

CURRICULUM SUBCOMMITTEE MINUTES

4 March 2021

2:00 – 3:00 p.m.

[Zoom Meeting](#)

Minutes

Present: Nicholas Morrison, Chair, Caine College of the Arts
Brian Warnick, College of Agriculture and Applied Sciences
Chad Simon, Jon M. Huntsman School of Business
Scott Hunsaker, Emma Eccles Jones College of Education & Human Services
Thomas Fronk, College of Engineering
Matt Sanders, College of Humanities and Social Sciences
Claudia Radel, S.J. & Jessie E. Quinney College of Natural Resources
Greg Podgorski, College of Science
Robert Heaton for Rachel Wishkoski, University Libraries
Paul Barr, Provost's Office
Richard Cutler, Graduate Council
Toni Gibbons, Registrar's Office
Jessica Hansen for Chenese Boyle, Program Coordinator
Michele Hillard, Secretary
Mark Chynoweth, Statewide Campuses

Absent: Sami Ahmed, President USUSA
Alex Braeger, Graduate Senator
Harrison Kleiner, Gen Ed Assessment
Scott Henrie, USU Eastern
Lucas Stevens, Executive Vice President

Visitors: N/A

1. ***Approval of [4 February 2021 Minutes](#)***
Minutes approved as distributed.

2. ***Program Proposals***
Request from the Department of Aviation and Technical Education in the College of Agriculture and Applied Sciences requests approval to [offer a Nail Technician Certificate of Proficiency](#).
Motion to approve the R401 proposal made by Brian Warnick. Seconded by Scott Hunsaker. Proposal approved.

Request from the Department of Sociology, Social Work and Anthropology in the College of Humanities and Social Sciences requests approval to [change the name of the Institute for Social Science Research on Natural Resources to Community and Natural Resources Institute](#).

Motion to approve the R401 proposal made by Matt Sanders. Seconded by Brian Warnick. Proposal approved.

3. **Semester Course Approval Reviews**

Motion to approve the USU courses made by Paul Barr. Seconded by Chad Simon. USU Business approved.

4. Other Business

Curriculog was shut down on March 3 and will be reopened the first week of July.

Unanimous approval of the [updated course descriptions](#). All courses now have descriptions in the catalog. Thanks to the Registrar's Office for helping with this issue.

Look at updating the Curriculum/EPC handbook. Will bring those updates to the April meeting. A working group will make proposals for changes and then will send out the handbook for review and discussion.

A Curriculum Committee chair will be voted on in the April 2021 meeting.

Adjourn: 2:27 pm

Missing Course Descriptions ([missing descriptions/examples](#)) – Toni Gibbons
Course descriptions are coming in and the Registrar's Office greatly appreciates all the efforts that are being made in cleaning this up. Most colleges stated that they would like to have a boilerplate for the missing course descriptions. Have the Registrar's Office pinpoint one boilerplate description for each course type.

Motion to authorize the Registrar's Office to write course descriptions and provide them to the committee for electronic vote made by Scott Hunsaker. Seconded by Chad Simon. Authorization approved.

Deadlines for any catalog changes – March 1, 2021

Be aware of changes that need to be made before the deadline. Training is available to help with Curriculog forms. There is always a rush at the end of February and the Registrar's Office stands ready to assist with whatever is needed. Toni Gibbons will provide a list that will be included with the distribution of the minutes. College administrators on the Curriculum Committee needs to get this information to individuals in their colleges/departments.

Adjourn: 2:57 pm

CAAS - Aviation and Technical Education - Nail Technician - Certificate of Proficiency

4.1.a R401 Abbreviated Program Proposal

Proposal Information

Instructions for Completing R401:

[Writing Guidelines/Suggestions](#)

[USHE R401 Policy](#)

Contact Information:

Paul Barr: Vice Provost (797-0718)

Step 1: Turn on "Help Tips" by clicking on the Show Help TextPrint icon (*small blue circle with i inside*) at the top right-hand side of your proposal.

Step 2: Select the College and Department Involved in the Process to Ensure the Correct Workflow and Approval.

Select the College(s) this proposal involves.

Select the Department(s) this proposal involves.

