CURRICULUM SUBCOMMITTEE AGENDA
6 October 2021
2:00 – 3:00 p.m.
Old Main-Champ Hall (Zoom)

Agenda

1. Approval of 2 September 2021 Minutes

2. Program Proposals
   Request from the Department of Nutrition, Dietetics and Food Sciences in the College of Agriculture and Applied Sciences to offer a Certificate of Advanced Practice in Dietetics.

   Request from the Department of Social Work in the College of Humanities and Social Sciences to establish the Transforming Communities Institute.

3. Semester Course Approval Reviews

Registrar’s review of impact reports – Toni Gibbons | Fran Hopkin

A year and a half ago the Registrar’s Office pulled together a group that would look at academic courses and do an in-depth review of every one of the semester course approval forms. In the past they had been looking at these requests in silos and not looking at them all together. The group found that these problems can be detrimental to student completion. Previously they had been spending hours to make sure that the reports and requests were correct. Everyone felt that these issues should not have to come to the Curriculum Committee but should be looked at and corrected or collaborated on in advance. The registrar has seen a benefit using this shared information. This summer the group went to Matt Sanders and Paul Barr to talk to them about the problem. It became apparent that no one was looking at or reviewing the impact reports. Instead of just cutting and pasting the impact report it is recommended that the individual explain what the impacts are. This information should be reviewed at the college curriculum committees before it is moved on the university level committees. It is incumbent on those colleges/departments who see a problem with the impact report to work it out with all those affected or impacted. The Registrar’s Office will compile a spreadsheet of deletions, deactivations, or course number changes. This information will be great to share with the department heads. The spreadsheet will not be sent out until after the agenda is completed and sent. Colleges and departments can also reach out and collaborate on the changes. This will help keep the catalog and Degree Works accurate and up to date.

Chenese Boyle has accepted another position on campus, and we are sad to see her go as she was one of the key reviewers and point person. The reviews will still be done but it won’t go through Academic Scheduling. Instead of having four people review it will now be three people doing the reviewing. The catalog editors will then be updating Banner.
At the department head retreat the registrar asked the department heads to assign a point of contact who can be contacted regarding Curriculog updates/changes. Encouraging the Curriculum Committee members to pass this information to their colleges/departments. It would be great if members could bring the names back to the next Curriculum Committee meeting.

The learning objectives are not completely understood. It was decided that this would be the course learning outcome and it would take the place of the syllabus.

Paul Barr reminded everyone to look at the EPC/Curriculum website and as it provides the deadlines or all requests and program proposals. Please note the February deadline as it is a pivotal deadline.

R401s are needing to be done now if they need to be in place for the next academic year. Clarity is needed on the financial part and how it impacts students.

*Adjourn: 2:52 pm*
1. **Approval of 4 March 2021 Minutes**
   Minutes approved as distributed.

2. **Program Proposals**
   Request from the Academic and Instructional Services to create a Student Money Management Center.
   
   Motion to approve the R401 proposal made by Richard Cutler. Seconded by Chad Simon. Proposal approved.

   Request from the Department of Applied Economics in the College of Agriculture and Applied Sciences to create a Community Development Economics Minor.
   
   Motion to approve the R401 proposal made by Brian Warnick. Seconded by Richard Cutler. Proposal approved.
Request from the Department of Aviation and Technical Education in the College of Agriculture and Applied Sciences to change the CIP Code for the BS Aviation Technology-Professional Pilot degree from 49.0102 to 49.0101.
Motion to approve the R401 proposal made by Brian Warnick. Seconded by Chad Simon. Proposal approved.

Request from the Department of Computer Science in the College of Science to discontinue the Computer Science MS Plan C degree program.
Motion to approve the R401 proposal made by Greg Podgorski. Seconded by Chad Simon. Proposal approved.

Claudia Radel has become the new Department Head for Environment and Society. She will no longer be serving on the Curriculum Committee. Thank you, Claudia for your service.

EPC/Curriculum Handbook Update
Looking at updates and changes to the handbook. What is the purpose of this handbook? The first portion of the handbook is going through Utah System of Higher Education definitions and guidelines (first 15 pages). At about page 15 the task force started seeing
that the information was code and they could not ensure that it is the most current and accurate. Wow do we make this handbook useful for the user? Take the first 15 pages out and include a couple of references/links. The task force is looking for guidance as to what help the end users. Cross and dual listed courses are some things that are looked at and utilized in the handbook. It may be a good idea to have a list of linked resources in the handbook. A recommendation was made to have something tied into instructions in Curriculog to help with proposal input. The task force will work on this project over the summer.

New Curriculum Committee Chair Appointment
Thanks to Nick Morrison for his dedication and hard work in chairing the Curriculum Committee. So grateful for his efforts. Wishing him the best in his future endeavors and upcoming sabbatical.

Worked with the Provost and had discussions regarding a new chair for the Curriculum Committee. Nominate Matt Sanders as the 2021-2022 Curriculum Committee chair. Motion to nominate and accept Matt Sanders as the Curriculum Committee chair made by Paul Barr. Seconded by Nick Morrison. Nomination was unanimous.

Matt’s first act as the new chair was to request appreciation treats for the first meeting of the new academic year.

4. **Other Business**
Curriculog was shut down on March 3 and will be reopened the first week of July.

Unanimous approval of the updated course descriptions. All courses now have descriptions in the catalog. Thanks to the Registrar’s Office for helping with this issue.

Look at updating the Curriculum/EPC handbook. Will bring those updates to the April meeting. A working group will make proposals for changes and then will send out the handbook for review and discussion.

A Curriculum Committee chair will be voted on in the April 2021 meeting.

