NUMBER 16.

DRAMATISTS INVADE NORTH

"ADMIRABLE CRICHTON" TO BE
PRESENTED IN SMITHFIELD
AND RICHMOND

At last the "Admirable Crichton" is ready for the public and preparations are complete for a raid in the northern part of Cache Valley. Miss Huntsman has been working overtime to whip the cast into form and is satisfied that by the time her artists step before the footlights next Wednesday evening in Smithfield, they will represent a finished product of her coaching ability.

The play has been widely advertised in the northern part of the valley and large crowds are expected both at Smithfield and at Richmond, January 26. Mr. Nichols is taking a cast of twenty-five along, with new costumes from a Salt Lake costumeing house and expects to take the north by storm.

IRRIGATION AND DRAINAGE CONGRESS

A call has been issued by Mr. Israelson of the Department of Irrigation and Drainage to 215 Utah canal companies to send representatives to the first session of the State Irrigation and Drainage Congress, to be held in Logan, January 31. It is hoped at this meeting to effect a permanent organization which will result in making this Congress an annual event.

The same letter which announces the meeting of the Congress contains a notice of a week's course in irrigation to be conducted during the Logan Round-Up.

This work will be the first of its kind to be given at a Round-Up at the A. C. The call for a meeting of representatives of all the canal companies of the state, and the announcement of a special course in irrigation indicates that this important subject is at last being recognized as it should be in Utah.

East High Puts Up Fast Game

AGGIES LEAD ELEVEN POINTS.
30-19 FINAL SCORE

The fast little team from the Salt Lake East Side High held the Aggie hoop squad to a fairly close score in the practice game last Friday night.

It was evident from the first that the Aggies did not have their machine working and would have to rely largely upon individual ball for their points. This lack of team work combined with a weakness in basket throwing, was responsible for the close score, although the visitors played good, consistent ball, being exceptionally strong in the guarding department. Individually there was plenty of speed and clever playing done.

The following is the lineup:
East Side Aggies
Chipman rf..... McMullen lf
Peabody lf..... Evans rf
Smith lf..... McKay c
Worley c..... Tuttle c
Dorius lg..... Kapple lg
Romney rg..... Smith rg
Referee, Barlow, Preston.
Umpire, Bernston, B. Y. C.

Wittwer To Edit Ag. Club Paper

J. H. Wittwer, a prominent member of the Ag Club, has been chosen to edit the Club's paper which will make its first appearance about February 10.

Mr. Wittwer is going to make it go. He has worked as Associate Editor of the Student Body paper of the B. Y. University, and a long and varied experience among the "youth of Zion," has especially fitted him to fill this important position.

The form and contents of the paper has been outlined. Mr. Wittwer is now busy choosing an efficient staff which will cooperate with him in making the paper a real factor in the State Ag. Club development.

BECRAFT CALLS FOR OPINIONS

A committee consisting of A. E. Palmer, Sumner Hatch, and W. J. Merrill presidents of the three upper classes, has been appointed by President Becraft to look into the matter of student body government and report in the near future the results of their investigation. When the report of this committee is submitted the question will be brought before the students for discussion. In the meantime, President Becraft desires that anyone who has any ideas either in favor of self government or against it submit such opinions for publication in the next two issues of Student Life.

It is desired that this matter be placed before the students from every point of view and all who feel a live interest in the welfare of the Student Body should contribute to the discussion.

All articles for Student Life should be in by the end of next week, January 27.

Novel Movement On Foot

WOMAN HATERS ORGANIZE

A new organization has come into existence at the Utah Agricultural College. In response to a long felt need finally brought to a head as a result of the Pan-Hellenic Leap year ball, a number of prominent young men held a indignation meeting last Tuesday and organized a league to be known as the Associated Haters of Women, of the U. A. C. A good spirit was manifested during the meeting due, mainly, Chairman Harold Peterson announced, to the fact that the members were all of one mind and united under one cause.

