NUMBER 17.

A. W. Ivins Succeeds Stohl As President of Trustees

Accept Budget of President; Provide for New Buildings and New Faculty Members at Annual Board Meeting; Doctors Brossard, Hill and Gardner, Mrs. Amy Lyman Merrill, Blanch Cooper, William Lindsay Added to Faculty—Hirst and Richards Return—Leaves for Miss McChyne, Peterson, Pulley, Hagan, Goldthorpe and Miss Underwood.

Anthony W. Ivins, of Salt Lake City, was chosen president of the Board of Trustees of the Agriculture College, and John Dorn of Salt Lake was chosen vice-president at the regular annual re-organization meeting of the Board held at the College, Saturday April 23. President Ivins, formerly vice-president, succeeds Lorenzo N. Stohl, who has been a board member for fourteen years and who has acted as president of the Board for twelve years. After the reading of Mr. Stohl's resignation from the presidency of the Board, a vote of thanks was tendered him for his long and efficient service as chief executive.

President Ivins has long and intimate experience in practical agriculture and stands today as one of the leading agriculturists of the West. He is president of the State Live Stock Association and one of the State's best known breeders of live stock. His ready sympathy for the type of education for which the U. A. C. stands and his wide knowledge of men and conditions in Utah make his selection as president an eminently happy one.

John Dorn, vice-president of the Board, is a prominent investment banker of Salt Lake City. He is vice-president of the National Copper Bank, and prominent in mining circles.

A full membership of the Board was in attendance as follows: President Anthony W. Ivins, vice-president John Dorn, Lorenzo N. Stohl, George T. Odell, John C. Sharp, Frank B. Stephens, all of Salt Lake City, Angus T. Wright, Ogden; John D. Peters, Brigham, W. S. Hansen, Fielding, A. G. Barber, Mrs. Lois Kerr Hayball, and George W. Skidmore, all of Logan, and Secretary of State Henden Bennett.

The entire budget for the next year was passed as presented by President E. G. Peterson.

The plans for next year approved.

CLASH WITH U. IN ZION TODAY

Play Ball Today and Tomorrow—Meet On Track Tomorrow—Good Showing Expected.

Once more the Crimson and Blue will strive for athletic supremacy. This time the struggle will take place on Cummings field, right in the country of the enemy, surrounded by hostile population and everything, but not daunted whatsoever by the terrible odds they will be working under, our brave and staunch athletes will make the long trip without a murmur, and once there, will do their best to make the "Crimson" shout "enough."

The latest invasion for fame began this morning at 8:00 o'clock. (You think this was written after 8:00 o'clock this morning by the sound of it, don't you? No Agamemnon, this couldn't be that for this is only another example of the chances our Aggies are willing to take. We'll take a chance that an earthquake or something don't wreck the plans of procedure and by this time the knights of the cinders and the diamond should be well on their way South.) The first battle will begin promptly at twelve this afternoon and will be between the baseball nines of Utah's two institutions of highest learning. Tomorrow morning the second inning of the 8:00 o'clock carnival will be held when the ball tossers again endeavor to settle their argument and the final chapter will be written tomorrow afternoon when the two squads will throw cinders in each other's face in a dual track meet.

Coach "Dick" Romney, the pride of the A. C. and the father of a budding boy, is leaving in a condition which he calls "well healed," meaning, as educated ones suppose,

by the board provide for an extension of the work of the College into several new fields and for a general strengthening throughout all departments. A strong emphasis will be placed upon the work in rural sanitation, public health and home nursing. This work will be expanded into a new department of specialists and all requirements of the Public Health Education Law recently passed will be met. Much of this work will be offered in the coming summer school, which opens June 9, thus enabling teachers to qualify during the summer quarter to teach this required work next fall.

Co-operating with the United States (Continued on page two)

ANNUAL MEDAL GOES TO SNOW

Wins Hendricks Extemporaneous Contest Speaking on The Price of Glory—Crafts Forceful With "Roosevelt."

The Hendricks medal, given annually by Professor George B. Hendricks to the student giving the best extemporaneous speech was won yesterday by William J. Snow.

An enthusiastic student body turned out to the contest and they heard some well developed speeches which were full of food for thought. Mr. Snow, the first speaker, solicited the sympathies of his audience in an effective way by showing just what the glory the Agricultural College obtained in the war cost as in lives. He very clearly showed how the A. C. at the outbreak of the war was untold; that we proved ourselves loyal and true gentry, but at the cost of the lives of some twenty of our young men.

The second speaker, Paul Jenkins, took the sinking of the Lusitania as his subject and developed it very well. He pictured the scene of the sinking and depicted the methods of Germany declaring that her method was that of wholesale murder.

Dudley Crafts was perhaps the most forceful speaker of the day, but was handicapped by his voice. He took Theodore Roosevelt as his subject and portrayed him as a citizen typical of Americanism. Mr. Crafts said of Roosevelt, that he was a man who triumphed over overwhelming handicaps and that the American people saw him in this light rather than as a statesman. Mr. Crafts ran a close second to Mr. Snow, securing two out of the five votes from the judges.

Albert Ramsperger closed the contest by showing the problems which face the world today. His theme was "Looking Forward."

That like the two-gun man he is going to the metropolis in the south with all his guns in the shape of track men and ball players. "Bill" Hart will look like a student of the gospel compared to "Dick" if the latter named gent gets a chance to steal, hog or borrow victory in the track meet or the ball struggle, for the staunch Aggie mentor declares he will let nothing come between victory and himself.

From a premature point of view, declare followers of the spring sport, the Big Blue outfit has an excellent opportunity to romp away with both battles, for both on the diamond and track the A. C. is strong. There are no particular stars, it is true, but they are a bunch of good men who will hit hard and play good baseball and pick up many and sundry loose points on the track.

"Ace" Dewey will in all probability start the first game, although it is about a tossup between him and Ralph Smith. The latter was going so well the other night that he looked good for a place in most any league. But at any rate Dewey and Smith

(Continued on page two)

COSMOS CLUB INSTALLS BOX

Will Hold All Club Constitutions, Contracts and Records of Different School Activities—Eliminates Confusion.