**Adjourn: 2:27 pm**

Missing Course Descriptions ([missing descriptions/examples](#)) – Toni Gibbons

Course descriptions are coming in and the Registrar’s Office greatly appreciates all the efforts that are being made in cleaning this up. Most colleges stated that they would like to have a boilerplate for the missing course descriptions. Have the Registrar’s Office pinpoint one boilerplate description for each course type.

*Motion to authorize the Registrar’s Office to write course descriptions and provide them to the committee for electronic vote made by Scott Hunsaker. Seconded by Chad Simon. Authorization approved.*

Deadlines for any catalog changes – March 1, 2021

Be aware of changes that need to be made before the deadline. Training is available to help with Curriculog forms. There is always a rush at the end of February and the Registrar’s Office stands ready to assist with whatever is needed. Toni Gibbons will provide a list that will be included with the distribution of the minutes. College administrators on the Curriculum Committee needs to get this information to individuals in their colleges/departments.

*Adjourn: 2:57 pm*

- [ ] Administrative Unit Transfer
- [ ] Administrative Unit Restructure (with or without Consolidation)
- [ ] Administrative Unit Suspension
- [ ] Administrative Unit Discontinuation
- [ ] Reinstatement of Previously Suspended Administrative Unit
- [ ] Reinstatement of Previously Discontinued Administrative Unit
Section I: The Request

R401 Purpose*
Utah State University requests approval to offer a Nail Technician Certificate of Proficiency effective fall 2021. The Certificate of Proficiency in Nail Technician is an 18 credit hour standalone credential. This credential can then be used to meet some of the requirements within a Certificate of Completion in Cosmetology; and/or an Associate of Applied Science degree in Cosmetology or General Technology. In addition, this certificate qualifies students for nail technician jobs and business ownership. A Certificate of Proficiency provides an entry level credential for students and will stack into additional credentials/degrees as well.

Section II: Program Proposal

Proposed Action & Rationale*
The Nail Technician Certificate of Proficiency is designed to help students prepare for and pass state certification tests and licensure administered by the state of Utah. The aim of the State of Utah Licensure is to ensure safety and efficacy of Nail Technicians related to standards of health procedures. Students who complete the certificate will be prepared with entry-level training to create their own small business and/or work as an independent contractor.
The United States Bureau of Labor Statistics projects employment of personal appearance workers and esthetician workers to grow 19 and 17 percent respectively from 2019 to 2029 (https://www.bls.gov/ooh/personal-care-and-service/manicurists-and-pedicurists.htm#tab-6). Nail Technician is a sizeable occupation with a low barrier for entry and a higher opportunity for earning potential for the technician, over individuals with a full cosmetologist license. In the coming decade, business expansion and retiring workers will create greater demand and a high volume of annual job openings for Nail Technicians. An opportunity to earn certification in Nail Technology during the course of one semester, will allow students to become familiar with higher education and gain current occupational training in a short period of time. Additionally, this program allows students earning potential throughout their educational experience with flexible hours and a skill which they can take anywhere. Students enrolled in the certificate program will also have an opportunity to complete an internship which will reduce the on-the-job learning curve and enable them to quickly earn an equitable wage.

Nail Technician jobs fall within esthetic and cosmetology occupations. The statewide median wage for Nail Technicians is $17.12 an hour which is above the national average. The proposed certificate of proficiency offers accelerated entrance to the job market and a short-term credential which students can build upon to access more advanced jobs and higher wages. The proposed certification will be especially important for businesses in regions of the state with a diverse tourism, travel and recreation industry.

The proposed Nail Technician Certificate of Proficiency will be offered as a technical education (a.k.a. CTE) program offering within the department of Aviation and Technical Education (AVTE) at the Southeast region location in Price. Existing faculty, staff, facilities and equipment will implement and sustain the proposed certificate program. No additional resources will be required.

The Certificate of Proficiency will provide an independent, state-regulated certification as well as a stackable credential toward a Certificate of Completion in Cosmetology. Credits earned in the certificate program(s) will meet some requirements for two existing AAS degrees:

- AAS, Cosmetology
- AAS, General Technology, General Business Emphasis.

The AVTE department offers a broad-based Associate of Applied Science degree in General Technology, and it is intended that students pursue the general business emphasis. The proposed certificate provides an opportunity to develop region-specific training at a USU residential campus.

The proposed Certificate of Proficiency will be cost neutral, funded by internal reallocation of funds and tuition revenue. All courses for the proposed certificate are currently offered, and no new faculty, staff, library or operational funds are required. There will be no budgetary impact, including cost savings, to other programs or units at Utah State University.
**Section III: Curriculum (if applicable)**

**Program Curriculum Narrative**

This certificate is based upon a nine-credit hour course focused upon the skills required of a nail technician. The balance of the certificate develops communication and small business operation skills critical for student success in the workplace.

---

**Step 5: Attach** (if applicable) completed Program Curriculum and Degree Map to this request by clicking on the Files icon located in the upper left-hand corner of the Proposal Toolbox.

**Step 6: Submit**

Click on the save all changes button below.

Scroll to the top left and click on the launch icon to launch your proposal.
CHASS - Sociology, Social Work and Anthropology - Community and Natural Resources Institute

4.1.a R401 Abbreviated Program Proposal

Proposal Information

Instructions for Completing R401:

  Writing Guidelines/Suggestions

  USHE R401 Policy

Contact Information:
Paul Barr: Vice Provost (797-0718)

Step 1: Turn on "Help Tips" by clicking on the Show Help TextPrint icon (small blue circle with i inside) at the top right-hand side of your proposal.

Step 2: Select the College and Department Involved in the Process to Ensure the Correct Workflow and Approval.