COLLEGE (include all cross listed colleges)*

CAAS

DEPARTMENT (include all cross listed departments)*

Aviation and Technical Education

Current Title (if applicable)*

NA

Proposed Title* Nail Technician - Certificate of Proficiency

Step 4: Select the Type of Change Being Requested.

New Academic Program:

- Certificates of Completion (including CTE)
- Certificates of Proficiency (including CTE)
- Institutional Certificate of Proficiency
- K-12 Endorsement Program
- Minor
- New Emphasis for Existing Program
- Out of Service Area Delivery Program (attach signed MOU)
- Post-Baccalaureate
- Post-Masters Certificate

Existing Academic Program Changes:

- Name Change of Existing Program
- Program Restructure (with or without Consolidation)
- Program Transfer to a New Academic Department or Unit
- Program Suspension
- Program Discontinuation
- Reinstatement of Previously Suspended Program
- Out-of-Service Area Delivery Program (attach signed MOU)

Administrative Unit Changes:

- Name Change of Existing Unit
- Administrative Unit Transfer
- Administrative Unit Restructure (with or without Consolidation)
- Administrative Unit Suspension
- Administrative Unit Discontinuation
- Reinstatement of Previously Suspended Administrative Unit
- Reinstatement of Previously Discontinued Administrative Unit

- New Administrative Unit:**
- New Administrative Unit
 - New Center
 - New Institute
 - New Bureau

Other: (explain change)

Additional Approvals (if applicable)

Graduate Council* Yes
 No

Council on Teacher Education* Yes
 No

Section I: The Request

R401 Purpose* Utah State University requests approval to offer a Nail Technician Certificate of Proficiency effective fall 2021. The Certificate of Proficiency in Nail Technician is an 18 credit hour standalone credential. This credential can then be used to meet some of the requirements within a Certificate of Completion in Cosmetology; and/or an Associate of Applied Science degree in Cosmetology or General Technology. In addition, this certificate qualifies students for nail technician jobs and business ownership. A Certificate of Proficiency provides an entry level credential for students and will stack into additional credentials/degrees as well.

Section II: Program Proposal

Proposed Action & Rationale* The Nail Technician Certificate of Proficiency is designed to help students prepare for and pass state certification tests and licensure administered by the state of Utah. The aim of the State of Utah Licensure is to ensure safety and efficacy of Nail Technicians related to standards of health procedures. Students who complete the certificate will be prepared with entry-level training to create their own small business and/or work as an independent contractor.

Labor Market Demand (if applicable)

The United States Bureau of Labor Statistics projects employment of personal appearance workers and esthetician workers to grow 19 and 17 percent respectively from 2019 to 2029 (<https://www.bls.gov/ooh/personal-care-and-service/manicurists-and-pedicurists.htm#tab-6>). Nail Technician is a sizeable occupation with a low barrier for entry and a higher opportunity for earning potential for the technician, over individuals with a full cosmetologist license. In the coming decade, business expansion and retiring workers will create greater demand and a high volume of annual job openings for Nail Technicians. An opportunity to earn certification in Nail Technology during the course of one semester, will allow students to become familiar with higher education and gain current occupational training in a short period of time. Additionally, this program allows students earning potential throughout their educational experience with flexible hours and a skill which they can take anywhere. Students enrolled in the certificate program will also have an opportunity to complete an internship which will reduce the on-the-job learning curve and enable them to quickly earn an equitable wage.

Nail Technician jobs fall within esthetic and cosmetology occupations. The statewide median wage for Nail Technicians is \$17.12 an hour which is above the national average. The proposed certificate of proficiency offers accelerated entrance to the job market and a short-term credential which students can build upon to access more advanced jobs and higher wages. The proposed certification will be especially important for businesses in regions of the state with a diverse tourism, travel and recreation industry.

Consistency with Institutional Mission & Institutional Impact*

The proposed Nail Technician Certificate of Proficiency will be offered as a technical education (a.k.a. CTE) program offering within the department of Aviation and Technical Education (AVTE) at the Southeast region location in Price. Existing faculty, staff, facilities and equipment will implement and sustain the proposed certificate program. No additional resources will be required.