Determined to do something more for the school than merely hold their bi-weekly gabfests the Cosmos Club has decided to institute a "Document Box" in the Secretary's office.

A "Document Box" is something long needed here at school. It is a box wherein the constitutions and by-laws of various classes, clubs, and societies, debating contracts, limits to succeeding office holders and any papers or information of value may be locked in the vault in the Secretary's office and may be readily secured the following school year by authorized officers of the clubs, etc., concerned.

Every one recalls how some com-watts, drafting a constitution for a mittee has burned the midnight kilowatts organized for a club and then upon returning to school the next fall, discover that Tom Smith or Jack Brown was the last one who had it and since he isn't at school this year and nobody knows where he is, it is necessary to draft a new constitution.

The "Document Box" will be inaugurated as the Ag. Club, Home stilled in the near future. Such organizations as Debating, Athletics, etc., will leave copies of contract with other schools; financial statements, and timely suggestions for those who succeed them in office. All will be filed in alphabetical order. Club officers, get copies of your documents ready early.

Proposed Amendments to Student Body Constitution

Herewith is a draft of the proposed amendments to the Constitution of the Student Body organization. Parts effecting changes or additions to the original are put in parentheses. These proposals have been approved by the Faculty which grants the power of self government to the students. They will be voted upon on week today. A three-fourth affirmative vote will embody them in the constitution of the Student Body organization.

ARTICLE II. Section I.

Clause 1.—All bonafide students of the Institution shall become members upon the payment of an annual fee of \$5.00 at entrance, (provided that students registering for less than three terms shall pay a fee of \$2.00 per term.

Section III.

Clause 5a.—The numbers of candidates upon the ballot shall be limited to three for each office. The three nominees for each office receiving the highest number of votes shall be declared candidates (provided that no man can be candidate for more than one office at any one election).

ARTICLE III. Section I.

Clause 1.—The general officers of the organization shall consist of President, Vice President, Secretary, Treasurer, three student executive committeemen, three Faculty executive committeemen, (three student

May 10, Johansen Last Day

Professor George B. Hendricks, chairman of the Students Loan Committee and the Johansen Scholarship Fund announces that students desiring consideration in the distributing of the latter fund in the school year 1919-20, should hand in their letters of application before six o'clock May 10. Letters of application should include a statement of need, reference to past accomplishment and a promise of future accomplishment, since these are the grounds upon which the awards are made. May 10 is the last day. \$129.00 may depend upon the writing of a letter by some one who can use the money.

SMITH, ECCLES HAMMOND TEAM

Represent College on Courts After Close Elimination Matches—Titus Medal Contests Coming.

The tennis tournament for the U. A. C. tennis team finished last Tuesday. Bert Smith, Cyril Hammond and George Eccles are the men chosen to represent the College on the courts this spring. Runners-up in the contest were Solon Barber and Khan. Swede Lindquist, although ineligible for the team has been working out almost nightly and plays a good brand of tennis.

The three men chosen are all players who have had considerable experience in the game. Smith and Hammond especially are old hands. Eccles is young and somewhat inexperienced but he will show up well in time.

Entries for the tournament for the Titus Medal, both for men's and women's singles are now being received. The tournament will begin soon.

Only three entrants for the mixed doubles tournament have been received an dthe tournament will be played by these three.

"To be given out to the president, vice president or secretary of this club, ONLY."

Likewise, the managers of activities such as Debating, Athletics, etc., will leave copies of contract with other schools; financial statements, and timely suggestions for those who succeed them in office. All will be filed in alphabetical order. Club officers, get copies of your documents ready early.

members of the Athletic Council, three faculty members of the Athletic Council and three alumni members of the Athletic Council.)

Clause II.—The Executive Committee shall consist of the president, three members elected by the organization, the treasurer, three faculty members, the president-elect and one member from each of the upper classes to be elected in April by the Freshman class and to hold office until graduation of the class, (provided that in the event of their withdrawal from school during any year that another representative shall be immediately chosen by the class to fill the unexpired term).

Section II.

Clause 1.—The department of officers shall consist of editor of student publications, manager of student publications, manager of college theatricals and musicals and socials, football manager, basketball manager, track team manager, baseball manager, tennis manager, wrestling manager, debating manager, song leader and cheerleader. (Leaving out office of standard bearer).

Section III.

Clause 7.—All officers except the manager of student activities, the treasurer, the faculty members of the executive committee, (the faculty representatives of the athletic council, and the alumni representatives of the athletic council shall be elected officers).

Clause 8.—All managers shall be appointed and made responsible to the Executive Committee (except that athletic managers shall be responsible to the Athletic Council).

Clause 8 1/2.—Football manager and manager of student publications shall be appointed by the third school Friday in March of the year preceding which they are to act.

Clause 12 1/2.—(The Faculty Representatives, one of whom shall be chairman of the Athletic Council shall be chosen by the President of the College).

Clause 12 1/2.—(The Alumni representative of the Athletic Council shall be chosen by the Alumni).

Clause 15 1/2.—(The Candidate for each office receiving a plurality of the votes cast shall be declared elected).

Clause 4.—It shall be the duty of the Treasurer to receive all moneys of the organization, to bank the same in a reputable bank in Logan

(Continued on Page Three)

High School Students Come Here For Week of School

Starting Next Tuesday Representatives From Practically Every High School in State Come For Club Training—Feature Work In Stock Raising, Canning, Bread-making—To Be Housed And Fed on Campus—Extensive Entertainment Planned For Visitors—Annual State High School Track Meet at Adams Field Saturday Will Be One of Features.

The Boys and Girls Club school week at the A. C. promises to accomplish as instructive and beneficial results as the Farmers Roundup and Housekeepers conference has in past years. In this case, however, it is principally the juvenile population of the state, who will be entertained by the College.

Boys and girls from every corner of the state will be our guests during the week of May 13 to 15th. All are invited to be in attendance and also in particular, teachers of economics and agriculture, superintendents of schools, parents, club leaders

and all who are interested in the problems of education and their relation to the youth of the land.

