NUMBER 20

## AGGIES WIN FIERCE BATTLE

OLD RIVALS GO DOWN TO DEFEAT BY THE SCORE OF 20 TO 35

They came, we saw them and conquered. In the first real hoop game of the season staged in the Smart Gym. We had the pleasure of seeing our Quint clean up on the the B. Y. C. five to the tune of 35 to 20. Despite the fact that it was not a league game owing to the withdrawal of the B. Y. C. from the collegiate league, it lacked none of the ear marks of that counted. The traditional rivalry of the two schools was lived up, as evidenced by the crowd which turned out to witness the fray.

Before the teams put in their appearance the rooters of the two schools staged a little prelim in the nature of a yelling contest, in which the honors were about even. Both teams were greeted by cheering, which fairly rocked the Gym.

After a few minutes of fast practice, Tommy "Fitz" blew his whistle and lined the teams up. Both teams got away to a fast start and the Big Game was on. The first counter came for the B. Y. C. when Bernston dropped in a free throw. Kapple had the next change from the foul line, and made it count for one. We scored first blood, though, when Evans dropped in the first field basket. From then on our boys steadied down and took a lead which they maintained throughout the balance of the game. Although both teams suffered considerably from stage fright, it proved less disastrous for us than our opponents. The first half was extremely fast and ended 13 to 8, with the Aggies on the long end of the score.

In the second half both teams started out at a break neck pace, but they soon had to slow down, as it was impossible to keep up the speed of the first twenty minutes. The Y. men took a spurt about the middle of the half and for a few minutes it looked as though they would succeed in rounding us off, but after letting them rope a couple, our fellows set our fears at rest by jumping in and rolling up a few on their own account.

Both teams were weak in throwing free tries, the B. Y. getting a little the worst of it in this department. Kapple dropped in 7 out of 14 tries, while Bernston got only 8 out of 18.

(Continued on Page Four)

## MUSIC DEPARTMENT ACTIVE

The Music Department took an active part in the Round Up program. Now that we have had an opportunity to sum up the work done by Professor Johnson's students, we learn that they furnished sixty-nine musical numbers for the entertainment of the farmers and their wives. The College choir, the orchestra, the Glee Club, the Ag Club Quartet, and the A. C. Quartet (Blackner, Johnson, Kirkham, and Parkinson) were all busy, while Professor Johnson, Mrs. Stevens, Miss Greenhalgh, Del Egbert, Arno Kirkham, Mrs. Ashton, Mrs. Holmstead, Benson Parkinson, A. E. Blackner, and Miss Beaumann, rendered vocal solos and Peter Nelson, Gene Austin, and Lora Bennion entertained with their violins.

Unstinted praise was showered on the music department by students and visitors alike.

## "Military" Wednesday Evening

EVERYTHING IS IN READINESS FOR THE BIG CADET HOP

The martial air that seems to be settling about our institution is not alarming, it is natural. It is not necessarily an outburst of patriotism resulting from our diplomatic trouble with Germany, nor a bristling sound of our Mexican indignation. It is but a sign which has appeared at this season for over twenty years, a forerunner of the Annual Military Ball.

Captain Santschi, Major Cowley, and assistants, are working night and day in preparation for the special social event of the year, and those associated with it predict a great success.

The following captains are working as heads of the various committees; Hatch, music and program; Earl, decorating; Holmstead, refreshments; Richards, invitations.

Arrangements are being made for the Governor and staff as well as prominent members of the legislature to be present, and a large crowd of less brilliant Moguls is expected.

It is not yet known what the scheme of decoration will be but no doubt it will compare well with former years. We believe a treat is in store for those who are making preparations to attend the Military Ball.

## Ag. Club Link Makes Its Bow

FIRST ISSUE OF ORGAN OF THE STATE CLUBS IS A WORTHY SHEET

The first issue of the "Ag. Club Link," the official organ of the Agricultural Clubs throughout the state, represents a great step forward in Ag. Club work in Utah. The paper, a pleasing six page sheet, is well made up and contains all of the elements needed to insure the fulfillment of the purpose which its name indicates, the linking of the clubs of the State, which have hitherto possessed no means of getting in close touch with each other.

