MORE ENTHUSIASM SHOWN IN FOOTBALL

Lieutenant Wareing in Charge of
Business End

LETTER MEN ARE IN DOUBT

Athletic prospects are beginning to brighten a little and by next week football will occupy its old time place among the college activities. It has been a hard job for Coach Pickering to get things started, due to the military work at the College. Next week, however, it is expected that arrangements will be made for the squad to start their work on at four o'clock and have at least two hours of hard work before retreat.

As athletics are under the direct supervision of the military authorities, Lieutenant Wareing will have charge of the business end of athletics. Lieutenant Wareing will be remembered as a University of Utah star last year, but he was fortunate enough to be hurt just before the game with the Aggies on Thanksgiving. He is busy trying to schedule practice games with some of the state high school teams, so the men will be in shape for the bigger games next month.

Monday afternoon over thirty candidates appeared and were given uniforms. At least twenty more men who have had some experience are about the College but did not report. Coach Pickering wants every man whether he has played football or not.

It is still doubtful whether or not any of last year's letter men will be able to play. "Pistol" Cannon, a star for two years, is obsessed with uncertainty and will probably not be out. His loss will be keenly felt as he was a tower of strength on the defensive and excelled all other centers in the conference when it came to passing the ball. "Dunc" Gardner, a letter man of last year, is obsessed with the same infection that obsesses "Pistol." There is a possible chance, however, of his being able to play. He will be needed to hold down a tackle position as he has had considerable experience on the line and he can also be shifted to center. Elmer Olsen, another letter man, is also uncertain whether he will be able to play. "Stub" Petersen, a letter man of the last two years, will not play, as he has charge (Continued on Page 2)

CANDIDATES FOR WEST POINT NAMED

Nine A. C. men have been named by President Peterson in conjunction with the military authorities, to take the examination for an appointment to the U. S. Military Academy at West Point. Senator Smoot has the power to appoint two men to the Academy and Senator King one. The men named as principals from the A. C. for Smoot's appointment are: Dewey Clyde and George M. Bateman. Alternates for this appointment are C. O. Ricks, V. Frank Parry, S. R. Harris, V. D. Gardner and P. E. Smith. For Senator King's appointment, Marvin Bookstead has been named principal, with D. O. Cannon and L. M. West as alternates.

No certainty attaches itself to A. C. men getting the appointments for they come from the state at large. However, on the other hand, no certainty attaches itself to the prospect that they won't land at least one of the appointments, for the men chosen are very representative A. C. men.

WILL FILL HOLES IN STUDENT BODY

To Choose President, Vice President, Committeemen and Student Life Manager

PETITIONS ASKED

At a meeting of the Student Body executive committee Wednesday, next Monday was set as a day to fill the vacancies in the Student Body organization. At present only three student representatives are in school, while five vacancies are to be filled. Those in school are V. D. Gardner and Ortelia Merrill, class representatives, and Adeline Barber secretary. To be filled are the positions of Student Body President, Vice President and three Executive Committeemen. The presidency was left vacant by the receiving of a commission by Lorenzo Hatch, elected last year. Lydia Hansen, Vice President-elect, is teaching school, while two of the Executive Committeemen-elect, Andrew Mohr and Thatcher Allred are in the service, the former at Camp Taylor, Kentucky, and the latter at the Montana State school of Mines at Butte. Heber Jones, the third member is teaching school. Besides these a Business Manager for Student Life will be appointed. George Ward, elected last year, is in the army.

Another member of Executive committee is yet to be chosen by the Sophomore class. While the Executive Committee as, composed at present, has the authority by the constitution to fill the vacancies, it was thought well by them to give students an opportunity to petition or suggest people for the positions before final action was taken. With that in view as a guiding star petitions either verbal or written will be received at Student Life office between now and Monday.

OBITUARIES HELD FOR PROF. BROOKE

Characterized by Sincerity, Unselfishness, Dependability.
—Goshen.