  Select the College(s) this proposal involves.

  Select the Department(s) this proposal involves.

<table>
<thead>
<tr>
<th>COLLEGE (include all cross listed colleges)*</th>
<th>CHASS</th>
</tr>
</thead>
<tbody>
<tr>
<td>DEPARTMENT (include all cross listed departments)*</td>
<td>Sociology, Social Work and Anthropology</td>
</tr>
<tr>
<td>Current Title (if applicable)*</td>
<td>Institute for Social Science Research on Natural Resources</td>
</tr>
<tr>
<td>Proposed Title*</td>
<td>Community and Natural Resources Institute</td>
</tr>
</tbody>
</table>

Step 3: Enter the Correct CIP Code Using the Following Website: Classification
Step 3: Enter the correct CIP Code using the following website: Classification: Instructional Programs

- **CIP Code (6-digits)**: 00.0000

- **Minimum Number of Credits (if applicable)**: 0
- **Maximum Number of Credits (if applicable)**: 0

- **Type of Degree: (BA, BS, etc.)**: NA

---

**Request**

**Step 4: Select** the Type of Change Being Requested.

### New Academic Program:
- Certificates of Completion (including CTE)
- Certificates of Proficiency (including CTE)
- Institutional Certificate of Proficiency
- K-12 Endorsement Program
- Minor
- New Emphasis for Existing Program
- Out of Service Area Delivery Program (attach signed MOU)
- Post-Baccalaureate
- Post-Masters Certificate

### Existing Academic Program Changes:
- Name Change of Existing Program
- Program Restructure (with or without Consolidation)
- Program Transfer to a New Academic Department or Unit
- Program Suspension
- Program Discontinuation
- Reinstatement of Previously Suspended Program
- Out-of-Service Area Delivery Program (attach signed MOU)

### Administrative Unit Changes:
- Name Change of Existing Unit
- Administrative Unit Transfer
- Administrative Unit Restructure (with or without Consolidation)
- Administrative Unit Suspension
- Administrative Unit Discontinuation
- Reinstatement of Previously Suspended Administrative Unit
- Reinstatement of Previously Discontinued Administrative Unit
Section I: The Request

R401 Purpose* The Institute for Social Science Research on Natural Resources (ISSRNR or the Institute) has been in existence since 1968 and has been an active contributor of applied research in the service of state agencies and other entities throughout the Western U.S. on issues related to community well-being, water, energy, land use, and beyond. Under new leadership and in an attempt to prioritize branding and new initiatives for the Institute, the Institute is seeking to change the name to something that more directly conveys the focus of the Institute's work. The Institute is dropping the word "Research" so as to expand initiatives to Extension outreach, civic engagement, and teaching (though research will remain a primary objective). The Sociology program at USU has been nationally-recognized for its expertise in natural resource and community social science for many decades. The faculty associated with the Institute are proud to continue this legacy.
Section II: Program Proposal

Proposed Action & Rationale*  The Institute faculty seek to change the name of the Institute for Social Science Research on Natural Resources (ISSRNR) to the Community and Natural Resources Institute (CANRI).

Labor Market Demand (if applicable)

Consistency with Institutional Mission & Institutional Impact*  This Institute and associated name change are in line with the land grant mission of USU. The Institute seeks to provide applied research and engagement on timely issues related to the human dimensions of natural resources and the wellbeing of communities in Utah, the Western U.S., the U.S., and the world.

Finances*  The Institute has an existing index with modest funds accumulated by the previous director and has an agreement with CHASS to hire a staff person for the Institute for the next six months. Pending and planned grant proposals will hopefully further support the Institute.

Section III: Curriculum (if applicable)

Program Curriculum Narrative

Step 6: Attach (if applicable) completed Program Curriculum and Degree Map to this request by clicking on the Files icon located in the upper left-hand corner of the Proposal Toolbox.

Step 7: Submit

Click on the save all changes button below.

Scroll to the top left and click on the launch icon to launch your proposal.

### Implemented Description

This course consists of individual work on research problems for students enrolled in doctoral programs.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course is designed for students preparing a master’s degree thesis.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course consists of additional readings or research done beyond the material covered in other courses.

This course entails an advanced internship at a professional level, with increased complexity, approved by the department and advisor. The internship project and number of credits must be approved by advisor and major professor. Students explore basic to advanced concepts contained in research as applicable to Interior Architecture and Design.

This course provides a focused study of selected topics.

This course is designed for students preparing a master’s degree thesis.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course is designed for students preparing a master’s degree thesis.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course covers special topics and projects directed toward enhancing principles and practices in Technology and Engineering Education.

This course provides for enrollment in industry-related training that aligns with university-level competencies. Training is approved by department faculty upon evaluation of competency attainment/credential, application for/granting of a trade competency examination or certificate, and/or evidence of experiential use in work environments.

This course is a graduate seminar related to Technology and Engineering Education topics and discipline.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.
This course consists of individual work on research problems for students enrolled in doctoral programs. This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree. This course allows an exploration of topics that are not part of the standard curriculum. This course allows students to pursue research toward the M.S. degree. This course provides graduate students with continued advisement. It is usually taken following completion of all coursework required for the degree. This course explores a particular topic in greater depth and with narrower focus than a conventional course. This course allows students to pursue research toward the Ph.D. degree. This course provides graduate students with continued advisement. It is usually taken following completion of all coursework required for the degree. This course allows an exploration of topics that are not part of the standard curriculum. Students study a specific area of discipline that is not part of the department’s regularly scheduled curriculum. This course allows undergraduate students to pursue personal research interests by formalizing an independent project under the guidance of a professor or faculty mentor. This course is designed for students preparing a master’s degree thesis. This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree. This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree. This course consists of directed readings on advanced topics. This course is designed for students preparing a master’s degree thesis. 
This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree. 
The purpose of this course is to provide an introduction to health promotion practice and public health from a global perspective.
Students conduct independent projects under the direction of one or more professors. This course provides students with the opportunity for individualized study.