The message to Utah's Boys, from President E. G. Peterson, the outline of Club Work in Utah, by Professor Hogsenson; J. W. Thornton's, College Club Greetings, and Mr. Palmer's description of the Tournament, to be held in the spring are all such as to stimulate a live interest in agriculture generally and in Ag. Club work in particular.

The messages from the various clubs of the state, from the B. A. C., Carbon County, South Cache, North Cache, Wasatch, Granite, Jordan, and Springville high schools, and from the Dixie Practical Agricultural Club show the real interest that is being manifested in Ag. Club work in Utah.

The editorial page is well cared for. Mr. Wittwer has outlined the policy of the paper and has given to the boys of the state some excellent hints as to the attitude that they should assume in their club work.

The "Link" is well edited, and is a credit to the U. A. C. The publication of this paper lends new significance to the Ag. Club. It marks the farmers as the most alive men in the College. It will make their club a power for good throughout Utah. We can only hope that future issues of the "Link" will be equally commendable.

## GLEE CLUB BACK FROM SOUTH

WELL PLEASED WITH RECEPTION WHICH THEY RECEIVED

The advance guard of the Glee Club returned to Logan Tuesday evening with the rest following Wednesday. Their faces show the valley tan of Utah's Dixie, and their hearts are warm with the remembrance of the big heartedness of our southern friends.

In Salt Lake the law-makers paid the Club a genuine compliment by adjourning a very exciting session that they might listen to the Club's singing. Governor Bamberger was in the throng, and expressed warm appreciation for its efforts.

Monday evening the Club sang to the Roads' Convention assembled at the Hotel Utah.

On board the train Tuesday morning it was discovered that Tony and Del were missing. A ten minutes wait did not bring them into the fold. The train pulled out leaving the two canaries in the Lake. Nophi was reached without further accident. The prodigal sons arrived along in the late afternoon via the "Limbberger Route," to Payson and by "Jitney" on to Nephi.

At 8 p. m. the Club was placed in cold storage for one hour and fifteen minutes. When released from the refrigerator it was discovered that "Mascot" Blackner and "Senlor Circus" Otte had defective voice boxes which placed them on the "hummer" nearly all the remainder of the trip, "Ben" also caught cold and several others denounced refrigeration as a process that unmade rather than made voices.

At 3:40 next morning twenty-six sleepy songsters boarded the "Magpie" express for "Osmosis" (Oasis). They motored to Hinckley about 3:30 and were banqueted by the Domestic Science department of the Hinckley Academy. In the evening a crowded house listened enthusiastically to the recital.

Thursday found them in Cedar City the home of the B. A. C. Everything was done by the people to make the Club's stay pleasant. They filled the house to overflowing on Thursday evening. Delore Nichols' lessons in correct dancing were demonstrated (?) by the Glee boys in a small dancing party in the B. A. C. auditorium.

The Club's respects were paid to Parowan, Friday night. Saturday picturesque Dixie was invaded. Its magnificent scenery and mellow sunshine were greatly enjoyed as were its dried figs, raisins and pretty girls. An appreciative audience responded with applause and frequent encores to the efforts of the Club in the evening.

By 8:30 Sunday morning every songster had left the land of sunshine—the flowers hadn't yet bloomed—for Lund, the railroad station. Bob Blackner performed a movie trick by climbing out onto the radiator and taking the cap off while the car was going sixty miles an hour. Bob caught the train O.K.

Monday night the boys partook of Levi's hospitality which was genuine, largely through the efforts of J. M. Kirkham. The Club gave its concert in the evening to an interested audience.

Professor Johnson and others stayed in Salt Lake to hear the Minneapolis Symphony Orchestra, on Tuesday evening, but all are now back to the "Good Old A. C. U."