Funeral services were held for Professor Walter E. Brooke last Sunday in the Masonic temple at Salt Lake. Impressive ceremonial rites demonstrating the esteem with which Dr. Brooke was held by his brother Masons marked the occasion. Rev. E. I. Goshen eulogized Professor Brooke in these words: "He possessed three dominant characteristics, unselfishness, sincerity and absolute dependability. He had a genius for making friends and has left a lasting monument through his impress on the characters of many young men who came to him."

A deluge of flowers enveloping theasket showed the esteem of Mr. Brooke's many friends.

Representatives from the College and various other institutions in Logan and including Dr. Peterson, Mr. George Thomas, Miss Gertrude McCheyne and W. C. Brimley attended from Logan.

STANDING AT SEATTLE

Russel Standing, a student of last year, is now at Seattle in naval aviation. Standing was one of the number of A. C. students who attended the first camp at the Presidio this summer. The excellent character of work down there was one of the features which aided him in gaining the appointment.

ALL MUST PAY FOR STUDENT LIFE

According to a new regulation of the Postal laws, a publication before it can be published must have a real bona fide list of subscribers. This necessitates a change in Student Life policy. Heretofore Student Life has been distributed to all students and faculty members of the College as well as to the Alumni. The students and faculty members merely came to the office where a copy was given to them. Of course their student body fee paid for it. Under the new regulations a student who has paid his student body fee will go to the Secretary's office where his receipt and Student Body card will be stamped. This will show that one dollar has been taken from his fee to pay for his subscription to Student Life. He will then be given a receipt at Student Life office which will entitle him to receive his copy of the paper when issued. Those who haven't paid a student body fee will be required to pay one dollar for a year's subscription to the College paper. Get this clearly in your minds, students, so you can get your copy regularly. Extra copies will cost five cents each, and only enough copies will be printed to accommodate those entitled to them.

Pan-Hellenic Has Its First Party

Sorority Pan-Hellenic held the first social gathering of the school year last Monday at the Hosetees house. The entertainment was in the form of a "get acquainted" party for all of the girls now attending school on the hill. Practically every girl on the campus was present as well as members of the faculty and friends of the school. Owing to the large masculine enrollment and the prevailing military atmosphere about school, the girls have all felt rather out of place this year. The general good feeling and informality of this gathering has done much to make the girls feel more at home and better acquainted with their fellow students.

Officers of Pan-Hellenic acted as a reception committee and tagged each girl with a name as she entered. A general "gab-fest" followed in which everyone attempted to greet just as many girls as possible and at least become acquainted with their names. The feature of the afternoon was a contest in which each girl was asked to write down the names of as many girls as she could remember having met. The professors should not be delighted that most of the girls have splendid memories, some contestants recalling as many as eighty-seven names. A musical program was also given including vocal numbers by Miss Gladys Smith, Miss Geneva Thomas and Miss Ruth Cannon. Punch and wafers were served and every girl present voted the affair to be a huge success.

WOMEN NOTICE!

All women will meet in the restaurant Monday at four o'clock at which time President Peterson will address you. On the same occasion Mrs. Stephen Abbot will outline the war work to be done at the College. Miss Huntsman will close the meeting by leading you in the pledge of allegiance. "I pledge allegiance to my flag and to the country for which it stands, one nation indivisible, with liberty and justice for all." (Signed) LIZZIE MCKAY HILL

Women's Advisor.

"LOUIE" ROWE DIES WITH INFLUENZA

LOUIS H. ROWE

Last Thursday news was received of the death of Louis H. Rowe, '19. Lieutenant Rowe had just received his commission as a second lieutenant and was stationed at Camp Jackson, South Carolina, where he became afflicted with Spanish Influenza. He was reported as getting along as well as could be expected when pneumonia set in, causing his death. His mother, Mrs. Rowe of Salt Lake, made a hurried trip to North Carolina, when she heard of her son's illness, but arrived a few hours after his death.

"Louie," as Lieutenant Rowe was more familiarly known to his friends, was one of the hardest workers the College has ever known. He took an active part in all school affairs and when anything had to be done around the College it was given to "Louie" to do, as everyone could depend on his ability and his quickness which characterized all his work.

