NUMBER 28.

"A" DAY OCCUPIES ATTENTION OF COMMITTEE

UNIQUE FEATURES ARE PLANNED

The annual "A" day celebration occupies first place in the minds of the special committee which is working for its success. The final day will be announced in a later issue of Student Life. At this time every student should recall the success of other "A" days and forget that conditions last year made it unadvisable to hold the annual event. The success of this year's celebration should be dominant in the minds of every student.

Other institutions have their annual day of celebration at which time every student forgets that he or she has any other question which demands attention. The day of homage to those who have taken part in the general activities of the certain institution, is looked forward to by every student and even members of the faculty take such a keen interest that strangers would find it difficult to segregate faculty from students.

The U. A. C. is going to have such a day this year and it will be a day forgotten only by those who were deprived of the pleasure of being present when they receive the issue of the following day's paper. Everybody will take part. Students, faculty, fathers, mothers, business men, landlords and landladies; in short everybody will be welcome. The question that today occupies our attention is, how can we arrange to be present.

The special committee is working every odd minute in order to please everybody. There will be such attractions as ladies' track meet, inter-class and faculty athletic contests, circus, lunch and many other features; at night a bonfire, the preparation and kindling of which is to be under the supervision and execution of the Freshman class. The main feature of the bonfire program is to be the awarding of the "A's".

Every fraternity and sorority will be expected to take part sometime during the day. A Glee Club concert and a band dance on the lawn will close the "A" day program.

U. A. C. OFFERS FULL QUARTER'S WORK IN SUMMER SCHOOL

Summer Session Divided Into Two Six Week Terms

Reorganization of the Summer School into a twelve week session of two six week terms has just been announced by Dr. J. H. Linford, director of Summer School. According to the plan announced by Dr. Linford, a full quarter's work will be offered to students during the summer. The division of the quarter into two six week terms makes it possible for the student to attend for either the first or second term or for the entire twelve weeks. Six credits of work may be secured each term.

During the first six weeks the following subjects will be taught: Physical development in children, household management, preparation of foods and food supply, dietetics and nutrition, textiles, drafting and modeling, dressmaking, millinery, accounting, agriculture, botany.

(Continued on Page Four)

Prof. Fletcher Ad- dresses Art Guilders

Prof. Fletcher discussed the "Principles Underlying Art," before the Beaux Art Guild Thursday. His discussion was one of great personal benefit to everyone present. Mr. Fletcher said that principles of art are fundamental in most every phase of life. Order, balance, rhythm, harmony, fitness and suitability are basic in every personal environment. He brought out illustrations of such, in the appearance of students, giving in other words an endorsement to the movement to get young ladies to realize greater beauty through a sense of fitness and suitability.

He discussed the effect of proper environment on all national life and really applied art to the essentials of proper living.

AGGIES TO AID WITH WAR WORK

Prof. Steiner of the University who is teaching a class in Agricultural Education at the college is searching for five men to act as war garden supervisors in Salt Lake City. The work will in all probability be similar to that engaged in by the score or more of Aggies who assisted the Salt Lake Commercial Club in its war garden activities last spring. Any men who engaged in the activities last year or who are interested in such work would do well to confer with Prof. Steiner.

New Hun Destroyer Received At College

A new rifle, one of the Remington automotiac type, 1917 model, has been received at the college armory. The rifle is one of the very latest out, being the same as that used by the Sammies to annihilate the Huns in France. A unique interest attaches itself to the rifle. It, itself, was received from one arsenal, its bayonet from another and the bayonet scabbard from still another.

There is a remote possibility that in time rifles of this type may supplant the old 1898 Springfield now used by the cadets. Seniors and Juniors will be instructed in the use of the new weapon by Sergeant McGrath.

Cadets Promoted

Captain Abbott announces the approval by President Peterson of the following promotions in the cadet battalion:

First Lieutenant Gerald Thorne to be captain.
First Lieutenant Lucian Meecham to be captain.

Private A. B. Allen to be corporal.

TO AUTOISTS

President Peterson requests that you park your cars in the rear of the building if they are to stand for any length of time.

DR. PORTER TALKS TO SCIENCE CLUB

TELLS OF MEDICAL PROGRESS IN WAR

Despite the enormous total of the killed in the present war, more lives will be saved in the future because of the conflict than will die now in the fighting, is the opinion of Dr. R. O. Porter, medical supervisor at the College. Dr. Porter in discussing the effect of the world war upon medical science before the College Science Club recently, declared that the advance in preventative medicine curative methods and surgery due to the demands of the war was almost unbelievable.

