New Business

Harrison R470 revised went before board and was approved.
Removed learning outcomes from actual policy document. Did that because when you propose policy to the presidents or to the board those are just considered recommendations and the board can then unilaterally change any wording in a policy on their own and not have to have approval from USHE committees. Pulled the learning outcomes out of the policy and put them in an appendage to the policy and an appendage to the policy go to the board on a consent calendar item that is a straight up or down vote. Should be in effect immediately.
