FRESHMAN PLAY FOR BENEFIT OF THE RED CROSS

To Give Oscar Wilde's "Importance of Being Earnest"

The Freshman class makes its bow to the public, histrionically speaking, Friday night in the snappiest little three act farce-comedy ever tried out in A. C. dramatics. "The Importance of Being Earnest," is sheer, unadulterated fun and nonsense, guaranteed to be without an equal in clever lines and charmingly laughable situations.

You'll enjoy every minute of it and want more and the Freshies are going to give you a bit of a surprise by the excellent manner in which they are going to put it over the foot-lights. The coaching has been under the personal direction of Miss Huntsman, assisted by Miss Mae Edwards and we know that something above the average of amateur productions is assured us.

The proceeds of the play will be given to the local chapter of the Red Cross and this fact alone ought to fill the house. It's the last chance of the "season" to see a really first class play. Everybody out Friday night and "root" for the Freshies!

The cast of players is as follows:

John Worthing.....Charles Hart
Algernon Moncreff.....
Paul Ballif
Dr. Chasuble.....Robert Pixton
Lane.....Erin Leonard
Lady Bracknell.....Nancy Finch
Hon. Gwendolen Fairfax.....
Jean Hindley
Cecily Cardew.....Amie Redd
Miss Prism.....Mary Hansen

Miss Huntsman's assertion that the above players bid fair to outshine any stars yet seen at the A. C. should alone guarantee a pleasurable evening.

Tennis Tourney Begins Today

KEEN COMPETITION IS ANTICIPATED

On Thursday, April 11 (today) the tennis tournament for the men's singles championship will begin. The final will be held on Friday, April 19, weather permitting.

Practically all of the school's real tennis sharks have signed up and the tournament will be fast and close. The tournament is open to all male students of the school. After this tournament an inter-frat and probably an inter-sorority, as well as the regular class series, will be held; facts assuring plenty of excitement, as far as tennis is concerned, this spring.

Some of those who had signed up at this writing are: Arno Kirkham, Solon Barber, K. B. Souls, Ray Silvers, Burt Smith, Cyril Hammond, Ollie Edwards, George Eccles, Ariel Lindquist, Joe Reed, Ameen Khan, Allah Kham, Jimmie Whitmore, Rulon Johnson and Byron Jensen. These fellows should furnish some real tennis excitement.

"What is meant by below par?"
"Working for dad, I guess."

WAR SITUATION IS REVIEWED

PRESIDENT SHOWS THE POSITION OF A. C.

President Peterson in his chapel talk Tuesday gave a resume of the international situation, showing how the college is directly affected thereby and how it has met the demands made of it.

The issues of today, the President said, are so significant and appear so rapidly that our spirits lag under the accumulation of these tremendous happenings. We are living in a crucial period of the world's history and on the outcome of the present struggle will hinge the realization of our own ideals as a nation, and on a smaller scale our ideals as an educational institution. If Germany is successful the constitution of the United States will cease to exist and with it will disappear our democratic institutions.

In regards to the part the College has to play in the war, Dr. Peterson stated that fortunately the Agricultural College is one of the institutions of national importance, having been established to meet such a demand as now confronts it. The ideals which founded the institution were fundamentally those of democracy; equal opportunity for all, special opportunity for none. Many blatant individuals, he said, have demanded the closing of schools in order that the nation could more thoroughly put its energies into the propagation of war. He showed clearly the folly of this view. The war has placed a premium on intelligence, slovenly habits in industry cannot

(Continued on Page Two)

GLEE CLUB TOUR TO BE MADE SOON

If present plans materialize the College Glee club will organize tour the state in the near future. Although plans have not taken definite form as yet Dr. Peterson is highly in favor of a trip for the club.

E. J. Kirkham, who is manager of the club has received requests from many of the towns where the songsters appeared last year requesting a return engagement.