A tentative constitution was drawn up but it is not the object of the club to disclose its nature, consequently we dare not print it at present. It is enough to say, however, that numerous rules and laws were formulated with severe fines and penalties in case they were not very strictly observed by the members.

The following officers were elected most of them by acclamation: Honorary President, M. F. Cowley; President, Harold Peterson; First Vice President, Tenney Cannon; Second Vice President, Cupid Ward; Secretary Morrell Powell; Directors, Clyde Stratford; L. P. Judd, George Cook, Ted Bennion and Carl W. Peterson; with Swede Lindquist, John Holden and Willie Peterson as the Refreshment Committee. The position of Treasurer was left vacant.
(Continued on Page 4)

W. W. HENDERSON

W. W. Henderson, who comes to take Dr. Titus' place, was born in Cache Valley in 1879. His parents were pioneers of the early fifties, and were people of high moral and industrial type. His childhood and early school days were spent in Logan.

In his youth Mr. Henderson moved with his parents to Idaho, where he lived on a large general farm, gaining valuable experience, and developing large sympathies for farm life, needs and activities.

His high school and college work was done in the Brigham Young College under such notable educators as William Jasper Kerr, E. G. Gowans, Jacob Franklin Miller, Dr. George Thomas, James Henry Linford, Mosiah Hall, James Lambert Gibson, and other men of distinguished success. He graduated from high school in 1900 and was appointed valedictorian of his class. In 1903 he was awarded the Bachelor of Arts degree and was appointed instructor in biology at the Brigham Young College.

In 1904, Mr. Henderson studied at the University of Chicago, devoting his time to laboratory technique in the Hull Biological Laboratories. Following this, he went to Cornell
(Continued on Page 4)

U. PLAY AT NIBLEY HALL

WILL PRESENT "THE RAINBOW"
TOMORROW NIGHT

Tomorrow night, at 8:15 o'clock, the University Dramatic Club will again greet the people of Logan at Nibley Hall. They come to Cache Valley for the twenty-fifth presentation of A. E. Thomas' comedy drama, "The Rainbow."

Wherever the University dramatists have appeared thus far—and they have played from Beaver to Salt Lake City—they have received nothing but favorable comment.

The Herald Republican says that the production at the Salt Lake Theater "approached the zenith of amateur dramatic perfection," and again, that it "compared favorably with any amateur production seen in Salt Lake."

Miss Helen Spencer, Mr. Moroni Olsen, Miss Fay Cornwall, and Don Carlos Wood have received special mention in the press in the southern part of the state.

The players are under the direction of Miss Babcock, Mr. Veatch, and Miss Lila Eccles, a group of very able coaches who can assure a pleasing performance.

Tickets are on sale at the book store. Student Body cards are good for 25 cents.

Morrell "Prom" MAN KNOWN Chairman BY HIS IDEALS

At a meeting of the Junior class Wednesday, Heber Morrell was elected chairman of the Prom Committee, to fill the vacancy caused by Mr. Cowley's recent resignation. Mr. Morrell is well fitted for his position at the head of this most important committee. He has had some executive experience, having acted as president of his class during his Freshman year. He is known as a man of originality, an asset which should serve him well in his work in planning for the Prom. Already Hebe is busy making up his committee and laying plans for commencing work immediately.

U. A. C. CLUB AT SALT LAKE CITY

Mr. Carrington, '16, Secretary to Dr. Widsøe, is living up to his promise made at the recent U. A. C. Alumni Banquet in Salt Lake, and is organizing an A. C. Club, composed of alumni residing in Salt Lake County. A committee of seven consisting of Mr. Carrington, '16; Mrs. Rose Homer Widsøe, '00; Anna C. Christensen, '11; E. T. Ralph, '11; Charles F. Brown, '03; Alice Kewley, '10; and Evelyn Rellie, '13, has sent out invitations to the alumni of Salt Lake County to attend a dinner dance to be given at the Newhouse Hotel this afternoon at 5:30, where it is hoped a permanent organization will be formed.

