During the period of freshmen registration Dean Dancy and the officers of the A. W. S. will see new students in their registration. Almost immediately these students will be assigned to their Big Sisters.

On Wednesday afternoon, September 28, at 4 o'clock the Dean of Women and the A. W. S. organization will hold their annual reception to women students of the College at the Girls' Dormitory. Several representatives of the A. W. S. will be at the reception that is to be held in the Women's gymnasium on Friday evening September 29.

## STUDENT LIFE

Published Weekly by Students of Utah Agricultural College.

Printed by the Earl &amp; England Publishing Company - Logan, Utah

Entered as second-class mail matter September 19, 1908, at Logan, Utah, under the Act of March 3, 1879. Acceptance for mailing at special rate of postage provided for in Section 1103, Act of October 3, 1917, authorized August 22, 1918.

PAUL B. LARSEN, Business Manager  
CYRUS W. GRAEVES, Assistant Business Manager

Volume XXVI. Thursday, September 8, 1927. Number 1.

## STUDENTS WHO WORK

Thousands of dollars are turned over every year to students at the College in payment for various kinds of work. The College itself, in its character as an experimental institution and with its large plant, has partially helped hundreds of students to obtain their education. Business men of Logan have also used the College students whenever they have been able to do so. The result is that a very large percentage of the students of the College have contributed to their own support, and peculiarly enough an examination of the records doesn't show that the scholastic records of these students suffered because of their extra work. Usually the student who goes to school in spite of a financial handicap is interested enough in his opportunities that he uses every one of them. One thing has always been demanded by the College of students who do part time work, and that is that they work. There aren't any honorary positions on the payroll. More for rate still no social stigma has ever been attached to a student because he has worked. A survey of the list of those students who have worked their way through school indicates that they have been willing to work at practically any kind of job, for even a small remuneration, in order to secure an education. And usually when they are through they really have one.

## FINANCIALLY SOUND

The financial report recently published reveals a very satisfactory situation not only in the divisions of the College proper but in the departments of the student body. Year after year the incoming student body has been confronted by an alarming overdraft in the student body funds, left as a parting gift probably by the preceding student body. No one has felt sufficiently philanthropic to pay the debts of someone else. And so the thing has gone on, sometimes piling up, occasionally being sliced imperceptibly. This year we start with a clean sheet, \$800 margin, and we don't hesitate to say that we feel good about it. Last year's student body officers, if they did nothing else, deserve plenty of praise. Secretary Bertson also figured very prominently in the economy program. Long experience has made him adamant in the face of increased budget demands. We hope the 1927 officers will be as thoughtful of next year's student body.

## OUR NEW STADIUM

To those who doubt the accomplishment of the impossible we suggest a visit to the new Utah Aggie Stadium. The practically completed structure has surpassed the imagination of those men who made the first proposals for a new athletic field. Even after the contract was finally granted we doubt that anyone really visualized the splendid athletic plant that now overlooks Logan and Cache Valley. We have a real stadium, not just a new football field in a different place. If this great structure with its picturesque and delightful location fails to inspire not only the athletes who perform in it but the thousands who will view athletic contests there then truly this is a solid, materialistic age. The great sweep of curved seats on both sides, the wide expanse of green between the really beautiful redwood planks, the black cinder track, and northern Cache Valley beyond combine in a stimulating spectacle.

We congratulate those men who have made the dream a reality, among them Contractor Olof Nelson. A great many others have given freely of their time and talents and the result should entirely satisfy them. All that remains is a proper support from the student body and the people of northern Utah. There is no doubt but that it will come.

## COLLEGE VALUES

This week's issue of Student Life is being sent to the high school graduates of this section, to all 1926-27 students, and to other friends of the Institution. We expect that a fair percentage of the high school graduates will become members of the student body this year and we hope that all former students who have not completed their work will be back.

College life has tremendous values to the student with serious purpose. It has very little for the college attendant who imagines that a few more years of loafing is the thing he wants. And if he is reasonably intelligent he may get by for a few years, that is he may just manage to get passing grades an evade ejection but he will get nothing real out of college. The values of education come only with work. The work is enjoyable, there is a sufficient program of recreation in our American colleges, but diligent, earnest effort is the only thing that gets results. Frequently grades, and good ones, can be gotten without work but grades aren't results. Neither the faculty nor the institution can give the student knowledge, tolerance, appreciation of life, the ideal of doing something for humanity. These values can be gained in college but the student must get them, they can't be given.

The two most recent issues of the Forum magazine have contained two articles dealing particularly with high school education and happily titled "Our Nell" and "Our Bill." Though written as a constructive criticism of our high schools they have an element of truth for college education. We agree with the writer that education can never be simply the voluminous acquisition of facts. Education has a practical value, it must also be a training for the responsibilities of adult life.

For a delightful moving tale of Norway in the Twelfth and Thirteenth centuries we recommend the trilogy of Sigrid Undset, "The Bridal Wreath," "The Mistress of Husaby," and "The Cross," in order.