The trip was a success. Southern (Continued on Page Four)

## The Relief Fund Committee Reports

RECOMMENDS PERMANENT COMMITTEE—OTHER SCHOOLS URGED TO ENLIST

At the meeting of the Student Body last Friday, Mr. Cowley, chairman of temporary Belgian Relief Fund Committee, made a report of the recommendations of the committee for future organization. The report consisted of three recommendations.

First, that a permanent Belgian Relief Fund Committee be appointed by the Executive Committee to consist of five members, three students and two faculty members, the names of the latter to be suggested by the Executive Committee and appointed by the President.

Second, that the Relief Fund movement be restricted to the College.

Third, that letters be sent to other educational institutions throughout the state suggesting that they undertake to raise a fund for the relief of Belgians.

The Student Body voted with one dissenting voice, to adopt the recommendations of the temporary committee. Detailed plans will be worked out by the permanent committee to be appointed and a vigorous campaign in an attempt to raise a fund that will be a real contribution to the national relief fund will be begun.

All money collected at the College is to be forwarded to the Salt Lake branch of the Red Cross.

## Cowley Wins Hendricks Medal

TALKS ON THE MELTING POT

The contest in extemporaneous speaking for the George B. Hendricks medal proved very interesting to the Student Body, Wednesday morning. Asael Palmer conducted the exercises, and the judges were: Professor N. A. Pederson, Miss Sara Huntsman, Professor George D. Casto, Attorney Roy Thatcher and Reverend Lewis.

"The Melting Pot," by Moses Cowley, came first. The subject was clearly defined and well organized—the Pot referring to the United States in which religion, racial prejudices, and governmental traditions have been melted, resulting in one people out of many nations.

Mr. Wilford Sargent spoke of "The Spirit of the West," dealing first with the western United States and then including the western continent as a whole.

Hulme Nebeker took for his topic, "The Soil," and although a trifle nervous in his manner of delivery, he succeeded in portraying an appreciation of the beauties of nature.

A sense of humor blended with a spirit of sincerity characterized the discussion on "Cracking Nuts," by Sumner Hatch. He referred to the constantly increasing percentage of feeble-mindedness and insanity among our population as one of the present hard-shelled problems our nation has to crack.

W. J. Snow in discussing his subject, "The Yellow Streak," sighted examples of characters who have and who have not possessed the yellow streak and made clear their different effects on humanity.

William Peterson rendered two piano solos while the judges were rendering their decision, which was in favor of "The Melting Pot," by Moses Cowley.

## TRIANGULAR DEBATE TONIGHT

THE B. Y. UNIVERSITY WILL MEET THE U. A. C. IN LOGAN

Tonight at eight o'clock the debating season will be officially opened by the staging of the annual triangular debate. A three man team from the College will meet both the U. of U. and the B. Y. U.

At Logan, Provo and Salt Lake City a debate will be held in which each of the three leading institutions of the state will be represented. Each of the debates is on the same subject, "Resolved, That the United States Should Adopt Universal Compulsory Military Training."

The Aggies will meet the B. Y. U. at Logan and the U. of U. at Salt Lake. At Logan the team to uphold the affirmative side of the question will consist of Moses Cowley, Kenneth Cannon and Heber Meeks. The team that journeys to Salt Lake to defend the negative arguments against the U. of U. will be Harold Peterson, J. W. Snow and Ivor Sharp.

Heretofore the local institution has maintained an enviable record in debating. Our teams have usually been able to convince the majority of judges of their superior ability in the debating art. There is no reason to believe that this record will not be maintained tonight. Each of the men has had considerable experience in public speaking and each has worked diligently to perfect an ironclad argument.

After such preparation the debaters deserve some recognition from the Student Body. Debating work is not the kind of thing that appeals to the masses; it is not spectacular nor showy but it requires weeks of preparation and training just as any athletic sport does.