Students of the College welcome this sign of life on the part of the alumni and look for similar awakenings in other parts of the state.

WRESTLING CLASS IS ORGANIZED

[News that Coach Watson has announced the organization of a wrestling class, to be under the direction of Coach Jensen, is welcomed by followers of the grappling game. Last year Dave Jones and his squad of mat artists were extremely popular with frequenters of the gym. Though the boys did not take part in a meet, they furnished good sport for students of the College.

Again, this year, there is a good nucleus about which to build a strong wrestling team. Williams, at 145, Joe Lowe, at 135, Barry Harris, at 125, and Steve Papworth, at 125, are four fast men. Harris was Intercollegiate State champion at 115 pounds several years ago.

Watson asks all interested in wrestling to report at the gymnasium at 4 p. m. on Wednesdays and Fridays.

THE GLEE CLUB CHOOSES OFFICERS

The Glee Club is now fully organized with Prof. C. R. Johnson, Coach and Leader; J. W. Thornton, Chairman; J. E. Otte, Manager, and Calder Smith, Secretary and Treasurer.

Wednesday and Thursday mornings the final tryouts were held and the twenty-four members that will make up the club were chosen. About forty applications for membership have been considered.

The Glee Club will appear in Ogden.
(Continued on Page 4)

DR. GEORGE THOMAS URGES FIDELITY TO THE TRUTH

Dr. Levi Edgar Young being unable to attend the chapel exercises on Wednesday, Dr. Thomas spoke to the students, urging them to form high and righteous ideals and then live up to those standards with unwavering fidelity. The measure of a man is the ideals he holds up. We all fall short of our best ideals and if they are not lofty, we can never hope to accomplish anything really worth while.

The highest ideal that the human mind can conceive is truth, a desire to always be in harmony with the larger principles which govern the universe, as far as we are able to understand these principles.

Loyalty to a friend and to a righteous cause is one of the highest of all ideals. Judas Iscariot betrayed what Jesus stood for, the establishment of a higher order of truth.

Benedict Arnold betrayed what the American revolution stood for, human liberty. Washington was true to the cause of liberty.

Josiah Royce was cited as one who stood firmly for what he knew to be right. Such men strive to harmonize their lives with the great fundamental truths of the universe, forming high ideals and living firmly up to them.

The work of the choir and of Miss Luna Farrell was enthusiastically received.

GIRLS PAN-HELLENIC GIVES ANNUAL BALL

January 15 witnessed the biggest blizzard of the year. Strange to say, it took place in the Smart Gym. Thousands of snowflakes glittered about the lights and lay in deep drifts on the pine trees around the walls. Overhead hundreds of snow balls danced in gay confusion. In this arctic setting two hundred couples danced through a happy evening. During the snowflake march, vari-colored confetti was distributed in bags. Its scattering caused much merriment and gave the scene a carnival aspect.

The affair was of a Leap Year nature in all details. The girls of the College showed themselves "perfect gentlemen," and did all in their power to give their partners a good time.

The programs were round and resembled snowballs. The insignias of the three Sororities were arranged on their front. Mint frappe and wafers were served.

The party was given under the auspices of the Girls Pan-Hellenic Association.

Those in charge were Jessie Eccles, Erna Allen, Edith Hayball, Lora Bennion, Orita Smith, Eunice Robinson and Georgine Davidson. The patrons were President and Mrs. E. G. Peterson, Dr. and Mrs. George Thomas, Mr. and Mrs. Robert Anderson, Mr. and Mrs. J. W. Watson, Mr. and Mrs. Joseph Quinney Jr., and Prof. Frank R. Arnold.

That Buzzer Prize

As announced in the last issue of Student Life, the Buzzer Staff is to give a prize for the best cartoon submitted to the staff by any U. A. C.

Volume XV. *FRIDAY, JANUARY 19, 1917. Number 16.