Last year the boys went as far south as St. George. They sang in practically every town of importance enroute and were given a cordial welcome by all. That a decided hit was made is shown by the requests for return engagements.

The value of such a trip to the institution cannot be overestimated as it helps to put the Utah Agricultural College before the people of the state in its true light. There is a general feeling throughout the state that the Logan institution is primarily one of agriculture and should students desire to pursue other courses of study they should go elsewhere. They fail to realize that the high standard of our Music, Commerce, General Science and Home Economics departments are recognized throughout the west. It is said but nevertheless true that some people fail to realize that these departments are a part of the Utah Agricultural College. A Glee club trip will help in a large way to eliminate some of these false impressions. Everything should be overcome that might stand in the way of a Glee Club trip.

GEORGE COOK DIES

George Byron Cook, a senior at the Agricultural College, who recently enlisted in the Aviation section, died of pneumonia at Berkeley, California, Saturday morning, April 6. He enlisted the latter part of November, 1917, and reported for his examination December 1, 1918, returning home later to await his call to enter the Ground school. This came February 29, and he reported for duty March 2. The vaccination, inoculation, and an excessive guard duty, following, so enervated his system that he became an easy prey for the disease and succumbed at the end of an illness of ten days.

George Cook, son of Mr. and Mrs. S. N. Cook, was born at Willard, Nov. 23, 1895. He received his high school training in the Box Elder high school, where he was graduated with honors in the spring of 1915. He was president of his class in his senior year.

In the fall of 1915 he entered the Utah Agricultural College. Here he readily established a wide circle of friends; and by his work and pleasing personality, invited the confidence of his associates. At the time of his enlistment he was manager of Student Life, and was in line to receive his Bachelor's degree in June.

He was highly respected because of his clean manhood, conscientiousness, and sense of honor. His death will be mourned by a host of friends here, whose heartfelt sympathy goes out to his sorrowing family and immediate friends.

The funeral will be held in Willard today at 1 p. m., and will be attended by a large number of his student friends. Members of the Delta Nu fraternity will act as pall bearers. A military escort from the R. O. T. C. will also be in attendance.

ORATORY MARKS NOMINATIONS FOR NEW OFFICERS

Spirit Lags Near End Of Meeting

Amid flaming accusation and flaunting attacks on the alleged church influence said to have existed, Eb Kirkham nominated Maurice Steifel as the first candidate for student body president in the annual convention for nomination of candidates for next year's officers. How well founded were Kirkham's reference to church influence is not known. However, his expressions were lightly used in many of the nominating speeches that followed.

After elaborate speeches depicting the respective ability of the prospective executives, the names of Russell Croft and L. H. Hatch were definitely placed upon the ballot and the nomination for student body president closed.

For editor of student publications two men, Solon R. Barber, associate editor, and Delroy Gardner, editor, stood out prominently.

After the nominations of these executive heads the convention took on a rather lively (Continued on Page Two)

SNOW HAMPERS SPRING WORK

GREAT ENTHUSIASM IN SPITE OF IT

The snow of last week retarded spring athletics for a whole week. A few of the fellows however, kept in trim by getting out in the gymnasium each afternoon and warming up.

However if one comes out on the baseball diamond now he will hear some noise, caused by the "pep" being instilled into their fellow players by the infielders of the ball squad. Everybody is talking it up, and everybody is now and then we hear and outfielder begging for someone to "lay" on one and make him chase it. This is the kind of stuff that we are after, and the more we have, the better athletics shall we enjoy.

Harry Stoney, who is in charge of baseball, is carrying a broad smile all the time that he is on the field, and when one of his likely youngsters makes a good play, he can always be heard from, either predicting a "raise in salary" or challenging, "Let's see you get this one," whereupon he proceeds to

(Continued on Page Two)

DR. H. H. WHITZELL TALKS TO AG. CLUB

Dr. H. H. Whetzel, plant pathologist of Cornell University and chairman of the Plant Pathology War Emergency board, spoke to members of the Ag club on the purpose of the board of which he is chairman.