The debate is scheduled for 8 o'clock. A well filled chapel will be an inspiration to the speakers and an additional stimulus for victory. Besides, the discussion of such an important national policy, taken up from every conceivable standpoint, will be worth any student's time in attending the debate.

## SOPHS WIN INDOOR MEET

GOOD TRACK MATERIAL SHOWS UP. HANSEN AND ADAMS LIKELY MEN

The Sophs walked away with most of the honors at the indoor track meet held Saturday afternoon in the Smart Gym. The second year men annexed a total of 28 points, while their nearest competitors, the Freshmen, could garner but 17½.

The real contest was between the Juniors and Specials for third place, the former, with 9 points to the latter's 8, securing the coveted position.

President Becraft was the only Senior to score; he saved his class from total disgrace when he took first in the hop, skip and jump, and tied with Peterson for third place in the high jump.

Percy Hansen, former U. Freshie, and Adams, from Southern Utah, looked specially good to Coach Watson, the former showing up well in the sprints, while the latter appeared to be a coming high jumper.

Summary

Half Mile Run

White, Soph, first; Barker, Fresh, second; Clinger, Special, third. Time (Continued on Page 4)

### COMMON SENSE ECONOMY

At the University Junior Prom last week no flowers were allowed in the dance hall. The Prom Committee took the stand that roses are out of place in a dance and they were supported by the Chronicle in this attitude. We are heartily in sympathy with the common sense evidenced in the decision of those in charge of the U. Prom, but we hope that no ruling will be necessary in order to impress upon A. C. students the needless extravagance that the wearing of roses to a ball evidences. We believe the most conservative possible estimate of the amount paid for flowers for the recent Fraternity Melee can not be less than one hundred and fifty dollars. If one stops to consider the number of dances at which flowers are worn, it is immediately evident that the money spent for roses by A. C. students in one year reaches a thousand dollars. And we say we are too poor to finance a baseball team; that we cannot afford to spend money on a sport which does not bring us something in return. The money which is spent for roses for one dance would equip a baseball team and send it to Salt Lake and Provo.

We hope that next Wednesday no man will feel bound to purchase roses for his lady, that the needless extravagance which such a purchase represents may be discontinued, and that a sense of true frugality may be in evidence.

### WHERE IS OUR TALENT?

Those who have at heart the welfare of student activities at the U. A. C. have been somewhat at a loss to understand the conditions which exist in our dramatics, as brought to light by the presentation of The Admirable Crichton. We are all aware of the fact that there is much dramatic talent at the U. A. C. We have here a Periwig Club, composed of those who have demonstrated their ability on the stage. Periwiggers were conspicuous for their absence in the cast of the recent play. True, two members of the club appeared in the parts of "supers." Miss Edwards and Mr. Nelson as "supers" in a cast of first year actors!

We are continually reminded of the fact that the success of an athletic coach depends upon the experience of his men, upon his ability to bring back his old stars. We believe the same to be true of a dramatic coach. We should like to have seen the College represented by the best talent on the hill.

It seems to us that things are not as they should be in this regard. Only the best is good enough to represent the College. Are our stage artists indifferent or are methods in our English department to blame for the failure of our best talent to take part in dramatics?

### U. A. C. CLUBS

The organization of a U. A. C. Club in Salt Lake County suggests the possibility of similar organizations in other parts of the state. An A. C. Club in any county could be of great service to the College in interesting high school students in the work given here and encouraging attendance at our school. We suggest that the Alumni Association take the lead in an attempt to organize other A. C. County Clubs similar to that recently organized in Salt Lake County. The publication of the constitution of that Club was published last week, at the request of Mr. Carrington, as a suggestion to those who may be contemplating future organization.

### OUR ENGLISH

The "Parable for Ag. Students" published elsewhere in today's Student Life is worthy a careful consideration by every man in the College. Students in the practical branches of education are prone to underestimate the importance of the study of English; they too often think that they can talk well enough to be understood, and consider that a sufficient mastery of their mother tongue.