"Since the beginning of the war, all of the former difficulties and many new ones added have been successfully met by Allied skill. Typhoid fever, which in past wars has killed more soldiers than bullets, is almost unknown on the western front. Cholera, in the past disastrous, has practically disappeared. Lockjaw is still troublesome, but due to a curative treatment that has been developed, few deaths result from this cause.

"One of the most notable advances made during the present war, and one advance that will doubtless save more lives in the future than are being lost now, is the development of the Carrel-Osken system of irrigating wounds. By this method, which renders the innermost resources of wounds of any size perfectly sterile, thousands of lives are being saved now that earlier in the war were sacrificed."

Dr. Porter also called attention to the promising results obtained in flesh grafting, bone transplanting, tendon transplanting and nerve repair which had been obtained by eminent Allied surgeons during the war.

MEN START WORK ON TARGET RANGE

GOOD SCORES MADE

Last Saturday morning Captain Abbot and eleven prosperous sharpshooters left for the rifle range east of the College.

Time was spent in getting the target pits in order and in target practice. Although it was the first trip to the range this year some of the boys showed exceptional ability with the rifle. Ardath Price scored 21 out of a possible 25 points at a range of 200 yards. Some other very good scores were made.

If the weather permits practice will continue every Saturday morning at 9 a. m. under direction of Captain Abbot. First class target practice is an opportunity that has heretofore

(Continued on Page Two)

Freshies Win The Thomas Medal

The Freshies were successful in defeating the Juniors by a 2-1 decision in the final clash which determined the winners of the Thomas Debating medal.

They debated the following proposition, "Resolved that Robert M. LaFollette Should be Expelled from the United States Senate."

Ephraim Josephson and Geo. M. Bateman represented the Freshmen and Helen Gubler and Howell Williams the Juniors. The teams seemed very evenly matched; each presented their case in a clear definite manner showing they had made considerable study in preparation.

This should serve as an eye opener to some of the younger students. It shows that Freshmen can successfully compete with upper classmen. So you who feel that you have ability along these lines, make use of the opportunity next year and tryout for the inter-collegiate debates.

CADETS INDULGE IN ANOTHER SHAM

GREAT IMPROVEMENT IS SHOWN IN WORK OVER PREVIOUS BATTLE

Monday afternoon the cadets staged a sham battle which in every respect was very successful. Captain Abbot was granted an extra hour for drill, by the president, that the problem should not be interrupted as was the last one.

It was another problem in attack and defence, but on different territory, and with the cadets divided differently to what they were the last time. One platoon of Company C was marched up the canal bank south of the College and given positions to defend on the brow of the hill, one mile east of the College. Companies A and B, with the remainder of Company C formed the attacking force, to sweep the plains from the north.

Fire was not opened from either side until the attackers were in close range. The skirmish lines of the attackers were sweeping forward and enveloping both flanks of the defenders, who were preparing to retreat over the brow of the hill below, when Captain Abbot signalled "cease firing."

The previous battle had given officers and men a little experience in action and imbued them with confidence, so that the battle this time moved with definiteness and precision which was pleasing to see.

Little beams of sunshine,
Little hugs and kisses,
Make many a charming maid,
Change her name to Mrs.

Everything comes to him who waits,
But here's a rule that's slicker
The man that goes for what he wants
Will surely get it quicker.

SOPHOMORES

Sophomores meet today for purpose of electing officers for next year. Buzzer Editor and Manager, and chairman of Prom. will be elected.

CASTO MEDAL WON BY LYDIA HANSEN

First Woman To Win Oratorical Laurels

MORRIS AND WILSON ALSO GIVE GOOD SPEECHES

Tuesday's chapel in which the awarding of the Casto Medal took place was immensely interesting and greatly enjoyed by the student body and townspeople. Under the chairmanship of Prof. George B. Hendricks the characteristic tediousness and dragging that usually accompany such contests was entirely overcome.

Exceptional interest was added to the contest because one of the three who survived the drastic competition of the preliminary tryout, was a lady, Miss Lydia Hansen, who succeeded in winning the medal.

The subjects of the different speeches were well chosen and were of current interest and timely instruction. J. T. Wilson, the first speaker spoke on the "Battle of the Marne." Mr. Wilson in his talk showed the selfish ambitions and brutal designs of the ruling power of the German nation in their voluptuous desires for territorial expansion; how the very national life and happiness of whole countries were ruthlessly cast aside in the formation of those plans which if successful would make not only France, and England, but also the United States, nothing more than vassals, paying their life's treasure into the coffers of the Kaiser.