This course allows graduate students to pursue personal research interests by formalizing an independent project under the guidance of a graduate professor. Students complete individually-directed work in thesis writing with guidance from their committee chair.
This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.
This course consists of research for a dissertation, as arranged with an advisor.

This course is designed to prepare students as pool or nonsurf open water lifeguards. It presents knowledge and skills necessary for lifeguard functions.
This course covers methods of teaching swimming and lifesaving. It presents knowledge and skills necessary for lifeguard functions.
Students complete individually-directed work in thesis writing with guidance from their committee chair.
This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.
This course includes the study of different views of the nature of science: the classical traditions of Hempel and Popper, Kuhn’s subjectivism, and Feyerabend’s anarchism. Topics include confirmation, induction, scientific realism, reductionism, and the growth of scientific knowledge.

This course allows students to pursue personal research interests by formalizing an independent project under the guidance of a professor or faculty mentor.
This course is designed for students preparing a master’s degree thesis.
This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course consists of directed readings on specific topics.
This course explores a particular topic in greater depth and with narrower focus than a conventional course.
This course consists of directed readings on specific topics.
This course allows students to pursue research toward the M.S. degree.

This course provides graduate students with continued advisement. It is usually taken following completion of all coursework required for the degree.
This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course provides guided experience and supervision in teaching university-level courses.

This course allows students to pursue research toward the Ph.D. degree.

This course consists of directed readings on specific topics.

This course consists of directed readings on specific topics.

This course consists of directed readings on specific topics.

This course provides graduate students with continued advisement. It is usually taken following completion of all coursework required for the degree.

This course explores a particular topic in greater depth and with narrower focus than a conventional course.
This course explores a particular topic in greater depth and with narrower focus than a conventional course.

This course allows students to pursue research toward the Ph.D. degree. It is usually taken following completion of all coursework required for the degree.

This course provides graduate students with continued advisement. It is usually taken following completion of all coursework required for the degree.

This course provides an in-depth review and discussion of special topics that are not part of the standard curriculum.

This will be done via Curriculog (per email from Matthew Sanders)

This course is designed for students preparing a master’s degree thesis. It is usually taken following completion of all coursework required for the degree. This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.
This course consists of individual work on research problems for students enrolled in doctoral programs. This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

Students study a specific area of discipline that is not part of the department’s regularly scheduled curriculum. Students should work with a professor before the semester begins to determine feasibility and scope of topic. This course consists of research for a master’s thesis, arranged with the advisor. Credits may vary by semester.

This course consists of continuing registration to complete thesis requirements. This course covers dissertation research for students in the Curriculum and Instruction specialization. Credits may vary by semester. This course consists of continuing registration to complete dissertation requirements. This course allows undergraduate students to pursue personal research interests by formalizing an independent project under the guidance of a professor or faculty mentor. This course allows undergraduate students to pursue personal research interests by formalizing an independent project under the guidance of a professor or faculty mentor. This course is designed for students preparing a master’s degree thesis. This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree. This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

This course consists of additional readings or research done beyond the material covered in other courses.

This course constitutes of a student teaching experience in the student’s field of study.

This course consists of additional readings or research done beyond the material covered in other courses.

This course allows undergraduate students to pursue personal research interests by formalizing an independent project under the guidance of a professor or faculty mentor.
This course allows undergraduate students to pursue personal research interests by formalizing an independent project under the guidance of a professor or faculty mentor.
This course provides a focused study of selected topics.
This course allows undergraduate students to pursue personal research interests by formalizing an independent project under the guidance of a professor or faculty mentor.
This course allows undergraduate students to pursue personal research interests by formalizing an independent project under the guidance of a professor or faculty mentor.
This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.
This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.
This is a special topics course or seminar for graduate students in the Master of Science in Anthropology program.
This course is designed for students preparing a master’s degree thesis.
This course is designed for students preparing a master’s degree thesis.
This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.
This course consists of individual work on research problems for students enrolled in doctoral programs.
This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.
This course allows undergraduate students to pursue personal research interests by formalizing an independent project under the guidance of a professor or faculty mentor.
This course allows undergraduate students to pursue personal research interests by formalizing an independent project under the guidance of a professor or faculty mentor.
This course allows undergraduate students to pursue personal research interests by formalizing an independent project under the guidance of a professor or faculty mentor.
This course provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.
This course covers principles and the theoretical base of supervision as they relate to improving instructional practices. The course emphasizes research findings and recommended practices. Differentiated syllabi are provided between the master’s and doctoral versions.
Students study a specific area of discipline that is not part of the department’s regularly scheduled curriculum.
This course is designed for students preparing a master’s degree thesis. It provides graduate students with continued support and advisement. It is usually taken following completion of all coursework required for the degree.

Step 1: Turn on "Help Tips" by clicking on the Show Help TextPrint icon (small blue circle with i inside) at the top right-hand side of your proposal.

Step 2: Select the College and Department Involved in the Process to Ensure the Correct Workflow and Approval.

Select the College(s) or Division(s) this proposal involves.

Select the Department(s) or Unit(s) this proposal involves.

Request
Step 3: **Select** the Proposed Type of Unit Being Requested.