## Student President

## Issues Welcome

V. MERRILL JOHNSON  
Student Body President

"Another school year is almost here. All of the officers of the student body are enthused over the prospects for an unusual year. I hope that all of the former students who haven't graduated will be back and as student body president I extend a hearty invitation to high school graduates to make the U. A. C. their College. We shall do our best to make these of you who do come feel on direct at home. After you have been with us a week you'll be as much a part of the College as we are. College is an opportunity which I hope you will take advantage of and if you attend some other university or college than this one, may you have every success there."

## New Courses in Meats To Be Given This Year

Courses in farm meats and meat products and in the selection of meats for the household will be given at the College this year. Harry H. Smith has recently been appointed assistant professor in animal husbandry and will teach the new courses as well as classes in stockjudging, beef cattle and swine production. Professor Smith comes to the College from the faculty of the Colorado Agricultural College. He received his Master's degree from the University of Nebraska and his Master's degree at the Colorado Agricultural College. During the seven years that he has been on the faculty of the Colorado school he has been superintendent of meat awards at the Western Livestock Show at Denver.

## Financial Report Shows An Excellent Condition

The financial report of the year ending June 30, 1927 shows every department in the college in excellent condition according to Secretary Russell E. Bertson. Of particular interest to students the report shows that for the first time in many years the Student Body Organization ended the year with a balance, rather than the legal overdraft. A few of the departments suffered a slight overdraft but the balance in the other departments made a general balance for the organization of approximately \$825.

## SCHOOL OF COMMERCE TO BE HOUSED ON THE THIRD FLOOR

Continued from Page One with all of the economic and business services that are being published as well as the current publications that relate to all the work of the school. Bulletins and other scientific data will also be on file. The reading room will be located next to the departmental library so that students can secure general texts. The seminar room and library will be open for the use of the advanced students. It is planned to relocate, especially the large room on the third floor as soon as possible and use it as a general auditorium for the students in this particular school.

In addition to the above improvements all of the rooms are being redecorated and painted and light fixtures have been installed. 250 workmen know their home but it is a decided improvement over the present situation.

## NEW PROGRAM ADOPTED FOR REGISTRATION

Continued from Page One assembly W. H. Bell, assistant registrar, will discuss the "proper registration procedure." The remainder of the day from 9:30 a. m. to 5 p. m. will be devoted to the actual registration of the students. In the evening a dance party will be held in the gymnasium.

On Monday all former students will register. The freshmen are scheduled to meet in an assembly in the Chapel at 9 a. m. The regular stu-

## Many Improvements Made at The Barns During The Summer

## New Veterinary Clinic Building Under Process of Construction

Improvements and alterations have been carried on practically all summer at the College barns. All of the buildings have been painted as well as the interior of the dairy barn and the milk house. Some changes have been made in the dairy barn. A great many of the hog houses have been moved and a new horse and show yard is being built on the former location of these buildings. This yard is a thoroughly modern structure. The fence is six feet high, four feet being a cement wall and the remaining two feet heavy timbers fastened to iron uprights.

The most important change at the barns is the building of a new Veterinary Clinic Building. It is located immediately north of the horse barn. The foundation is already completed and the contractor is beginning the construction of the frame work. The new building will be excellently equipped for all of the work in Veterinary Science according to Dr. H. J. Fredrick, head of the department. Dr. Fredrick's office will be located in the new building.

## Department of Music Strengthened For Year

The department of music at the College has been strengthened for the coming year. Professor B. Cecil Gates has been appointed head of the department of music. Professor Walter Wetli will also be back again and it is also probable that new additions will be made to the music faculty before the opening of the Fall Quarter. A number of professional teachers of various instruments are associated with the College so that students can take private lessons at a nominal fee and secure credit for these courses.

Professor Gates has announced that the department expects to produce an operetta sometime during the year. The new head of the department has had a very wide experience in this field being director at the present time of the Lucy Gates Grand Opera Association. There is also some intention on the part of the music faculty of giving a special course in opera and opera production. This course was so popular that the summer quarter that it is probable it will be given again. The symphony orchestra, which became so well and favorably known last year, will again be directed by Professor Gates. The music event of the spring "The Sunset Festival" will surpass last year's first attempt.

Professor Wetli will again have charge of the five vocal and instrumental annual tour will be made. The ladies chorus and the combined choruses will also be under the direction of Professor Wetli.

## U. A. C. Graduates On B. Y. U. Faculty

Three former graduates of the College have just been appointed to the faculty of the Brigham Young University for the coming school year. Dr. Parley Christensen has been added to the department of English at the Church school. He received his Bachelor's degree from the U. A. C. and his Master's and Doctor's degree from Stanford University. Dr. George W. Bowers, Jr., received his Bachelor's degree in the class of 1918 and president of the senior class, will be assistant professor of geology and geography at the B. Y. U. Dr. Hanson took his advanced work at George Washington University. Miss Anna Page, another graduate has been appointed instructor in foods and nutrition.

Student body officers will have charge of this meeting and the freshmen class will be organized and the officers elected. In the evening at 6:30 the faculty and the student body will hold an informal reception on the College quadrangle for the new and old students. Games, bonfires, and a lunch will feature this part of the program. Regular class work will begin at 8 a. m. Tuesday morning.

This general plan has been adopted so that all students can have all the help they need in the selection of their courses, and further so that new students by receiving personal attention will feel at once that they are a part of the Institution. The entire faculty will be at the College for the registration days.