The Certificate of Proficiency will provide an independent, state-regulated certification as well as a stackable credential toward a Certificate of Completion in Cosmetology. Credits earned in the certificate program(s) will meet some requirements for two existing AAS degrees:

- AAS, Cosmetology
- AAS, General Technology, General Business Emphasis.

The AVTE department offers a broad-based Associate of Applied Science degree in General Technology, and it is intended that students pursue the general business emphasis. The proposed certificate provides an opportunity to develop region-specific training at a USU residential campus.

Finances*

The proposed Certificate of Proficiency will be cost neutral, funded by internal reallocation of funds and tuition revenue. All courses for the proposed certificate are currently offered, and no new faculty, staff, library or operational funds are required. There will be no budgetary impact, including cost savings, to other programs or units at Utah State University.

Section III: Curriculum (if applicable)

**Program Curriculum
Narrative**

This certificate is based upon a nine-credit hour course focused upon the skills required of a nail technician. The balance of the certificate develops communication and small business operation skills critical for student success in the workplace.

Step 5: Attach (if applicable) completed Program Curriculum and Degree Map to this request by clicking on the Files  icon located in the upper left-hand corner of the Proposal Toolbox.

Step 6: Submit

Click on the save all changes button below.

Scroll to the top left and click on the launch  icon to launch your proposal.

Step 5: Describe the library resources required to offer the proposed program, including those needed for new courses or research areas. Include specialized resources that the Library already provides as well as new resources that would need to be acquired (with funding sources detailed in Appendix D). If you need assistance in completing this section, contact your department's assigned [liaison librarian](#).w Field

Library Related Needs* No known library resources required beyond those already offered to the university community.

Graduate Council* Yes
 No

Council on Teacher Education* Yes
 No

Section I: The Request

R401 Purpose* The Institute for Social Science Research on Natural Resources (ISSRNR or the Institute) has been in existence since 1968 and has been an active contributor of applied research in the service of state agencies and other entities throughout the Western U.S. on issues related to community well-being, water, energy, land use, and beyond. Under new leadership and in an attempt to prioritize branding and new initiatives for the Institute, the Institute is seeking to change the name to something that more directly conveys the focus of the Institute's work. The Institute is dropping the word "Research" so as to expand initiatives to Extension outreach, civic engagement, and teaching (though research will remain a primary objective). The Sociology program at USU has been nationally-recognized for its expertise in natural resource and community social science for many decades. The faculty associated with the Institute are proud to continue this legacy.

Section II: Program Proposal

Proposed Action & Rationale*

The Institute faculty seek to change the name of the Institute for Social Science Research on Natural Resources (ISSRNR) to the Community and Natural Resources Institute (CANRI).

Labor Market Demand (if applicable)

Consistency with Institutional Mission & Institutional Impact*

This Institute and associated name change are in line with the land grant mission of USU. The Institute seeks to provide applied research and engagement on timely issues related to the human dimensions of natural resources and the wellbeing of communities in Utah, the Western U.S., the U.S., and the world.

Finances*

The Institute has an existing index with modest funds accumulated by the previous director and has an agreement with CHASS to hire a staff person for the Institute for the next six months. Pending and planned grant proposals will hopefully further support the Institute.

Section III: Curriculum (if applicable)

Program Curriculum Narrative

Step 6: Attach (if applicable) completed Program Curriculum and Degree Map to this request by clicking on the Files  icon located in the upper left-hand corner of the Proposal Toolbox.

Step 7: Submit

Click on the save all changes button below.

Scroll to the top left and click on the launch  icon to launch your proposal.

Implemented Description

This course consists of individual work on research problems for students enrolled in doctoral programs.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course is designed for students preparing a master's degree thesis.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course consists of additional readings or research done beyond the material covered in other courses.

This course entails an advanced internship at a professional level, with increased complexity, approved by the department and advisor. The internship project and number of credits must be approved by advisor and major professor. Students explore basic to advanced concepts contained in research as applicable to Interior Architecture and Design.

This course provides a focused study of selected topics.

This course is designed for students preparing a master's degree thesis.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course is designed for students preparing a master's degree thesis.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course covers special topics and projects directed toward enhancing principles and practices in Technology and Engineering Education.