While attending the East and West side high schools "Louie" made a great number of friends and won the admiration of all of them when he completed the four years course in three years. "Louie" then came to the A. C. and immediately began to take an active part in affairs. He played on the Freshman football team, was initiated into the Pi Zeta Pi fraternity and was one of the charter members of the Be-No club in his first year. Later he was elected manager of the 1918 Buzzer and was manager of the football team, besides being on various committees too numerous to mention. "Louie" will always be remembered as a conscientious and hard worker, a dependable and sincere friend and above all a moral and clean cut fellow.

ABELL IN PRINT

It is the honor of Tracy H. Abell, Instructor in horticulture at the College to have his biography included in one of a series being published by the Utah Farmer. The plan of the "Farmer" is to give the past, present and future doings of all the most prominent agriculturists in the State.

Some interesting reading is promised to any one who turns to the next issue or two of the Utah Farmer. Mr. Abell was not only active in his college days at Oregon A. C., but he has also had some material achievements since leaving his alma mater. Notable among these are his work for the Experiment Station on the drying of fruits and the possibilities of fruit drying industry in this country.

QUARANTINED FOR INFLUENZA

Bounds Laid Out For Military Department

NOT TO BE OVER 10 DAYS

The effect of the following communication from Dr. E. C. Peterson, president of the College, to Captain Abbot, commanding officer of the S. A. T. C. is to bar all of the buildings except the Women's Building and the north wing of the main building to all students except S. A. T. C. members. The purpose as outlined is to prevent the spread of Spanish Influenza. The ground designated in the communication is to be used for military purposes only and members and prospective members of the S. A. T. C. will be in quarantine on the ground outlined till the threatened epidemic is under control.

"As a result of our conference this morning, the following territory is described as the military reservation during the emergency due to the threatened epidemic of Spanish Influenza. The purpose of this regulation is to prevent the entrance of Spanish Influenza into the camp.

"Beginning at a point to the south and west of the Mechanic Arts building, extending north to include the two botany laboratories and the connecting office and the basement of the south wing, thence north along the line of the east side of the building to include the chapel room and the basement, thence north along the east line of the north wing of the main building to the north east corner of the main building, thence in a direction north and west and on a line enclosing the gymnasium, thence east to enclose the Chemistry building to the roadway east of the Chemistry building, thence north to enclose the Hospital, thence east to a point on a line near the east side of the Live Stock building south to the corner of the main building, thence break, thence south to the brow of the hill and thence west excluding the Barracks building number one, thence south near the east corner of the new Garage building to the brow of the hill, thence west to point of beginning. A roadway is open, under regulation, for the entrance and egress of freight and passenger traffic at the north entrance to the campus.

"The entrance of civilian students will be limited in the main building to the front door and to the north (Continued on Page two)

BRIMLEY IS NOW RED CROSS MAN

On July 24th Mr. W. C. Brimley secretary to President E. G. Peterson was appointed assistant Field Director for Utah with headquarters at Logan in American Red Cross, by Major Glenn Miller, Field Director for Utah. His duties just assumed will be confined wholly to the men in the S. A. T. C. at the College and their families. His principal duties are (a) to relieve the anxiety and sustain the morale of the soldiers who are worried about their families at home and to promote the comfort and well-being of these families, (b) to distribute sweaters, mufflers, kits, etc., (c) to render emergency relief of every kind upon the request or suggestion of an officer in charge. About Oct. 15th it is expected comfort kits will be distributed by Mr. Brimley for the Red Cross.

STAFF TO BE CHOSEN

Last week an appeal was made for some help for Student Life. Since that time one nameable person has volunteered any help. But perhaps that was our fault. Maybe we didn't paint up in the right style the advantages to be gained from being on Student Life staff.

Student Life at present is the only means of getting before the student public. Practically every other activity in school is dead; but the press goes on eternally. Student Life is the official organ of the students. It's their paper. It's your paper. It is a signal honor to be on the staff. President Peterson, even in his present high position, speaks with pride of his days as a reporter on Student Life. Other prominent alumni entertain similar sentiments.

