In the most fatherly studies is to have their meals served to them in the open air. Mr. Malt of the lunch market is going to place tables out under the trees for the benefit of all those who have chronic cases of spring fever.

HATTIE BELL QUERRY
MISS SCHEIDT MURRAY
(Continued from page one)
she expects to attend a P. M. from Colorado.

The extended high school education from the Mt. Home high school where she learned electrically and at the end of her junior year she worked as an stenographer at the Mt. Home high school. She is now attending at Blackfoot here at the Oregon State. She will be a member of the Y. M. C. A. This is the daughter of Ralph Querry a contractor who has constructed some of the best railroad lines in the Oregon and Utah and is a resident of Idaho and Montana.

PERHAPS
And if we sometimes should meet
If none of all dream come to my feet
That there is no highway for my feet
That there is no love and you
Perhaps I shall have brought you
And our tomorrow must go by

Thursday, May 12, 7:30
The Empress club will meet at the Theta
house. Miss Kaylor will address
the club. New members are
requested to be present.

SUMMER GRADUATES
All students are expected to graduate
at the close of the summer session
should wear their school clothes at
once and arrange to have their names
presented in the graduation com-
mittee office. Let our work.

A HAMILTON
in a ramble one with the nervous
feet
that never were used for a steady
beat.
I've been on the ham and I've
lived in it.
I had never a job for a little while
but that road winding mile after
mile
and nothing to do but go.

to hear it for while the walking's
done
and the birds in the trees are saving
word
for it or day isn't the brightest for
you
and me there is a tomorrow that
is going to be
so there's nothing to do but go.

but it boy while you are young
and strong
see the whole united states
a little fire and a pipe at night
and up the morning light
and nothing but road and sky in
sight.
and nothing to do but go.
E. J. W.

Almost any summer statement can
tell you that the first essential to
success in a majority following:

OBILIGES
Minister—Will you know
what the boys on the
Saturday day.
Will you know fishing and line
fishing—Sure. I'll show you the places
a while.

Take It From The Air

NOT only music, but news, speeches, mes-
sages of every sort, are today being picked
out of the air.

"How has this come about?" we ask.

The new impetus given to radio development
may be definitely credited with the ad-
vancement of the high power vacuum tube, for that
made broadcasting possible. And the power
tube originated from a piece purely of
research, which had no connection with radio.

When a scientist in the Research Laboratories
of the General Electric Company found that
electric current could be made to pass through
the highest possible vacuum and could be varied
according to fixed laws, he established the prin-
ciple of the power tube and laid the foundation
for the "tron" group of devices.

These devices magnify the tiny telephone
currents produced by the voice and supply
them to the antenna, which broadcasts the
message. At the receiving end, smaller
"trons," in turn, magnify the otherwise im-
perceptible messages coming to them from the
receiving antenna.

Great accomplishments are not picked out
of the air. Generally, as in this case, they grow
from one man's insatiable desire to find out
the "how" of things.

Scientific research discovers the facts. Prac-
tical applications follow in good time.

FEDERAL NEWS

Box Transit fund of the Federal
office sent three days late work in
the Salt Lake office in Conference
with the Bureau of the officials
may ride the bureau of the officials
of the Salt Lake increasing such
quarter, but he is very well along
with the efficiency in many matters
are missing.

The Federal men took part in
Thursday's parade, accompanied with
the Legion.

It is hoped that a baseball team
will be organized by the Federal
for the summer quarter. There are
many good ball players among the
Treasury and the dip line athletes
would add a great deal to the way of
entertainment for the summer.

The election of officers for the club
are being held today, and a great deal
of enthusiasm is being shown toward
the selection of the executive. This
year's club has proved to be a very
strong factor and has received many
congratulations for its work from the
business headquarters. Next year's
work in the organization will call for
many big problems, but it is hoped
that the tradition will be able to meet
them with satisfaction.

The Federal trainee are all in-
vited to the party given by the club
and Public officials Saturday night
at 8 o'clock. It will be held on the
business days and the party will be
worked hard to make the entertain-
ment a log success. This will be the
last social affair for the spring quarter.

There will be a musical held the
forepart of the evening after which
the members will play for a few
hours during. There will also be the
most suitable arrangements to make
the party for the summer.