Transportation and lodging expenses will be paid for all those who qualify under certain rules governing their selection. Others are required to pay their own expenses, but assistance will be given them in obtaining lodging and meals at the lowest possible rates.

Facilities will be provided whereby the boys and girls may board and lodge on the campus. Meals will be provided for an average of twenty-five cents.

The boys and girls will arrive in Logan Monday, May 12. Members of the A. C. Ag. Club will meet all incoming trains, both steam and electric and will be on hand to escort the visitors to the College where they will be registered and where work will commence for them Tuesday morning, and continue until Thursday afternoon.

Registrations will be made at the club office, Room 225, Main Building.

The class work given to the boys and girls will deal primarily with High School Club work for the year. Much attention will be paid to high school organization and activities.

An extensive and varied program has been arranged for the entertainment of the visitors. No effort will be spared to make their stay here as enjoyable and instructive as possible.

Tuesday morning a general assembly will be held in Room 280. There will be music, general instructions will be given and addresses of welcome by various members of the faculty, prominent business men, Student Body President, and the President of the Ag. Club. In the afternoon a tour of the campus will be made, and a club social at 8 p. m. completes the day's program.

Beginning Wednesday and ending Friday, setting up exercises will be

(Continued on Page Three)

ARTILLERY UNIT HERE PERHAPS

Fifty Students Required—No Uniforms to be Worn And Drill to be Done in Summer.

In the near future the school may have a Coast Artillery R. O. T. C. unit. If such a thing comes to pass it will enlarge our faculty, our military department and our school.

The war has proven that in most cases practically every branch of knowledge has its military application. No doubt the Coast Artillery can constitute something of a technical, scientific and human interest in the college work.

No uniforms will be worn and no drill other than physical education will be given during the school year. All the drill work will be confined to the summer camps which will be two in number of six weeks duration each. All the academic work will be taught by the regular school staff.

Following are the requirements: Fifty students must enroll for the work and the institution must have courses of instruction equivalent in scope to the required course of instruction mentioned hereafter as prerequisites for commission in the coast artillery R. O. T. C.

Qualification for officers: a sound body; a college education as evidenced by a college degree; a basis military training equivalent to that obtained by attendance at two summer camps of six weeks duration each. Plane and solid geometry, plane and solid trigonometry, college algebra, use of a slide rule, English, a modern language, physics, American history, general history and civics, plane surveying; all of which will be taught in the school and for which the student will be given credit on the books of the school.

STAFF TO PLAN FOR TOURNAMENT

Student Life staff will be guests of the President's Office at a luncheon in College Dining Hall, Monday evening at 5:30. Another inspiration (this time gustatory) will be given the staff.

It is very desirable that every member be present so that plans for handling the press work of the High School Tournament can be done in a creditable manner.

Five-thirty, Women's Building, Monday—Staff Prompt—Sure.

THANKS COSMOS

This is a hard task to the Cosmos Club and not on, on their sensibility and loyalty in placing their "Document Box" at the disposal of the Student Body. Full many a night of anguish and feverish day will be spared club and student body officers, when they know where to find the records of their organizations.

REMEMBER YOUR AGGIES

Nothing as extensive as the coming tournament for high school students has ever come to the A. C. before. No opportunity for students of the A. C. to be of service to the Institution and State has ever presented

A. W. IVINS SUCCEEDS STOHL AS PRESIDENT OF TRUSTEES

(Continued from Page One)
es Department of Agriculture, the College will maintain a field agent in marketing whose duty it will be to aid in the marketing of farm crops, a phase of agricultural rapidly being recognized as one of the most important to successful farming. Prof. Z. B. Wallin will act in this capacity. He will also have charge of the extensive courses in marketing outlined at the College for next year. Prof. Wallin is a graduate of the University of Wisconsin where he studied under Professor Taylor, now chief of Farm Management in the U. S. Department of Agriculture.

Dr. E. G. Brossard will come to the Institution from the faculty of the University of Minnesota to direct the new department of farm management. Dr. Brossard will carry on much practical field work among the farmers in connection with the classroom instruction. The new department will air farmers in the organization of their farming business and in farm accounting. By a skillful organization of the farming business, the farmer will be able to reduce operating expenses and increase his income. Many farmers in Utah can trace their success to skillful organization and others their failure to improper balance of crops and livestock. The large incomes of farmers are invariably due to proper management.

A general strengthening of the work in home economics and in the organization of courses calling for the cooperation of these two schools of instruction. The Practice House, where girls receive practical instruction in household management will become the Practice Home, in charge of Mrs. Amy Lyman Merrill. Mrs. Merrill is a graduate of the Utah Agricultural College and of Columbia University. She was the first home demonstrator in Western America, working in Utah in that capacity in 1912. She will take up her work in the Fall coming direct from post graduate work at Columbia.

A notable enlargement of the work of the Experiment Station was authorized by the board by the organization of work in home economics, relating especially to child nutrition. This work will be under the direction of Dr. R. L. H. Nuttall, University of Maryland, and later of the Nutrition Service, U. S. Army, and Miss Blanch Cooper.

Through increased federal aid and state support, the Extension Division will be able to enlarge its scope. Especially will the work of the county agents and home demonstrators be strengthened. The junior extension work will be done in close co-

operation with the State Board of Education.

The Board of Trustees approved all building plans and campus improvements recommended for next year. The present construction plans include the completion of the Live Stock Agricultural Engineering, and Plant Industry buildings, the construction of a new home barn, the house, and vegetable house. The heating plant will be doubled in capacity, a new sprinkling and fire pressure system will be installed and a campus lighting system will be constructed.

The Board of Trustees approved the organization of the following departments: farm management, home and school nursing, marketing, and sanitation and public health.

The appointment of Lieutenant Colonel R. P. Hartle to the military department by the War Department was acknowledged by the board, and the following faculty members were appointed: Dr. E. B. Brossard, University of Minnesota, to be Professor of farm management; Dr. R. L. H. Nuttall, Nutrition Service, U. S. Army, Prof. Mary Lyman Merrill, to be Professor of Chemistry and in charge of Nutrition Investigations. Mrs. Amy Lyman Merrill, U. A. C. and Columbia University, to be in charge of Practice Home in Home Economics.