Now to the point; an opportunity presents itself for every student in the institution to gain for himself similar honors. Today competition for positions on the staff opens. From now until next Wednesday at 2 o'clock articles will be received by the editor. The basis upon which members will be chosen is this. The ten people submitting the most pieces of good news, either about school or anything of local interest will be given places on the staff. Points in judging what constitutes good news will be: form, neatness, style, and exactness. Students who have had no previous journalistic experience may receive information at the office as to what a newspaper article should be.

Some great drill in combating gas attacks could be had if the gas-masks were available. Then on second thought it seems that A. C. men's oilproof membranes may be immune from gas after exposure to what permeates the halls from noon to noon.

For one thing we thank the Government in sending the Training Detachment here. That is for the concrete work put in around the grounds. Their latest endeavors, that of paying from the fountain to the front of the main building meets with universal approval. Now if they could only put a couple of moving stairways up the front and side hills.

MORE ENTHUSIASM HOWN IN FOOTBALL

(Continued from page one)

of the library at night and can not arrange time for football practice.

Stan Anderson, and "Speed" Magelby of last year's squad, will be out and will no doubt be able to hold down regular positions this year.

Many of last year's Freshman team are back including "Snail" Harris, center; West, half-back; Leonard, half-back; Geddes, end; Hammond, end; Edwards and Eccles, quarter-backs; Zabriske, guard, and Merrill, guard. All of the above men have had some experience and should develop into first class players after picking them had them for awhile.

Many high school stars of former years from Jordan, Salt Lake, Granite, Ogden, Payson and Boxelder are here and after looking them over we will be able to get a better line on what to expect in football this year. This year is one of great opportunity for new men as the squad will consist of men with very little experience. New men should be encouraged to stay out the whole season and learn the game for future seasons. Get out and get acquainted with the fellows and try and do something for the school, so that when you leave you will be remembered as having done something for your old school.

RIFLES RECEIVED

Seven hundred Russian rifles have been received by the College from the Government factory in New England. The rifles which are some of an enormous order which the Russian government failed to take when the Bolsheviks started things over there, will be in training members of the S. A. T. C. here. Just when they will be available for Col. however, is a point yet in doubt for at present they are smeared with cosmoline to keep them from rusting and Government orders are to keep them smeared till further orders are received.

NOTICE

Students desiring copies of last week's Student Life to send to men in service or other friends, may have them by calling at the office.

QUARANTINED FOR INFLUENZA

(Continued from Page One)

door. The south door will be closed during the emergency to all entrance or egress. Entrance to the south basement will also be closed by partition.

"Instructors are advised to limit their instruction to one or the other branch of our student population, either civilian or military, and are further advised to avoid all public gatherings and otherwise render themselves, as far as possible, free from danger of carrying the infection. Under their direction, assistants may be designated to handle the branch of the work which is not taken care of by them. The committee on Schedule and Course of Study is advised to add as far as possible in the reassignment of class rooms and in the assignment of instructors."

"The carrying out of these measures will mean considerable interruption of instructional work of the institution during the period of emergency, which it is hoped will not extend over ten days."

DUTIFUL SENTRY BAGS COOK SKELLY

"Halt!" "Who's there?" "Me." "Who's there?" "Skelly the cook." "Advance and be recognized." Then the cook advanced. "Call the corporal of the guard!" yelled the sentry. In due time the reluctant cook was ushered into the guard house. After serving an indeterminate sentence of thirty minutes more or less he "Honorable Mr. Skelly" was ordered released by the officer of the day. In consequence of the early morning military "tactics," all men in training at the College were compelled to subdue the pangs of hunger and wait a full half hour for the belated repast.

COLLEGE FACULTY MAKES CHANGES

Four Former Members Now With Colors

HOME EC. AFFECTED

Several changes have been made in the ranks of our faculty since school closed last May. The natural depletion has been filled, and the corps of teachers is now of almost exactly the same numerical strength it was last spring.