Last week we were conversing with a man who has made an enviable record in the employ of the U. S. Department of Agriculture, who has rapidly advanced to a position of trust and who is now conducting experimental work throughout a large part of the United States. In the course of this conversation we were told that, without a doubt, one of the greatest factors in this man's success was his ability to write a clear and intelligible report of his experimental work. This man considered his English work at the U. A. C. fully as valuable in dollars and cents as any work he did at the College. He informed us that he could point to men in the Department of Agriculture whose inaccurate use of English in conversation and inability to express themselves on paper were holding them down and preventing them from obtaining those promotions which their scientific knowledge and experience justify. Students who expect to enter the Government service, or who hope to benefit others by their work of research should not fail to recognize the importance of a study of English and of the power to express themselves both orally and in writing in a fluent and pleasing manner.

### O HELL

Sitting on the bleachers at recent Aggie football games many A. C. supporters have been impressed to varying degrees by the number of cheers that make use of the so-called "cuss" or "swear" words.

The student body uses many cheers that certainly are effective and strikingly beautiful in wording and execution. But when one listens to the faint chorus in response to the announced "E Pluribus Un-

um" or similar cheers one is led to the belief that sentiment is not wholly in sympathy with the cuss word cheer.

Now, the writer does not intend to moralize either pro or con on the value of cuss words in general. Perhaps they have their place and are a means of blowing off steam. If they are used with sufficient force and determination back of them on occasions demanding maximum expression they possibly relieve one's

pent up feelings as no other words can.

But at a football game where the object is to make as much concerted noise as possible of an encouraging nature it seems that a cheer in which all of the rooters participate with spirit would serve better than one that many students are prejudiced against and therefore refuse to join in.

Then, too, the cuss word yell generally has to stretch a point in order to utilize the objectionable words. On the field the player, with necessity for all forces at his command at extreme value, may get a lot of comfort from an expressive oath delivered at the right moment. But observation leads to the conclusion that cuss words are not effective as cheers because they are "off color" with sentiment in general and the cheers in which they are frequently used do not possess other qualities to recommend them. Also, what is the effect on strangers, supporters of the college, and the opinions they form of the cultural value of higher education.

ALUMNUS, '10.

Be your best self always.—Geo. Matthews Adams.

## Locals

Mrs. E. G. Peterson has spent the past week in Salt Lake City.

Miss Ruby Richards is visiting with the Beta Deltas.

A Socialist Club has been organized at the University of Utah.

All flowers were checked at the door at the University Junior Prom.

Mirl Anderson came down from Preston last week and spent a few days with the Thetas.

Del Egbert returned from the Glee Club trip to discover that his home had burned down during his absence.

Harry Cook and the Misses Stone and Shaw, of Ogden, former students, were visitors at the College last Saturday.

The Home Economics Club will meet next Tuesday at 4 o'clock instead of Wednesday. Mr. Purcell will speak to the club.

University football men do not seem to know whether they are trying to elect a football captain or a fraternity president.

Laura Cooper has sufficiently recovered from her recent operation, to attend the picture shows, but has not yet returned to school.

The Student Body dance given in the Smart Gymnasium following the basketball game last Friday night, was exceptionally well attended, and much enjoyed.

The students of the B. Y. U. have elected a lady tennis manager and are asking for an intercollegiate ladies' tennis tournament. Girls representing the school in tennis will be awarded the official Y.

Mr. Palmer wishes to announce that a mistake was made in interpreting the first vote of the judges in the Hendricks Oratorical contest. The votes were divided as follows: Cowley 2; Snow, 2; Nebeker, 1. After conferring as to the rules provided the judges declared Mr. Cowley winner.

### FARM MANAGERS AT HYDE PARK

Professor Greene's class in advanced Farm Management attended the farmers' meeting at Hyde Park last Monday. Mr. Hill, Farm Demonstrator of the Department of Agriculture, Dr. Evans and Professor Greene, spoke to the farmers, after which many records of last year's business were taken. The students assisted in the taking of records.

