DR. THOMAS BIDS FAREWELL TO STUDENTS

Well Known Professor Makes Many Valuable Suggestions In His Parting Address

Dr. Thomas tendered his farewell to the students of the College last Friday in the regular Student Body meeting in a timely and inspirational address. The actuality of parting seemed to strengthen the link more than ever that had so long held Dr. Thomas in close contact with the Student Body, and the advice contained in his last address to the students will long be cherished by all who heard him.

Dr. Thomas referred briefly to his own struggles for an education, and urged others to follow that example stating that no sacrifice is too great which may be done in favor of scholarship and education. The world must be either a democracy or an autocracy and it largely depends upon the leaders in the community, of which college men should form a major portion, which it shall be.

His long service with the college has brought him in close contact with students, faculty and alumni, and among these he numbers his best friends. He stated that while he regretted leaving the institution which he loved and had labored for, he felt that a new duty of utmost importance had been assigned him and that his place belonged in this new field. He concluded his address by saying, "Wherever you meet me I perchance I should not recognize you, make yourself known and you and your old teacher will be friends forever."

Long Years Of Service

Dr. Thomas first became connected with the institution in 1898 when he was employed as Professor of Chemistry for two years. He returned to Harvard, the following year, and received an M. A. Later he obtained a Ph. D. at the University of Halle, Germany. To complete his education he did post graduate work at the University of Berlin and the University of Paris. He returned to the College in 1907 where he was first made Professor of History and later Professor of Economics and Sociology. Since that time his term of service has not been broken until the present.

During his connection with the College Mr. Thomas has occupied a place of trust among both students and faculty. Not only has he been the trusted friend of everyone, but his broad mindedness and sympathetic nature have contributed to place him in an advisory capacity for both students and faculty. Faculty and alumni members learned to recognize his mature judgment in affairs concerning the institution and students prompted by his wonderful sympathy and kindly nature have made him a friend in trust.

Associated With The Growth Of The College

Since the day he first entered the halls of the College, Dr. Thomas has worked with untiring effort for the growth and healthy enlargement of the institution. His influence has

HEBER MEEKS
President-Elect

Roster Of Officers "A" Day Program Chosen Outlined

Meeks Selected As Executive Head For 1917-18—Campaign Quiet But Full Of Interest

Several new records were established at last Friday's election, the largest number of students ever recorded voted and an unmistakable sentiment of the students was expressed by giving the winning presidential candidate a majority of one hundred sixty-five votes which was thirty-eight more than the entire vote cast for the loser.

An excellent roster of officials for next year was selected. Heber Meeks was swept into the president's position receiving 292 votes against Moses F. Cowley's 127.

Lavon Bennion, as vice president, and T. H. Morrell as Student Life editor, had no competition and secured those positions by acclamation.

A closer vote was cast for secretary with 169 votes for Lora Bennion; 157 for Rachel Dunford, and 90 for Eva Joy Neilson. Miss Bennion was elected by a majority of 12 over Miss Dunford and 79 more than Miss Neilson.

W. J. Snow led the executive committee aspirants with 220 votes with Thomas McMullen a close second with 215 votes; Samuel Morgan, the third member elected, received 176 votes, having a bare majority of 4 over Miss Ivy Lowry, who received 172. George Hanson received 120; Arno Kirkham, 131; Howard Christensen, 92; Robert Pixton, 75; and Mabel Williams, 52.

Hugh Harvey, of "Booster Show" fame, landed the canary job and will swing the song leader's baton next year.

Berton M. Fitzgerald will further develop his already recognized ability as cheer leader and next year A. C. rooters will yell while victory or defeat is theirs.

With a solid Student Body behind the new officials, 1917-18 should be a banner year for the A. C. Student Body.

Day To Be One Of General Festivities And Celebration—Committees Appointed

In compliance with the motion passed in the Student Body meeting of two weeks ago a committee was appointed to draw up plans and make final arrangements for the "A" day celebration.

This committee consisting of Moses F. Cowley, Dr. George R. Hill, Harold Peterson, Ray Becraft and Jessie Eccles, met immediately and appointed other sub-committees who were assigned certain tasks in connection with the festival. An outline of the day's activity has also been formulated and definite program submitted.

It has been the aim of all concerned in the "A" day program to make the day one of general celebration and spring festivities. In connection with it, however, there has been some attempt made to make a little money which will be applied to the school treasury and our depleted athletic fund.

The day will begin with a salute at sunrise and already attempts are being made to locate the biggest cannon and loudest noise makers available. The morning will be given over to a military demonstration in which the local school battalion will be the participants.