## Former Active Student Takes Position In School of Commerce

## Four Other Aggies Receive Harvard M. B. A. Degree

PROF. V. D. GARDNER

V. Delroy Gardner, former Student Life editor for two years, student body president, and Alpha Delta Kappa, has been appointed assistant professor of accounting to succeed Professor W. E. Thulin who has been granted a leave of absence. Professor Gardner received his M. B. A. from Harvard this year. He ranked in the upper one-fifth of his class of three hundred. He rejected an appointment as assistant to the National Bank Examiner to accept this position at the College.

Previous to his two years at Harvard Professor Gardner was principal of the high school at Grace, Idaho. He graduated from the college in 1922. During his career at the College he was one of the most active students in school. While at Harvard in addition to his work in accounting he did considerable work in industrial management and he will teach a course in this subject during the coming year. Other courses that he will teach include Business Finance, phases of Accounting and Bookkeeping, and Economics.

In addition to Professor Gardner, four other U. A. C. graduates have received M. B. A. degrees and they have all been remarkably successful. W. J. Merrill, one of Harvard only two years, is now chief budget officer of the Royal Baking Powder company of New York. Harold Chace is a traveling auditor for the Stone-Webster company. He spent the last winter in Porto Rico. Elmer Clawson is the assistant treasurer of the Stone-Webster subsidiary at Norfolk, Virginia. Harold Kutter, who received his degree this year with Professor Gardner, has accepted a position with the Abraham and Strauss department store of New York City.

## NEW DEPARTMENT OF FORESTRY CREATED BY BOARD OF TRUSTEES

Continued from Page One of Director William Peterson, will interest itself in the development of woodlands, other timber resources, and in encouraging the development of industries. A number of serious measures are being taken generally.

The work in Forestry at the College during the coming year will be under the direction of Professor R. J. Berraff who will work in close cooperation with the Forestry Office at Ogden. Mr. Rutledge, in charge of the Ogden office, has indicated that a great deal of instruction help will be available from his office. Professor Berraff has just returned this year from a year of graduate study at the University of Chicago. He also spent a year at Iowa State College. Several courses will be added to the curriculum of the department to meet the needs of students majoring in the field.

## CONSTRUCTION TAKES LESS THAN A YEAR

Continued from Page One gave work in basketball at the coaching school this summer, said that the new stadium was an efficient and beautiful plant and that he was amazed that a school and town of this size could carry through such an accomplishment. Numerous other visitors during the summer have made the enthusiastic comment about the stadium and all of them have said that it compares favorably with any other. Mrs. McLaughlin, wife of Dr. A. C. McLaughlin, head of the department of history at the U. of

Chicago, said that it reminded her of the Yale Bowl which may be a little strong but it conveys the idea.

One of the features of the seats is that the great cement structure on which they rest is covered, giving a perfect view in either direction from every seat and that without any strain. Flags will be spaced at regular intervals at the top of the seats on each side and a flag pole will be placed at the south end of the field.

The first game will be played there with Western State Teachers last four weeks from the present writing.

Roma Middleton, student of last year, has a fine topographic position with the Union Pacific railroad at Cedar City.

## Under The 'A'

Verie Ery, graduate of the College in '24 has just returned from a three year's sojourn in France as a missionary. Before returning home Verie received a diploma from the Sorbonne University at Paris for the successful completion of a special three months' study at the University. His next activity will be the study of law.

Ray Merrill, another grad who has been teaching at the Hurley High school for three years, has accepted a teaching position in Honolulu. He sailed to the Islands on August 17.

Merrill Johnson, our estimable student body president, has been flitting about the country all summer in a questionable automobile. George Harris, '27, was the other driver.

The Sigma Chi's were made happy by the return of Joe Cowley from Germany and the east during the summer. Joe will enter school on the opening day and his presence won't hurt the Aggie's chances in tennis at all.

Craig Halmie, who has a position with an oil company in South America, visited in Logan for a short time this summer. While here he was initiated into Sigma Chi. He will return to his work in South America.

Ken Robinson, graduate and for two years teacher at Box Elder High school, is willing away his time at Hollywood and getting paid for it. He is in the tiding department of one of the reasons for Hollywood's existence and it isn't improbable that you will see his name decorating some picture as title writer in the near future. Roy Wilson, another Aggie, who graced the Boxelder fair for a couple of years, has been doing art work for the movies but he threatens to leave them flat and study dentistry. Both are Delta Nus.

Maurine Mulliner, Sorosis and Aggie of Idaho Falls, is going to Washington D. C. this fall to continue her studies in dancing.

Landall Merrill returned from a very successful tour mission to England last week. He stopped off in New York and spent some time with Harold "Doc" Glade who has been doing missionary work in that "Sodom." "Doc" expects to stay where he is and do advanced work in business at New York University.

Ruth Bell left recently for Pittsburgh, where she will study dramatic art at the Carnegie Institute of Technology in the School of Fine Arts.

Marg Smith, graduate and Sorosis, who has been spending the summer, will return in a few days to Washington D. C. where she has an excellent position at the National Park Seminary, exclusive girls' finishing school. Miss Smith is employed as concert pianist and will act as senior accompanist during the coming year.