**Proposed Unit Type**
- New Center

**Description/Narrative**
The state of Utah recognizes that financial literacy/personal finance knowledge is critical to the success of its citizens. To this end, the state of Utah requires all high school students to complete a financial literacy or a personal finance course before graduating from high school. Regardless, reports show that between 40% and 51% of college stop outs are due to money issues. With nearly one half of all students dropping out of college due to money issues, the Academic and Instructional Services (AIS) department believes having a Student Money Management Center where students can receive customized one-on-one counseling and advisement on their finances is critical to helping increase the number of students who persist to graduation.

AIS proposes a new center be created where USU students can receive individualized one-on-one financial advising.

The center will not be the Financial Aid office. It will not exist to help students get Federal Financial Aid or to get loans. It will exist to help students in their particular situations weigh the costs and benefits of an education and of taking or not taking out loans. It will exist to help students manage their finances in each of their unique situations.

The center will not be a financial literacy/personal finance course. These courses already exist for students who want to take them and receive excellent financial knowledge. The center will offer financially sound advice based on principles that are taught in financial literacy courses according to the specific need and situation of each student.

The center will not offer broad self-paced online financial courses as currently offered by USU Extension. The Student Money Management Center will offer specific, individualized, one-on-one financial advisement to USU students. This advisement will not be available to the general public.

Similar to academic advising, which provides every USU student one-on-one advising on the courses each student needs to take to graduate, the essential function of the Student Money Management Center will be to offer one-on-one financial advising to every student to help them progress financially to graduation.

The Student Money Management Center will expand USU’s student centered focus by allowing every student the opportunity to have one-on-one money management counseling sessions customized to their unique situations. Each session will provide students with sound financial advice to assist them with persistence toward graduation.

- New Administrative Unit
- New Center
- New Institute
- New Bureau

Other: (explain change)

Additional Approvals (if applicable)

- Graduate Council*: Yes
- No
- Council on Teacher Education*: Yes
- No

Section I: The Request

R401 Purpose*: The purpose of this minor is to provide support for students wishing to pursue a career in Environmental Planning, Regional Planning, Community Development, Natural Resource Management, and related fields. The program will provide training in microeconomic principles, natural resource economics, regional economics, and benefit-cost analysis.

Section II: Program Proposal

Proposed Action & Rationale*: This action would create a minor to support students preparing for a career in Community Development, Environmental Planning, Regional Planning, Natural Resource Management, and related fields. This minor is designed to provide applied economic training to students majoring in fields complementary to economics.

Labor Market Demand (if applicable) The Bureau of Labor Statistics (BLS) estimates job growth in the area of urban and regional planning at 11% (much faster than average) and economic training is an essential component of effective community development and planning. In a fast-growing state like Utah, labor market demand for planning and development professionals is likely to continue to grow.

Consistency with Institutional Mission & Institutional Impact* The proposed minor is consistent with USU's mission as a student-centered land-grant university. The minor is designed to provide economics training to the future professionals who will improve development in Utah's communities.
Finances*  There will be no additional costs or savings associated with this minor. All courses proposed are currently being taught and additional demand will be absorbed by existing classes.

Section III: Curriculum (if applicable)

Program Curriculum Narrative  The proposed minor will consist of 3 required courses: APEC 2010 (Introduction to Microeconomics), APEC 3012 (Introduction to Natural Resource and Regional Economics), and APEC 4300 (Agriculture Law). Students will then choose two classes from three options: APEC 5560 (Natural Resource and Environmental Economics), APEC 5700 (Regional and Community Economic Development), and APEC 5950 (Applied Economics Policy Analysis).

Step 6: Attach (if applicable) completed Program Curriculum and Degree Map to this request by clicking on the Files icon located in the upper left-hand corner of the Proposal Toolbox.

Step 7: Submit

Click on the save all changes button below.

Scroll to the top left and click on the launch icon to launch your proposal.

- Administrative Unit Suspension
- Administrative Unit Discontinuation
- Reinstatement of Previously Suspended Administrative Unit
- Reinstatement of Previously Discontinued Administrative Unit
Section I: The Request

R401 Purpose*  The AVTE Aviation Curriculum Committee requests to change the CIP Code for the BS Aviation Technology - Professional Pilot degree.

The CIP Code for this degree is currently 49.0102 Airline/Commercial/Professional Pilot and Flight Crew.

This action will change the CIP Code to 49.0101 Aeronautics/Aviation/Aerospace Science and Technology, General.

The current Aviation Technology - Maintenance Management and Aviation Technology - Aviation Management degrees both have CIP Code 49.0101 as this covers the broad course topics each degree requires.

The change will also align our degree with other major aviation peer universities, such as Embry-Riddle Aeronautical University.

Section II: Program Proposal
According to the National Center for Educational Statistics, the “Classification of Instructional Programs (CIP) is the taxonomic coding scheme used for instructional programs in higher education in the United States. Its purpose is to facilitate the organization, collection, and reporting of fields of study and program completions” (https://nces.ed.gov/ipeds/cipcode/cipdetail.aspx?y=55&cipid=88672). Further, the definition of CIP Code 49.0101 is “A program that focuses on the general study of aviation and the aviation industry, including in-flight and ground support operations. Includes instruction in the technical, business, and general aspects of air transportation systems.”

The Aviation Technology – Professional Pilot program has added over a dozen courses in the past six years that have expanded the required and elective courses that have increased the relevance and alignment of this degree to this CIP code.

In addition to harmonizing the three aviation technology degrees, which all have much of the aviation core and electives in common between them, the CIP code will also provide the opportunity for international students to have a STEM CIP code. This will grant the opportunity for international students to have a STEM degree for the OPT extension (see USU Office of Global Engagement).

