Formalizing Internship Experiences for Wildlife and Fisheries Undergraduates at Mississippi State University

Sam Riffell and Bruce Leopold

9th Biennial Conference – University Education in Natural Resources
22 – 24 March 2012
WFA3000 Internship

- > 135 hrs / term
- Weekly journal
- Final report
- Public presentation
- Not required (except HWC option)
Faculty Goals for Internships

• Integrate knowledge with practice
• Build professional networks (i.e., get a job)
• Clarify career goals
What type(s) of professional experience qualify for internship credit?
ANNOUNCING the 4th ANNUAL
DEMMER SCHOLARS Natural Resources Science Policy
INTERNSHIPS AND COURSE
in Washington D.C.
SUMMER 2012

COURSE and INTERNSHIP OVERVIEW
This course will review and evaluate how each branch of the federal government, as well as nongovernment entities (including the media), affect the development and implementation of federal government policy in the natural resources. The course will be taught through one two-hour lecture and discussion sessions each week, augmented by nine half-day weekend field trips designed to ground class participants in the policy-making arena. Additionally, each class participant will complete a twelve-week, 40 per week paid internship with a government or nongovernment organization active in natural resources policy-making in the Washington, D.C. metropolitan area.

LOCATION
Washington, D.C. metropolitan area

WHEN
Approximately May 21 – August 10, 2012
What type(s) of professional experience qualify for internship credit?

- Paid vs. Stipend vs. Volunteer
- Agency vs. University
- Do research experiences count?
- Study abroad?
An **internship** is a form of experiential learning that integrates knowledge and theory learned in the classroom with practical application and skills development in a professional setting. Internships give students the opportunity to gain valuable applied experience and make connections in professional fields they are considering for career paths; and give employers the opportunity to guide and evaluate talent.

National Association of Colleges and Employers (NACE)
An internship is a form of experiential learning that integrates knowledge and theory learned in the classroom with practical application and skills development in a professional setting. Internships give students the opportunity to gain valuable applied experience and make connections in professional fields they are considering for career paths; and give employers the opportunity to guide and evaluate talent.

An **internship** is a form of experiential learning that integrates knowledge and theory learned in the classroom with practical application and skills development in a professional setting. Internships give students the opportunity to gain valuable applied experience and make connections in professional fields they are considering for career paths; and *give employers the opportunity to guide and evaluate talent.*

National Association of Colleges and Employers
• The experience must be an extension of the classroom: a learning experience that provides for applying the knowledge gained in the classroom. It must not be simply to advance the operations of the employer or be the work that a regular employee would routinely perform.

• The skills or knowledge learned must be transferable ....

• There are clearly defined learning objectives/goals related to the professional goals of the student’s academic coursework.