Some plant diseases and methods of controlling them were also discussed.

The doctor stated that the Plant Pathology War Emergency board as an outgrowth of the war situation is designed essentially to stimulate the preservation of plant crops by controlling the diseases which prey upon the seed from which the plants are produced upon; the plants during the period of growth and upon the fruits which are born by the plants. To accomplish this purpose the United States has been divided into six districts. Members of the board are visiting each district, primarily to become acquainted with the conditions which exist, assemble and correlate every bit of available data on plant diseases and organize into working machines the Plant Pathologists throughout the country.

Dr. Whetzel called the attention of his audience to the tremendous losses which occur as a result of plant diseases, many of which can be controlled completely by the careful application of the methods now advocated and in use by successful farmers.

The fact that much of the loss occurred after practically all the costs of production had been met he declared to be most lamentable.

He stated further that since possibly all plant diseases can be controlled if funds are available to carry on the necessary experiments, it becomes incidentally the duty of the Plant Pathologists to educate the political public along the lines which will enable it to see that it must pay in a large measure for these losses. If this can be done successfully, funds which will make possible the eradication of these diseases will be forth coming.

COLLEGE OPERA "BOCCACCIO" IS FINALLY PUT ON

Bachman, Farnsworth, Nelson And Miss Smith Star

After surmounting numerous difficulties, Prof. Johnson finally put on "Boccaccio," the College opera, Wednesday and Thursday with a success comparable to that of any performance given in town this winter.

Working under the handicap occasioned by numerous students leaving school and thus breaking into the work, the opera was produced in a manner entirely pleasing to all. The cast was composed of voices which individually compare with any in the state. The dancing was pleasing and the costumes bright and appropriate.

The music, especially the choruses and solos, was charming and tuneful. Less agreeable, however, were some of the trios. A noticeable lack of life and the stiffness of the actors detracted some from the otherwise brilliant success of the production.

By far the star of the evening was Halvy Bachman singing the role of Lambertuccio—not the most important in the plot, but made the best by Mr. Bachman's life and pleasing voice. Especially delightful was his solo "I'm the Father of a Princess," as was his song in the tree. Lowry Nelson, hitherto unknown as a songster, aided by his acting ability, also sang himself to popularity with the audiences. His work with the cooper's chorus was good. Karl Farnsworth with his song "Wine and Flirtation" drew much deserved applause from the audience. His work all through compared more than favorably with his good work last year. "Bob" Blackner, singing the title role, enchanted the audience, although his stiffness in all but one place detracted from his otherwise excellent portrayal. Prof. Fletcher also did well.

Of the female characters, Gladys Smith was best. Her sweet mellowness voice and agreeable personality as well as her acting, made much for the success of the performance. The Misses Bennion, Leonard and Thorne all played with more than ordinary ability.

The strength of the finales showed that the choruses had been trained even as well as the principals.

Professor Casto Talks To Home Ec.

SAYS THAT THE WAR WILL STABILIZE AMERICA

In declaring that habits of life need intervals of reinforcement, Prof. Casto of the B. Y. C. very ably portrayed to the Home Economics club on April 3, the fact that this war would stabilize and recuperate the standards and ideals of the American nation.

He said that in our contact with heroic France and deliberate England our own weaknesses would be strengthened. In our sacrifices for our own country we would ultimately eliminate flaws of extravagance and waste. He made his hearers feel (Continued on Page 2)

CHOOSE THE RIGHT MEN

Not entirely amiss here might be a suggestion that in Student Body election, which takes place tomorrow, a little discrimination be used in voting. Personal likes and dislikes and organization affiliations should be ignored and the right man sought out for the respective positions. Men who have the interest of the entire Student Body at heart and who will boost for a bigger and better school should be the successful candidates.

College Calendar

Thursday, April 11.—Tennis Tournament for men's singles begin.