At 11:30 a luncheon will be served on the campus. This luncheon will probably be served by Mr. Coolidge of the Cafeteria and will be sold at a uniform price. During the luncheon period the College band and orchestra have agreed to furnish the music.

The afternoon is to be occupied with athletic sports which will include both students and faculty members. Following this the dancing festival given by Mrs. Johnson's dancing girls will be staged on the College lawns.

The evening's entertainment will begin promptly at sunset with a salute of the flag by a picked company of cadets. This will be followed by a

(Continued on Page Four)

MUSIC DEPARTMENT TO PRESENT "IOLANTHE"

The College Opera Company Will Give Production With An All Star Cast

We are to be presented once more with the delightful sensation of viewing a U. A. C. opera. All of the older students of the institution have heard and reheard of the successes which formerly attended the College operatic performance, but these were all history. Now we approach the time once more when we can view, and revel in our own satisfaction, an opera given under the direction of our own College musical department. It will be the reproduction of tradition which every student will welcome and cherish as one of his real college pleasures.

The production of Iolanthe promises a real innovation in footlight performances. The story is a delightful mixture of the real and the "super-real" combining humans, fairies, lords, ladies, and foulait dancing girls. It begins with a romantic lone affair between a fairy and a mortal and deals mainly with the strange occurrences that come as a result of an infatuation between two so widely separated.

There need be no fear of its climax, however, since here, the barriers between the real and the unreal are swept entirely away, and mortals and fairies join in one sublime world of pleasure.

Judging from the cast of characters the singing in the opera will be of the highest quality. It is generally understood that the A. C. supports some of the best vocalists in the State and all of these have been utilized in presenting Iolanthe. Besides the leads the chorus working under the careful supervision of Professor Johnson, promises a surprise to music lovers.

Space does not permit us to make individual mention of those who participate in the opera, but the ability of each is so well recognized that a glance at the roster of characters will convince any one of their superlative ability.

In the line of dances the cast has been further strengthened. Mrs. Johnson has selected eight of her best pupils and given them special work in the dances connected with the opera.

The entire production will no doubt set a new mark in this line of musical activity, and bring into the lime-light much talent which had heretofore been hidden from the students view. We wish to congratulate Professor Johnson of the musical department and the school at large, for uncovering this activity and attempting the production of an opera such as Iolanthe.

Following is the cast of characters:

Thrift And Economy Freshmen Play To Theme Of Chapel Night At Nibley Talk Hall

Representatives Of Both Faculty And Student Body Urge Action Along These Lines

The nation wide movement of Thrift and Economy was given a stimulus by the College at the regular chapel exercises of Wednesday. Both students and faculty voiced their sentiments and offered timely suggestions as to the methods to be pursued in furthering this important cause and outlined methods to be employed in the campaign of food conservation.

Professor John T. Caine made his first talk of the year and was enthusiastically received by the students. He pointed out the immense sums which are being spent in pursuing the war and the suffering which is being inflicted as a result. "We are no longer isolated from the rest of the world due," he said, "to

(Continued on Page Four)

Youngsters To Present "Dandy Dick"—Proceeds To Go To Red Cross

The Freshmen of the institution are setting a new mark in class activities by presenting an all Fresh play. "Dandy Dick" has been chosen as the initial performance, and judging from the reports which have been circulated it is to be a big attraction. The entire cast is composed of members who have had considerable high school experience in dramatics, while some have had additional coaching in college. The play chosen has received high commendation from the English department and will give ample opportunity in interpretation for our younger classmen, as they appear before the footlights. Besides the coaching of Mrs. Johnson speaks well for the production.

Mabel Larson's wrath is tremendous in the Opera.

The Fresh show is being pretty well advertised.

You are not supporting the opera if you go alone; take some of your friends with you.

Sorosis Sorority announces the pledging of Ivy Lowry, Martha Carlyle, and Ina Porter.

"Farmer" Reese, left guard on the football team, has quit school and joined the artillery corps of the U. S. army.

Applications for graduation must all be in by May 1, according to recent word from the faculty. All incomplete grades must be arranged for by that time also.

Admission for Iolanthe will be as follows: \$1.00 seats to students, 50c; 75c seats, 50c; Student Body cards are good for the 50c seats. Tuesday night is Student night.

Mr. Morrison, the famous cartoonist, was a visitor in our halls Wednesday and while here, made several portraits of merit. Mr. Morrison looks like a spy, but in reality is a very amiable gentleman.

Some of the Ag. courses will soon be without jobs if students continue leaving school. In a number of the classes enrollments of twenty or more have dwindled to about five. By next week teacher and pupils will all be able to sit in one chair.