Rita Cranney, Sigma Theta Phi, will remain out of school this year and teach in one of the grade schools of Logan city.

Scott Nelson, editor of this sheet this year, has been adding to his funds by pleading with the hard hearted farmers of California to buy knit goods.

La Vior Card, '26, Alpha Delta Epsilon and member of the Periwig Club, left recently for New York where he will study dramatics. During his career at the College he was very prominent in dramatics and he made some very fine characterizations in the plays that were produced during this period.

Rita Cranney, Sigma Theta Phi, will remain out of school this year and teach in one of the grade schools of Logan city.

Russell Hess, '26, will leave this week for Harvard University, where he will study for his Master's degree in English.

Weston Vernon and Adelaide Nielson, Vernon both former Aggies, spent the summer at the University of Michigan, where Weston continued his study of law.

Francis Wilcox and Cleone Taggart Wilcox, former students, visited in Logan this summer. Mr. Wilcox has a fellowship in the department of economics and marketing at the University of California and he will receive his Doctor's degree next year.

Kiva Johnson, another Theta, will also teach a year before returning to College. She will be in Preston.

Met Lomon, '25, will continue his study of the pipe organ at Rochester during the coming year. He has been making his own way by playing in orchestras and acting as accompanist.

The name of the former Livestock building has been changed to read "The Animal Industry Building." The Ag. Engineering building will now be known simply as the Engineering Building to conform with the name of the school.

Miss Mary Sorensen, former librarian at the Brigham Young College, will be assistant in the library here succeeding Miss Amy Pratt, who is now married and living in Salt Lake. Miss Sorensen did advanced work in library practice at Columbia University during the last year.

Tom Cardon is another missionary who is home and ready to start school again. He has been in France.

The Home Economics Cottage has been finally completed. Miss Alice Kewley, in charge of the Cottage, announces that all of the rooms are finished. The lawns and gardens are in very good shape. An appropriation has just recently been made for the purchase of new furniture for the Cottage.

Leah Merrill will teach in the Logan Junior High School.

## SCHOOL OF EDUCATION AN ENGINEERING MAKE APPEARANCE IN CATALOG

Continued from Page One receive the Bachelor's degree in one of the departments of Education. All of the courses necessary for State certification are taught by the College and students taking the approved courses for either the elementary school certificate or for the professional high school certificate will meet all the requirements of the Board and will receive their certificates. Students in the School of Education will do practice teaching in the elementary and high schools of Logan city.

Under the new law the College is authorized to teach the various phases of the profession of civil engineering in addition to the previously given in agricultural engineering and mechanic arts. The department has been strengthened to meet the new opportunity and students will be able to secure excellent training in the branches of civil engineering according to Dean West.

The School formerly known as Basic Arts and Science has become the School of Arts and Sciences. The name Commerce and Business Administration has been changed to the School of Commerce.

The report is current that Pres. Coolidge refused to run again because he is going to do westerns for the movies.

## 1927 GRADUATES

Les Pusek has been financial manager of the Logan Baseball club during the summer. He will teach this winter.

Edith Johnson has accepted a position teaching home economics at North Cache High school.

Kenneth "Brick" Smith will stay with the lumber business in Logan.

Caroline Hendricks will do work toward her Master's degree in sociology at the College this winter.

George Harris is leaving for the East soon to begin the study of law at one of the eastern universities.

Paul Monson left two weeks ago to do missionary work in Sweden.

Kiruna Peterson will be a member of the faculty at the Preston High school this year.

Eldon Rex, summer quarter graduate, will be in seminary work at Logan.

The board of Trustees at the College appointed Tommy Green military property custodian at the College. He will also be connected with the secretary's office.

Erma Worley will teach English at the Spanish Fork High school this year.

Thelma Taylor will direct the work in Home Economics at the Helper High school.

Ferris Miles expects to enter the School of Business at Stanford University.

Damaris Sutton has accepted a position as head of the English department at the Vernal High school for the coming winter.

Rush Budge will leave in a week or two for Stanford University where he will do advanced work in Zoology.

## BULLETIN

Meeting of all freshmen in the Chapel Friday, September 22 at 3 p. m. Second gathering of freshmen Saturday morning at 8:50 o'clock.

Reception for freshman women students in the Women's Gym, Friday evening at 7:30.

Six party for frosh men Friday evening in the Smart Gym.

Actual registration of freshmen all day Saturday, September 24.

Dancing party for all students in Smart Gym, Saturday evening.

Former students register Monday September 26.

Reception and quadrangle for all students Monday evening.

Regular classwork begins Tuesday morning, September 27.

Reports from the camp of Colorado Aggies indicate that the Farmers of the Centennial State are serious in their intention to win back the conference title. Rankin is back and so many other better men and great freshman prospects that the Aggies look like the Colorado team to beat.

Coach Knute Rockne told Coach Romney that he would have plenty of trouble beating the University of Hawaii this coming year. Coach Klum of the Islanders expects to have the greatest team for years after last year's successful season when the town team beat the University for the first time in years. "Bish" Kay, former Utah athlete save Romney the same information in a recent letter.