This course provides for enrollment in industry-related training that aligns with university-level competencies. Training is approved by department faculty upon evaluation of competency attainment/credential, application for/granting of a trade competency examination or certificate, and/or evidence of experiential use in work environments.

This course is a graduate seminar related to Technology and Engineering Education topics and discipline.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course consists of individual work on research problems for students enrolled in doctoral programs.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course allows an exploration of topics that are not part of the standard curriculum.

This course allows an exploration of topics that are not part of the standard curriculum.

This course is a seminar that explores current work in particular topics.

This course allows an exploration of topics that are not part of the standard curriculum.

This course is a seminar that explores current work in particular topics.

This course allows students to pursue research toward the M.S. degree.

This course provides graduate students with continued advisement. It is usually taken following completion of all coursework required for the degree.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course allows students to pursue research toward the Ph.D. degree.

This course provides graduate students with continued advisement. It is usually taken following completion of all coursework required for the degree.

This course allows an exploration of topics that are not part of the standard curriculum.

Students study a specific area of discipline that is not part of the department's regularly scheduled curriculum.

Students study a specific area of discipline that is not part of the department's regularly scheduled curriculum.

This course allows undergraduate students to pursue personal research interests by formalizing an independent project under the guidance of a professor or faculty mentor.

This course is designed for students preparing a master's degree thesis.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course consists of directed readings on advanced topics.

This course is designed for students preparing a master's degree thesis.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course consists of individual work on research problems for students enrolled in doctoral programs.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course provides graduate students with continued advisement. It is usually taken following completion of all coursework required for the degree.

This course allows students to pursue research toward the Ph.D. degree.

This course provides graduate students with continued advisement. It is usually taken following completion of all coursework required for the degree.

This course provides graduate students with continued advisement. It is usually taken following completion of all coursework required for the degree.

This course is designed for students preparing a master's degree thesis.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course consists of individual work on research problems for students enrolled in doctoral programs.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course allows undergraduate students to pursue personal research interests by formalizing an independent project under the guidance of a professor or faculty mentor.

This course allows undergraduate students to pursue personal research interests by formalizing an independent project under the guidance of a professor or faculty mentor.

This course consists of individual work on research problems for students enrolled in doctoral programs.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course offers credit for special assignments, reading, and seminars beyond regularly scheduled courses.

This course is designed for students preparing a master's degree thesis.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course offers credit for special assignments, reading, and seminars beyond regularly scheduled courses.

This course consists of individual work on research problems for students enrolled in doctoral programs.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course provides a focused study of selected topics.

This course offers credit for special assignments, reading, and seminars beyond regularly scheduled courses.

This course is designed for students preparing a master's degree thesis.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course provides a focused study of selected topics.

This course consists of individual work on research problems for students enrolled in doctoral programs.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course is a seminar that explores current work in particular topics.

This course is a seminar that explores current work in particular topics.

This course allows students to pursue research toward the M.S. degree.

This course provides graduate students with continued advisement. It is usually taken following completion of all coursework required for the degree.

This course is a seminar that explores current work in particular topics.

This course allows students to pursue research toward the Ph.D. degree.

This course provides graduate students with continued advisement. It is usually taken following completion of all coursework required for the degree.

Students study a specific area of discipline that is not part of the department's regularly scheduled curriculum.

This course is designed for students preparing a master's degree thesis.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course is designed for students preparing a master's degree thesis.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

The purpose of this course is to provide an introduction to health promotion practice and public health from a global perspective.

Students conduct independent projects under the direction of one or more professors. This course provides students with the opportunity for individualized study.

This course allows graduate students to pursue personal research interests by formalizing an independent project under the guidance of a graduate professor. Students complete individually-directed work in thesis writing with guidance from their committee chair.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course consists of research for a dissertation, as arranged with an advisor.

This course is designed to prepare students as pool or nonsurf open water lifeguards. It presents knowledge and skills necessary for lifeguard functions. This course covers methods of teaching swimming and lifesaving. It presents knowledge and skills necessary for lifeguard functions.