Of the instructors who have left, four are now serving with the colors. W. E. Carroll, George H. Hanson, Louis Ballif and W. E. Thain. Professor Carroll of Animal Husbandry has been made a captain and has charge of the sanitation work at Fort Oglethorpe, Georgia. Wilbur E. Thain, instructor in accounting, is serving in the Ordnance department in Washington, D. C. George H. Hanson is now preparing for a commission at Camp Zachary Taylor; while Mr. Ballif, instructor in typewriting, is training for overseas work at Camp Fremont, California.

Assistant Professor of Chemistry, Charles T. Hirst, is teaching chemistry in the Leland Stanford Jr. university.

Mrs. Georgia B. Johnson assistant professor of Physical Education of last year, has accepted a position at the State University, of which she is a graduate, in the same capacity. Miss Jean Cox, assistant professor of Foods and Dietetics, is now State Supervisor in Home Economics.

William Spicker, assistant professor of music, is now associate manager of the Lyric and Oak theatres and is also teaching music in town. Bervard Nichols is a member of the faculty of the Box Elder High school, being at the head of the agricultural department.

By new instructors the School of Home Economics has undoubtedly been strengthened most, Misses Jessie Whitacre, Melissa Hunter and Elizabeth Underwood being added to the teaching staff of that school. Miss Whitacre comes from the University of Ohio, where she graduated. She is experienced both in class instruction and extension work and is considered the most brilliant student ever graduated by the School of Home Economics of her university. Miss Hunter is a graduate of the University of Indiana, and has had a wide experience, being in charge of the college cafeteria at that school. She has also supervised U. M. C. A. summer camps in the mountains of Colorado. Miss Hunter is instructor of Foods and has charge of the dining room. Miss Underwood, a graduate of last year's class, is instructor in Household Instruction.

George W. Thatcher, professor of Music, who has been on leave study in the east, has returned to continue his work at the College.

The English department has been added to in the person of Mrs. Leon Fennesbeck, who will teach literature. Miss Mabel Parker, of the University of Utah is assistant professor of physical education, filling the position vacated by Mrs. Johnson. Mr. N. E. Edlerson, who has been county agent in Sevier county during the summer, has returned to the College and is instructor in physics.

Miss Rosina Skidmore, a member of last year's faculty of the B. A. C. is also teaching in the Institution now, being another addition to the Home Economics staff.

College Practice House Dates

Seniors in the Home Economics Department are asked to register their names with the least possible delay for the Practice House periods which will best fit with their registrations for the current year. The dates for these periods are as follows:

1. October 1, to November 11. (Registration complete.)
2. November 11 to December 20. (2 vacancies.)
3. December 30, 1918 to February 10, 1919.
4. February 10 to March 24.
5. April 14 to May 26.

GLEE CLUBS START

Prospects are very favorable for a successful year in Glee Club work. There are many of the old members back in school and plenty of new material with at least high school experience. Owing to the drill periods occurring in the afternoon, the meeting hour for the men's Glee club has been fixed at 12:30 on Tuesdays and Thursdays. There can be no conflict at this hour and every man interested is urged to meet Prof. Johnson at this hour on Tuesday next.

The ladies' Glee club has also commenced its season's work. Many of the former members are at work already and others desiring to join are invited to meet with the club on Tuesdays and Thursdays from 12 until 12:30. On Mondays, Wednesdays and Fridays the choir meets at 12 m. This organization is open to all and being a student activity should receive the hearty support of all.

WILD DUCK SUPERSEDES "CHOW"

If Kaiser "Bill" had looked into the mess hall last Friday evening his heart would have stopped and he would have suddenly become a stone cold. Five hundred men, comprising the vocational training detachment, sat there with plates, plates, bowls and all other available receptacles heaped to the brim with wild duck, demitasse, cake, ice cream and all the other delicacies which constitute a REAL meal. Anything which resembled the usual army "chow" was not allowed to even make a showing in the kitchen. The banquet was given as a final celebration before the men depart to other posts. Harry Stoney, local booster for the College and town, furnished the ducks at the instigation of the local Red Cross.

The Kaiser isn't licked as long as he still says "Me and Gott."