Friday, April 12.—Freshman Play, 8:00 o'clock. Nibley Hall, for benefit of Red Cross.

Friday, April 12.—Student Body elections. 9:00 to 4:00.

Friday, April 12.—Le Cercle Francais. Bluebird Hall, at 4:30.

Women's Faculty League at 3:30 at Mrs. J. T. Caine III.

Friday, April 19—"A" Day

CERCLE FRANCAIS

Le Cercle Francais will meet on Friday in the Bluebird hall at 4:30. M. Tenecher, a Swiss who has been in the Swiss railway service for thirty years, will give a short conserie on Switzerland and then the members of the club will compete for three prizes to be given to those who show the most knowledge about Switzerland.

ORATORY MARKS NOMINATIONS FOR NEW OFFICERS

(Continued from Page One)
turn and the following men and women were put on the ballot files.

For Vice President, Miss Lydia Hansen, junior; Miss Ellen Holmes, junior, and Miss Lucile Rogers, junior.

For Secretary, Miss Adeline Barber, junior; Miss Lucy White, junior, and Miss Mary Hansen, freshman.

For Song Leader, Halvy Bachman, freshman.
Cheer Leader, Frank Salisbury, freshman.

For Executive Committee-men, J. T. Wilson, junior; Heber Jones, freshman; George Ward, junior; L. H. Mecham, junior; Thatcher Alfred, sophomore; Andrew Mohr, sophomore; Elgin Morris, freshman; Carl Peterson, junior.

Mr. D. H. Moore, of Denver, a member of the Federal Commercial Economy Board, occupied the first few minutes of the meeting in an earnest appeal for economy and patriotism, declaring during the course of his remarks that every man, woman and child in the civilized world is at war with Germany.

PROFESSOR CASTO TALKS TO HOME EC.

(Continued From Page One)
that the spiritual aspect of war far outbalanced all physical horrors and implored us to use this opportune time for individual recapitulation.

AGORA CLUB IS REORGANIZED

The Agora club was reorganized with temporary officers, April 2. These officers will act as head of the organization until all men eligible are informed of the next meeting, when a permanent organization will be effected.

The Agora club, with other clubs, seemed to have lost life until April 2 at 2 o'clock, when a meeting was called in room 280 at which time it experienced a new birth.

George H. Hanser was elected temporary president, and Louis Ballif, secretary and treasurer. The purpose of the temporary organization was to take steps necessary for a permanent organization and to get space for a club picture in the 1917-18 Buzzer.

Every man who has represented the school in an intercollegiate debate automatically becomes eligible for membership. The Agora club was first organized for the purpose of fostering debating. Last year the club was inactive, perhaps due to the success determined by the number of debates won. This year the debaters having been more successful, felt that an organization should be perfected, one that will "hold water" in face of absolute failure, if it ever occurs.

Aggies Win Out At Stock Show

The superiority of our animal husbandry students was demonstrated at Salt Lake last Thursday when three Aggie students took first, second and third in class A of the stock judging contest held in connection with the Fat Stock Show. J. B. Magleby scored 283, C. Mabley scored 280 and Melvin S. Arnold scored 263 out of a possible 300 points.

The judging included cattle, sheep and hogs. Fifteen minutes were allowed to look over each ring and three minutes allowed in which to appear before the judges and give reasons for placing the respective animals. All animals scored were either grand champions or high prize winners.

Not only were we successful in landing all three prizes in class "A" of the judging contest, but the grand champion steer was the product of the college animal husbandry department. He was thirteen months old and weighed 1010 lbs. The animal was sold for 30c a pound netting the department \$303 besides the prize money. The steer was prepared for the show by J. B. Magleby under direction of Dr. Carroll.

Dr. Carroll is to be complimented on the high regard in which our animal husbandry department is held throughout the west, as a result of this and other year's records.