Dr. Willard Gardner, University of California, to be Assistant professor, Physics; Miss Blanch Cooper, Home and School League, Lecturer, Salt Lake City, to be associated in Child Nutrition, Experiment Station; Mr. William Lindsay, Brigham Young College, to be Instructor in Business Practice; Mr. A. H. Powell, Garage manager, to be Instructor Machine and Auto Mechanics; Mr. L. F. Winchell, Garage manager, to be Instructor in Auto Mechanics and Tractor work; Mr. Samuel Morgan, U. A. C., to be Instructor in Zoology and Entomology; Mr. N. D. Thomas, University of Utah and Oxford University, England, to be Assistant Agronomist, Experiment Station; Instructor in cheese and butter making to be appointed.

In addition, a lecturer in household administration will be appointed.

Dr. A. H. Saxer, Professor of Mathematics, was appointed acting director of the School of Home Economics. Miss Johanna Moan, assistant Professor of domestic art, was made professor, Assistant Professor George Stearns was advanced to the rank of associate professor of agronomy, and assistant Professor Z. B. Wallin was made associate professor of marketing and agent in marketing.

The following faculty members will be in attendance next fall after leaves of absence: Professor C. T. Hirst, from the department of Chemistry, University of California; and

Dr. Bert L. Richards, from the Department of Plant Pathology, University of Wisconsin.

Leaves of absence were granted to Miss Gertrude McChesney, state leader of home demonstrators, for further study; Prof. William Peterson, professor of geology and state Geologist, for one half year; an appraiser for one half year for the State; Professor E. H. Pulley, assistant professor of Mechanic Arts, for further study. Professor Harold Hagan, assistant professor of entomology, who goes into the state service. Miss Elizabeth Underwood, instructor in foods, for further study and Mr. Harold C. Goldthorpe, instructor in chemistry for further study.

CLASH WITH "I" IN ZION TODAY
(Continued from page one)

look like the favored for the hurling positions, while Cox will likely be on the receiving end. The big-league fighter, Ziebart, is on the list for the injured or missing and it is doubtful whether he will be able to catch one game or not. John Clyde Worley will hold down the initial sack according to all regulations and forms, while "Pesty" Jarvis will be seen at the second back with "Catt" Andrus in the short field and "Farley" Bowen at the difficult corner. The outfield will be made up of two heavy guards in "Luke" Falck and "Stubby" Peterson with the other place still a mystery.

On the track the Aggies expect not a few points from Nagle, "Stubby" Jacques, Wayman, "Frog" and many others who may come out in the meet. Barlow, Carl W. Peterson and Lindsey will center in the line and the 220 for the "A." "Stub" will take the low-hurdles and perhaps break the state record while Ferguson, Montana "Frog" and Cox will knock over the high hurdles. Andrus, Cox and "Frog" will take care of the weights and Nelson will endeavor to fly over the bar in the high jump. Everybody will do the broad jump, Nagle and Hatch will make the boys step in the quarter-mile canter and Jacques and Wayman will carry off the points in the long distance events.

Yes! Yes!
Bonny—"Generally speaking women are—"
Beverage—"Yes, they are."
Benny—"Are what?"
Beverage—"Generally speaking."
—Monmouth Oracle.

I knew a young lady from Michigan. To meet her I never should wish again. She'd order ice cream. And with much joy she'd scream. Then she'd order more big dish-gan. —Unknown.

Franklin L. West

Weekly Biography

If an old Alumnus of the U. A. C. stops you for a chat about the "School on the Hill" assuredly the third, if not the first or second question he asks you will be: "Have you had any work under 'Whisperin' Frank'?"

Should you say "No" he will bestow on you a look which silently brands you as an idiot, but if you, as nearly every Aggie would, straighten your shoulders and come out strong on the "You bet your life," he will slap you on the back and swear eternal friendship.

There is a rumor dating back to the year 1907, when Dr. West made his debut as a member of the A. C. faculty, which says that one of the Aggies' football men suffered nervous prostration because of the "call down" Mr. West gave him for talking in class. Whether or not the rumor is fictitious it has the same effect, for no one ever talks in his classes—they are too busy trying to hear what he says in a voice that is never raised above a whisper.

Do not think, after reading the above that Franklin L. West is anything like a grouch or a bundle of superficial dignity—he is not. He is ready and able to see a joke at all times, and takes a personal interest in each one of the students who enter his class room. Never a student of the Agricultural College took a course in physics without learning to regard Mr. West as a real friend, for he not only aided them in the solving of uncanny formulas, but he also helped them to unravel the problems of life.

Dr. West is also somewhat of an athlete, and unless you are sure of your powers, do not bet that you will beat him in any sort of gymnastic work. While at the University of Chicago he was captain of the gymnastic team and took the medal for being the best gymnast there. He hasn't forgotten how it goes either, and can still put more style into gym work than any other man on the A. C. campus.

The interest of the Utah Agricultural College are, and always have been the interests of Mr. West. He grew up with the school, graduated in the General Science Department in 1904 and has been with the Institution all the time since then except for three years after graduation in 1904. One of these (1905) was spent at Leland Stanford; the year 1905-6 he was professor of physics at the Brigham Young University and the summer of 1906 and 1907, as well as the winter of 1906-07, were spent at the University of Chicago.

In athletics, F. S. West has done more for the A. C. than has any other one man. He has always been working with the idea in mind of putting the "Utah Farmers" on the map in an athletic way. For years he has been chairman of the A. C. athletic committee and is at present chairman of the Utah branch of the Rocky Mountain Athletic Conference.

He has worked for the school in many other ways and is interesting to note that he was chairman of the committee which formulated the "quarterly system" which we have at the A. C. and that after examination of the system, the War Department recommended it to all other Universities and Colleges. In fact Mr. West has had to resign from some of his special committee "jobs" in order to get enough time for his other work.