THERE'S A REASON

Athletes must have some reward for the time they spend in training, other than the honor they bring to their school. This fact is brought forcibly to mind by the announcement of the giving of awards at our sister institution. In recognition of their work in football, basketball, baseball, and track, sixty-two men are receiving sweaters at the University. Fourteen football men, ten track men, and six basketball men have been awarded the official block "U," while eleven baseball men, nine track men, eight football men and four basketball men have received the English "U." A glance at these awards reveals the significant fact that thirty-two men who did not earn an official letter have been officially recognized by the students. Eleven men who did not take part in an intercollegiate contest of any sort are receiving letters for their work on the baseball team. Besides these men, the Freshie football team is being rewarded.

Contrast the incentive to participate in athletics at the University and at the College. Here only men who succeed in taking part in a majority of the intercollegiate contests receive any reward, whatever. Last spring fifteen men worked consistently on the baseball team and their names have never so much as been mentioned as deserving recognition for their services. Freshmen go unrewarded for their untiring work in football, and as for "subs" on any squad receiving awards, the possibility of such a thing is never mentioned.

Can we ever hope to compete with schools which so far surpass us in the encouragement they give aspiring athletes?

MONTANA'S SQUABBLE

The faculty and the Student Body of the University of Montana are at swords points. The students are up in arms as the result of the faculty's action in disciplining some men who played basketball during the holidays, calling themselves the University team. The students claim the right to deal with such offenders and they have pronounced the action of the faculty in demanding the resignation of the Manager of the Associated Students invalid. The editor of the Montana Kaimin is strong in his protest against the action of the faculty and against the general policy of the University, a policy which he claims is not conducive to the development of the best citizenship.

We take the privilege of quoting one idea from Mr. Streit, which we think expresses very well conditions at our own institution. "It (the University) has not sought to gradually turn over more and more power to the students. It has made efficiency its god, not democracy."

Now that the matter of Student Body government is under serious investigation at the A. C. is the time for students of influence to begin creating a sentiment in favor of this change.

The stone has been turned and should not be allowed to cease rolling until the U. A. C. can boast of real student government.

NELSON AS POET OF THE FUTURE

In a volume of poems entitled, "The Poets of the Future," a College Anthology for 1915-16, published by the Stratford Company, Boston, is found Lowry Nelson's poem, "The Desert Mind," which appeared in Agillitrose last year. This anthology "contains one hundred and forty of the best poems written by American University Students during the past college year." Sixty colleges are represented, among them being but three which can be termed Western and but three agricultural. It is no small honor to the U. A. C. to be thus recognized in literary circles. If Agillitrose had done nothing more than get the name of the College into this volume, it would have performed a great service.

Mr. Nelson is to be congratulated upon the success of his first poetical effort.

INDUSTRIAL EFFICIENCY COURSE PLANNED

Owing to the demand on part of a number of students who are just completing their work in Finance and Banking 8, Industrial Efficiency, Professor Hendricks is organizing a new course to be called Finance and Banking 9. This course will be a continued study of Industrial Efficiency, the text being Gowan's, "The Executive and His Control of Men." Those desiring to take this course should see Professor Hendricks, in

order that he may order the proper number of text books. The class will be held on Wednesday and Friday at 11:50.

PROF. WEST TAKES TRIP

Prof. Ray B. West has recently returned from Chicago where he attended the Convention of the American Society of Agricultural Engineers. Prof. West reports having had a very pleasant journey notwithstanding the fact that he greatly missed the cool mountain air and the balmy breezes of his native State. He says that the convention was well attended, being represented from over the entire country. It lasted three days and proved very beneficial.

On his return trip Prof. West visited the following schools where he paid special attention to the Agricultural Engineering Departments: University of Wisconsin, University of Nebraska, Iowa State College, Colorado Agricultural College, and the University of Colorado.

COSMOS CLUB

The Cosmos Club will meet tonight at 7:30 at the Sigma Alpha Fraternity house. Mr. Cowley will lead the discussion.