MR. HURST GETS FIGURES ON FLOUR

Mr. Hurst, assistant professor in the chemistry department, has made an investigation in regards to what constitutes whole wheat flour and finds the following variety of interesting answers to the questions from different mills consulted. Mill No. 1 says whole wheat flour should contain no bran; Mill No. 4 says half of the bulk and one third of the weight should be bran. Mill No. 7 says that whole wheat flour should be over half shorts. Mill No. 5 says no shorts should be used.

As a matter of practical interest of the housewife, figures show that certain brands of whole wheat on the market represent about one half the food

value of others selling at the same price. Graham samples, analyzed, show the same wide variation. Some millers are letting their patriotism run away with them at the expense of the stomachs and purses of their customers.

Word has reached Logan of the dangerous illness in a hospital at San Francisco of Mr. T. W. Holland, a former resident of Logan, who is in danger from extreme blood pressure.

SNOW HAMPER'S SPRING WORK

(Continued from page one)
"buzz" one down so fast that the infielder doesn't even see it go by. Then Harry has the laugh on him, and the young prospect is again brought down to earth.

The infield composed of Spencer, Stiefel, Hanson and Bowen looks like a fast combination, which can cover a lot of ground, burn up the paths when running bases, hit fairly good, and not lacking in "pep."

The outfield, although not definitely decided upon, looks like it will be made up of the following, Peterson, left field; Jarvis, center field and Ballif, right field. These men are fast, sure on fly balls and hit the ball hard. Every man is fast and will worry an opposing pitcher with his speed on the bases.

In the battery department are Worley and Jensen, catchers and Skanchy and Anderson, pitchers. The former two have not had much experience, but it will not take long to get them working with the rest of the fellows. Skanchy has had considerable experience around the state in amateur baseball and he will probably be called upon to hold up the heavy end of the twirling. Anderson will be a good finish-up pitcher, and if he develops a little more control, will make the former go to hold up his end of the battles.

Our first baseball game will be played against the University of Utah in Logan on April 19. This game will be a great battle, as Fitzpatrick at the University is a great baseball enthusiast, and spends a great deal of his time at this activity. A return game is scheduled for the 10th of May in Salt Lake. These are the only game scheduled as yet, but others will probably show up soon.

Coach Jensen has issued a statement to the effect that the class track meet will take place on the same day, April 19. The classes are urged to get together and enter their teams for this meet. The state track meet will be staged in Provo, probably during the latter part of this month. Prospects are good for a winner at the A. C. and with a little support from the student body, the Aggies should again be up around the top rung of the ladder when the final count is made this year.

WAR SITUATION IS REVIEWED

(Continued from page one)
prevail. Education and efficiency go hand in hand and efficiency is a prime necessity at this time. The school is now in a position to give mechanical training to a force of about 400 soldiers which will be sent by the War Department.

President Peterson urged that all persons who could possibly continue school should do so, taking advantage of an opportunity which may never come again. So great is the demand for trained persons that for every graduate there are ten positions. In order to relieve this demand in the future the graduating classes of the high schools are being visited and urged to continue training in the College.

In conclusion he said: "Let no one convince you that Germany is conducting an honorable war. A German victory is

VALUABLE GARDEN BULLETIN ISSUED

A comprehensive circular covering every phase of the home vegetable garden movement, from preparing the soil to storing the crop, has just been issued by the Extension Division of the College.

The circular is the result of the combined efforts of Prof. J. C. Hogenson, State Leader of Boys' and Girls' Clubs, Dr. M. C. Merrill, professor of horticulture at the College, E. W. Stephens, assistant State Leader of the Boys' and Girls' Clubs and Goldie Faux, assistant leader of Girls' clubs.

Lists of vegetables suitable for various soils and climatic conditions are given, along with characteristics of the different varieties given. Special topics covered are the preparation of the soil, when and how to plant, how to cultivate, irrigate, and harvest, and the correct storage of vegetables and fruits.