West started to be bashful about the time he was born in Ogden Utah on February 7, 1885, and he hasn't yet overcome the failing. That is why he doesn't like to tell about the success of his research work and that is why the students of the Agricultural College are not as well acquainted with his accomplishments as are many of the people outside of the A. C.

All of the weather bureau men and the men in every Agricultural Experiment Station in the United States are acquainted with Dr. West of the U. A. C. and they credit him with some of the best work ever done. The results of his experiment work with frosts created nationwide interest and "Popular Mechanics" reproduced a picture of the apparatus he used for the freezing of fruit trees, along with an article explaining the method.

Another bulletin recently issued by Mr. West on "The Climate of Utah" has also attracted much attention. Mr. West says that it is because it has no competition—and cause it has no competition with him—it is one of the best of everything else.

Mr. West obtained his Doctor's degree from the University of Chicago in 1911. He had a fellowship there and since then has been Director of the School of General Science and the Utah Agricultural Experiment Station. But these are not the most interesting facts about him. It is the man; what he has done for

PROPOSED AMENDMENTS TO STUDENT BODY CONSTITUTION

(Continued from page one)

gated account of all receipts and to keep an itemized and segregated disbursement from each department. He shall draw upon the funds under no consideration except upon order of one of the managers, approved by the President in case of departmental expenses, (and by the Athletic Council in the case of Athletic expenses), or upon order of the Executive Committee signed by the President in case of general expense.

Clause 5a.—(It shall be the duty of the Athletic Council to regulate the general policy of athletics at the school, working in conjunction with the coaches to arrange games; to expend wisely the monies appropriated by the Executive Committee for this purpose, to award letters to men eligible under the provisions of the Constitution of the Student Body Organization; to be responsible to the President of the College and the Executive Committee for its actions and to encourage athletic endeavor at the institution.

It shall be the further duty of the athletic council to perfect such an organization as will be necessary for the conduct of their business.

Any vacancies in the student membership of the Athletic Council shall be reported immediately to the Executive Committee that such vacancies may be filled.

It shall be the further duty of the Athletic Council to keep an accurate record of its expenditures and report to the Executive Committee such expenditures the second school Monday after the close of each semester).

Section IV.

Clause 12.—(It shall be the duty of all athletic managers, namely: football, basketball, baseball, track teams, swimming, wrestling, etc., to arrange details of trips, to advertise games, and do such other work in connection with coach and athletic council as will make for the success of the sport managed.)

He shall render an account to the athletic council for all monies received and disbursed. (This supplants clauses outlining individually the duties of the managers.)

Clause 20.—It shall be the duty of all the managers to make their accounts to the Treasurer or in the case of the athletic expenditures for the Athletic Council to do likewise to the treasurer.)

ARTICLE IV.

Section 7.—(Awards shall be made by the Athletic Council upon recommendation of the coach and the approval of the Executive Committee and in accordance with the provisions herein governing awards.)

Section 8.—If no funds are available with which to present athletic awards (and the presenting of the awards at any time conflicts with the policy of the Rocky Mountain Faculty Athletic Conference) the coach and captain of each team shall present to the Athletic Council the names of men entitled to awards. These men, upon the approval of the (Athletic Council) and the Executive Committee, shall be designated as "A" men and shall be permitted to wear the official "A."

Section 21.

Clause 1.—(The award for Student Body President and Editor of Student Life shall be a gold medal of a design now in use with a raised block "A" and a scalloped border.)

Section 21.

Clause 1a.—(The token to be awarded for merit in student activities outside of team work shall be the present award known as the "Student Body Pin.")

THRIFT

Without me no man has ever achieved success, nor has any nation ever become great.

I have been the bedrock of every successful career, and the cornerstone of every fortune.

All the world knows me and most of the world needs my warning.

The poor may have me as well as the rich.

My power is limitless, my application boundless.

He who possesses me has contentment in the present and surely for the future.

I am of greater value than pearls, rubies and diamonds.

Once you have me, no man can take me away.

I am Thrift—American Bankers' Association.

"Here's a nickel for you, my man!"

He said to a frayed and ragged-looking individual who stood under the porch with extended hand, "I'm not giving it to you for charity's sake, but merely because it pleases me."

"Thankie, but couldn't you make it a quarter and enjoy yourself thoroughly, ma'am."—Ex.

HIGH SCHOOL STUDENTS COME HERE FOR WEEK OF SCHOOL

(Continued from page one)

given to the boys and girls at 7:00 a. m. Breakfast will be served at 8:00 a. m. The hours from 9:00 to 12:00 will be devoted to club school. Special emphasis will be placed upon the rearing of farm animals as calves, pigs, sheep, poultry and to the growing of farm and garden crops such as potatoes, wheat, corn and to the canning of vegetables. Work in breadmaking and sewing will be given to the girls and in addition they may register for any of the club projects outlined for the boys.

An extensive course will be given which is designed to teach the boys and girls how to make reports and keep records of their club work.

From 12:00 to 1:00, every day, is lunch hour.

The afternoon hours will be made interesting by grain and stock judging contests and various club activities.

Wednesday night the Home Economics Club and the A. G. Club will give a social and Thursday night the Sorosis will entertain the visitors with a vaudeville.

The State High School Track meet is scheduled for Friday afternoon. School work for students of the college will continue as heretofore.

The complete program for Club School Week follows:

Tuesday

9a. m.—Music. General Instructions, Henry Oberhansky; Short talks by President E. G. Peterson, Professor O. H. Benson of Washington, D. C., Director William Peterson, Mr. F. W. Kirkham, Prof. J. C. Hogsenson, L. H. Hatch, President U. A. C. Student Body, Lucien Mecham Jr., President Ag. Club. Club songs. Get acquainted. Room 238.

12:00—Lunch.

1:00 to 4:00—Departments, consisting of lectures, demonstrations, etc.

4:00 to 6:00—Tour of Campus.

6:00—Supper.

8:00—Club Social.

Wednesday

7:00 a. m.—Setting up exercises.

