SUMMER EDITION

UTAH STATE COLLEGE, JUNE 22, 1953

NUMBER 3

Nikolai and Joanna Graudan, unique cello and piano duo, open the lyceum concert series Tuesday at 8:15 p.m. in Institute.

Alcoholism Institute Begins Tomorrow

Utah's alcoholism problem, organic disorders related to alcoholism, and drug treatment of alcoholism are among topics which will be discussed at the alcoholism institute Tuesday and Wednesday.

Utah State Board on Alcoholism and the Utah Alcoholism foun-

dation are sponsoring the institute with the college.

Sessions have been announced as follows:

Beginning at 9 a.m. Tuesday, Dr. John C. Carlisle, dean of summer school, and N. Blaine Winters, chairman, Utah State Board on Alcoholism, will welcome those present and introduce guest speakers.

Dr. Chester A. Swinyard, professor, University of Utah, will discuss "Alcohol and Human Tissues."

Tuesday at 1:15 p.m. Dr. Swinyard will discuss organic disorders (Continued on page two)

Juniper Hike Slated Friday

Old Juniper hike, annual trek to the famed Jardine Juniper on the slopes of Logan canyon, will be taken again this year on Friday, instead of Thursday as previously announced.

Buses will leave the Smart gymnasium at 4 p.m., and the hike will begin at about 4:30 p.m., according to Prof. Vaughn Gordon, chairman. All students, faculty members, guests and others who wish to participate in the hike must purchase a ticket from the summer school office by Tuesday at 5 p.m.

The story of the tree will be told when the group reaches the summit, and lunch will be served at the campgrounds at the base of the mountain at about 7:30 p.m. A fire and program will follow lunch.

Tickets are 25c a person, and those who do not purchase a ticket in advance will be charged \$1 for the lunch and transportation.

The hiking groups should return to Logan at about 9:30 p.m., Professor Gordon said.

Cello-Piano Duo, Soprano Schedule Lyceum Concerts

Nikolai and Joanna Graudan, piano and cello duo, will open the Utah State summer lyceum series Tuesday evening with a concert at 8:15 p.m. in the Union ballroom. Jean Fenn, Metropolitan opera star, will present the second lyceum program Thursday at 8:15 p.m. in the ballroom.

Both concerts are for all summer school students and faculty, with admission by studentbody cards.

The Graudans, a unique concert duo, first established reputations as soloists, Joanna as a pianist and Nikolai as a cellist. They combined, their talents to become one of the foremost duos of the world.

Each season they criss-cross the United States to fulfill as many as 60 engagements. Both artists have also appeared as soloists with symphony orchestras.

Nikolai and Joanna came to the United States from Russia in 1938. They met and were married in Berlin, where Joanna studied and Nikolai was filling concert engagements. They toured Europe as a cello-piano concert duo for several years before coming to America.

Miss Fenn, a lyric soprano, is on her first nationwide concert tour. A varied program of both light classics and operatic arias will feature her Logan debut.

This past summer she won acclaim of critics for her role in Edwin Lester's production of "Song of Norway," and last fall for her roles in Puccini's "La Boheme" and Boito's "Mefistofels" with the San Francisco opera.

Miss Fenn is a star of the Los Angeles Civic Light Opera company. She has been cheered by both critics and audiences as one of the most promising of America's new young singers.

Although this is her first visit to Logan, Miss Fenn will not be completely unfamiliar to local music lovers. She has been featured on such radio network shows as the Railroad Hour and the Standard Hour.

Silverman Set To Headline Science Meet

How to make science understandable to the public will be discussed in the Science Writers' Workshop Thursday and Friday. Writers of intermountain and national note will discuss "Science News and Features" and "The Writing of Science Textbooks."

Dr. Milton Silverman, well-known science writer and editor, will head the list of participants. He will lecture daily to the studentbody at 11 a.m., LDS Institute. On Thursday and Friday these lectures will be part of the workshop, with sessions on science writing added.