## SOCIALS

The Thetas entertained at St. Johns Church, Wednesday evening with their annual Valentine party. The decorations were in Valentine colors, hearts and cupids being strewn throughout the upstairs where dancing was enjoyed. The down stairs rooms were made pretty by cozy corners and Valentine decorations. The pledges of the Sorority received and helped in the entertainment of the evening.

A "Forty Years Hence," party was given Thursday evening by Sorosis in compliment to the Pi Zeta Pi Fraternity in the Woman's gymnasium. Those attending were dressed as they expect to look some forty years from now, when women run the government, and men to them must bow. Dancing and games were the feature of the evening. Refreshments were served to about 25 couples.

The Seniors entertained the Juniors at an Auditorium skating party February 13. Many of those present registered a good impression—on the floor. Beginners and 'sharks' of the art each showed their grace of motion, or the lack of it. The grand finale of the evening was a relay race between the two classes. The Seniors were speedy from the start and finished the last lap many lengths ahead in splendid form.

The girls of Sorosis House were hostesses at an informal Valentine party, February 14. Twenty-six were present. The living rooms were strikingly decorated with festoons of red hearts. Pink roses and red carnations were pleasing adjuncts. A delicious hot luncheon was served. Various games were played during the evening.

### BETA'S HOLD SECOND ANNUAL

Friday, February 9, the second annual Beta Delta dancing party was held in the Women's gymnasium. The hall was charmingly decorated. An elaborate scheme had been worked out in red hearts and white cupids. Two cozy corners added very much to the decoration scheme. Delicious pineapple frappe was served and the orchestra furnished excellent music.

Thirty couples were present, including the patronesses of the Sorority, Mrs. George R. Hill Jr., Edith Bowen, Mary Sorensen, and Johanna Moen.

## WANTED

The Buzzer Committee on photographs would like to rent or borrow two Senior caps, one large and one small, and two Senior gowns, one a lady's and one a gentleman's. Anyone knowing the whereabouts of such will confer a favor by informing Arno Kirkham or Sumner Hatch.

 All records for butterfat pro-  
 duction in 365 days, not only Hol-  
 stein-Friesian but those of all other  
 breeds, were broken in 1915 by  
 the registered purebred Holstein  
 cow, Duchess Eklark Ormsby,  
 124,514, when she produced 27-  
 161 pounds of milk containing 1-  
 205.09 pounds of butterfat. The  
 test was made under the supervi-  
 sion of the Minnesota Agricultural  
 College, thirteen different super-  
 visors being employed. This  
 wonderful cow freshened at the  
 age of 3 years and 3 days. Hol-  
 stein cows as a rule milk longer  
 and produce much larger quanti-  
 ties of milk than any other breed  
 a fact that has made them the  
 choice of progressive dairymen  
 everywhere.

# AGGIES WIN FIERCE BATTLE

(Continued from Page 1)

In shooting field baskets also both teams had considerable hard luck—or something else. Many attempts from directly underneath the baskets failed. However, it is hoped that it was merely the result of stage fright and that we have suffered our first and last attack.

One of the happiest surprises of the game was the showing of our elongated center, McKay against Barlow. It was generally feared that Barlow would take McKay into camp but he upset all the dope by taking five field baskets to Barlow's two and by out-jumping and outplaying his opponent in every department of the game. Kapple was high man in the scoring columns with a total of 15 points. Captain Dick succeeded in getting mixed up in almost every play and proved that he is entitled to lead the five. Midget McMullen kept his opponents at a loss as to his whereabouts, diving between their legs, or over their heads as the occasion demanded. For the Y. men, Maughan at guard, played particularly well and deserves much credit. The game was very clean, considering the determination of the men, and the refereeing of Tommy Fitzpatrick was up to the satisfactory standard which he has always set.