We look to see Dr. Forrest C. Allen come more rapidly to the front as a basketball coach. His very popular course at the Aggie coaching school indicated that he is one of the outstanding directors of athletics in America. Just for fun we should like to see Kansas U. and the Aggies or Montana State meet in a hoop contest.

Harry Clark would look very good to us in a football suit. There is a possibility that Harry will be back. He shouldn't have any trouble getting a regular berth. He might be as good at end as he was at center and guard and we would like to have the best ends in the conference next year. Tauber notwithstanding.

## SOCIETY

Dorothy Worley, Sigma Theta Phi, and Pratt Wright, Alpha Delta Epsilon, were married in the early part of August. Mr. and Mrs. Wright will make their home in Hinkley, Utah, where Mr. Wright is a member of the high school faculty.

The marriage of Ida Thatcher, Sorosis, and Victor Reese, Phi Kap from the University of Utah, will take place this week in Salt Lake City. They will leave immediately for St. Louis, where Mr. Reese will continue his study of medicine.

Another marriage of interest was that of Janice Jensen, Theta, and Lionel Thatcher, '26, and Thelma Dudley and Rulon Johnson. The Thatchers will live at Thatcher, Idaho, where Lionel will teach in the high school and the Johnsons will be in Logan.

An interesting double wedding of the summer was that of Beale Griffin and Lionel Thatcher, '26, and Thelma Dudley and Rulon Johnson. The Thatchers will live at Thatcher, Idaho, where Lionel will teach in the high school and the Johnsons will be in Logan.

Ora Packer, '27, and Alton Hansen, '26, were married recently. Alton has been doing graduate work at Chicago and they will return there for the winter.

Jessie Porter, Sorosis, and Marjorie Morrell, '26, were married during August. They will both teach somewhere in Idaho.

Two Thetas married two football stars during the summer. Dorothy Brown and Ted Foxley were married during the early summer in Salt Lake and Vivian Johnson and Earl Howe were recently married there.

## Joseph Havertz, Jr. in Salt Lake Firm

Joseph Havertz Jr., of the class of 1927 has an excellent position with a newly organized firm of advertisers in Salt Lake City. Mr. Havertz, who is the son of Joseph Havertz, Sr., long connected with the College, was made a member of the firm because of his commendable record in silver fishing since his graduation in the spring. The September 1 issue of the Salt Lake Tribune carried a long story on the new company together with the picture of Mr. Havertz and the three other members of the firm, all of whom are well known in Salt Lake business circles.

Coach Mac Laren, the new football head at the University of Wyoming was one of the greatest fullbacks of his day. He played with Pittsburgh when Pittsburgh was under the guiding genius of "Pop" Warner. He should have a great team at Laramie.

TRAINING  
CAMP OPENS MONDAY  
MORNING

## Schedule Gives The Aggies Four Conference Games In Stadium

VARSITY CAMP  
WILL OPENFreshman Opening Set  
For Sept. 19

Utah Aggies' football training camp opens next Monday, September 12 at ten o'clock in the morning. Coach Dick Romney, who will be assisted by assistant coaches, Earl Anderson, Harvey Kirk, and George Nelson, are getting everything ready for the opening. The Aggies expect to start Monday and Tuesday on Wednesday and the men who get going at that time will have a tremendous advantage over any other campers who start later. The mistake idea that a pre-season camp isn't necessary.

The indications are that the coming camp is going to be one of the best of the year before when seventy gridders met daily on Adams Field. Coach Romney just returned a week ago from his vacation on the Hawaiian Islands. He was never injured, but he was never in the best of health. He is now in the best of health and is ready to go to work. He is now in the best of health and is ready to go to work. He is now in the best of health and is ready to go to work.

Captain Linford, all conference tackle will be provided for the first day. Other letters will be expected to be coming in any time now are Monroe Cranney, center; Art Marshall, end; Doug McPherson, quarterback; Warren Hawley, full back; Bob Gibbons, all conference guard; Theron Stuart, halfback; Ellis Wade, halfback; and Garret Nelson, end. Some of these men didn't play regularly last year. They all made letters. It is very possible that Dave Hansen will be back for a sixth year. He looks like a midget but he is a powerful line plunger and a sure tackler. Hansen, if he comes back, is going to make someone out of a regular position. Wes Schmitt, who was used at guard at the close of the season last year, may be back. With more conference in the position, he may make a great lineman. The letterman of last year who definitely won't be back are Floyd Thomas, Samuels, Puffer, Hamilton, Dave, Gaudin, Nutter, Love, Gibbs, Smith, and Godes. Hansen and Schmitt make trouble.

It is very evident that Romney won't have a team or a squad composed entirely of lettermen. Glen Worthington will be in the first day and he wants a regular position in the Aggie backfield. Lyman Beaman, out of school last year, is scheduled to arrive the first day. He weighs 165 pounds and should be a very valuable. Noel Beaman, basketball and track man, is anxious to try the grid sport again. He stopped playing while still in high school. Gardner, freshman center last year, is already on the ground. Day of Joe and John of Salt Lake City are other likely fresh of last year who will make it interesting for the experienced boys. Idaho, squad members in addition to lettermen, are tackle, Sparks, Welch, Vanderhook, Carl Hinesaker, and Wimmerer, all of whom are in the year have made letters that they will be in early.