He also pointed out how extremely critical and momentous the battle of the Marne was, not only to France, but to the welfare of the entire world, and how nobly the French, although practically unprepared, fought so valiantly and sustained those famous words of General Joffre "They shall not pass!" This was the crucial point of the war, and we owe to those courageous sons of France the greatest step towards the frustration of the Kaiser's dreams and a world of peace and happiness, so declared Mr. Wilson.

Elgin Morris used as his subject

(Continued on Page Two)

TENNIS COURTS NEARING COMPLETION

Tournaments To Be Run Off Immediately

The two new tennis courts at the east of the main building will be ready for use about Monday or Tuesday of next week, so the present congestion will soon be relieved.

Just as soon as the courts are finished the inter-class series will start, to be followed immediately by the inter-Fraternity, inter-Sorority, inter-Class and after this the tournament for the championship of the school. Organizations are urged to pick the students that are going to represent them in the contests so they may be practicing; the time for the tournament will be posted the first of next week.

There are a few rules that students are expected to observe; (1) The players are allowed to play only one set if others are waiting. (2) Students are expected to sign up in the morning for the periods they wish to play during the day.

STUDENT LIFE CO-OPERATES

This issue of Student Life is being sent to all the High School principals of the state. The issue after the next will be sent to every high school graduate of the state. Co-operating with the publicity department of the college, which will send out several faculty members to the high schools during the coming week, the editor will get out an enlarged edition of Student Life in the interest of getting high school students to continue in the open road of education. In the special edition will be included cuts of all activities, articles by students on such subjects as "Democracy at the A. C." "Opportunities for self-supporting Students at the A. C." and articles on all lines of endeavor at college. In order to successfully consummate the plan as outlined it will be necessary to call on students to do most of the work. It is hoped that everyone will respond heartily and boost the old A. C. and education.

NEW SPIRIT IN DRILL

Gratifying indeed is the interest being shown by students in military work. Whether the war has been responsible for the interest, whether daily drill and sham battles or Captain Abbot's military manners have developed it; certain it is that there has been a rejuvenation of Aggie spirit in matters military. Students seem to sense their importance and are taking to their drills with a vim which, if continued, will long avert any such drastic action as has been taken in other schools where students have been expelled from school for neglecting to participate in drill.

ATHLETES NOTICE

Coach Watson is very desirous that you look up your credits immediately and find out whether you are eligible for athletics. He is especially desirous that you find out whether or not you are eligible for football next fall. All you need to do is to see the director of your school and tell him to figure up your credits. You can do this yourself and it will have the coaches a lot of work.

Statement Regarding Fraternity Scholarship

In justice to the fraternities of the College, I think a short explanation should be made to offset any unfavorable attitude toward these organizations which might possibly be inspired by the analysis of the College roll which appeared in last issue of Student Life. I feel there are good reasons for the apparent delinquency of fraternity men.

The coveted, if it be such, College roll recognition is seldom reached in the Freshman year, or even the Sophomore year. Ordinarily only Juniors and Seniors approach it. Fully ninety per cent of the upper

classmen of the fraternities did not return to school, having either volunteered or been drafted for military service. Of those who returned practically everyone is holding one or more Student Body positions and is participating in the activities of the Student Body as they come along. A cursory observation will show that the burden of the administration of student affairs is upon fraternity men. The fact that two years ago, fraternity students led in scholarship is further support of this statement.

I speak as a member of a fraternal organization and, attention is called to these conditions with complete regard and congratulation for the achievement of non-fraternity men. We do want it understood, however, that the fraternities stand for scholarship and high scholastic ideals. We hope that this event will act as a spur to fraternity men to better efforts in the future.

LOWRY NELSON.

PICTURES OF FOOTBALL MEN

Twenty or thirty pictures of the Aggie champion football team of last fall have been secured and framed with the names of the men and their positions printed under them. The pictures will be placed in the various offices of the school and used throughout the state as an advertising medium.

CASTO MEDAL WON BY LYDIA HANSEN

(Continued from page one)
ject the "Human Oak." In his speech Mr. Morris drew a very able comparison between the great substantial oak of the forest which plays such a vital part and is so indispensable to the progress of our industries, and the substantial compatriot of our commonwealths, who does so much to better his community and his nation. He showed how absolutely necessary it was to the general well-being of the citizenry of our country to have real men active in our rural and national governments. He showed how very similar to the soft, flabby mushroom are those people who exist in our communities not to benefit their fellow men but rather to live like parasites upon their efforts and to rob them of their treasure.