There was only one thing which really marred the game and that was the action of the Aggie rooters in stirring up trouble with the Y. supporters. We should have been courteous enough to entertain the Y. people without dragging them into a fight which they did not want to get mixed in. "Let's try to be gentlemen, be it ever so painful."

The team left for Salt Lake this morning where they will clash with the U. for our initial league game. Saturday they go to Provo to tangle with the B. Y. U. Here's luck to them.

Lineup and summary:

	U. A. C.—35				
	Field	Free	Foul	Tot	
	Goals	Tries	Goals	Pts	
McMullen, lf	0	0	0	0	
Evans, rf	4	0	0	8	
McKay, c	5	0	0	10	
Smith, rg	1	0	0	2	
Kapple, lg	4	14	7	15	
Totals	14	14	7	35	

B. Y. C.—20

Bernston, lf	1	18	8	10
Haws, rf	2	0	0	4
Barlow, c	2	1	0	4
Neeley, rg	1	0	0	2
Maughan, lg	0	0	0	0
Totals	6	19	8	20

Referee—Tommy Fitzpatrick.

## SOPHS WIN INDOOR MEET

(Continued from Page One)

1:56.  
 40 Yard Dash  
 Hansen, Fresh, first; Bennion, Soph, second; Turner, Soph, third. Time, 4 1/2 seconds.

220 Yard Dash  
 Turner, Soph, first; Bennion, Soph, second; Maughan, Soph, third. Time 24 seconds.

High Jump  
 Poulter, Soph, first; Adams, Fresh, second; Becraft, Senior, and Peterson, Fresh, third. Height 5 feet 7 inches.

440 Yard Dash  
 Stevens, Fresh, first; Hanks, Special, second; Hyde, Special, third. Time 52 1/2 seconds.

Shot-Put  
 Hudman, Junior, first; Crookston, Special, second; Hansen, Junior, third. Distance 33 feet 1 inch.

Hop-Skip-Jump  
 Becraft, Senior, first; Hansen, Junior, second; Adams, Fresh, third. Distance 28 feet 8 inches.

Relay  
 Sophs won by default.

Summary  
 Sophs, 28 points.  
 Freshmen 17 1/2 points.  
 Juniors 9 points.  
 Specials 8 points.  
 Seniors 5 1/2 points.

# A PARABLE FOR AG. STUDENTS

Once upon a Time there was an Average Youth who could spell most Words of One Syllable and knew enough Composition to Write Home for Money. He could tell a Hawk from a Handsaw and Discourse Intelligently on the Scientific Method of Planting Corn. So his Parents sent him to College, for, they said, "We owe it to Humanity to give Bill an Education."

In College, Bill took a Course in English, for he was desirous to impart his Wealth of Knowledge to the Hungering Souls in Outer Darkness. He learned to know a Metaphor at Sight and was on the most Intimate Terms with Climax and Hyperbole. He called the Figures of Speech familiarly by their First Names, and could give with Nice Distinction the Differences between a Pleonasm and a Platitude.

But no one had ever shown him how to harness this Knowledge for Use in discussing the Things he was Interested in as a Rah Rah Boy or the Things he should have been Interested in as a College Student. He used Slang with no Discrimination, and as for Capitals and Punctuation, his manuscript looked like a piece of Free Verse with the Spotted Fever.

So although he applied himself diligently to his Studies, knew all the Weak Spots in the Materialistic Conception of the Universe, had Pat the effect of the Industrial Revolution on the status of the Poor Workingman, and understood perfectly why you cannot Square the Circle, when he got up to Recite, his Instructors could not Grasp his Meaning. While he founded like a Ship at Sea, they sat by Indifferently and didn't even Throw out the Life Line. As for the Folks back Home, whenever he wrote to them enlarging on the Beauties of the Higher Education, they shook their heads and went on with their Plowing.