8:00 a. m.—Breakfast.

9:00 to 12—Club School.

(a)—General Assembly. Room 238. Songs, Talk, Prof. Benson. Reports, records, social features of club work, hikes. Work out projects together.

(b) Judging teams, demonstration teams.

12:00—Lunch.

1:00 to 4:00—Departments. (Same as Tuesday).

4:00 to 6:00—Live Stock parade.

6:00—Supper.

7:00 to 9:30—Home Economics and Ag. Club Social.

Thursday

7:00 a. m.—Setting up exercises.

8:00 a. m.—Breakfast.

9:00 a. m.—Club school.

(a) General Assembly. Room 238. Songs, Short talk.

(b) Departments. Livestock projects. Crop projects.

(c) Home Economics projects. Club activities.

12:00—Lunch.

1:00 to 3:00—Livestock and grain judging. Demonstration, etc.

3:00 to 6:00—Play activities, by clubs. (contests).

6:00—Supper.

8:00—Sorosis Vaudeville.

Friday

7:00 a. m.—Setting up exercises.

8:00 a. m.—Breakfast.

(Guests at Track Meet.

9:00 p. m.—Supper.

Saturday

Excursion (automobile) through Cache county.

Statistics

In a so-called general efficiency test given to youthful Bostonians the following answers were received:

"There were no Christians among the early Gauls; they were mostly lawyers."

"A blizzard is the inside of a hen."

"A vacuum is a large empty space where the Pope lives."

"Sixty gallons make one hedgehog."

"Georgia was founded by people who had been executed."

"A mountain range is a large stove."

"Achilles was slipped in the river Styx to make him normal."

"Pompeii was destroyed by an eruption of saliva from the vatican."

WON THE CROWN

An English schoolmaster promised a crown to any boy who should propound a riddle that he could not answer. After many had tried, a bright youngster said: "Why am I like the Prince of Wales?"

The schoolmaster puzzled his wits in vain and finally was compelled to admit that he did not know.

"Why," said the boy, "it's because I am waiting for the crown."—Boston Transcript.

LOCALS

Miss Sybil Hopkins spent the week end in Brigham and Ogden.

Elizabeth Cannon, a graduate of last year, was a visitor here last week.

Lieutenant Scott was a guest at the Sigma Alpha fraternity house Tuesday night.

Miss Eva Dunn of the Extension Division has returned to school after a battle with the flu.

"Pistol" Cannon, a popular student of last year, was a visitor at the Institution last week.

Hal Bachman and Chase Kimball leave for Ogden this afternoon to attend the Golden Spike celebration there.

James "Economy" McDonald, the Montana Wildflower, is the latest pledge of the Phi Kappa Iota Fraternity.

Miss Abbey Groosbeck, Miss Lavina Richardson and Miss Eleanor Wilkinson, were guests at dinner at the practice house Sunday.

Chester Knudson and Hector Knudson were visitors at the Sigma Alpha fraternity house Saturday and Sunday.

Harold Lambert, of Kamas, was on the campus the fore part of the week visiting friends. Mr. Lambert has just returned from a trip overseas with Hun-chasers.

Freshmen will dance and frolic in everything in the Women's gym this evening. The affair from the general knowledge available, promises to be rather exclusive.

Ray Becraft has just returned from Millard and Iron counties where he has been working in Range Management problems in the interest of the Extension Division.

Gerald Thorne, in company with Dr. E. G. Titus, former entomologist at the College, has been in town several days of this week in the interest of the U. S. Department of Agriculture.

"Nellie" Young is another of the Pi Zets to come home after the war. "Nellie" promises to return next year and show just how much bacteriology and zoology he learned in the army.

Clarence Aldous, looking none the worse for two wounds and a shot of gas which official records credit him with having received in the big fight, has been in Logan with his wife looking over courses for next year.

State Crop Pest Inspector Hal Hagan grabbed four copies of Student Life with voracity when he was at the College the first of the week. He says he misses them even tho the subject of bugs does absorb him.

Mr. Cooley entertained at lunch in the cafeteria Monday in honor of "Nellie" Young and Clare Aldous, who have just been discharged from a long job with Uncle Sam. "Pius" Barlow, Sam Hatch, George Barbre and "Buz" Poulter "horned-in" on the party.

Sum Hatch wears a genial grin these days. Student Life's cub approached him to discover why and discovered that Mrs. Sum is here to cheer him the remainder of the year. They and "Cherrie" (to them) will be at home on Fifth North until school is out.

E. W. "Wick" Stephens was in Logan two days of this week spending a vacation between his old and new positions. "Wick" has been connected with the Union Stock Yards at Salt Lake as field man. He is now with the Landers Machinery company. He promises that he will continue his in his new position as he has in every other one he ever held.

T. H. Abell, the horticulturist at the College, has just returned from a trip into Box Elder and Weber counties for the purpose of inspecting tomato hot beds and looking season. A bumper peach crop is indicated at present in both counties, says Mr. Abell. Tomatoes will be later this year he says. Some trouble is being experienced by the "damping off" of seedling tomato plants. Dr. M. C. Merrill, with whom Mr. Abell started on the trip, will return next week after an extended trip into Salt Lake and Utah counties for the same purpose.

Dr. and Mrs. George R. Hill and Morgan McKay left by automobile today to attend the ball games and track meet with the University.

Girl in pool.—"Help! Help! I'm going to drown. I can't swim."

Girl on bank.—"Well I, can't either, but I'm not shouting about it."

The contestants and judges of the two oratorical contests held during the week have been luncheon guests of the President's Office after the contests. Mr. Cooley served the Hendricks contestants while the S. A. R. speakers and judges are entertained at the College Dining Hall in the Women's Building.

Twenty-eight seniors of North Cache High School will be guests of College tomorrow. Mr. Brimley and Miss Hunter are in charge of conducting them about the campus and explaining things of interest in such a way as to draw them here next year.

A luncheon will be served in their honor in the Cafeteria.

Interesting Experience

"What are you reading there?"

"A book entitled, 'Recollections of a Dry-Town.'"