A table of particular interest is included in the circular showing one year's vegetable rations for a family of four adults. The proportion of the garden to be allotted to each crop is given in order that a well balanced vegetable ration for they ear may be secured.

The circular, which is called "Vegetable Garden Guide," will be sent free to any one requesting it. Address Extension Division, Utah Agricultural College, Logan, Utah.

unthinkable, for it would mean the fall of the choicest ideals of liberty. Right must prevail in the end and right is on the side of our government and our allies."

CANNIBAL LEE

(You don't mind, do you, Mr. Poe?)

I was a child and she was a child,
In a kingdom by the sea,
But we loved with a love that was
more than love,
I and my Cannibal Lee.
A love that could take me roast or
fried,
Or raw as the case might be.

And that is the reason that long ago,
In this kingdom by the sea,
I had to turn the tables and eat
My ardent Cannibal Lee.
No really because I was fond of her,
But to check her fondness for me.

And the stars never rise but I think
of the size
Of my hot potted Cannibal Lee.
And the moon never stares but it
brings me nightmares
Of my spare-ribbed Cannibal Lee.
And all the night-tide she is restless
inside,
My still indigestible dinner bells
bride
In her pallid tomb, which is me,
In her solemn sepulchre—me!—
—Ex.

Last night I took my girl to town
To see a picture show.
We went to see a comedy,
To make us laugh, you know.

The show was great and as we left
And walked down Center street,
I wondered if I could afford
To buy something to eat.

All I possessed was a dollar ten,
I pulled the ten cents forth
And showed it to my lady fair,
Said I, "That's all I'm worth."

"Is ten cents all you have?" asked
she.
"Why when you get me home,
You won't have carefare for yourself
I'll have to loan you some."

I showed her then, the dollar bill,
And thanking her, said "No."
"I brought this for emergencies,
Preparedness, you know."

Just then we passed a candy shop;
The window she glanced through,
And said, "Put on the emergency!"
So—what could a feller do?

—Ex.
Ellen: Is that young man of
yours ever going to propose?
La Voyle: I suppose not. He's
like an hour glass.
Ellen: Like an hour glass?
La Voyle: Yes, the more time
he has the less sand he gets.
—Ex.

JUNIOR - SENIOR COLLEGE CREATED

MUST HAVE WORK IN SENIOR FOR GRADUATION

A significant step for the advancement of higher education in Utah was taken by the College council of the College when the College work at the institution was divided into two general divisions, the junior college and the senior college. The freshman and sophomore years will constitute the work of the junior college, while the two upper classes will form the higher division. There will be no sharp line of separation drawn between the two divisions.

The change was prompted by a desire to fit the organization of the institution more nearly to the needs of the state. It is a step in advance similar to the step taken by the college last spring, when the four quarter system was adopted by which the school year was divided into four terms of 12 weeks each. The great success of this system during the past year, which has led other institutions to duplicate it, has given the college authorities courage to go ahead with this other reorganization.

Students will be ranked in the senior college when they have completed 54 credit hours above their entrance requirements. In certain cases students in the lower divisions will be allowed to take upper division studies. A graduate must have taken at least 36 credit hours in the senior college.

During the season at which this reorganization was effected faculty members voiced frequently their opinion that the College should confine its policy to adapt its work to the needs of the people of the west. President Peterson, in voicing the sentiment of the administration declared that the institution could accomplish the greatest good by serving the greatest number of people.

"We must place no barrier in the way of anyone who desires to secure an education," declared President Peterson. "Our policy must be to encourage all to secure as much of culture and training as circumstances will permit. Any high school graduate of the accredited high schools of the state will find our doors wide open and men and women without high school training will find special work adapted to their needs."

WEEKLY BUNK

B. V. D.

"Fat" Watson will not entertain the Dirty Dozen this week on account of a protest from the neighbors. His farewell was given at the Aud.

Jap Mohr only batted .800 in the matrimonial league since the last official averages were out. Eight out of ten nights isn't bad Andy.