When, after Four Years spent thus in the Classic Halls of Academe, Bill set forth with his Sheepskin in one hand and his Carpetbag in the other to Seek a Job, he was surprised to find that he had Difficulty in convincing his Listeners of his Peculiar Fitness. They thought he might Do Well as a Pantomime Actor or in a Foundry, where all communication is by Signs. Frequently they referred him to Mr. Smith around the Corner, who had a Splendid Opening for a Plumber's Assistant.

Bill is doing the Plowing on the Home Farm now.  
 Moral—Look Well to Your English.—Selected.

## AN OPPORTUNITY FOR ORATORS

Professor Pedersen and Miss Huntsman met Wednesday with six students to discuss the possibility of the U. A. C. taking part in the International Peace Association Oratory Contest to be held next month. The plan of the contest was discussed and those present were appointed a committee to look into the possibility of raising a fifty dollar prize for the winner of the contest at the College.

Professor Pedersen is enthusiastic about the opportunity presented by this contest, an opportunity to gain a national, if not an international reputation in the field of oratory. Not only is there a chance to obtain some honor, but a thousand dollar cash prize awaits the winner. Professor Pedersen thinks there is no reason why an A. C. student should not be a strong bidder for the honors.

The speeches required in the contest will be sixteen minute memorized speeches. The preliminary orations at the College will take place about the middle of next month.

## AG. CLUB TO ENTERTAIN HOME ECONOMICS GIRLS

Next Monday evening in the ladies gymnasium the Ag. Club boys will show the Home Economic Club girls a real pleasant time. Get your overalls and your sack aprons ready for the event and step out at 8:30 Monday evening, ready for fun a-plenty.

## PRACTICAL INSTRUCTION

A letter from Delore Nichols, who is giving dancing lessons at Cedar City, contains the following:

I gave a dancing class and told them all about correct dancing, non-hugging and all that stuff; then to finish it, the Glee Club fellows got out on the floor with the little girls and gave them some of those good old A. C. hug positions. They have ruined me!

## DELTA NUS ENTERTAIN

Thursday evening, February 8, the Delta Nus entertained their members and a few invited guests at an informal party.

After some "break-the-ice" games at the Fraternity house, the crowd journeyed down to Murdock's, where they danced until midnight.

## GLEE CLUB BACK FROM

(Continued from Page One)  
 Utah now is more fully aware than ever that the Agricultural College is on the map.

The subject for the good and wise man is his own master-faculty.—Epictetus.

## THE NEW DE LAVAL A Bigger and Better Cream Separator for the Same Money

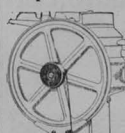

THE FARMER who buys a De Laval this year will get bigger and better value for his money than ever before. Not only will he get a better machine, a simpler machine, a machine that will skim even closer than any previous De Laval, but he will get a machine of larger capacity.

And the price has not been increased one cent. Just think what this means to cow owners in the face of rising prices on almost every thing else the farmer has to buy, including other cream separators.

Only the tremendous volume of De Laval sales makes it possible to give the farmer more for his money when others are giving less.

The NEW De Laval is the culmination of nearly forty years of experience and development by the largest and oldest cream separator concern in the world.

## Important Features of the NEW DE LAVAL

**Greater Capacity**  
 Without increasing the size or weight of the new bowl, its capacity has been increased.

**Self-Centering Bowl**  
 The bowl is loosely supported upon the spindle and will run true and do perfect work even after long wear.

**Skims Closer**  
 The improved bowl design, together with the patented milk distributor, gives greater skimming efficiency.

**Disks Interchangeable**  
 All disks are exactly alike, are unnumbered, and are interchangeable.

**Fewer Disks**  
 There are fewer disks in the new bowl, although the capacity is greater.

**Easier to Wash**  
 Simpler bowl construction and fewer disks, caulked only on the upper side, make the bowl easier to wash.

**Easier to Turn**  
 The low speed of the De Laval bowl, large capacity for the size and weight of the bowl, automatic oiling and high grade workmanship, make the De Laval the easiest cream separator to turn.