The official opening for the freshman candidates will be Monday Sept. 19. But freshmen are welcome from the start of the camp. If the returns that Coach Romney has had from the announcement of the training camp are any evidence, he will have several squads of gridders awaiting in Adams Field between now and the opening of school.

Drilling squads will be on the campus and the athletes will be at the College Cafeteria. Bussing every player will be provided. A small fee for covering the expenses will be charged.

SUMMER SESSION IS  
VERY SUCCESSFUL, SAYS  
DIRECTOR LINFORD

Continued from Page One  
had a registration during the time when Aggie Backus was here of

DICK ROMNEY

Our Famous Mentor

R. L. "Dick" Romney, the primary, initial, fundamental, cause of the Aggie's success in the sport field. A great athlete himself he has the ability to put the winning spirit into the men. He took over Aggie athletics when they were in a very precarious condition and he has changed the invalid into a full sized giant. Dick won't say anything about the coming football season except that his team will go in to win every game and we hope they do.

GEORGE NELSON

College Athletic Trainer

It isn't out of place to remark that George Nelson is the extra trainer in the conference. Always ready for work and knowing his job thoroughly, George is one of the best men who the Aggies will see often. He is an excellent heavy weight wrestler and a wrestling coach. We don't believe they can get much better.

NEEL SANDERS

Close Guard Career

The graduation of "Hot" Sanders is going to leave some hole in our famed basketball team. "Hot" was a good football player last year. He was a good track man but it was on the wrestling floor that he made his mark to the College. At his best, and he was at his best, he made every game last year. They may have seen him there. They may have seen him there. They may have seen him there.

approximately 100. Coach Romney gave work in track and field, Coach Perrett C. Allen, of Kansas University in basketball, George Nelson in wrestling, Professor Leaf of the R. V. U. in swimming, and Gene Kautz Brocks of Notre Dame in football. Coaches from all of the western states were present.

Pete Barrows, assistant editor of Student Life last year, and letterman in swimming and tennis, will enter Stanford University this fall to pursue advanced work in English.

## SPORT PARAGRAPHS

Nothing is so amusing about the success of the Aggie athletic teams than that conference track and field championship which was won by Romney's men for the fourth successive year. It is their own punishment was the winning of the State track title and getting by with some victories in both last year. The genius of Dick Romney was never more evident. Frankly we expected a defeat in every last year. Dick was certainly put men in the right places. His strategy isn't at all bad.

"Zee" Worthington ran a great race against the peerless Padlock on the U. track during the summer. It was a handicap race and the prize was a pleasant one. He was made pleasant to him. Mr. Padlock, defeated by refusing to run second.

The work of Mel Burke in the conference met and at Chicago calls for more than a little praise. He made phenomenal time in the mile and at the conference met he easily took second in the mile. Next year he will be in the mile. He will be in the mile. He will be in the mile.

Jack Spurlin has left Utah and will enter one of the California schools according to the printed word. We hate to see Jack leave as another Buck-Spurlin race in the mile run is the thing we were living for.

The Honolulu trip which the Aggie gridders will take some more showing every day. The boys will make the trip to the Islands on the Ventura, a very good boat but not the fastest boat on the line. It makes conference in the mile on December 17 however. The return trip, but we won't make the boys any less anxious to go, will be the trip to the Malolo. Perhaps George Nelson is the extra trainer in the conference. Always ready for work and knowing his job thoroughly, George is one of the best men who the Aggies will see often. He is an excellent heavy weight wrestler and a wrestling coach. We don't believe they can get much better.

Doug, Berenson, one of the Cornish Berensons, expects to come back to school this year. He also expects to make the football team. And he is the player he was when he left school even letterman will have their troubles in keeping him on the bench. He should be in great shape. He made his letter in wrestling at the College.

Another young man who hopes to be a regular is Dave Harris. He is in the Thanksgiving game last year. Comments him to general favor. He may be small but he can imagine more pleasant feelings than being hit by his few pounds of brain.

The Beaman brothers may have something to say about backfield positions. Lyman was a good backfield position two years ago and he should be better. If he has speeded up he might be a good back on the end. He was seen Noel play in high school as enthusiastic over this boy as a backfield man wouldn't feel bad if he is good enough to win a regular position.

It is rather early to be talking about trends, prospects but we have some to talk about and it has been so long since we have had that we couldn't let the opportunity get away. Lord Johnson will be back. Joe Conley, former letterman is back and ready for school. "Dutch" Cannon, former Logan High star is also back from the University of California at Berkeley. He is in addition to the Christmas of Wellesville and South Cache. He has indicated that he will be with us. This quarter doesn't look like a bad one. In addition there is Alton Sasser, Carl Venson, and Brencely, all lettermen and who should be better next year. We also hear that Mike Riveley, former letterman, will be home at Christmas and that he will start school.

Early this week Joe Conley won the Idaho steeplechase championship. He is back and ready for school. He is back and ready for school. He is back and ready for school.