\$12000 PLEDGED TO BUY BONDS

300 Men Subscribe; Officers Sub-
scribe \$2000

\$800 TAKEN IN CASH

An outward manifestation of the loyalty of the flag pledged by the Utah Agricultural College unit of the S. A. T. C. at the recent installation ceremonies held at the institution, the members of the unit agreed to buy nearly twelve thousand dollars worth of Liberty bonds today. This represents the amount pledged on the opening day of the drive. Several thousand dollars will doubtless be added to this total before the drive is over. Captain Henry D. Moyle, who is in charge of the drive, is enthusiastic over the patriotic showing made by the men. "Nearly three hundred men have pledged themselves to buy bonds," said Captain Moyle. "When we consider that these men are getting thirty dollars a month and that out of this practically all are paying some six dollars monthly to the government for insurance while many are allotting dependants fifteen dollars each month, we see that they are showing a high degree of patriotism."

In addition to the amount subscribed by the enlisted men, nearly two thousand was subscribed by the officers of the unit. Of the entire amount subscribed \$3500 was in cash. Of this, the enlisted men subscribed \$800. The rest will be taken out of their monthly pay by the government according to the army allotment system.

Drinks and Steals

We relate herewith the fall of a stalwart soul, or expose the hypocrisy of one hitherto taken at his face value as of unswerving virtue. This happened. "Pistol" Q. Cannon, known near and yon for his strength of character and absolute abstinence from spirits and profanity, was in one of the downtown resorts Tuesday evening. It seems that he had had a secret appointment there for he tried to shake us immediately upon our entrance into the gilded place. But we were of ultra strong heart and stuck with him.

Two men, one unmistakably of Scandinavian extraction and the other of some other extraction (it may have been lemon) leaned on a brass rail with their feet and a mahogany bar with the rest of their bodies. Immediately upon "Pistol" Q. Cannon's entrance the conversation of masonry (brick) and nationalities and prohibition and ushered madly to him embracing him simultaneously and drawing him to where he could see himself in the bar mirror. With the utmost show of sophistication he strode up, placed his right foot on the brass rail, and his right arm on the mahogany bar. The team from his brew (Beer) and slipped it in boundless joy. The Scandinavian paid for the necker with a four-bit piece. The men continued their conversation. "Pistol" drew away and came outside with us.

Imagine our horror when he turned his hand and disclosed the 20c change put over the bar. Such a man would steal the nickels from dead man's eyes.

COTTER A CAPTAIN

A letter has been received from Captain Clarence E. Cotter of the anti-aircraft forces announcing his arrival in France. Besides Cotter the A. C. now has three other captains of whom we know. They are Ernest Mohr, one time athletic star; W. E. Carroll, once Student Body president and later head of the A. C. Hus. department, and Captain Glenn McKeith. Two majors, Eugene Smith and Mark Crossall and Brigadier General Hines, the youngest Brigadier General in the army, are other A. C. men higher up.

MAN WANTED

Wanted, man who has had inorganic chemistry to run pois. case and do general analysis at sugar factory. See Prof. J. C. Thomas.

LOCALS

With some degree of uncertainty we spread the rumor that three Springville lads bought diamonds during vacation. The men we owe apologies, if we are wrong, are: Dewey Clyde, Glenn Sumson and Irwin Crandall.

George Russel also visited the temple and court house this summer. Phil Kaps mourns.

Anyone wishing a Buzzer can get one for \$1.75 by seeing "Stubby" Peterson. Only a few left.

"Bob" Major, former member of Student Life staff, now running his company paper in France, keeps us aware of his existence by frequent copies of the implement. Last year he called it "Le Petite Voix." It is now "Jusqu'au Bout."

La Von Mason, popular Theta of last year, is at school again.

Caroline Wyatt, president of the Home Economics club last year, who is a teaching school, writes an S. O. S. for Student Life from Idaho.

The Dr. Sprague ambulance corps of Salt Lake, of which Harry Halton and Leland Tuft, old Aggies, are members, has arrived in England.