The Buzzer is now practically finished and the remaining material will be shipped off this week. If all goes well the book will be out by May 20. Students leaving school should leave their addresses with the Buzzer Staff and have it shipped to them later on.

The Commercial Club will hold a dancing matinee tomorrow afternoon at 4 o'clock in the gym. The fee for admittance will not be high but the quality of the affair will justify the attendance of every student. This will be the farewell dance to most of our friends who are leaving for the front and the rear.

The newest thing in conservation of energy is being worked successfully as follows: Mustard seed is gathered, the juice is extracted and used on last year's coat which then looks like new and thus cuts down expense. Anybody can do it by simply stopping someone clad in yellowish brownish green, and slipping them a quarter for the formulae. The rest is easy, try it and be in style. Never before was the song, "Too Much Mustard" more appropriate than at the present.

Recruiting has come to a standstill since the women haters disbanded.

Don't fail to see the graceful coeds in the role of Airy Fairies in the opera!

Mrs. S. S. Pond has been in Logan during the past week visiting with her daughter, Miss Lillian Pond.

Sven Hansen is going to Garfield next week to help in increasing the nation's output of food material.

Special—Several of the U. A. C. boys have been admitted to the English nobility. For further information, see the Opera.

Dale Turman and Clawson Skinner have responded to the colors and left last week to join the U. S. Aviation Corps in San Diego.

Hansen, Anderson and Magelby, the husky carrot eaters of frosh football fame, departed for their homes in Sanpete on Tuesday.

On the truth that great things are often done up in small parcels, "Dandy Dick" may be seen for a moderate admission Friday evening.

President E. G. Peterson has received a letter stating that the Improvement Era is offering a \$25 prize for the best essay on Utah Pioneers. Those wishing to compete for this prize will see Lowry Nelson for particulars.

Someone with a poetic genius should compose an ode to that Saturday evening mobilization camp, where a great many of us congregate and pay our respects to each other until the floor manager announces that the game is off until next week. Hand it in, Student Life will print it.

Otis Nielsen, son of David O. Nielsen, of Hyrum, and a student at the College, passed away on Tuesday, after a protracted illness of Bright's disease, culminating in the last stages in hemorrhages of the lungs. Funeral services will be held in the Third ward chapel at Hyrum tomorrow at one o'clock.

No one can truthfully say that the gymnasium is being overused lately, nor is the cinder track being burnt up or the other athletic equipment put to the usual knocks and misuse. Everybody with any ability is stepping for the far corners of the State where, if the war does break loose, they won't hear about it until it is over.

The Seniors organized their Cadet company yesterday with the following officers: Captain, Harold Peterson; Lieutenants, Morrell and Otte; first sergeant, Dick Kapple; corporals, Wright and Price. Active drill was at once commenced and during the afternoon the boys marched twelve miles up and down the hill, but withstood it fine.

Weather And Travel Affect Athletics

During the past week the coaches have been forced to rest on their arms. The main reason for this was the inclement nature of the weather, but the fact that so many students are discontinuing school also had a great deal to do with it.

An inter-frat baseball series had been planned but had to be postponed as the field was not in the best of condition for the Hellenes to romp on. Next week this condition will be much improved, at least we hope so, and the regular routine will be taken up.

Tennis is as popular as ever and the cement courts are under constant use when not under six inches of snow. The new by-word of "one

half hour a day" will still be sung at every corner of the halls and students and faculty will no doubt turn out for their share of it. A few weeks of good weather and everybody in school should be fit as a fiddle.

People with time at their hands should drop around at the coach's office every now and then and go over the situation with them. They will appreciate it.

THRIFT AND ECONOMY IS THEME OF CHAPEL TALKS

(Continued from Page One) Our geographical conditions, but are bound closer than ever, by the ties of humanity, to take a part in this great struggle." He illustrated in a specific manner the extravagance of students and gave suggestions for following more conservative and economical practices.

Miss McChyne in a fluent and eloquent address clearly pointed out the position of the women in this great movement. She termed it as a patriotic duty that every girl should follow economic practices and utilize every spare moment in preparing to meet this shortage of food materials.

Erna Allen and Harold Peterson representing the Student Body each gave talks reflecting the sentiment of the students and urged every member connected with the institution to play his or her part in augmenting this movement so important to the welfare of the State and Nation.

CADET INSPECTION

The annual inspection of the local cadet battalion will take place on Tuesday beginning at 8:30. An officer will be present from San Francisco and will make a careful study of local military conditions. This event is always one of the feature events of the year for those who carry the rifle and this year it becomes especially interesting due to the condition of the country at large.