Opening workshop event will be a tour of laboratories in which notable experiments are proceeding. Research involving radioactive isotopes, the electron microscope, ultra-centrifuge, spectrograph, the Intermountain Herbarium, and others will be inspected, beginning at 9 a.m. Thursday. Prof. Arthur Holmgren, botanist and herbarium curator, will conduct the tour.

Dr. Silverman will speak in a general assembly at 11 a.m. With Prof. John J. Stewart as chairman, Dr. Silverman will talk on "Science News and Features" at 2 p.m. Then the visiting writer will lead a panel consisting of Theron Liddle, managing editor, Deseret News; William C. Patrick, science writer, Salt Lake Tribune, and Dr. Eldon Drake, USAC journalist and agricultural educationist.

"Writing of Science Textbooks" (Continued on page two)

180 High School Leaders Open Week-Long Sessions

Girls from all but three high schools in Utah are on the campus this week for the Seventh annual Girls' State, which began yesterday and continues to next Sunday.

A total of 180 girls selected as outstanding leaders in their junior classes at school are attending in addition to a staff of 25. Girls' State is sponsored by American Legion Auxiliary, Department of Utah.

Several city and county and state government officials will serve as guest instructors in the program. There will also be educational leaders on the instructional staff.

Delegates are housed in the

Rural Arts building, and all meetings are scheduled for the Union building except the daily devotional in the Institute.

Citizens of Girls' State will be divided into ten cities, two counties, and one state. Officials will be elected first for the cities, then for counties, and then for the state, with a two-party system being used for elections on county and state levels. The two parties are Federalist and Nationalist. Delegates for Girls' Nation in Washington, D.C., will also be selected.

Several of last year's delegates will serve as junior counselors for the week-long sessions. Classes in history, the Constitution, and citizenship will be stressed.

Dr. Milton Silverman
Noted Science Writer

Silverman

(Continued from page one)
will be discussed at 9 a.m. Friday, with Dr. D. M. Hammond, zoologist, as chairman. Dr. Silverman will open the subject, and will be assisted by a panel consisting of Dr. F. B. Wann, botanist; Dr. D. W. Thorne, agronomist; Dr. W. S. Boyle, botanist; and Dean Ethelyn O. Greaves, home economist. All have had experience in writing and publishing science materials.

Dr. Silverman will conclude his general assembly lectures at 11 a.m. The last workshop will begin at 2 p.m. with Bert Allen, photographer, and Dr. Wendell M. Keck, writer, discussing "Photography for Science Writers."

Dean Carlton Culmsee, who is arranging the workshop program, said that another event for writer the annual roundup of the League of Utah Writer, will be held on the campus July 17-19.

The Board of Trustees will meet in the board room Saturday June 27.

Science Writer Likes to Cover Research Work

Dr. Milton Silverman, science editor of the San Francisco Chronicle, and guest lecturer this week claims he has the most exciting job in the world—covering scientific research.

In addition to a daily lecture at 11 a.m. in the LDS Institute of Religion, Dr. Silverman will address science writers from the intermountain area in the Science Writer's workshop Thursday and Friday.

According to Dr. Silverman, science reporting is more than the usual news-hunting and news-telling job. He has spent some two decades in newspaper work and, simultaneously, in doing his own laboratory research in bacteriology, biochemistry and the development of new drugs.

A native San Franciscan, he received his A.B. degree from Stanford university, his M.A. from the University of California, and his Ph.D. in biochemistry from Stanford. Besides research work on synthetic sugars, anesthetics, petroleum derivatives, industrial poisons and war gases, he has acted as research associate at the University of California Medical school.

A trained reporter as well as a trained scientist, Dr. Silverman has been in newspaper work since 1928, starting out as a sports writer and working himself up to his present position on the science desk of the Chronicle.

Dr. Silverman was the first to report to his readers such scientific advances as the development of the atom-smashing cyclotron, the first animal and human experiments with "hot atoms," the discovery of penicillin and the sulfa-drugs, radar, the Sister Kenny treatment for polio, and the discovery of the world's greatest earthquake faults.