He who has a knowledge of other men is intelligent, but he who has a knowledge of himself is enlightened.—Lao-Tsze (Chinese sage.)

PROGRAM OF SCIENCE CLUB

Professor O. W. Israelson, recently elected Secretary of the U. A. C. Science Club, submits the following program of lectures to be given during the remainder of the College year:

January 19—Dr. R. O. Porter, The Theory of Immunity.

February 9—Prof. O. W. Israelson, Utah's Water Right Problems.

February 16—Dr. F. L. West, The New Concept of the Atom.

March 2—Dr. E. G. Titus, Social Life Among Insects.

March 16—Prof. N. A. Pederson, Dominant Ideas in the Modern Drama.

March 30—Prest. E. G. Peterson, Address.

April 13—Prof. L. R. Humphreys, The Evolution of the Gas Engine.

April 27—Prof. Byron Alder, Some Modern Poultry Practices.

May 11—Prof. John T. Caine III, The World's Meat Supply.

May 25—Prof. Calvin Fletcher, The Influence of Science on Modern Art.

HANDBALL CLUB ORGANIZES

At a meeting of handball players held Wednesday, Carlos Dunford was elected president of the club. A tournament will be played for which a medal will be given to the winner.

A fee of 50 cents to pay for the medal has been charged club members. All wishing to join the club must do so not later than February 5, paying this fee to either Carlos Dunford or Ivor Sharp.

Locals

Theresa Horne and Cammilla Ery-
ing, are pledged to the Sigma Theta
Phi Sorority.

Lorenzo Hatch, George Cook and
Lee Dean are the newest members
of the Book Lovers' Club.

The Delta Nus announce Allen
Pyper, Percy Smith, and Sam Mor-
gan as full-fledged members of the
Fraternity.

January 17 the Junior class gave
a schooner party on College Hill. Af-
ter several breathless rides, they ad-
joined to La Von Bennion's where
a hot lunch was served.

The Sorosis Sorority will cele-
brate its eighteenth birthday Janu-
ary 19. A large informal party for
all members, active and alumni, will
take place at the house.

Last Monday Dr. Davis took his
class in Industrial Chemistry to
visit the sugar factory in Lewiston.
The walk from the station to the
factory was made in zero weather,
but even the doctor said he was
repaid for what he suffered in the
way of frosted ears and cold feet.

Mr. Ellsworth Peebles informs us
that he has lost a very valuable
black, leather, doublefolding note-
book containing a pass over the O.
S. L. to Oxford, Idaho, and other
important articles of no value to
anyone but Mr. Peebles himself. The
finder please bring to secretary's of-
fice and receive a reward.

LOST—On the day school closed for
the holidays, December 21, a black
handbag with striped silk lining,
containing \$4.25 in silver, and a
Conklin fountain pen. Finder will
confer a great favor by leaving the
purse and pen at the Registrar's of-
fice; as the owner feels their loss
keenly. Money may be kept as re-
ward.

Quartermaster Sergeant Jerry
Collins, U. S. Army, accompanied by
Mrs. Collins, arrived last week from
Alameda, California. Sergeant Col-
lins will enter the institution as an
instructor in the Military Depart-
ment and assistant to Captain
Santschi. Inasmuch as a R. O. T. C.
is to be established here, Sergeant
Collins will, no doubt, be of great
assistance to the department.

Josephine Taggart, '16, who has
been teaching in Sugar City, was
recently married.

Members of the Be-No Club and
their partners enjoyed a dancing
party at Murdock's January 11. Re-
freshments were served.

George M. Hess, '14, President of
the Student Body in 1913-14, and
Miss Chloe Knowlton of Farming-
ton, were married in the Salt Lake
Temple, January 10.

Do you want pictures of the foot-
ball games, loud socks, etc., for your
album? If so, order of Otte now.
Basketball pictures will soon take
the place of those now on exhibit
in the hall.