The visiting officer will find the boys in good fighting trim and we are confident that his report will be of the most flattering kind for Capt. Santschi and his soldiers.

The assembly will sound at 8:30 and the order to fall in will be given at 8:45. Students are cordially invited to be present at the activities.

THE NEXT LYCEUM NUMBER

The next Lyceum number will undoubtedly prove a pleasing diversion to many of the students. On Friday, April 27, Mr. Edward Amherst Ott, will give one of his four splendid lectures namely: Heredity and Marriage; Will Your Dream Come True; The Spenders, and The Story of a City.

Those who heard Mr. Ott last year know that he has good material on subjects of modern thought and discussion. He was the pioneer in popularizing biological ethics, and is deeply interested in municipal service.

Mr. Ott is of nation-wide prominence and comes highly recommended, consequently every wide-awake student of the institution should make it a point to hear him.

DR. THOMAS BIDS FAREWELL TO STUDENTS

(Continued from Page One) always been present in shaping the policies of the institution; his efforts were widely felt in standardizing the College and changing it from the basis of a technical high school to that of a college.

The commercial department has profited largely by the work of Dr. Thomas. By diverting the work from strictly technical work in accounting, stenography and typewriting to more theoretical work in economics, political science, finance and banking, and law, he has established one of the strongest departments in that line within the intermountain region.

Encouraged Debating

Much of the success of debating of the Agricultural College has been due to the efforts and ability of Dr. Thomas. For a number of years he was chairman of the debating committee and since that time has been one of the active members in it. He is the donor of the Thomas gold medals given to the inter-class debating champions.

Popularized Institution

Some of the best known work of Dr. Thomas has been in popularizing the work of the College throughout the State. His association with men from all portions of the country have brought both the institution and its work more clearly before the people.

In the loss of Dr. Thomas the institution loses one of the eminent educators of the West, a progressive and practical scholar, and a man in the biggest and truest sense. We regret that he is leaving us, but wish to take this opportunity to congratulate him upon the enviable position offered him and to wish him all the success that he can desire in his chosen field of activity.

"A" DAY PROGRAM OUTLINED

(Continued from Page One) glee club concert. Later a bonfire will be kindled under the auspices of the Freshman class and by its light the presentation of the official "A's" and awards of the year will be made.

In addition to the above, arrangements have been made for each club and organization to present some sort of a stunt. These stunts will be in the nature of a circus, side show or a wild beast parade, and a small admission will be charged.

The day for the big celebration has been fixed as May 1, but due to changing weather conditions and the unsettled conditions of school, it may be necessary to postpone that date. In any event, however, students may look to that day as the big festival of the season.

COSMOS MEETS

At the meeting of the Cosmos Club last Friday night, Ivor Sharp led in the discussion of the Russian Revolution. A short review of the whole situation from the time the Romanoff family came into power until Premier Low and his associates took the control of affairs, was given.

The general discussion by the Club members touched all of the phases of the Russian internal and external policies.

Before the meeting adjourned the following men were voted in as members: George Hansen, Waldo Perry, W. J. Snow, George Cook and Willard Canfield.

The Supremacy of the NEW DE LAVAL

THERE may be some question as to who makes the best wagon or the best plow or the best watch, but when it comes to cream separators the supremacy of the De Laval is acknowledged at once by every fair minded and impartial man who is familiar with the cream separator situation.

Thousands and thousands of tests have proven that the De Laval skims the cleanest.

The construction of the New De Laval puts it in a class by itself.

It outlasts and outwears all other makes, and can be run with less cost for repairs.

The world-wide De Laval organization, with agents and representatives in almost every locality where cows are milked, ready to serve you, insures that the buyer of a De Laval will get quick and valuable service when he needs it.

More De Laval's are sold every year than all other makes combined.

The New De Laval has greater capacity than the 1916 style, is simpler in construction, has fewer and interchangeable discs, is easier to wash, and the skimming efficiency is even greater. Each machine is now equipped with a Bell Speed Indicator.

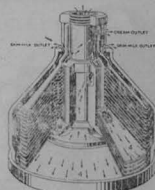

New Catalog will be mailed upon request

HOLSTEIN CATTLE

An evidence of the great popularity of Holstein Friesian cattle was the recent auction sale at Detroit, Michigan, when 140 animals sold for an average of \$1,173 per head. Twenty thousand dollars was paid for a young bull, \$6,000 for a yearling bull, \$2,500 for a heifer and \$1,700 for a cow. These prices indicate a remarkably strong demand for high class individuals and therefore a most brilliant future for the "Black and White" breed.