Lydia Hansen, who took the laurels of the contest, chose as her subject "Women in the War." Miss Hansen pointed out that woman has been hampered and handicapped in playing her proper part in our national politics and in our national industry because she has never, before the present day, been given a fair chance to demonstrate what she is really capable of doing in the complex phenomena of our national life. That this war will bring about the emancipation of woman and the proper recognition of her political and industrial indispensability was another strong point brought out by Miss Hansen. The gigantic part that woman is called upon to play in this war was likewise pointed out; how it has fallen to the lot of woman to sacrifice her sons to fight in the trenches and also to save and conserve at home in order to feed them; how she, being called upon to take the place of man in our industries and national government and how she is filling these positions so ably and efficiently that the whole world is absolutely astounded.

After all, the actual fighting in the trenches is only a part of this great war, when we compare it with what the women of this world are doing, what they are sacrificing and what they are undergoing to do their part to win this war, was the final thought Miss Hansen left.

Judges of the contest were

Prof. Sorensen of the Brigham Young College, Rev. Pillsbury, pastor of the Logan Presbyterian Church and Prof. C. H. Skidmore of Brigham City.

Former Student Writes From France

Robert Major, a former prominent student who is editing his company paper "Le Petite Voix" writes the following letter to Prof. Arnold, from France:

"Somewhere in France" March 7, 1918.

Prof. Frank R. Arnold,
Dear Prof. Arnold:

Tonight I am nearly seven thousand miles from home; but a retrospection reproduces in my memory the course in Journalism I took from you, study of French papers, etc. I am now editing a paper on French soil. It is our company periodical, a copy of which is enclosed. I have traveled over and perhaps will travel over many places with which you are familiar. We've moved continually since I enlisted, both here and in America. Believe we are settled now for quite a while.

France is a beautiful country but I imagine is only the shell of its former self. Hope to tour Europe at the termination of this war. Should you resume your trips, I may accidentally see you. I am constantly occupied so it keeps my mind away from the horrors of the war which are on all sides.

If you still teach Journalism you should have the "Stars and Stripes," a big paper published in Paris for American troops primarily. Staff is composed of soldiers. 'Tis a wonderful paper and seeks subscriptions.

Sincerely wishes to you and all my college friends. I am Very respectfully,

ROBERT W. MAJOR,
Co. "C" First Bn. 20 Engrs.
Somewhere in France. A. E. Forces.

P. S.—Please remember me to Miss Huntsman when you see her. I've checked articles written by me.

O. K.—Censored by J. L. Wood, Lieut. Engrs. U. S. R.

Thespians Now To Be Awarded

The following recommendation which is self-explanatory, has been passed by the Student Body executive committee:

We recommend that the principal characters in the cast of the official college play as recommended by the Periwig Club and appointed by the executive committee, be given a pin similar in design to that given for service in the Student Body, with the word "Dramatics" substituted for "Student Body." This is to be given as a first year award with the same policy as that followed in awarding members of the executive committee to govern, in cases of more than one year's service.

Glee Club and Opera work not being yet fully under student control we recommend that there be no awards made for these activities at present.

Respectfully submitted,
DELROY GARDNER
GEO. H. HANSEN,
LUCILE ROGERS.

MEN START WORK ON TARGET RANGE

(Continued from page one)
not presented itself to the cadets of the college and should by all means be taken advantage of, for it may be of practical use in the near future, since some of our boys are already being called to the colors with the second draft quota.

I fell downstairs this morning. Hurt yourself?
Nope; bounded right back up. Had on my new spring suit—Ex.

GRADUATE MAKES A BIG SAVING

MISS HETTIE WHITE MAKES RECORD FOR EXTENSION DIVISION

One county in Utah saved directly \$40,239 last year from the efforts of one woman. Such is the remarkable report that comes from the Extension Division of the College regarding the work of Miss Hettie White County Home Demonstrator for Millard county. These figures, based upon most complete and carefully made reports submitted by Miss White concerning her work, have been checked from other sources, and the enormous total still stands as the saving for Millard county last year. The saving is the result of the planting of home vegetable gardens, the canning and drying of fruit, vegetables, and most that would have been largely wasted, and the saving of clothing due to renovation of worn goods.