PARENT'S COURSE AUTHORIZED

At the recent meeting of the
Board of Trustees, the opening of a
Parent's Course at the A. C. was
authorized. The course will be be-
gun next November and will extend
until March. President Peterson ex-
plains the object of the course as fol-
lows: "In this course, which will
be conducted by the best instructors
in the College, the most choice and
fundamental things in science and
art will be taught and demon-
strations conducted to reveal the
most important facts and principles
of our modern civilization."

These courses will be open only
to mature men and women. No ex-
aminations or prerequisites will be
necessary for the registration in this
course.

The work, as outlined, will cover
"the fundamental scientific facts in
our agriculture and home life, the
essentials of political economy, good
English, social organization, prin-
ciples of science, sanitation, personal
hygiene, a summary of the newest
thought on religion, peace and war.
In brief, the panorama of the
world's development will be present-
ed to the students."

QUILL CLUB PLANS FOR GROWTH

At the meeting of the Quill Club
last Friday afternoon plans for the
publication of Agi-Literose and for
increasing the membership of the
club were discussed. Mr. Stanford
read an original story and Miss Ila
Fisher submitted a poem for com-
ment and criticism.

 Purebred Registered
HOLSTEIN
CATTLE
 Tilly Alcartra, a purebred Hol-
 stein Friesian, is the most won-
 derful cow in the world. In 365
 consecutive days she produced
 30,451.4 pounds of milk or about
 15 tons. In two years she pro-
 duced 60,728 pounds of milk. She
 holds the world's milk record for
 one, two, three and four years.
 Holstein cows hold all world's re-
 cords for milk and butterfat pro-
 duction, but the claim of the Hol-
 stein breed to the title of the
 "most profitable dairy breed" is
 not based on individual tests. It
 is the great uniformity of high
 productiveness of Holstein cows
 everywhere that makes them the
 greatest money makers for dairy-
 men, the world over.

Sophs Hold Jollification

A successful and informal class party was held in the Gymnasium, Jr., by the Sophomores last Saturday evening. Only a comparatively small number was in attendance—just enough to properly occupy the floor—and this, in part at least, was the cause of the good time.

It was one of the most congenial of crowds and everyone entered into the spirit of the affair with the idea of having a good-spirited, free-for-all, jolly time. In fact this propensity was so marked that some became so enthusiastic in 'circle-all' that they disregarded campus speed regulations and as a result came nearly dislocating some of the innocent radiators.

I have said that all had a glorious time; perhaps this is a biased opinion as it has come principally from the fellows—they at least, thoroughly enjoyed it. Why? Oh well, I have heard it rumored that there was a good supply of delicious punch and perhaps the surest way to a man's affections is through his stomach after all!

Special Recital Today

Mr. Johnson announces that his special music students will give their second recital in the chapel this afternoon at 4 o'clock. A program of unusual merit has been prepared and lovers of music are assured a rare treat. Those who were fortunate enough to attend the recital just before the holidays were enthusiastic in their praise of the work of Mr. Johnson's pupils and tell us that no one can afford to miss this afternoon's entertainment.

ASSISTANT DRAMATIC MANAGER CHOSEN

Delore Nichols, Manager of Socials and Dramatics, has selected two assistants to aid him in his work of staging the "Admirable Crichton," Nelson Young, last year's Basketball Manager, and Arno Kirkham, Manager of the Buzzer, are the assistants chosen by Mr. Nichols.

The experience of these men fit them well for the work they will be required to do.

NOVEL MOVEMENT ON FOOT

(Continued from Page 1)
 cant, the gathering being unable to find a man present well qualified to be entrusted with its funds. A committee was appointed to make a thorough canvas of all available men for the position and report at the next meeting at which time he will no doubt be selected.

A number of applications for membership to the league were denied when it was found that they lacked certain necessary qualifications, but the applicants are working with the view of entering later.

It is as yet not known how these tidings will be received among the co-eds, but meanwhile we are waiting breathlessly in the hope that they will see the necessity for such an action on the part of the men.

THE BUZZER PRIZE

(Continued from Page 1)
 student.