"Rather dull, I suspect?"

"Not as dull as you might think. The subtitle is 'Some Bootleggers I Have Met.'—Birmingham Age Herald.

German prisoner: "I insist Germany was efficient down to the smallest detail."

American guard: "Is that so? How about wearing a steel helmet to protect a concrete dome."—Ex.

"Speaking of false hair."

"Yes."

"I suppose no woman ever admits that she wears false hair."

"No; she keeps that under her hat."—Ex.

AITKEN WINS S. A. R. MEDAL

Returned Soldier Speaking on "Patriotism on the Firing Line" Wins Annual Oratorical Meet.

Some of the finest expressions of patriotism ever uttered in the U. A. C. auditorium, were given by Vernal Willey, Milton Jensen, and Adrien Aitken in the oratorical contest last Tuesday. The occasion was the annual contest for a medal presented by the Utah Chapter of the Sons of the American Revolution.

Mr. Willey's subject was "True National Greatness" and he gave a well organized comparison of the national ideals of Canada and America as contrasted with the "Kultur" of Germany.

"War and Peace" was the theme of Mr. Jensen's speech. He gave a vivid and sympathetic portrayal of the contributions of a Harvard man in letters from the war zone which depict war from an American college man's point of view. He also emphasized the sacrifice of mothers whose sons are killed or maimed in war.

Mr. Aitken took "Patriotism on the Firing Line," was doubly interesting because of the first hand subject matter direct from battlefields of Europe. He also cited Joan of Arc as typifying the ideal sort of patriotism, making patriotism more than a mere matter of self-defense for one's nation, more than a mere love of conquest, making it virtually anesthetic, religious martyrdom for an ideal.

After some deliberation the judges awarded to Mr. Aitken the S. A. R. medal for having most ably expounded the principles in the interest of which the contest is held—"Intelligent patriotism." The Rev. Mr. Lewis presented the medal.

SUMMER WORK FOR NUMBER OF STUDENTS RANGE MANAGEMENT

A communication has come to the College from J. R. Mohler, chief of the Bureau of Animal Industry in which he states that he needs one or more young men for summer work at the Salina Experiment Station in Sevier county. The station is carrying on experimental work to determine the effects of poisonous plants upon animals.

This is a splendid opportunity for those students especially interested in the problems of range management and will enable them to pass the summer both pleasantly and profitably.

Those interested in this matter should ask Dr. M. C. Merrill at once. The office at Washington desires applications immediately.

GREEKS FINISH CONSTITUTION

The Fraternity Pan Hellenic Council's constitution and by-laws at last meet the approval of all the fraternities which are members of the council. The process of revising, which has been under way for many weeks, was at last finished at a meeting Tuesday.

Many bones of contention in the old constitution have been done away with and the present draft is designed to regulate the fraternal relations with as little friction as possible.

The principal changes are in the pledging regulations. Under the new constitution no fraternity shall pledge a man until he has secured credit on the books of the Institution for twelve hours of resident college work. (A quarter) in addition to college standing granted by the institution. Summer school work is not considered as resident work. This is designed to give new men a chance to become acquainted with all fraternities, and vice versa.

To insure uniformity and fair play in enforcing the above eligibility rules the following is provided: "Within one week of pledging of any man, the fraternity pledging the man in question must file with the secretary treasurer of the Pan Hellenic Council a statement announcing the pledging of the man, accompanied by the following certificate signed by any member of the entrance committee:

"This certifies that (name of pledge) has met all eligibility requirements of the Pan Hellenic Council and may therefore be pledged."

(Signed) _____
"Immediately on receipt of the above statement the secretary treasurer of the Pan Hellenic Council shall furnish the fraternity filing the statement, with a certificate authorizing the initiation of the pledge."

"The secretary treasurer shall notify the council of his action at the next regular meeting of the council."

Another innovation is the clause: "No student of the Institution or no man who is in town with the intention of entering a student shall remain overnight at any fraternity house unless a pledge or a member of that fraternity."

These changes are designed to give uniformity to fraternity policies and to eliminate any tendencies toward cut-throat competition in rushing on the entrance of fraternity prejudice and influence into athletics or other purely school activities. In this respect the U. A. C. fraternities are superior to those of many other institutions and the Pan Hellenic Council is the common meeting ground for all fraternities.

These changes they have all been settled very amicably and the Pan Hellenic Council has come to be recognized as the final authority in such respects.

French Class Play In Bluebird Hall

At the Bluebird Hall Tuesday May 13 at 8:30 the French club will give a dramatic and musical evening. All members of the club and all former French students of the U. A. C. are invited to be there without further ceremony. There will be a one act play "La Maitre Leste" played by Wallace Parkinson, 22, Allah Kahn, 22, Margaret Engermann, 20, Enid Rosenberg, 19 and Aldyth Thain, 19. The French classes will sing songs and everything will be French except the refreshments.

Professor Arnold not only teaches French, he teaches France and in the Club meetings and entertainments gives his students little intimate bits of French life and of France, the France that is every-one's country.

Professor P. E. Peterson has been out of school on account of illness.

CASIO TRYOUTS
Preliminaries for the Casino Graceland for the Casino will be held Wednesday, May 14, in room 280 at 4:00 o'clock. Trials will be held May 15 at 11:00 o'clock in the College Chapel. All prospective contestants should see Miss Huntsman immediately.

CHAFF

"There's a little chaff in every thrashing"—
I. M. Cornfed.

Rev. Geo. Bateman had his name in the Hyrum society column as being a guest at the Saturday night "struggle" there.

During the "A" day festivities Jarvis told "Whiskey" Anderson that he could eat a lot at once and make up for a few days meals he had missed but it was impossible for him to try to eat enough to last him for a week ahead as it can't be done.

George Stewart starred for the faculty on first base in last week's game by catching Worley asleep on the bag. Luke Falck starred for the Varsity at the dinner given after the game.

Frog says he is famous now and there is no use writing about him any more. We will have plenty of extra space from now on so those who want to be featured should hand in their names.