A synopsis of the report shows that 404 home gardens were planted due to Miss White's influence, with a net return estimated at \$10,284; 104,090 quarts of fruit were canned worth \$20,818; 5,792 quarts of vegetables, worth \$1,158; 1,813 pounds of meat, worth \$896; 12,105 pounds of fruit were dried, worth \$2,421; 3,607 pounds of vegetables, worth \$1,461; and that 2,590 pieces of clothing were made over at a saving of \$5,200.

Miss Sata Huntsman is absent from school this week on account of illness.

Sigma Alpha announce the pledging of Prof. P. E. Peterson and C. W. Brimley.

The Betas went calling last week, but we can't figure out how they all got in Geneva's car.

Mrs. Georgia B. Johnson and Maurice Romney were dinner guests at the Sorosis house Sunday.

Professor Casto of the B. Y. C. lectured to the Home Economics club Wednesday afternoon.

Mr. L. M. Mecham, editor of the Ag. Club Link announces that there will be another Link published next Wednesday.

A letter was received from Bill Linford, '20 in which he tells us he is playing first trombone in the Brigade Band of the Aviation Corps at Waco, Texas.

Miss Leah Solomon is absent from school this week to fulfill an appointment for the A. C. in Salt Lake City. She is to demonstrate underlying food principles.

George B. Cook, former manager of Student Life is reported as being dangerously ill with pneumonia at Berkeley, Calif., where he is attending the ground school for aviators. His father was called to his bedside yesterday.

The Beta Delta Sorority entertained at a shower Monday night in compliment to Miss Luella Anderson who leaves soon for California to fulfill an ecclesiastical mission. Miss Anderson will be remembered for her excellent work in dramatics at the College.

Wednesday evening, March 27, the Phi Kappa Iota fraternity entertained the Delta Nu fraternity at a dancing party in the Women's gym. The occasion was to honor the Delta Nu's victory in fraternity basketball series. Potted plants, palms and ferns, concealed the orchestra in the center of the floor, while the corners were made into rustic gardens. Delicious refreshments were served to about forty guests.

Sunday afternoon the Sigma Theta Phi sorority entertained at a Silver Coin tea for the Red Cross. Easter lilies and daffodils were used profusely throughout the house. During the afternoon a musical program was rendered by the sorority girls, assisted by Ben Parkinson and Arno Kirkham. Refreshments were served by the pledges. Twenty-five dollars were netted for the Red Cross by the entertainment.

On the night of March 29, the members, pledges, guests and chaperone of the Sigma Theta Phi Sorority left the chapter house for a never-to-be-forgotten canyon trip. Eukelele and vocal music was enjoyed while journeying to the mouth of the canyon where a fire was built, marshmallows toasted, "weenies" roasted and hilarious spirit generally indulged in. Due to the wind, flying sparks and blinding smoke, the girls gained a glimpse of what our boys "over there" are going through. After thus spending a few delightful hours the crowd returned by the light of moon—alone.

GREAT INTEREST IS SHOWN IN SPRING ATHLETICS

FULL SQUADS OUT FOR ALL SPORTS

"Come in on them! In fast! Just meet 'em," are some of the expressions most commonly heard on the campus at present, but this is only because Harry Stoney has his baseball enthusiasts working out in the near end of the campus. But just because he can't be heard is no reason why Coach Joe Jensen is not working his track men hard. Every now and then we hear Joe urging his sprinters to lengthen their strides, his pole-vaulters to shift, his weight men to improve their form, and his high jumpers to watch their take-off. And last, but not least, we hear Old Jack Watson telling the football boys how the game is played, making them hit the sod, run through a few early season formations, and at the end of the day's work, his farewell word is "Six sprints and we'll go in."

Baseball prospects are perhaps the brightest that the school has been able to boast of for many years. With several inexperienced players on the squad are several men who have had a great deal of experience in amateur and semi-professional baseball circles. Although they have had only a few workouts, Harry Stoney, who is handling this end of spring athletics, has a good many of his first string men already picked. Among a few are Lolo Spencer on first, who is an experienced first sacker, fast in covering the bag, and a fairly good hitter; Mose Stiefel, who will probably cover the keystone position, as he seems to be the most experienced man out for the job; Percy Hanson, a good prospect for short-stop, being fast on his feet and able to cover a great deal of territory. Two men, Ballif and Bowen, are fighting it out for the third base position. Both men are fast, have good "whips" and are fairly good hitters. One will probably be placed in the outfield if he is not successful in the infield. Another outfielder who has his job almost cinched is "Pesty" Jarvis, who has as much experience as anyone on the club, and who is a sure fielder. He also hits the ball hard. "Stub" Peterson looks like a likely comer in the outer garden, and along with Jarvis and one other outfielder, should form one of the fastest outfields in the state. The team is yet without a catcher, but several likely candidates have already been out and it will not be long before the lucky man is chosen for this position. Worley, Sumson and Peterson look good for the back stop job. Worley is big, hits the ball hard and should make a very valuable backstop. Among others who will push the aforementioned men hard for positions are Wright, Lee, Jensen, Jenkins, Ballif, Clyde, Anderson and several more. Pitching strength seems to lie in one man, Skan-chy, the tall youth from the B. Y. C. Fritz has had a great deal of experience, has a good head and good assortment of curves. As running mate, Stan Anderson, our elongated south-paw, should be able to go in and finish up any game.