UNDERSTAND, KIRK  
THE DIRECTOR  
FRESHFreshmen Should Have  
Great Season

Stier Anderson, former Aggie track and football star, left Harvey Kirk, coach, track and basketball letterman, will have charge of the freshman athletes during the coming year. Stier will have the title of freshman coach and Kirk will assist him. They will both start this week getting ready for the football training camp. The fact that they will direct the Greenlights in their training camp. From the reports that have come in we expect to see a great team. The dual schedule for the youngsters calls for games with the Utah Frosh, Weber College, and the University of Utah. Southern Branch. It is also possible that a game will be arranged this year with the Congar Infants. Coach Romney is also working on one or two more prospective battles. These games, in addition to a periodic tangle with the varsity, will give the Anderson-Kirk charges plenty of football.

Anderson the new coach, was especially well known as a track man, being one of the top 100 yard and 440 yard dash men ever in the State. He captured the team one year. He was a first class performer on the gridiron, winning his letter at the half back position. Kirk was an outstanding all-around athlete at Martin's. He was a member of the College from Tropic High School where he made a great record and he kept it up after he arrived here. He was a good guard and forward in football, both guard and forward in basketball, and the half mile was his best race on the track. He has been coaching in high school for two years.

Following the football season the two men will work with the varsity squad. It is probable that the same system used last year will be carried out. Under that plan every freshman who has any doubt at all can play basketball on one of the freshman teams. The members of the winning team in the freshman league will receive a double. At the same time all of the players are under the eye of the coach and the more likely players advance to the varsity squad. The plan worked very well last year. It is very likely that the case that some youngster is a great player, but he doesn't have reputation. Now he doesn't need one and that is all he has won't get anywhere.

Following the basketball season the two men will help Coach Romney with the track squad. The Aggie team during the last two years, he won the doubles championship. This year played the best of their careers according to the testimony of eye witnesses.

And finally let it be known generally and everywhere that reserved seats in the new stadium for all home football games will cost \$1.00, or one dollar less than the usual price in the conference. The general admission price is \$1.00, which is also a dollar less.

It is rather early to be talking about trends, prospects but we have some to talk about and it has been so long since we have had that we couldn't let the opportunity get away. Lord Johnson will be back. Joe Conley, former letterman is back and ready for school. "Dutch" Cannon, former Logan High star is also back from the University of California at Berkeley. He is in addition to the Christmas of Wellesville and South Cache. He has indicated that he will be with us. This quarter doesn't look like a bad one. In addition there is Alton Sasser, Carl Venson, and Brencely, all lettermen and who should be better next year. We also hear that Mike Riveley, former letterman, will be home at Christmas and that he will start school.

GLEN WORTHINGTON  
Captain of Hoopsters

The Aggie hoopsters will be captained by Glen "Zee" Worthington, who will be trying for the Hoop for his third year as an Aggie. Zee has been all-around star for two years and he is one of the greatest all-around performers that the world has ever seen. He is back and ready for school. He is back and ready for school. He is back and ready for school.

Utah and California  
Schools Get Aggie  
Athletes as Coaches

Aggie athletes who have matured in physical education have been very successful in securing positions as coaches. The great majority of them in Utah and California high schools. The 1927 graduates who will coach this year include: Newell Sanders, football, basketball, and track star; Floyd Thomas, football and track star; Fred Tootle, football; Wall Hall, football; Earl Hill, football; football; track; Vera Love, football and basketball; Lee Gibbs, football.

Sanders will coach the youthful athletes at South Cache High School. He made a marvelous athletic record and the general opinion is that he will make an outstanding coach. Floyd Thomas, a recent football star, expects to coach football in one of the Ohio high schools and he is back there now looking over the situation. Fred Tootle is expected to coach football at Jordan's High School. Lee Gibbs and Wall Hall will both coach in the Roosevelt High School at Oakland, California. Tommy Patrick, former University of Utah coach, is head coach at Roosevelt. Every major in physical education was successful in getting a good position this year according to Coach J. R. Jensen.

Among the Aggie coaches who went to school last year were: "Butch" Knowles, Logan High School who is now at the Alta High School at Martine; California; "Red" Lindford, who is now at Springville; Edith Erickson has a position in a California high school; and Vera Williams who made a good record at Pratt, Idaho is now at the Redwood High in "Salt Lake City." Jimmie Hines has moved from the Idaho High School to the Oakland High School and "Pinky" Jakes has gone from North Cache High to Preston High. Joe Monahan, former Preston coach, will be at Wyoming. Ed Baker has moved from Nevada to the Granite High School and Burns Erickson has left Utah to go to the Aggie High School.

New Bleachers for  
Smart Gymnasium

New members are to be installed in the Smart Gymnasium. The materials are being constructed under the direction of R. O. Larsen, Superintendent of buildings. It is expected that the new arrangement will make it possible to seat about fifteen hundred people at the basketball games with Montana State last year demonstrated beyond question that the old seating system couldn't half take care of the crowd. Practically every seat in the hall will be a good one.

Coach Romney has also announced that the basketball playing floor will be extended and that the new basketball will be moved back. Colorado teams have declared that they will be coming to the Aggie as much as the majority of the schools on this side have the large floor. It was generally agreed that the Aggie floor should be made larger.

SOUCAN BAND TO  
APPEAR IN LOGAN  
MONDAY OCTOBER 17

Continued from Page One  
Due to the present popularity of Lawrence's "Revolts in the Desert," Thomas was with the forces of Colonel Lawrence during the part of the period described in Lawrence's epic.