He has also written numerous articles for magazines, and is now one of the Saturday Evening Post's most frequent contributors of scientific articles. His book, "Magic in a Bottle," the story of the great drugs used in medicine, has been reprinted in England, France, Sweden, Finland, Germany, Brazil and Argentina.

There will be a reception honoring Miss Jean Fenn, Metropolitan opera star, immediately after her concert appearance Thursday evening. Everyone is invited to attend. Refreshments will be served.

Full accreditation of the school of forestry for professional forestry instruction has been voted by the society of American foresters, according to word received by Dean Lewis M. Turner. Only 26 institutions in the nation are accredited by the society.

Up and Coming

Monday

Lecture, 11 a.m., LDS Institute, Dr. Silverman, "Atoms and Bats." Alcoholism Institute, 9 a.m., commons 101. Art Education Workshop. Girls' State. Dinner-Meeting for Dr. Silverman, 6:30 p.m., cafeteria.

Tuesday

Lecture, 11 a.m., LDS Institute, Dr. Silverman, "Brains, Viruses and Cancer." Alcoholism Institute, 1:15 p.m., Commons 101. Violin-Cello Concert, Gaudan Duo, Union ballroom, 8:15 p.m. Art Education Workshop. Girls' State.

Wednesday

Lecture, 11 a.m., Institute, Dr. Silverman, "Round-up on Medicine." Alcoholism Institute sessions — 9 a.m., 1:15 p.m., 7:45 p.m., Commons 101. Girls' State. Art Education Workshop.

Thursday

Lecture, 11 a.m. Institute, Dr. Silverman, "Doctors and Patients." Vocal Concert, Jean Fenn, Ballroom. Reception following concert in Union lounge. Science Writing tour of laboratories, 9 a.m. Science Writers' Workshop, 2 p.m. Girls' State. Art Education Workshop. Phi Delta Kappa luncheon meeting, noon, Cafeteria.

Friday

Lecture, 11 a.m., "This is to Come." Dr. Silverman, Institute. Old Juniper Hike, 4 p.m. at Smart Gym. Science Writers Workshop Sessions — 9 a.m., 2 p.m. Girls' State. Art Education Workshop.

Alcoholism

(Continued from page one)

related to alcohol excess. Dr. Ewart A. Swinyard, professor of pharmacology, University of Utah, will speak on drugs used to treat acute alcoholism and chronic alcoholism. A film, "Alcohol and the Human Body," will conclude the session.

Wednesday at 9 a.m. William D. O'Gorman, psychiatrist, St. Benedict's hospital in Ogden, will lecture on psychotherapy for alcoholics, and Arthur D. Slater, mental hygienist, Utah State Board on Alcoholism, will discuss "Phases of Alcohol Addiction." A film on alcoholism will follow.

Wednesday afternoon Ellis T. Demars, chairman, Utah Alcoholism foundation, will speak on education as a preventative measure. Clyde W. Gooderham, executive director of the Utah State Board on Alcoholics, will discuss Utah's correlated attack on alcoholism.

Members of Alcoholics Anonymous will present the final session Wednesday evening at 7:45 p.m. They will speak on "A. A. and the Man Alcoholic," and the

"Family and the Alcoholic." A film, "I'm an Alcoholic," will conclude the meeting.

Anyone interested may attend the institute without charge. Summer school students may register Tuesday from 8:30 to 9 a.m. in commons 101. Information may be obtained from Prof. Dale O. Nelson, department of physical education.

Dr. Eldon Drake, Gladys Harrison and Neil K. Holbrook of the college staff will participate in the program of a Rocky Mountain regional meeting of the American Assn. of Agricultural college editors.

July 2 is the date of the annual Yellowstone trip for summer students. Deadline for signing up for the annual trip is Friday.

A dinner-meeting featuring Dr. Milton Silverman as speaker will be held in the college cafeteria tonight at 6:30 p.m. Medical men, dentists, nurses and representatives of the college faculty have been invited to attend. Following the dinner, Dr. Silverman will address the group.