<table>
<thead>
<tr>
<th>Labor Market Demand (if applicable)</th>
<th>n/a</th>
</tr>
</thead>
<tbody>
<tr>
<td>Consistency with Institutional Mission &amp; Institutional Impact*</td>
<td>The Aviation Technology program has grown in the past six years from 250 to over 600 students in the major and minor degrees, including expansion to the Price campus at USU Eastern. AVTE has added a new small Unmanned Aerial Systems minor, and a new BS degree in Aviation Management with UAS and Aviation Operations emphases. With the creation of a new department, AVTE, the aviation program continues to support our international students as part of the USU mission, especially the focus on diversity, and this change in CIP code will enable USU to expand this mission for learning, discovery and engagement with our experiential learning STEM degrees in aviation technology, all which include extensive hands-on labs.</td>
</tr>
<tr>
<td>Finances*</td>
<td>No change to finances with the CIP code change.</td>
</tr>
</tbody>
</table>

### Section III: Curriculum (if applicable)
The Aviation Technology - Professional Pilot degree now includes courses that cover all aspects of the 49.0101 CIP code in each of the specified areas:

- In-flight support operations (National Airspace, Crew Resource Management, Aviation Weather)
- Ground support operations (Airline Transport Pilot, Commercial Pilot, Private Pilot)
- Business (Airline Management, Aviation Law, Airport Management)

- Administrative Unit Restructure
- Administrative Unit Consolidation
- Reinstatement of Previously Suspended Administrative Units
Section I: The Request

R401 Purpose* The Department of Computer Science proposes to discontinue the Computer Science MS Plan C degree program. This program is being replaced by the professional, coursework-only Master of Computer Science program.

Section II: Program Proposal

Proposed Action & Rationale* This degree program was created in order to offer a coursework-only degree for students who chose not to complete research. While the program served students well for many years, it has been replaced by the Master of Computer Science.

Labor Market Demand (if applicable)

Consistency with Institutional Mission & Institutional Impact* This discontinuation will allow for a more streamlined admissions process for the Computer Science department and will reduce confusion for students.

Finances* No financial impact is to be expected, as the program is being replaced.
Section III: Curriculum (if applicable)

### Section I: The Request

**R401 Purpose**

Request: Career Services at Utah State University is requesting a name change to better reflect the work and services provided by the Center. The proposed new name is Career Design Center.
Section II: Program Proposal

Proposed Action & Rationale

This unit has recently undergone a significant leadership change following the retirement of a long-term director. Additionally, there has been a lot of national conversation about student success and the role that career education plays in this success. Therefore, the career coaches, in conjunction with the interim director, have been conducting research into best practices and have been holding strategy sessions to reimagine career education at Utah State University. The objective of the career services unit is to empower all students to design their career paths through university-wide career education, experiential learning, and post-graduation opportunities by organizing and designing new services around the following student themes:

- **EXPLORE MAJORS & CAREERS - Major Exploration & Declaration**
  - Through a strong partnership with University & Exploratory Advising, students will have access to on-demand and guided learning. This education will help students develop a stronger understanding of their skills, personality, and interests and how they relate to choosing a major and designing a career path(s).
  - This process will include a credit-bearing course, an open Canvas course, and strategic touchpoints with career services and exploratory advising.

- **EXPERIENTIAL LEARNING - Enhanced Preparation for Post-Graduate Experiences**
  - Career Services will strive to engage all students in experiential learning through academic as well as extracurricular activities. Academic activities include internships, practicum, field work, etc. Extracurricular activities include volunteer work, on-campus and off-campus employment, and leadership opportunities engaged in during their studies.
  - Focused on helping students design career paths that lead to their success, this focus on experiential learning will educate students on the importance of experiential opportunities, how to obtain these opportunities, and how to reflect and move forward in their career design.
  - This process will include a mix of guided and on-demand learning. Examples include a credit-bearing course, an open Canvas course, guidance on topics such as the job search, resume writing, interviewing strategies, employer engagement through events such as career fairs, and access to a career design specialist.

- **LAUNCH & PIVOT - Post-Graduation Maintenance**
  - Students will have education on and access to the tools needed to secure post-graduation opportunities that are related to their career goals. This process will help students navigate the job search and understand ongoing career design as alumni.
  - This process will include a credit-bearing course, guidance on topics such as the job search, resume writing, interviewing strategies, offer negotiation, graduate school application preparation, employer engagement through events such as career fairs, and access to a career design specialist.

This new proposed name will accurately reflect the strategic new value propositions for career education that include a revised mission/objective statement, reimagining career education resources so that they are flexible and scalable, and developing new technology tools to improve and expand. This will ultimately improve the expansion to support the students and key partners.

Another prominent change to the unit is the title for the career coaches. Moving forward they will be called “Career Design Specialists,” which better reflects the role they will have moving forward.
The newly reimagined Career Design Center focuses on ensuring that all USU students receive career education. Analytics will be used to identify students who have historically been less likely to seek services (i.e., marginalized populations, including first generation students). The Career Design Specialists will be proactive in inviting these students to receive this education. Eventually, the career education will be built into existing academic programs to ensure that all students receive it. Assessments will be used to improve services going forward.

**Budget**
This proposed name change will not require additional funding. The following budget will be used going forward.

<table>
<thead>
<tr>
<th>Budget Category</th>

Section I: The Request

R401 Purpose* The Department of Nutrition, Dietetics and Food Sciences requests the approval of a new Post-Baccalaureate Certificate, named the Certificate of Advanced Practice in Dietetics. This will be a restructuring of the existing Coordinated Program in Dietetics, currently offered as an emphasis to the Dietetics undergraduate degree.

