## Plug-in detection (the “sniffer” file)

- What's wrong with the auto-generated html?
- Use an embedded flash file to re-direct the browser to your flash enabled page.
  - If it is successful, they have the flash player.
  - If unsuccessful, then they do not have the flash player.

## Plug-in detection (the “sniffer” file)

Utah State

## Debugging/Streaming

- Simulated connection speeds
- Checking for spikes
- Reports

Utah State

## Pre-loaders

- Check download status
- Indication of activity
  - Ideally, a percentage completed
- Auto-progress when finished

```
//checks to see if frame 15 is loaded
ifFrameLoaded(15) {

}
```