Students complete individually-directed work in thesis writing with guidance from their committee chair.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course includes the study of different views of the nature of science: the classical traditions of Hempel and Popper, Kuhn's subjectivism, and Feyerabend's anarchism. Topics include confirmation, induction, scientific realism, reductionism, and the growth of scientific knowledge.

This course allows students to pursue personal research interests by formalizing an independent project under the guidance of a professor or faculty mentor.

This course is designed for students preparing a master's degree thesis.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course consists of individual work on research problems for students enrolled in doctoral programs.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course consists of directed readings on specific topics.

This course consists of directed readings on specific topics.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course consists of directed readings on specific topics.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course consists of directed readings on specific topics.

This course allows students to pursue research toward the M.S. degree.

This course provides graduate students with continued advisement. It is usually taken following completion of all coursework required for the degree.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course provides guided experience and supervision in teaching university-level courses.

This course allows students to pursue research toward the Ph.D. degree.

This course provides graduate students with continued advisement. It is usually taken following completion of all coursework required for the degree.

This course consists of directed readings on specific topics.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course consists of directed readings on specific topics.

This course consists of directed readings on specific topics.

This course provides graduate students with continued advisement. It is usually taken following completion of all coursework required for the degree.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course allows students to pursue research toward the Ph.D. degree.

This course provides graduate students with continued advisement. It is usually taken following completion of all coursework required for the degree.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course provides graduate students with continued advisement. It is usually taken following completion of all coursework required for the degree.

This course is a seminar that explores current work in particular topics.

This course allows students to pursue research toward the Ph.D. degree.

This course provides graduate students with continued advisement. It is usually taken following completion of all coursework required for the degree.

This course provides an in-depth review and discussion of special topics that are not part of the standard curriculum.

This will be done via Curriculog (per email from Matthew Sanders)

This course is designed for students preparing a master's degree thesis.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course is designed for students preparing a master's degree thesis.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course consists of individual work on research problems for students enrolled in doctoral programs.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

Students study a specific area of discipline that is not part of the department's regularly scheduled curriculum. Students should work with a professor before the semester begins to determine feasibility and scope of topic.

This course consists of research for a master's thesis, arranged with the advisor. Credits may vary by semester.

This course consists of continuing registration to complete thesis requirements.

This course covers dissertation research for students in the Curriculum and Instruction specialization. Credits may vary by semester.

This course consists of continuing registration to complete dissertation requirements.

This course allows undergraduate students to pursue personal research interests by formalizing an independent project under the guidance of a professor or faculty mentor.

This course allows undergraduate students to pursue personal research interests by formalizing an independent project under the guidance of a professor or faculty mentor.

This course is designed for students preparing a master's degree thesis.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course consists of additional readings or research done beyond the material covered in other courses.

This course consists of additional readings or research done beyond the material covered in other courses.

This course constitutes of a student teaching experience in the student's field of study.

This course consists of additional readings or research done beyond the material covered in other courses.

This course allows undergraduate students to pursue personal research interests by formalizing an independent project under the guidance of a professor or faculty mentor.

This course allows undergraduate students to pursue personal research interests by formalizing an independent project under the guidance of a professor or faculty mentor.

This course provides a focused study of selected topics.

This course allows undergraduate students to pursue personal research interests by formalizing an independent project under the guidance of a professor or faculty mentor.

This course allows undergraduate students to pursue personal research interests by formalizing an independent project under the guidance of a professor or faculty mentor.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This is a special topics course or seminar for graduate students in the Master of Science in Anthropology program.

This course is designed for students preparing a master's degree thesis.

This course is designed for students preparing a master's degree thesis.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course consists of individual work on research problems for students enrolled in doctoral programs.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course allows undergraduate students to pursue personal research interests by formalizing an independent project under the guidance of a professor or faculty mentor.

This course allows undergraduate students to pursue personal research interests by formalizing an independent project under the guidance of a professor or faculty mentor.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course covers principles and the theoretical base of supervision as they relate to improving instructional practices. The course emphasizes research findings and recommended practices. Differentiated syllabi are provided between the master's and doctoral versions.

Students study a specific area of discipline that is not part of the department's regularly scheduled curriculum.

This course is designed for students preparing a master's degree thesis.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.
