USU Courses vs. Defined Courses (John Mortensen)
Some Thoughts about USU-Prefix Courses - Submitted by John Mortensen
Report Date: October 12, 2015

1. USU courses are problematic for students who transfer from USU to another institution. In many instances, a course like USU 1320 will not articulate, but a course like HUM 1320 would likely articulate.
2. Where possible, USU courses should be changed to a departmental course when courses are truly not an integrated course. For example, a section of USU 1350 was changed to BIOL 1010. PHYS 1080, Intelligent Life in the Universe, has never been offered on the Logan Campus, but has been offered as USU 1360, Intelligent Life in the Universe.
3. With multiple sections of some USU courses, a student could take a section of USU 1320, How to Conquer the World, and then repeat the class by taking USU 1320, Great Ideas.

4. When USU courses were first introduced, the intent was that the content would be integrated and that the courses would have a cap of no larger than 50.

Recommendations

Introductions - Trevor Olsen & Peggy Petrzalka

Dawn asked that the committee take a moment and introduce themselves. The committee has two new members: Trevor Olsen, USUSA President and Peggy Petrzalka who is representing the College of Humanities and Social Sciences.

Connections Update – Harrison Kleiner

Harrison provided the committee with an update of the 2015 Connections event. This was the largest group of freshmen to ever attend. There were 2,218 attendees and because of the large number, the event had to be moved to the Spectrum. The process for hiring

Connections instructors will be fine-tuned for next year. There were 82 instructor positions open and 114 applicants. The training process for these instructors worked well. Next year, Heidi Kesler will head up certain aspects of the academic side of Connections; Lisa Hancock will continue to head up programming and arrangements. Using a common literature selection presented a bit of a challenge but seemed to work well. There is a growing national backlash about whether Common Literature is valuable or necessary as a tool for creating a shared experience among students. The committee will work on criteria for the 2016 Common Literature experience. Overall, Connections 2015 was a great success.

Gen Ed Course Enrollments – John Mortensen

John provided information regarding enrollment (*see below*). He stated that there are up to 1,100 more students on the Logan campus this year and that they are seeing growth in the size of the incoming freshman class. Freshman enrollment is at 3,854. Part of the increase is because of the LDS missionaries returning from their missions. John expects that spring 2016 enrollment will increase as well. Face-to-face, online, and broadcast enrollments are also up this year. The question was asked about the goal of the University regarding enrollment, and John stated that the goal right now is a slow and steady increase. Discussions regarding USU courses vs. defined courses was brought up. That discussion will be a matter of business for the October meeting.

Educated Persons' Conference – October 22 & 23, Homestead Resort, Midway, UT
Dawn stated that there are opportunities for a couple more people to attend the conference. Those who are interested should contact Dawn directly.

Curriculog Updates

One CI proposal was submitted but was rejected and returned to the originator for further clarification. The system seems to be working, and it is easy to track the proposals. Michele reminded the committee that all agendas and minutes will be posted in "Box" and they can be viewed there.

Meeting adjourned at 9:35 am

Motion to adjourn meeting made by Trevor Olsen. Seconded by Karen Mock.