## 1927 Football Schedule

Utah Aggies vs. Western State Teachers—October 8  
Utah Aggies vs. Montana State College—October 15  
Utah Aggies vs. Wyoming University—October 22  
Utah Aggies vs. Brigham Young University—October 29  
Utah Aggies vs. Colorado Aggies—November 5  
Utah Aggies vs. Denver University—November 11  
Utah Aggies vs. Utah University—Thanksgiving Day  
Utah Aggies vs. University of Hawaii—December 17

OPENING GAME  
TO BE PLAYED  
OCTOBER 8Eight Games to Be  
Played by Aggies

We can't recall the time when the Aggies have had such a great home schedule as the one which is to be carried out this season. Four games on the home lot, all with Rocky Mountain Conference teams, another one in Ogden, which is practically the same as being at home, and the final one in Salt Lake, which means that the Aggies would be there even if Salt Lake were where Hong Kong is presently located. And this is as it should be. The fact that the first stadiums in the country to be used for the first time.

The opening game is booked for October 8, just four weeks away from here, it will be with Western State Teachers as the opponents of the Aggies. On October 15 the Montana State Bobcats, coached by Ed Erickson, will be met in Ogden. October 22 Wyoming Aggies will be met at the stadium again being the second home game. The R. V. U. Aggies will come to Logan the next week, October 29, and it is quite possible that the Aggies will be met at the stadium on the 29th. Another battle for the books, the Utah Aggies will be met on the 29th. The Utah Aggies will be met on the 29th. The Utah Aggies will be met on the 29th.

This preview assures everyone in this section of the greatest football year in history. The Aggies themselves aren't going to be setups for anyone. What they lack in experience they will make up in fight and the Western State to Coach Kilm's plans they will be in the game.

The above lineup isn't a soft schedule by any means. From Western State to Hawaii the Aggies will have a battle every game. Western State was bowled over rather easily last year but it was in the late season when the Aggies had been bowled over by pieces by larger teams and the coach had difficulty in putting eleven men on the field. In early season the Gunnison team looked very good. They are looking forward to a good one.

Montana State has championship aspirations. Their basketball title, won last year, has given them a tremendous ambition and there is no telling how far this team will go. Ott Romney is a very clever football coach. He has stacks of material, plenty of veterans, and he will use no reason at all why he shouldn't humble the younger Dick by bowling him over in Ogden. The Aggies of course remember the two point defense suffered at the hands of the Bobcats in basketball and which received most of the conference championship. A number of them same young men will be in the Aggie line.

Wyoming University is a constant threat and greater this year than ever. They have the men. The great B. McMillan, who was the Aggie's star last year, is back. As much as the majority of the schools on this side have the large floor. It was generally agreed that the Aggie floor should be made larger.

The Aggies have met a stumbling block in the way of C. O. Larsen, the new superintendent of buildings. He has been with the forces of Colonel Lawrence during the part of the period described in Lawrence's epic.

HOWARD LINFORD

Who Will Lead Gridders

Howard "Tuff" Linford will lead the Farmer Gridders for the 1927 season. He was unanimously chosen all conference tackle last year and he can't see any reason why he shouldn't be better this season. Brilliant in either offense or defense and a hard fighter he is also one of the best field goal kickers in the conference. We don't expect the extra ten yards to bother "Tuff."

As for the Comgars, say Provo fans. This year the Comgars are expecting to smash the Aggies. They had a sophomore team last year which should be better this season. Another battle for the books, the Utah Aggies will be met on the 29th. The Utah Aggies will be met on the 29th. The Utah Aggies will be met on the 29th.

This preview assures everyone in this section of the greatest football year in history. The Aggies themselves aren't going to be setups for anyone. What they lack in experience they will make up in fight and the Western State to Coach Kilm's plans they will be in the game.

The above lineup isn't a soft schedule by any means. From Western State to Hawaii the Aggies will have a battle every game. Western State was bowled over rather easily last year but it was in the late season when the Aggies had been bowled over by pieces by larger teams and the coach had difficulty in putting eleven men on the field. In early season the Gunnison team looked very good. They are looking forward to a good one.

MELVIN BURKE  
Track Captain 1925

Speaking of track stars, they don't know any better than the young man shown above. Mel Burke, miler and runner, was the Aggie's star last year. His attempt to win the conference track and field title for the fifth successive time. At a recent meet in Chicago he ran the mile in time very near the 4:20 mark. His conference mark of 4:25 is something the boys will shoot at for some time to come. Mel is a real star.

Wade Wins Honors  
at R. O. T. Camp

"Red" Wade, the sorrel tailed warhorse from Ogden, gained the honors for himself and the College during the summer. Wade went to the summer camp of the Aggie at R. O. T. and in the final competition received the distinction of an Expert Rifleman. Wade was the only man from the Aggie to be named as a best shot Camp Perry for the national rifle competition. Wade first won fame in the military department when he was named as the Aggie's best shot for the year for being the individual winning a letter in a mark sport who achieved the high mark in the Aggie's marksmanship at the College. Wade kept fit during the summer by starting on the camp basketball team.