Track prospects are an unknown lot at the present time, but we have faith in Coach Jensen's system, and the Aggies are not worrying about not having a good team in the field when the State Meet rolls around. For the sprints Jensen has Peterson. Hanson, Ballif and Stiefel; for the distance runs, Bowen, Larson, Clyde and Croft; for the jumps, Spencer, Jensen, Sumson, Anderson and Stiefel. This

WEEKLY BUNK

B. V. D.

Edith says she has her pin back. Wayman says he found it and didn't know whose it was until he read the Bunk column. We are glad the column has accomplished something.

Ray Silvers is still taking all the girls in the school out and giving them a treat. No doubt Ray will end up in the old ladies home.

The writer of this column would like to impress upon the boys and girls of the institution that they should not let the spring fever get the best of them, but to keep up in their work as he does.

Time will cure snoring, but its got to be daytime.

Laugh and the world laughs with you. Snore and you sleep alone.

Tommy Fitz is a great believer in camouflage. His write-up in the paper under the heading "Amateur Activities" is just a column of daily happening at the U. of U.

All that Clem Hayward ever says in class is "present."

George Eccles, the school's champion shadow wrestler is out for football.

When the Sigs got home from the Theta Tea Sunday Ray had a quarter, Vard got a half dollar and Clyde won't tell how much he got.

Have you ever seen Joe Havertz's service flag coat; it must have a million stars at least.

George Hansen announces that his and La Von's daily Senior meeting will not be held in Student Life office today.

Inquirer—"Nay, fair maiden, Pinkey Clawson does not rouge his hair."

Get your cues ready boys for the call-shot tournament and Hatch-Croft medal on "A" day. Gus Heldberg is barred.

When the roses deck the plain, And the summer air is all aglow We'll be wishing once again, For a chance to shovel snow.

bunch of men afford him a nucleus for a strong contender, and the Aggies are out to demonstrate that they are not lacking in spring athletics.

Coach Jack Watson is carrying a broad grin around these days and if anyone would like to know the reason he should step out on the campus about 4:30 p. m. any evening and watch his bunch of huskies rolling around on the sod, running through signals and doing other preliminary work to the big drive next fall.

U. A. C. Offers Full Quarters Work In Summer School

(Continued from page one)
chemistry, economics, education, English, French, geology, history, library science, mathematics, psychology, public speaking, physical education, sociology, Spanish, woodwork, zoology, and music.

During the second term, courses in fine and applied arts, animal husbandry, agronomy, domestic arts, foods, economics, sociology, English, geology and mathematics will be offered.

The first term opens June 10 and closes July 19, while the second term runs from July 22 to August 30. This reorganization of summer school work places the Utah Agricultural College definitely on the four quarter basis.

NEW DE LAVAL CREAM SEPARATOR ADVANTAGES

GREATER CAPACITY: Without increasing the size or weight of the new bowl, its capacity has been increased.
CLOSER SKIMMING: The improved bowl design, together with the patented milk distributor, gives greater skimming efficiency.
EASIER TO WASH: Simpler bowl construction and discs, caulked only on the upper side make the bowl easier to wash.
HAS SPEED-INDICATOR: Every New De Laval is equipped with a Bell Speed-Indicator, the "Warning Signal" which insures full capacity, thorough separation, proper speed and uniform cream.

EASIER TO TURN: The low speed of the De Laval bowl, the short crank, its unusually large capacity for the size and weight of the bowl, and its automatic oiling throughout, make it the easiest and least tiring to the operator.

WEARS LONGER: Due to its much lower bowl speed, high grade of materials used, and careful and exacting workmanship, the De Laval outlasts and outwears other makes by far.

ASSURED SERVICE: In almost every locality there is a De Laval representative, able and ready to serve De Laval users.