Einer may not have kept it as secret from you as he has from us, but last year's full back has taken to his home a Mrs. E. B. Olsen.

La Von Sharp, a graduate of last year at the University and very prominent in student activities there, has registered as a freshman here to get some of our type of education.

Girls of the Practice House entertained at dinner for Lorin Litchfield and Max Lord, both members of the Training detachment, on Sunday.

With the four Khans at school again the A. C. still maintains its noted cosmopolitan air.

Lieutenant Dresden Cragan has arrived safely at a Siberian port, according to word just received by Student Life.

Hugh Harrey, elected song leader for last year, has been commissioned a second lieutenant in artillery at Camp Zachary Taylor.

"Vic" Hendricks, one time football man, was on the campus renewing old acquaintances Monday.

"Bill" Merrill has returned to school after a year with the Eccles Investment company.

"Ned" Foutz has signed up for a career as a Red Cross nurse on the battlefields abroad. At present she is teaching school in the southern part of the state.

Prof. D. Steiner of the agricultural department of the University, was at the College Tuesday.

Thetas are now at home on Fourth North, just above Main.

Dr. Titus, former head of the entomology department now in Government work, was in town for the part of the week.

Food 4 girls served a dinner in the Woman's building Wednesday to visiting members of the Federation of Women's clubs, which is meeting in Logan this week.

Allan Conkright, star full back of last year's Rocky Mountain championship team, is in the navy at San Pedro, Cal.

"Del" Taylor, debater of last year, was on the campus during the week. "I" is teaching school this year.

Wilbur Thayne, former instructor in the School of Commerce, is in town on an agricultural furlough. "Bill" is stationed at Washington D. C. in the Engineering corps.

THIS WEEK'S NOTES ON THE WAR

By Cannon Ball

These comments and opinions were collected by Mr. Heeza Nutt, eminent war correspondent of "Student Life." He is one of our foremost writers on war topics and his opinions are always considered the very last word among army men. The Grand Army of that brave little monarchy Prentiss-on-the-Splutz accepts them unconditionally. He gathered these valuable insights into the inner side of the Great War from newsmen and old women in the slums of Providence and some of them are his own opinions.

Mr. Nutt brought these calculations as to the duration of the war together only after a hair-raising adventure. They are especially valuable therefore: Pres. X of Afghanistan—20 years Kaiser Wilhelm of—6 weeks Duchess of Oldenberg—2 days Joe Haverz (U. A. C.),

a few hours more
B. V. D. (New York Lines) 40 years, 9 mos, 21 days Frank West, Ph. D. etc., 1,298,341 minutes

The "Voerwaertz Zeitung" of Potsdam-on-the-Rhine, commenting on a recent brilliant drive of the Kaiser's hordes in which they gained one yard on a sector of thirty seven inches in the Forest of Extrix (pronounced Ztxex) says: "This is undoubtedly the most brilliant action of the war. When the armies of the Fatherland and the All Highest Kaiser begin to make gains like this in so short a time as three weeks it can foretell nothing but a speedy destruction of our despicable enemies and consequent peace and world dominion. We will be in Paris in ten hours. Hoch der Kaiser."

Hock the Kaiser is right.

Mr. Nutt gives this brilliant thought: "As long as the allies continue to win they will continue to be victorious."

How many cannon does it take to make a cannonade?

Von Hindenberg, that famous German boy is said to have a whole platoon under his command.

Karl von Bloodthirsten, a Hun aviator, has been presented with the Iron Cross for extreme courage and skill in bombing. It is said that he dropped a 500 pound bomb on a little child eating sausage. He blew the child into 1,001 pieces but did not hurt the sausage. He ate the sausage.

Kaiser Will, (the unthinkable I) to his people: "Courage, mine loyal brothers. We will yet be victorious if we lick der Allies. Me und Gott will do id yed." Loud applause.

Mr. Nutt is credited with addressing the Kaiser in these glowing words after he was thrilled by the above speech: "How do ya get that way?"

