in Satisfaction

De Laval users are satisfied users, not only when the machine is new, but during the many years of its use.

Supreme in Sales

Because they are supreme in efficiency, construction, durability, improvements, service and satisfaction, more De Laval Cream Separators are sold every year than all other makes combined.