Yes, Miss Brinton found a hat.

It sure takes Eb. to bawl us out and we have got to hand it to him.

Joe Lowe was going to run She rose-z as a dark horse for President.

A race between a bootlegger and a limb of the law is always interesting.

If February don't March, April May.

"Jazz" Hansen was in Ogden a few days and it is doubtful whether he will be able to take every girl in the school out be-

AGGIES ELECT THEIR CAPTAINS

Jarvis And Stiefel Are Chosen

At a recent meeting of the basketball men of this year, Lester Jarvis, star guard, and all-around athlete was elected captain of the Aggie quintette for next year. Jarvis, was one of the steady performers on the team this year. His coolness and headiness in pinches make him the most logical man for the position. Besides being a star in basketball, he is a football letter man, a point winner in track, and one of the best outfielders in the semi-professional baseball circles in the state of Utah. The members of the squad had no difficulty whatever in choosing him as the successor to Captain Lolo Spencer of this year's five.

Only a few nights after, the track and baseball men got together. "Stub" Peterson, the only "A" man in school, was the unanimous choice of the voters for the job of leader of the track athletes for the present season. "Stub" runs the hurdles, sprints and relay, and can be counted upon to place in any one of these events. Besides his activity in track, he is renowned as a football star throughout the Rocky Mountain Conference, and is a member of the baseball squad. "Stub" should make a good leader.

Maurice Stiefel was elected by the baseball artists to pilot their hopes through the present season. "Mose" is probably the most experienced player on the squad, having participated in amateur and semi-pro circles for the past five or six years. After playing on the championship team of the grade schools of Salt Lake, he competed for four years at high school during which time, the teams of that institution always ranked among the best in the state. Every summer finds him cavorting around the infield for some diamond aggregation in Salt Lake. His experience and knowledge of the game should make him a great leader.

fore the term is over. It certainly will be hard for the ones he don't get to take out.

Jarvis is going to enlist in the Navy. He has already sunk 500 schooners without spraining his wrist.

If it clears up cloudy we will have a spell of warm frost in the morning—Percy Hanson.

"Swede" had his opera glasses at the opera both nights. Wonder who he was looking for?

Arno Kirkham contends that some people are thought to be babies when they are born.

Girls go with fellows because they don't want to hurt their feelings by refusing them, to show off a new dress, because they like them, to spite some other fellow, to cut out some other girl, to be mean to find out what a simp he is, to see how much money he has, to go some place where she can meet some other fellows—yep, they are as multifarious and diversified as the stars which twinkle in yonder blue firmament.—Ex.

"Slim" Miller says that when all the boys but himself have gone to war he may have a chance to take some of the girls out. Cheer up "Slim" we can't all have winning ways like Pistol.

Don't forget the Freshie Play 'omorrow night. All the proceeds go to the Red Cross.

NEW DE LAVAL CREAM SEPARATOR ADVANTAGES

GREATER CAPACITY: Without increasing the size or weight of the new bowl, its capacity has been increased.
CLOSER SKIMMING: The improved bowl design, together with the patented milk distributor, gives greater skimming efficiency.
EASIER TO WASH: Simpler bowl construction and discs, caulked only on the upper side make the bowl easier to wash.
HAS SPEED-INDICATOR: Every New De Laval is equipped with a Bell Speed-Indicator, the "Warning Signal" which insures full capacity, thorough separation, proper speed and uniform cream.

EASIER TO TURN: The low speed of the De Laval bowl, the short crank, its unusually large capacity for the size and weight of the bowl, and its automatic oiling throughout, make it the easiest and least tiring to the operator.
WEARS LONGER: Due to its much lower bowl speed, high grade of materials used, and careful and exacting workmanship, the De Laval outlasts and outwears other makes by far.
ASSURED SERVICE: In almost every locality there is a De Laval representative, able and ready to serve De Laval users.