Section II: Program Proposal
Registered Dietitian Nutritionists (RDNs) are food and nutrition experts who have met specific academic and professional criteria to earn the RDN credential. As food and nutrition experts, RDNs play a vital role in health care and use their expertise to help people improve their nutrition status in a variety of ways. USU has a long history of offering dietetics programs that prepare students to become RDNs and to successfully enter the profession of dietetics.

The Commission on Dietetic Registration (CDR) is the credentialing agency for the Academy of Nutrition and Dietetics, the world’s largest organization of food and nutrition professionals, and establishes the criteria to earn the RDN credential. Prior to January 1, 2024, the minimum requirements needed for eligibility for the registration examination for dietitian nutrition professionals were a bachelor’s degree. However, the Commission on Dietetics Registration has voted to change the minimum degree requirement needed for eligibility for the registration examination from a bachelor’s degree to a graduate degree. The Post-Baccalaureate Certificate of Advanced Practice in Dietetics (CAPD) is designed to emphasize training in clinical nutrition and will integrate with existing graduate degrees in the NDFS department, including the Master of Public Health Nutrition degree and the Master of Science degree, or other science-related graduate degrees. The program will be offered as a traditional face-to-face program on the Logan Campus. Upon successful completion of the Certificate of Advanced Practice in Dietetics and a graduate degree, students will be eligible to take the registration examination.
Demand for dietitians remains steady. The Bureau of Labor Statistics predicts that demand for dietitians will grow 8% in the next 10 years. This represents above-average growth with an anticipated addition of 5,090 jobs over the next 10 years. Projected growth for dietetics in Utah is well above the national average. Job growth in Utah is projected at 24% with approximately 70 job openings per year. At present, the four dietetics programs in Utah, including the USU BS Coordinated Program in Dietetics, graduate an average of 52 dietitians per year. Of these 52 students, the CAPD will train a cohort of 12. This will match the number of dietitians previously trained by the bachelor’s-level program.

Wages for dietitians in Utah remain below national numbers but are on par with other master’s-degree level healthcare professionals in the state, including social workers, respiratory therapists, and family therapists. However, wages for dietitians remain below rates for physical and occupational therapists, and nurses who have similar training. One justification put forward by the Commission on Dietetic Registration for the transition to master’s-level training for RDNs was to improve the economic strength of the profession by improving wages. Another justification was to ensure that RDNs have similar training to other healthcare workers who make clinical decisions.

In 2017, the director of the existing USU dietetics program surveyed 32 current employers and training sites of RDNs for the USU dietetics programs to determine program preferences in preparation for the transition in dietetics education from a bachelor’s to a master’s level. Stakeholders strongly preferred the coordinated program that existed at the bachelor’s-level to transition to a master’s-level program.

Fifty-five percent of stakeholders preferred the coordinated program emphasize training in Medical Nutrition Therapy, nutrition counseling, and chronic disease prevention and management as it had been when offered at the bachelor’s level. The skills stakeholders desired to see trained in students included disease management, critical thinking, interdisciplinary communication, counseling skills, and using evidence-based guidelines in practice. Most of the stakeholders had no preference for the type of master’s degree granted to the students.

While other dietetics programs at USU and in the state provide training sufficient to pass the registration exam, the coordinated program at USU meets the specific needs for clinical nutrition training required by healthcare employers. The traditional coordinated program at USU has demonstrated a high job placement rate in clinical dietetics over the past 10 years. Primary employers of past graduates include Intermountain Healthcare, MountainStar Network, Salt Lake County public health programs, and University of Utah Healthcare. Per annual student survey data, 60% of past graduates are employed in clinical dietetics within one year of graduation. Approximately 30% of those graduates pursued master’s education directly after graduating with a bachelor’s degree.
The CAPD mission complements the mission of USU by creating career-ready dietitians who will compassionately serve the public. Dietitians trained in clinical dietetics have a special charge to improve the health of communities through application of nutrition care and treatment.

There will be minimal impact on the institution since the program has been offered at the bachelor’s level for many years. Upon approval of the CAPD certificate program, the bachelor’s level program will be discontinued.

The CAPD will seek to enroll 12-14 students per year; the same number that has been enrolled in the bachelor’s level coordinated dietetics program since 1978. The CAPD students will be primarily recruited from USU’s bachelor’s-level Didactic Dietetics program (DPD), though slots will be available to non-DPD students who have completed the prerequisites.

Likely negative impacts include an increased burden on the undergraduate program to provide foundational training for future coordinated students. Students may also be frustrated by increased costs since they will be required to enroll in master’s training beyond the bachelor’s level. There is also the potential that extended education will become a barrier for underserved populations.

These impacts will be ameliorated by coordinating with the DPD to ensure that the program meets undergraduate students’ needs without prolonged time to obtain a degree. The CAPD will also engage in efforts to recruit from traditionally underserved populations by engaging with programs at community colleges and paraprofessional who might benefit from becoming dietitians.

To reduce student costs, the department provides an education award through Americorps for students who enroll in the program. The department continues to explore scholarship options and the potential for graduate assistantships.
In-person training at external facilities is overseen by certified and licensed RDNs. This adds to the cost of this and similar programs. The annual cost of offering the Certificate of Advanced Practice in Dietetics to 12 students per year is $83,600. The NDFS department will provide $14,400 of support to the program per year from an internal reallocation. The remaining cost of the program will be structured as course fees that will be distributed across the seven courses taken as part of the certificate program. The course fee attributed to each course will be assigned based on the percent of the costs of the program associated with each specific course. The total amount of course fees assessed will be approximately $5,767 per student. The course fees will be adjusted each year if necessary, using the appropriate form in Curriculog. The program director will oversee the request to change course fees as necessary. The total cost of the certificate program to students is $10,418 ($651/credit), including $4,651 in tuition and fees plus $5,767 in course fees. Many students will complete the certificate credits as they are taking credits for the needed graduate degree, which due to USU’s tuition plateau, will significantly decrease the cost per credit of the certificate.