Nadine Foutz, the young lady who was chief dispenser at the ice cream barrel on "A" day led in the number of ice cream cones consumed with eight. Miss Mendenhall, her first assistant, came close with seven.

(Signed) (Stub).
Lorenzo Hatch told the Attendance and Scholarship Committee the reason he didn't get to school the day after "A" day was because "is" offspring ate so much ice cream he had to stay up with her (or him) all night. He got by it right.

Who are we? A letter addressed to the "Professor of Foreign Languages, Texas Agricultural College, Logan, Utah" greeted the distributors of mail during the week. "Pussy" Arnold is under investigation for besmirching our fair name.

Did you ever see the beet? No? Just step into "Doc" Saxer's office and view the beautiful crimson of his pate. Hat ball and the sun on "A" Day did it.

Sigma Alpha Will Hold Annual Banquet May 16

The Sigma Alpha Fraternity will hold its Thirtieth Annual banquet Friday, May 16th, at the Logan Pavilion.

With the exception of the last two years this banquet has been the big event in the Sig calendar. It is a time when the old members come to town and meet the new ones and mingle with them in an atmosphere of mirth, joy and laughter unconfined.

This year the program calls for a banquet followed by a dance.

S. G. Rich, '05, from Burley, Idaho, will act as toastmaster. Ray Silvers is banquet chairman; George Ward has charge of decorations; H. Lawrence Smith of entertainment, and George Eccles programs.

Ag. Club Link Makes Its Final Appearance

The Ag. Club Link terminated a successful year in its history, with the Club-School Issue, which made its appearance Wednesday, May 7.

The little paper was devoted principally to the various high schools throughout the state, and to matters connected with the visit of high school clubs at the College next week, May 13 to 18. The complete program for the week was announced.

In addition to high school news, several excellent articles from the pens of faculty members appeared. Chief of these were the contributions of Professors J. C. Hogneson, N. A. Pedersen and George Stewart.

The entire context of the last issue was live and newsworthy. The Link this year has been very successful from every viewpoint, due largely to the untiring and enthusiastic work of the editor, Mr. Robinson, and to the active cooperation of the staff.

Mr. and Mrs. Finch of Salt Lake have been in Logan the last two days visiting with their daughter Nancy.

SENIOR CHAPEL NEXT TUESDAY

The Annual Senior Chapel of the Senior class will be held next Tuesday, May 13, at eleven o'clock in the College Chapel.

Several unique features will characterize this year's program, prominent among which will be the elections for the Honorary Senior Society, Alpha Sigma Nu. This election has been impatiently looked forward to by the Junior Class for weeks past and will be doubly interesting on that account.

Prominent members of the class of 1919 will talk. Among them will be Summer Hatch, who has been chosen to give the Senior Class address at the Commencement exercises in June; L. H. Hatch, president of the Student Body, and Carl W. (Stubby) Peterson, President of the Senior class.

Musical selections will be given and the Class Choir will sing original songs composed for the occasion.

Last "Y" Discussions Will Come Next Week

Next week the last number of the "Y" discussion courses will be held. The last subject will be "Student Initiative and The College Ideal." This is one of the very interesting subjects and will likely draw a full attendance at each group. Such questions as the following will be discussed: How is the college ideal expressed? By whom is it idealized? What makes the ideal possible? How far is the life of the present student body carrying out the ideal of our college? What is the responsibility of each student to the college? Am I worthy representing my college? What is my ideal as a Christian student? What am I going to do about it?

Well, the thing to do is to get to one of the group discussions and see what the "Y" is doing. Quite a number of students have reported to one of the groups each week and report it one of the best things the school has instituted. Students have been very active in expressing themselves and many ideals pertaining to the right kind of college life.

If you haven't been to a "Y" discussion group meeting, get to one of them next week. The "Y" will be here next year. Get acquainted with its work, it's worth your serious consideration. Watch for the announcements as to time and place on the bulletin board.

Jean Cox Visits College For Smith-Hughes Work

Miss Jean Cox was a visitor at school last Tuesday. When approached for a bit of her life history, she announced that on dates she was rather vague but that she would be delighted to tell of her work.

Miss Cox is now State Supervisor of Home Economics. She held a meeting here last Tuesday to talk to the Senior girls about prospective positions and to explain the Smith-Hughes work. She also kept an eye open for teachers for Iron and Sanpete counties the coming year.

The V. A. C. graduates, Miss Cox says, rank high as teachers, and will have the brightest prospects in the schools of the state.

Miss Cox is enthusiastic about her work and seems to get much enjoyment from it. She has traveled extensively in the southern part of the state, sometimes sleeping in "lean-to's" and washing in kitchen sinks but always leaving something valuable for the women of the district. Miss Cox left Thursday for Salt Lake.

Miss Cox was a student at the A. C. in 1908. After leaving the school, she acted as head of the Domestic Science department at the Brigham Young College for seven years. During the summers she attended the University of Utah and the University of Chicago, and also did some work of the A. C. Extension division. Later she attended Columbia University, taught in the Nebo High School and at the B. A. C. Last winter Miss Cox did excellent work in our foods department but was called in the spring to oversee the Community Kitchen in Salt Lake City.

**The Man Who Buys a
DE LAVAL**
Is Taking No Chances

Any time you buy a cream separator—no matter who makes it or what claims are made for it—that has not behind it a long record of satisfactory service, a record known to all, a record that is in itself a guarantee of satisfactory service, you are taking a gamble with all the odds against you.

Why take chances at all when you come to select a machine that may mean so much in increasing the profit from your cows?

There is one cream separator that has been the acknowledged world's standard for over 40 years. It's the one cream separator that is used by the creamerymen almost exclusively. Dairy farmers the country over know the De Laval and its sterling quality. Experience has shown them that

**It is the best cream separator
that money can buy**

Order your De Laval now and let it begin saving cream for you right away. Remember that a De Laval may be bought for cash or on such liberal terms as to save its own cost. See the local De Laval agent, or, if you don't know him, write to the nearest De Laval office as below.

THE DE LAVAL SEPARATOR CO.