Mr. Nutt gives the latest dope on the size of companies, etc. It should be interesting as well as informing: A company has 40,000 men. 1 Squad has 200 men. 1 Platoon has 8 men. 1 Brigade has 9 men. 1 Battalion has 20 companies, or 9,001,002 men. 1 Corporal equals 10 privates. A Sergeant equals 10 corporals. 2 Lieutenants equal 1 Sergeant. A Captain equals 10 lieutenants, or 10,000 privates.

The Iron Cross, according to Mr. Nutt is a valueless little scrap of Fe given to members of the Hun gang by the chief of the Potsdam gang for extraordinarily odious or despicable deeds such as the torture of little

COLLEGE GETS VOCATIONAL MEN

To Train 600 Mechanics in Addition to S. A. T. C.

MORE ELIGIBLES

In addition to about five hundred men now being inducted into the collegiate section of the Students' Army Training corps at the College, the Institution has been authorized to induct six hundred additional men for mechanical and technical training and for training as telephone electricians, according to instructions just received by President E. G. Peterson from the War Department.

Acting on these instructions, the College will begin the immediate induction of four hundred men, nineteen years of age and over who have had a grammar school education, into the vocational work, and of two hundred men who have had at least two years of high school training into work to prepare as telephone electricians.

The vocational training will include a course in the aims of the War of 1914 and practical work to prepare for any of the following: Auto experts, chauffeurs, radio experts, carpenters, blacksmiths, concrete workers or machinists. The telephone electricians will secure special courses in physics in connection with their practical instruction.

All qualified who desire to secure induction into either of these groups should present themselves at the College at once. Already many have made application for this work and the quotas are filling rapidly. Rations, housing and thirty dollars a month will be received by the men as soon as induction is completed. Uniforms will be furnished as soon as they are available.

Induction is also open at the College for those men who registered prior to September 12, but who are not in Class-A who have thirteen or more units of High School work. These men may enter the collegiate section of the S. A. T. C.

Induction may proceed at the College until October 31 instead of until October 15 only, according to a recent communication from Provost Marshall General Crowder.

Children or the flaying alive of old women or young girls.

Cora's crocheting corset covers for the cossacks. Kate is knitting nighties nightly for the navy.

Vard will have quite a walk this year from the barracks down town. Maybe she'll come half way.

With all due respect to the individual we desire to have him return our editorial pen and save us both embarrassment.

If something doesn't happen—by Gad! we'll have to start something.

George Eccles, trying to slip past the guard, made too much noise and the guard hearing him said: "Halt, who is there?" George thought he would be funny and said, "Moses." The guard then said, "advance and give the ten commandments."

GUARD THAT'S IT

One of the Freshman stars in football answering a question as to where he and his "pal" played, said: "Oh, I play half and he plays—let's see, what is that place next to center?—oh yes! guard, that's it."

15,000 to 30,000
Pounds of Milk

Seventy-seven cows have been admitted to the Holstein-Friesian Advanced Register that have produced 7,000 to 15,000 quarts of milk in periods of ten months to a year. The capacity of the Holstein cow for milk is a matter of extraordinary interest.

DE LAVAL

Separators

Save in
7 Ways

QUANTITY of cream that no separator will recover completely, particularly under the haphazard conditions of every day use.

QUALITY of cream as evidenced by De Laval system, and as well over every important contest.

LABOR in every way over any other separator, by turning easily, being simpler, easier to clean and requiring no adjustment.

TIME by hours over any gravity system, and as well over any other separator by reason of greater capacity and the same reasons that save labor.

COST since while a De Laval Cream Separator may cost a little more than a poor one to begin with, it will last from ten to twenty years, while other separators wear out and require to be replaced in from one to five years.

PROFIT in more and better cream, with less labor and effort, every time milk is put through the machine, twice a day, or 120 times a year for every year the separator lasts.

SATISFACTION which is no small consideration, and can only come from knowing you have the best separator, and being sure you are at all times accomplishing the best possible results.

Easy to prove these savings

There are all facts every De Laval local agent is glad of the opportunity to prove to any prospective buyer. If you don't know the nearest De Laval agency write the nearest De Laval office, as below.