It is difficult to compare costs of this program to other dietetics programs due to the variability in the organization of these programs. Because the goal for students will be to gain eligibility for the registration exam for RDNs, the cost comparison will consider earning the needed graduate degree and will be based on tuition and fees associated with the Certificate of Advanced Program in Dietetics partnered with the Master of Public Health (MPH) in community health sciences.

The cost per student to obtain the proposed certificate plus a Master of Public Health in community health sciences would be $21,054 ($376/credit). (7) Costs for similar education in Idaho, Utah and Arizona range from $19,320 (the USU Distance Internship with MDA) to $44,352 (the University of Utah Coordinated Master of Science). The costs per credit for these programs range from $483-$704. (8) The MPH option for the CAPD provides a low cost per credit for dietetics programs, but the credit load required for an MPH will increase total absolute costs.

Time to completion impacts costs of attendance as well as tuition. The CAPD will require three semesters for completion. Master’s degree requirements may require an additional semester beyond the certificate. This is similar to most programs in the West. Therefore, the CAPD + master’s degree option for in-person learning at Utah State University is a cost-effective option for high quality education similar to other programs in the area.

Section III: Curriculum (if applicable)
The Certificate in Advanced Practice in Dietetics (CAPD) allows for practitioners at several levels to train for and obtain registration in dietetics. The certificate stacks with ongoing master’s degree studies to permit students to create an education plan that best aligns with their career goals. The program has been designed to best integrate with master’s degrees in the nutrition department. The certificate offers 18 credits and will allow students to complete the supervised practice hours required for eligibility to take the dietitian registration examination.

The 18 credits are spread across seven courses. Required courses include Clinical Dietetics Skills I, Clinical Dietetics Skills II, Foodservice Skills, Community Dietetics Skills I, Community Dietetics Skills II, Advanced Medical Dietetics, and Advanced Dietetics Practicum. All these courses were previously provided at the bachelor’s level but will be redesigned to be consistent with a master’s-level program. (The bachelor’s level courses will be discontinued after the certificate program is launched.) In addition, students will be encouraged to plan their master’s coursework with consideration of dietetics skills.

Courses that are being discontinued will be submitted to Curriculog for removal from the catalog in Fall 2021. New courses will be submitted in Summer 2022.

Accreditation will be maintained with the Accreditation Council on Education in Nutrition and Dietetics (ACEND). The program will require approval for a major program change since it will change from the bachelor’s to the master’s level; however, it will not need to be re-accredited due to the program’s current accredited standing. ACEND has waived fees for this type of change due to the mandate from the Commission on Dietetic Registration. The program change paperwork will be submitted to ACEND after university approval is granted. Approval is anticipated in 2022. The first cohort of students will be admitted in August 2023.

Section I: The Request

R401 Purpose* Utah State University requests approval to establish the Transforming Communities Institute effective July 1, 2021.

Section II: Program Proposal
The Transforming Communities Initiative (TCI) was formed by Utah State University (USU) Social Work faculty in 2014, to reinvigorate the way in which social work research was taught at Utah State University and the way research is performed in Utah communities. Prior to this initiative, social work students lacked enthusiasm for research courses, and many community-based agencies did not have the resources to conduct research projects that would benefit their clients and communities.

The creation of TCI has allowed for enhanced local and statewide community engagement and program impact as TCI has partnered with social service agencies to address community-identified needs. Specifically, TCI aims to conduct research in and for the community while teaching the next generation of social work leaders to be data-driven and civically engaged. The research conducted under the TCI umbrella spurs action in communities that challenges social injustices and promotes positive social change. For example, TCI projects concerning housing justice issues have led to increased public awareness of homelessness, increased funding for homeless services, and a strong and mutually beneficial partnership between social work and housing service providers in the region. Together, TCI has been able to make an impact in Utah communities, and students have benefitted from the real-world experience and the sense of meaning and impact they experience as a result.

After several years of successful projects, changes in the department structure, a growing faculty, and different community needs, it is time to reexamine the mission and strategy of TCI. Currently, TCI is being reimagined to ensure relevancy to the communities served by faculty and to ensure maximum impact. Further, TCI aims to increase statewide impact through robust statewide presence. Thus, the current request proposes to expand the initiative to an interdisciplinary institute engaged in addressing social issues through research, teaching, policy, and service benefitting communities throughout Utah and the nation.

Most Utah universities have a campus-wide center for community engagement, but fewer have discipline specific institutes or centers that exclusively work from a community-engaged perspective to promote positive social change in Utah communities. The closest comparison is the University of Utah’s Social Research Institute within the College of Social Work; however, that institute uses a broad range of methods and its efforts often focus on the Wasatch Front and/or state of Utah human services evaluation projects. The TCI is different in that it is an intentional fusion of research, teaching, policy, and service that impacts rural communities across the state of Utah – often those without the resources or expertise to conduct research.

Consistency with Institutional Mission & Institutional Impact

TCI is aligned with the mission of USU's land-grant mission of serving the public through learning, discovery, and engagement. TCI employs community-based research that brings together faculty, students, and community leaders to meet pressing social needs within local and statewide communities and social service systems through research, teaching, and action.

No new faculty will be required for the creation of the institute. The director position will be filled by a current faculty member, Dr. Jayme Walters. To support the administrative efforts of TCI, a part-time student worker is needed – a cost which the department can support.