The cartoons must be submitted not later than the 15th of March. Contestants will use a non de plum so that the cartoons will be judged strictly on their merits.

Boxes for the collection of the contributions will be placed in the hall.

The Buzzer Staff will decide who is the winner. But the prize! It will be a 1917 Buzzer or its equivalent in cash. The winner may take his choice.

GLEE CLUB CHOOSES OFFICERS

(Continued from Page 1)
 den on Governor's Day of the Round Up, January 27.

The following week it will make several appearances here before the important sessions of the Round Up, and will leave for a tour of the state about February 5. This trip will be quite extended, reaching as far south as Cedar City and Parowan.

W. W. HENDERSON

(Continued from Page One)
 University, where he was awarded the Master of Arts degree in 1905. At Cornell he spent his entire time in the study of insects in their relation to agriculture. He became expert in insect classification and rearranged the classification of many new genera and species. His success at Cornell was such that he was recommended by Professor Comstock for service in the United States Bureau of Entomology. He received an appointment by Dr. L. O. Howard, Chief of the Bureau, but declined in order to accept a position as Professor of Biology in the Brigham Young College.

While at the Brigham Young College, Mr. Henderson received offers at three different times to enter the Government service, but each time declined in order to continue his work there.

In 1910 he was elected Principal of the Weber Academy at Ogden, which position he held for four years. He made a remarkable success at Ogden, and the Board of Trustees, the Faculty, the students and the citizens were loathe to see him leave.

In 1914, following the death of his father, Mr. Henderson found it necessary to leave his chosen field of education for a short time to assume temporary charge of his father's estate.

He has attended many educational conventions, is an active member of the N. E. A. and various other educational associations. He has held many positions which have kept him prominently before the public, and is a devoted advocate of public institutions and community needs.

He will leave shortly for the East, where he will spend his time in study and travel until the opening of the next school year. He has a wife and family, and will take up residence in Logan during the coming summer.

BOOK LOVERS

(Last Friday evening) forth from the gym, out of the midst of those followers of sport, away from that scene of cheers and revelry by night crept the Book Lovers. They dived gaily down Sixth North to where the door of Professor Ogburn's cheery domicile stood wide. "Enter children," quoth the genial Prof. "and bring thy rubbers with thee, for cold is the night and deep the poetical monstrosities into which we delve." Spoon River Anthology; Service Poetry; The Imagists.

Finish it any old way, Grant dear, for my escort becometh weary and impatient and my head worketh not.

H. E. C. IN JAPAN

Wednesday afternoon Grant Ivins talked to the Home Economics Club on the "Women of Japan."

Mr. Ivins discussed the status of the Japanese woman and then described in some detail education, marriage, housekeeping, cooking, serving and interior decoration. He closed with a brief description of some flowers of Japan, explaining the peculiar meaning attached to flowers by the Japanese.

OPERA CHOSEN

Professor Johnson has chosen Gilbert and Sullivan's comic opera "Iolanthe," for production by members of the music department in the spring.

Details as to tryouts for parts will be announced later.

DE LAVAL

Cream Separators
SAVE IN SEVEN WAYS

QUANTITY of cream that no other separator will recover completely, particularly under the harder conditions of every-day use.

QUALITY of cream as evidenced by De Laval butter always scoring highest in every important contest.

LABOR in every way over any gravity system, and also over any other separator, by turning easier, being simpler easier to clean and requiring no adjustment.

TIME by hours over any gravity system, and as well over any other separator by reason of greater capacity and the same reasons that save labor.

COST since while a De Laval cream separator may cost a little more than a poor one to begin with it will last from ten to twenty years, while other separators wear out and require to be replaced in from one to five years.

PROFIT in more and better cream, with less labor and effort, every time milk is put through the machine, twice a day, or 730 times a year for every year the separator lasts.

SATISFACTION which is no small consideration, and can only come from knowing you have the best separator, and being sure you are at all times accomplishing the best possible results.
